Section 94.6 is added as follows:

§ 94.6 *Air Transport Command.* Pending the revision of regulations contained in Priorities for Air Transportation Directive No. 4, dated June 4, 1942, and §§ 94.1 to 94.5, inclusive, the following regulations are hereby prescribed:

(a) Pursuant to provisions of section III, Circular No. 211, War Department, 1942, as amended by section IV, Circular No. 343, War Department, 1942, the Commanding General, Army Air Forces, is responsible for establishing the priorities for air transportation of all personnel and material to be transported by air. By arrangement with the Navy Department, this priority jurisdiction extends to service operated by Pan-American Airways on the North Atlantic routes.

(b) Present limitations of available airplane space make it essential that priorities for air movement from the continental United States to points outside thereof be established before movement to the aerial port of embarkation.

(c) (1) Effective November 27, 1942, no personnel, equipment, or supplies will be accepted for air transportation by the Air Transport Command or a civil air carrier nor will any War Department agency order or forward any such personnel, equipment, or supplies to certain designated aerial ports of embarkation for air movement to points outside the continental United States by airplanes operated by, or under contract with, the Air Transport Command unless a priority therefor has been previously established for such movement.

(2) The Air Transport Command will not accept for air transportation from the continental United States at any of such designated aerial ports of embarkation personnel, equipment, or supplies for which priority has not been established.

(d) (1) Requests for priorities for air transportation outside the continental United States will not be granted unless it is evident that speed of air travel is essential.

(i) *Essential* air travel might include officers traveling overseas to assume command, those whose presence at their destinations is necessary to expedite operations of any sort, or those being sent with exceptionally urgent information or instructions.

(ii) *Nonessential* air travel includes officers who are on routine instructions, those returning to the United States with routine reports, those who are enroute to join oversea garrisons, and those being returned to duty in the United States.

(2) (i) Travel orders directing travel by air will not automatically establish priority for movement outside the United States.

(ii) So much of Directive No. 4, Army Air Forces, "Priorities for Air Transportation," dated June 4, 1942, as pertains to the use of travel orders directing travel outside the United States, is rescinded.

(e) Requests for priority for air movement of supplies and matériel outside the continental United States will not be granted unless it is evident that the items are essential war materials and cannot reach their destination through other means of transportation because of the time required or other elements.

(f) The Air Priorities Division, Air Transport Command, Army Air Forces, Annex No. 1, Washington, D. C., is the

---

However, the shipper will be advised in the event a shipment is delayed due to a change in priorities so that other means of transportation may be provided.

(h) Air transport is a rapid means of transporting emergency items and, due to the limited airplane space available and the increased demand for this type of transportation, the provisions of this section will be rigidly enforced. The surtax for any amount of surtax net income not stated in round figures in the tables is computed by adding to the surtax for the largest amount stated which is less than the surtax net income, the surtax upon the excess over that amount at the rate indicated in the tables. Accordingly, the surtax due for taxable years beginning after December 31, 1941, upon a surtax net income of $63,128 would be $31,998.32, computed as follows:

Surtax on $60,000 from table	$29,840.00
Surtax on $3,128 at 69 percent	2,158.32
	$31,998.32

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 11. Section 19.400–1, as added by Treasury Decision 5079, approved October 4, 1941, is amended as follows:

(A) By striking out the word "In" at the beginning of the first sentence and inserting in lieu thereof the following:

(a) *Calendar year 1941.* For the calendar year 1941, in.

(B) By striking out "§ 19.401–1" in the first sentence of the last paragraph and inserting in lieu thereof "§ 19.401–1 (a)".

(C) By inserting after the last paragraph thereof the following:

(b) *Calendar year 1942 and subsequent calendar years.* For the calendar year 1942 and subsequent calendar years, in lieu of the tax imposed under sections 11 and 12, an individual who makes his return on a cash basis may elect to pay the tax imposed under section 400, if his gross income does not exceed $3,000, and if his gross income consist. wholly of one or more of the following: Salary, wages, compensation for personal services, dividends, interest, or annuities. For the purposes of the $3,000 limitation, the amount of an individual's gross income shall be determined without subtracting any amount on account of such individual's dependents. For example, A, a single person who is not the head of a family, has a gross income, consisting of salary, of $3,200 for 1942. He has two dependents. For the purpose of the $3,000 limitation, his gross income is $3,200, not $2,430 ($3,200 minus $770), and consequently he may not compute his tax under Supplement T. An individual deriving any other kind of income, such as income from the conduct of a business or from a trust of which he is a beneficiary, or gains from the sale or exchange of property, may not compute his tax under Supplement T. If an individual derives income from a partnership of which he is a member or from a trust of which he is a beneficiary, and the partnership or trust previously derived the income distributed to him from, for example, interest, he will be considered to have received income from a partnership or trust, rather than from interest, and consequently will not be entitled to compute his tax under Supplement T.

A husband and wife living together on July 1 of the taxable year may file separate returns on Form 1040A, if the gross income of each is from the prescribed sources and does not exceed $3,000, or they may file a single joint return on such form if their combined gross income is from the prescribed sources and does not exceed $3,000. A married person living with husband or wife at any time during the calendar year may not compute the tax under Supplement T if the other spouse makes an income tax return without regard to such Supplement (see § 19.404–1).

If an individual dies before the close of the calendar year, his tax may not be determined under Supplement T. Nor may the tax of the surviving spouse of an individual who has gross income and who dies before the close of the calendar year be determined under Supplement T. (See sections 404 and 47 (g))

In order to determine the amount of his tax an individual merely ascertains the amount of his gross income, subtracts $385 for each dependent for whom a credit is allowable and refers to the amended schedule set forth in section 400 to find the amount of his tax. If the taxpayer is the head of a family only by reason of his having one or more dependents, he may subtract from his gross income $385 for all except one of such dependents (see Example (4) in § 19.401–1 (b)). If the taxpayer is a single person who is not the head of a family, his tax is set forth in the third column of the amended schedule. If the taxpayer is a married person making a separate return (but not including a taxpayer whose spouse makes a return without regard to Supplement T), the tax is set forth in the fourth column of the amended schedule. If the taxpayer is (1) a married person whose spouse has no gross income, (2) a married person making a joint return, or (3) the head of a family, the tax is set forth in the fifth column of the amended schedule. Under the amended schedule no tax is imposed upon a single person whose gross income (less credit for dependents) does not exceed $525, or upon a married person making a separate return whose gross income (less credit for dependents) does not exceed $650, or upon (1) a married person whose spouse has no gross income, (2) a married person making a joint return, or (3) the head of a family, whose gross income (less credit for dependents) does not exceed $1,275.

PAR. 12. The following is inserted immediately preceding § 19.401–1:

SEC. 104. OPTIONAL TAX ON INDIVIDUALS WITH GROSS INCOME FROM CERTAIN SOURCES OF $3,000 OR LESS. (Revenue Act of 1942, Title I.) * * *

(b) *Rules for Application of Section* 400. Section 401 is amended to read as follows:

SEC. 401. RULES FOR APPLICATION OF SECTION 400.

For the purposes of this supplement—

(a) *Definitions.*

(1) "Married person" means a married person living with husband or wife on July 1 of the taxable year.

(2) "Dependent" means a person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer on July 1 of the taxable year if on such date such dependent person is under eighteen years of age, or is incapable of self-support because mentally or physically defective, excluding as a dependent, in the case of a head of a family, one who would be excluded under section 25 (b) (2) (B). A payment to a wife which is includible under section 22 (k) or section 171 in the gross income of such wife shall not be considered a payment by her husband for the support of any dependent.

(b) *Married and not living with husband or wife.* An individual not a head of a family and not living with husband or wife on July 1 of the taxable year shall be treated as a single person.

* * * * *

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 13. Section 19.401–1, as added by Treasury Decision 5079, is amended as follows:

(A) By striking out the word "The" at the beginning of the first sentence and inserting in lieu thereof the following: "(a) *Calendar year 1941.* For the calendar year 1941, the".

(B) By inserting after the last paragraph thereof the following:

(b) *Calendar year 1942 and subsequent calendar years.* For the calendar year 1942 and subsequent calendar years, the determination of whether a taxpayer is a single person, a married person, or the head of a family, or whether he has a dependent, is to be made as of July 1 of such taxpayer's taxable year.

Example (1). For the calendar year 1942, A, an unmarried person, has a gross income of $2,832 derived wholly from salary and interest. During the first five months of 1942, A's status is that of head of a family, but on July 1, 1942, his status is that of a single person not the head of a family. To determine the tax imposed upon him for the calendar year 1942 under section 400, A refers to column 3 of the amended schedule (applicable to a single person who is not the head of a family) and finds that the tax imposed upon a taxpayer whose gross income falls within the bracket running from $2,825 to $2,850 is $401. Since $2,832 is within this bracket, A's tax is $401.

Example (2). For the calendar year 1942, B has a gross income of $2,312, derived wholly from salary and dividends, and C, his wife, has gross income of $671, derived wholly from wages and an annuity. On July 1, 1942, they are living together and B is supporting two dependent children, both of whom are under the age of eighteen. B and C file separate returns under Supplement T. To determine his tax for the calendar year 1942, B subtracts $770 from $2,312, refers to column 4 of the amended schedule (applicable to married person making separate return), and finds that the tax imposed upon a taxpayer whose gross income falls within the bracket running from $1,525 to $1,550 is $152. Since $1,542 ($2,312 minus $770) is within this bracket, B's tax is $152. To determine her tax for such year, C refers to column 4 of the amended schedule (applicable to married person making separate return) and finds that the tax imposed upon a taxpayer whose gross income falls within the bracket running from $650 to $675 is $3. Since $671 is within this bracket, C's tax is $3. Under such facts, if B and C file a joint return under Supplement T, their combined gross income is $2,983. To determine their tax, they subtract $770 and refer to column 5 of the amended schedule (applicable to married person making joint return) and find that the tax imposed upon a taxpayer whose gross income falls within the bracket running from $2,200 to $2,225 is $155. Since $2,213 ($2,983 minus $770) is within this bracket, the combined tax of B and C is $155.

Example (3). For the calendar year 1942, D has a gross income of $1,860, derived wholly from wages. He was married on April 1, 1942, and he and his wife were living together on July 1, 1942. He has no dependents. His wife, who has no gross income in 1942, dies on December 1, 1942. To determine his tax for the calendar year 1942, D refers to column 5 of the amended schedule (applicable to a married person whose spouse has no gross income), and finds that the tax imposed upon a taxpayer whose gross income falls within the bracket running from $1,850 to $1,875 is $94. Since $1,860 is within this bracket, D's tax is $94.

Example (4). For the calendar year 1942, E has a gross income of $2,965. His wife, who has no gross income in 1942, dies on May 15, 1942, and on July 1, 1942, he is supporting and maintaining a home for two dependent children both of whom are under the age of eighteen. Since E would not occupy the status of head of a family except for the fact that he maintains a home for such children, no amount may be subtracted from gross income on account of one of such children. To determine his tax for the calendar year 1942, E subtracts only $385 and refers to column 5 of the amended schedule (applicable to head of family) and finds that the tax in the case of a taxpayer whose gross income falls in the bracket running from $2,575 to $2,600 is $220. Since $2,580 ($2,965 minus $385) is within this bracket, E's tax is $220. If the wife had had gross income, the tax of neither spouse could be determined under Supplement T.

Payments to a wife in the nature of, or in lieu of, alimony which are includible in her gross income under sections 22 (k) and 171 may not be considered as a payment by her husband for the support of any dependent (for definition of husband and wife for purposes of this sentence, see section 3797 (a) (17)).

PAR. 14. The last sentence of the first paragraph of § 19.402–1 is amended by inserting after the word "schedule" the following: "(the calendar year 1942 and subsequent calendar years, the fourth column of the amended schedule)".

PAR. 15. The following provisions of law and new regulations section are inserted immediately after section 404:

SEC. 104. OPTIONAL TAX ON INDIVIDUALS WITH GROSS INCOME FROM CERTAIN SOURCES OF $3,000 OR LESS. (Revenue Act of 1942, Title I.)

* * *

(c) *Taxpayers ineligible.*—Section 404 is amended to read as follows:

SEC. 404. CERTAIN TAXPAYERS INELIGIBLE.

This supplement shall not apply to a nonresident alien individual, to an estate or trust, to an individual filing a return for a period of less than twelve months or for any taxable year other than a calendar year, or to a married individual married and living with husband or wife at any time during the taxable year whose spouse files return and computes tax without regard to this supplement.

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

Par. 17. Section 19.13-1, as amended by Treasury Decision 5086, approved October 10, 1941, is further amended by striking out the last sentence of the first paragraph.

Par. 18. Section 19.13-5, as amended by Treasury Decision 5086, is further amended as follows:

(A) By striking out the heading and first paragraph and inserting in lieu thereof the following:

§ 19.13-5 *Tax on corporations in general, taxable years beginning in 1940 and 1941.* Section 13 (as amended by section 101 of the Second Revenue Act of 1940) and §§ 19.13-5 to 19.13-7, inclusive, are applicable with respect to taxable years beginning after December 31, 1939, and before January 1, 1941. Section 13 (as amended by section 103 of the Revenue Act of 1941) and §§ 19.13-5 to 19.13-7, inclusive, are applicable with respect to taxable years beginning after December 31, 1940, and before January 1, 1942. But see section 108 as to certain fiscal years.

(B) By amending the first sentence of the second paragraph to read as follows:

For taxable years beginning after December 31, 1939, and before January 1, 1942, section 13 imposes an income tax on corporations in general the normal-tax net income of which is more than $25,000.

(C) By striking ", as amended," from the first sentence of the third paragraph and from the first sentence of the fourth paragraph.

(D) By striking ", as amended," from the second sentence of the third paragraph and the first sentence of the last paragraph, and by inserting in such sentences "and before January 1, 1942," immediately after "December 31, 1939,".

(E) By inserting ", and before January 1, 1942," immediately after "December 31, 1940," in the third sentence of the fourth paragraph.

Par. 19. Section 19.13-6, as amended by Treasury Decision 5086, is further amended as follows:

(A) By striking out the heading and first sentence and inserting in lieu thereof the following:

§ 19.13-6 *Tax under general rule; taxable years beginning in 1940 and 1941.* For taxable years beginning after December 31, 1939, and before January 1, 1942, section 13 (b) (1) provides, under what is termed "the general rule," for a tax equal to 24 percent (22$\frac{1}{10}$ percent for any such taxable year beginning before January 1, 1941) of the normal-tax net income. But see section 108 as to certain fiscal years.

(B) By inserting "for such taxable years" immediately after "alternative tax" in the second sentence.

Par. 20. Section 19.13-7, as amended by Treasury Decision 5086, is further amended as follows:

(A) By striking out the heading and first sentence and inserting in lieu thereof the following:

§ 19.13-7 *Alternative tax (corporations with normal-tax net income slightly more than $25,000); taxable years beginning in 1940 and 1941.* For taxable years beginning after December 31, 1939, and before January 1, 1942, section 13 (b) (2) provides for an alternative tax in the case of corporations having normal-tax net incomes of slightly more than $25,000. But see section 108 as to certain fiscal years.

(B) By inserting "and before January 1, 1942," immediately after "December 31, 1940," in the third sentence.

Par. 21. By inserting immediately after § 19.13-7 the following new section:

§ 19.13-8 *Tax on corporations in general; taxable years beginning after December 31, 1941.* Section 13 (as amended by section 105 of the Revenue Act of 1942) and this section are applicable with respect to taxable years beginning after December 31, 1941. But see section 108 as to certain fiscal years. See section 117 as to the treatment of capital gains and capital losses.

For any taxable year beginning after December 31, 1941, section 13 imposes an income tax on corporations in general the normal-tax net income of which is more than $25,000. Every such corporation is liable to the tax imposed by such section, except (a) corporations expressly exempt from taxation under Chapter 1 (see section 101); (b) corporations subject to tax under section 14 (as amended by section 160 (b) of the Revenue Act of 1942), being (1) corporations having normal-tax net incomes of not more than $25,000 and not coming within the provisions of subsection (c), (d), or (e) of such section 14, and (2) foreign corporations engaged in trade or business within the United States; (c) foreign corporations not engaged in trade or business within the United States (see section 231 (a)); (d) insurance companies (see Supplement G); and regulated investment companies (see Supplement Q).

It makes no difference that a domestic corporation subject to any tax imposed by section 13 may derive no income from sources within the United States. The tax imposed by section 13 is computed upon the "normal-tax net income," that is, the adjusted net income minus the credit provided in section 26 (e) for income subject to the excess profits tax imposed by Subchapter E of Chapter 2 and minus the credit for dividends received provided in section 26 (b), relating to dividends received from a domestic corporation which is subject to taxation under Chapter 1 (85 percent of dividends received, but not in excess of 85 percent of the adjusted net income reduced by the credit provided in section 26 (e) for income subject to the excess profits tax imposed by Subchapter E of Chapter 2). The "adjusted net income" of a corporation is the net income as defined in section 21 minus the credit provided in section 26 (a), relating to interest on certain obligations of the United States and its instrumentalities.

The tax imposed by section 13 is payable upon the basis of returns rendered by the corporations liable thereto, except that in some cases a tax is to be paid at the source of the income (see also sections 47, 52, 53, 144, and 235). For what the term "corporation" includes and for the difference between domestic and foreign corporations, see section 3797 (a). For surtax on corporations generally with respect to taxable years beginning after December 31, 1941, see § 19.15-3. For surtax on personal holding companies, see sections 500 to 511, inclusive. For surtax on corporations improperly accumulating surplus, see section 102.

The manner of computing the tax imposed by section 13 depends upon the amount of the corporation's normal-tax net income. If the normal-tax net income is more than $50,000, the tax is 24 percent of the normal-tax net income. If the normal-tax net income is more than $25,000 and not more than $50,000, the tax is $4,250 plus 31 percent of the amount in excess of $25,000.

This section may be illustrated by the following examples:

Example (1). The A Corporation, a domestic corporation, which is not a bank affiliate referred to in section 26 (d), has for the calendar year 1942 a net income of $130,000, including interest on United States obligations (allowable as a credit under section 26 (a)) in the amount of $10,000 and dividends received (allowable as a credit under section 26 (b)) in the amount of $10,000. It also is entitled to a credit (allowable under section 26 (e)) for income subject to the excess profits tax imposed by Subchapter E of Chapter 2, in the amount of $20,000. The corporation's tax under section 13 for the calendar year 1942 is $21,960, computed as follows:

Net income	$130,000
Less credit for interest on United States obligations	10,000
Adjusted net income	120,000
Less credit for dividends received (85 percent of $10,000)	$8,500
	111,500
Less credit for income subject to excess profits tax	20,000
Normal-tax net income	91,500
Tax under section 13 (b) (1) (24 percent of $91,500)	21,960

Example (2). Assuming that the A Corporation's normal-tax net income for 1942 is $41,500, instead of $91,500, its tax under section 13 for such year would be computed under section 13 (b) (2) and is $9,365, that is, $4,250 plus $5,115 (31 percent of $16,500, the excess of $41,500 over $25,000).

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

Par. 23. Section 19.14-1, as amended by Treasury Decision 5086, is further amended by striking out the last sentence of the first paragraph.

Par. 24. Section 19.14-2, as amended by Treasury Decision 5086, is further amended as follows:

(A) By striking out the heading and first paragraph and inserting in lieu thereof the following:

§ 19.14-2 *Tax on special corporations; taxable years beginning in 1940 and 1941.* Section 14 (as amended by section 101 of the Second Revenue Act of 1940) and this section are applicable with respect to taxable years beginning after December 31, 1939, and before January 1, 1941. Section 14 (as amended by section 103 of the Revenue Act of 1941) and this section are applicable with respect to taxable years beginning after December 31, 1940, and before January 1, 1942. But see section 108 as to certain fiscal years.

(B) By inserting "and before January 1, 1942," immediately after "December 31, 1939," in the first sentence of the second, fourth, and last paragraphs.

(C) By inserting "and before January 1, 1942," immediately after "December 31, 1940," in the fourth sentence of the third paragraph and the first sentence of the fifth paragraph.

(D) By inserting ", and before January 1, 1942" immediately after "December 31, 1940" in the heading of Table II.

Par. 25. There is inserted after § 19.14-2 the following new section:

§ 19.14-3 *Tax on special corporations; taxable years beginning after December 31, 1941.* Section 14 (as amended by sections 160 and 170 of the Revenue Act of 1942) and this section are applicable with respect to taxable years beginning after December 31, 1941. But see section 108 as to certain fiscal years. See section 117 as to the treatment of capital gains and capital losses.

For any taxable year beginning after December 31, 1941, section 14 imposes an income tax upon (1) corporations having normal-tax net incomes of not more than $25,000 and (2) foreign corporations engaged in trade or business within the United States. The tax imposed by section 14 is in lieu of the tax imposed by section 13. The tax is imposed upon the "normal-tax net income," for the definition of which see section 13 and § 19.13-8. Corporations expressly exempt from taxation under chapter 1 (see section 101) are not subject to the tax under section 14.

As in the case of corporations subject to tax under section 13, it makes no difference that a domestic corporation subject to the tax imposed by section 14 may derive no income from sources within the United States. So, also, the tax is payable upon the basis of returns rendered by the corporations liable thereto, except that in some cases a tax is to be paid at the source of the income (see also sections 47, 52, 53, 144, and 235). For what the term "corporation" includes and for the difference between domestic and foreign corporations, see section 3797 (a). For surtax on corporations generally with respect to taxable years beginning after December 31, 1941, see § 19.15-3. For surtax on personal holding companies, see sections 500 to 511, inclusive. For surtax on corporations improperly accumulating surplus, see section 102.

Section 14 (b) imposes a tax at graduated rates on corporations which do not have normal-tax net incomes of more than $25,000 and which do not come within one of the classes specified in subsection (c) (foreign corporations), (d) (insurance companies), or (e) (regulated investment companies) of section 14. The tax is the same whether or not the corporation distributes any dividends during the taxable year.

The following table shows the income tax imposed by section 14 (b) upon certain specified amounts of normal-tax net income. In each instance the first figure of the normal-tax net income in the normal-tax net-income column is to be excluded and the second figure included. The percentage given opposite applies to the excess of income over the first figure in the normal-tax net-income column. The last column gives the total tax on a normal-tax net income equal to the second figure in the normal-tax net-income column.

TABLE OF CORPORATION INCOME TAX UNDER SECTION 14 (B) FOR TAXABLE YEARS BEGINNING AFTER DEC. 31, 1941

Normal-tax net income	Percent	Total tax
$0 to $5,000	15	$750
$5,000 to $20,000	17	3,300
$20,000 to $25,000	19	4,250

The tax under section 14 (b) for any amount of normal-tax net income not shown in the table is computed by adding to the tax for the largest amount shown which is less than the normal-tax net income, the tax upon the excess over that amount at the rate indicated in the table.

The following example illustrates the computation of the tax imposed by section 14 (b):

Example. The A Corporation, a domestic corporation, has for the calendar year 1942 a net income of $28,000, including interest on United States obligations (allowable as a credit under section 26 (a)) in the amount of $9,000, and dividends received (allowable as a credit under section 26 (b)) in the amount of $5,000. It is also entitled to a credit (allowable under section 26 (e)) for income subject to the excess profits tax imposed by Subchapter E of Chapter 2, in the amount of $3,050. This tax upon the corporation under section 14 (b) is $1,889, computed as follows:

Net income	$28,000
Less credit for interest on United States obligations	9,000
Adjusted net income	19,000
Less credit for dividends received (85 percent of $5,000)	4,250
	14,750
Less credit for income subject to excess-profits tax	3,050
Normal-tax net income	11,700
Tax on $5,000 at 15 percent	750
Tax on $6,700 at 17 percent	1,139
Total tax	1,889

Section 14 (c) provides for a tax on foreign corporations engaged in trade or business within the United States equal to 24 percent of the normal-tax net income, regardless of the amount thereof. In the case of foreign corporations not engaged in trade or business within the United States, the tax is as provided in section 231 (a). In the case of insurance companies, the tax is as provided in Supplement G. In the case of regulated investment companies, the tax is as provided in Supplement Q.

Par. 26. The following is inserted immediately preceding § 19.15-1:

SEC. 105. TAX ON CORPORATIONS. (Revenue Act of 1942, Title I.)

* * * * *

(b) *Surtax on corporations.* Section 15 (relating to surtax on corporations) is amended to read as follows:

SEC. 15. SURTAX ON CORPORATIONS.

(a) *Corporation surtax net income.* For the purposes of this chapter, the term "corporation surtax net income" means the net income minus the credit for income subject to the tax imposed by Subchapter E of Chapter 2 provided in section 26 (e) and minus the credit for dividends received provided in section 26 (b) (computed by limiting such credit to 85 per centum of the net income reduced by the credit for income subject to the tax imposed by Subchapter E of Chapter 2 in lieu of 85 per centum of the adjusted net income so reduced), and minus, in the case of a public utility, the credit for dividends paid on its preferred stock provided in section 26 (h). For the purposes of this subsection dividends received on the preferred stock of a public utility shall be disregarded in computing the credit for dividends received provided in section 26 (b).

(b) *Imposition of tax.* There shall be levied, collected, and paid for each taxable year upon the corporation surtax net income of every corporation (except a Western Hemisphere Trade Corporation as defined in section 109, and except a corporation subject to the tax imposed by section 231 (a), Supplement G, or Supplement Q), a surtax as follows:

(1) *Surtax Net Incomes Not Over $25,000.* Upon corporation surtax net incomes not over $25,000, 10 per centum of the amount thereof.

(2) *Surtax Net Incomes Over $25,000 But Not Over $50,000.* Upon corporation surtax net incomes over $25,000, but not over $50,000, $2,500, plus 22 per centum of the amount of the corporation surtax net income over $25,000.

(3) *Surtax Net Incomes Over $50,000.* Upon corporation surtax net incomes over $50,000, 16 per centum of the corporation surtax net income.

* * * * *

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 27. Section 19.15–2, as added by Treasury Decision 5086, is amended as follows:

(A) By striking out the heading and inserting in lieu thereof the following: "*Surtax on corporations—Taxable years beginning in 1941.*"

(B) By inserting "and before January 1, 1942," immediately after "December 31, 1940," in the first sentence.

(C) By inserting immediately following the first sentence the following new sentence: "But see section 108 as to certain fiscal years."

PAR. 28. There is inserted immediately after § 19.15–2 the following new section:

§ 19.15–3 *Surtax on corporations; taxable years beginning after December 31, 1941.* For taxable years beginning after December 31, 1941, section 15, as amended by section 105 (b) of the Revenue Act of 1942, imposes a surtax upon the corporation surtax net income of every corporation, except (1) Western Hemisphere Trade Corporations (see section 109), (2) foreign corporations taxable under section 231 (a), (3) insurance companies (see Supplement G), or (4) regulated investment companies (see Supplement Q). But see section 108 as to certain fiscal years.

The "corporation surtax net income" of a corporation is its net income minus (1) the credit provided in section 26 (e) for income subject to the excess-profits tax imposed by Subchapter E of Chapter 2, (2) the credit provided in section 26 (b) for dividends received, and (3) in the case of a public utility, the credit provided in section 26 (h) for dividends paid on its preferred stock. For the purposes of determining the corporation surtax net income, dividends received on the preferred stock of a public utility must be disregarded in computing the credit provided in section 26 (b) for dividends received. Also, for such purposes, such credit is limited to 85 percent of the corporation's net income (reduced by the credit provided in section 26 (e) for income subject to the excess profits tax imposed by Subchapter E of Chapter 2), rather than to 85 percent of the adjusted net income so reduced. The credit provided in section 26 (a) for interest received on obligations of the United States or its instrumentalities is not allowable in computing corporation surtax net income.

The rates of corporation surtax are as follows:

(1) Upon corporation surtax net incomes of $25,000 or less, 10 percent of the amount thereof.

(2) Upon corporation surtax net incomes over $25,000 but not over $50,000, $2,500, plus 22 percent of the amount of such income in excess of $25,000.

(3) Upon corporation surtax net incomes of more than $50,000, 16 percent of the entire amount thereof.

The computation of the surtax on corporations for taxable years beginning after December 31, 1941, may be illustrated by the following example:

Example. The A Corporation, a domestic corporation which is not a public utility, has for the calendar year 1942 a net income of $86,000. The net income includes dividends received from a corporation which is not a public utility, in the amount of $9,000, and dividends received from the preferred stock of a public utility, in the amount of $3,000. It also includes income subject to the excess profits tax imposed by Subchapter E of chapter 2, in the amount of $37,000. The A Corporation's surtax for the calendar year 1942 is $6,097, computed as follows:

Net income	$86,000
Less credit for income subject to excess profits tax	37,000
	49,000
Less credit for dividends received (85 percent of $9,000)	7,650
Corporation surtax net income	41,350
Tax ($2,500 plus 22 percent of $16,350, the excess of $41,350 over $25,000)	6,097

(Secs. 101, 102, 103, 104, 105 (a), (b), 150 (j), 160 (b), 170 (b), and 172 (b) of the Revenue Act of 1942 (Public Law 753, 77th Congress, 2d session) and section 62 of the Internal Revenue Code (53 Stat. 32, 26 U.S.C., 1940 ed., 62))

Commissioner of Internal Revenue.

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

MISCELLANEOUS AMENDMENTS

Regulations 103 amended to conform to sections 118 and 119 of the Revenue Act of 1942 relating to elective inventories.

In order to conform Regulations 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Sup.], relating to the income tax under the Internal Revenue Code, to sections 118 and 119 of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, such regulations are amended as follows:

Paragraph 1. There is inserted immediately preceding § 19.22 (d)–1 the following:

SEC. 118. REPORT REQUIREMENT IN CONNECTION WITH INVENTORY METHODS. (Revenue Act of 1942, Title I.)

(a) Section 22 (d) (2) (B) (relating to report requirement in connection with using certain inventory methods) is amended to read as follows:

(B) Only if the taxpayer establishes to the satisfaction of the Commissioner that the taxpayer has used no procedure other than that specified in subparagraphs (B) and (C) of paragraph (1) in inventorying such goods to ascertain the income, profit, or loss of the first taxable year for which the method described in paragraph (1) is to be used, for the purpose of a report or statement covering such taxable year (i) to shareholders, partners, or other proprietors, or to beneficiaries, (ii) for credit purposes.

(b) Section 22 (d) (5) (B) (relating to requirement to continue reports in connection with certain inventory methods) is amended to read as follows:

(B) The Commissioner determines that the taxpayer has used for any such subsequent taxable year some procedure other than that specified in subparagraph (B) of paragraph (1) in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent taxable year for the purpose of a report or statement covering such taxable year (i) to shareholders, partners, or other proprietors, or beneficiaries, or (ii) for credit purposes; and requires a change to a method different from that prescribed in paragraph (1) beginning with such subsequent taxable year or any taxable year thereafter.

(c) *Taxable Years to Which Amendments Applicable.*—Amendments made by this section shall be applicable to taxable years beginning after December 31, 1938.

SEC. 119. LAST-IN FIRST-OUT INVENTORY (Revenue Act of 1942, Title I.)

Section 22 (d) (relating to the use of the elective inventory method) is amended by adding at the end thereof the following new paragraph:

(6) Involuntary liquidation and replacement of inventory.

(A) *Adjustment of net income and resulting tax.* If, for any taxable year beginning after December 31, 1941, and prior to the termination of the present war as proclaimed by the President, the closing inventory of a taxpayer inventorying goods under the method provided in this subsection reflects a decrease from the opening inventory of such goods for such year, and if, at the time of the filing of the taxpayer's income tax return for such year, the taxpayer elects to have the provisions of this paragraph apply

and so notifies the Commissioner, and if, at the time of such election, it is established to the satisfaction of the Commissioner, in accordance with such regulations as the Commissioner may prescribe with the approval of the Secretary, that such decrease is attributable to the involuntary liquidation of such inventory as defined in subparagraph (B), and if the closing inventory of a subsequent taxable year, ending not more than three years after the termination of the present war as proclaimed by the President, reflects a replacement, in whole or in part, of the goods so previously liquidated, the net income of the taxpayer otherwise determined for the year of such involuntary liquidation shall be adjusted as follows:

(i) Increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost; or

(ii) Decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation.

The taxes imposed by this chapter and by Subchapter E of Chapter 2 for the year of such liquidation and for all taxable years intervening between such year and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

(B) *Definition of involuntary liquidation.* The term "involuntary liquidation", as used in this paragraph, means the sale or other disposition of goods inventoried under the method described in this subsection, either voluntary or involuntary, coupled with a failure on the part of the taxpayer to purchase, manufacture, or otherwise produce and have on hand at the close of the taxable year in which such sale or other disposition occurred such goods as would, if on hand at the close of such taxable year, be subject to the application of the provisions of this subsection, if such failure on the part of the taxpayer is due, directly and exclusively, (i) to enemy capture or control of sources of limited foreign supply; (ii) to shipping or other transportation shortages; (iii) to material shortages resulting from priorities or allocations; (iv) to labor shortages; or (v) to other prevailing war conditions beyond the control of the taxpayer.

(C) *Replacements.* If, in the case of any taxpayer subject to the provisions of subparagraph (A), the closing inventory of the taxpayer for a taxable year, subsequent to the year of involuntary liquidation but prior to the complete replacement of the goods so liquidated, reflects an increase over the opening inventory of such goods for the taxable year, the goods reflecting such increase shall be considered, in the order of their acquisition, as having been acquired in replacement of the goods most recently liquidated (whether or not in a year of involuntary liquidation) and not previously replaced, and if the liquidation was an involuntary liquidation shall be included in the inventory of the taxpayer for the year of replacement at the inventory cost basis of the goods replaced.

(D) *Election irrevocable.* An election by the taxpayer to have the provisions of this paragraph apply, once made, shall be irrevocable and shall be binding for the year of the involuntary liquidation and for all determinations for subsequent taxable years insofar as they are related to the year of liquidation or replacement.

(E) *Adjustment in certain cases.* If the adjustments specified in subparagraph (A) are, with respect to any taxable year, prevented, on the date of the filing of the income tax return of the taxpayer for the year of the replacement, or within three years from such date, by any provision or rule of law (other than this subparagraph and other than section 3761, relating to compromises), such adjustments shall nevertheless be made if, in respect of the taxable year for which the adjustment is sought, a notice of deficiency is mailed or a claim for refund is filed, as the case may be, within three years after the date of the filing of the income tax return for the year of replacement. If, at the time of the mailing of such notice of deficiency or the filing of such claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this paragraph shall be limited to the increase or decrease of the tax imposed by this chapter and Subchapter E of Chapter 2 previously determined for such taxable year which results solely from the effect of subparagraph (A), and such amount shall be assessed and collected, or credited or refunded, in the same manner as if it were a deficiency or an overpayment, as the case may be, for such taxable year and as if, on the date of the filing of the income tax return for the year of the replacement, three years remain before the expiration of the periods of limitation upon assessment or the filing of claim for refund for the taxable year. The tax previously determined shall be ascertained in accordance with section 734 (d). The amount to be assessed and collected under this paragraph in the same manner as if it were a deficiency or to be credited or refunded in the same manner as if it were an overpayment shall not be diminished by any credit or set-off based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of subparagraph (A). Such amount, if paid, shall not be recovered by a claim or suit for refund, or suit for erroneous refund based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of subparagraph (A).

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 2. Section 19.22 (d)–2, as amended by Treasury Decision 5163, approved July 14, 1942, is further amended as follows:

(A) By changing subparagraph (5) to read as follows:

(5) The taxpayer shall establish to the satisfaction of the Commissioner that the taxpayer, in ascertaining income, profit, or loss for the taxable year for which the elective inventory method is first used or for any subsequent taxable year, for credit purposes or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries, has not used any inventory method other than that referred to in § 19.22 (d)–1 or at variance with the requirement referred to in subparagraph (3) of this section, the taxpayer's use of market value in lieu of cost or his issuance of reports or credit statements covering a period of operations less than the whole of the taxable year not being considered at variance with this requirement;

(B) By changing subparagraph (7) (*b*) to read as follows:

(*b*) The Commissioner determines that the taxpayer, in ascertaining income, profit, or loss for the whole of any taxable year subsequent to his adoption of the elective inventory method, for credit purposes or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries, has used any inventory method at variance with that referred to in § 19.22 (d)–1 and requires of the taxpayer a change to a different method for such subsequent taxable year or any taxable year thereafter; and

(C) By changing paragraph (8) to read as follows:

(8) The records and accounts employed by the taxpayer in keeping his books shall be maintained in conformity with the inventory method referred to in § 19.22 (d)–1; and such supplemental and detailed inventory records shall be maintained as will enable the Commissioner readily to verify the taxpayer's inventory computations as well as his compliance with these several requirements.

PAR. 3. Section 19.22 (d)–3 is amended by changing the parenthetical expression appearing after the words "to be used" in the first sentence of the first paragraph to read as follows:

(or, if such return is filed prior to ________, 1943, the ninetieth day after the approval of Treasury Decision ______, then at any time prior to such date)

PAR. 4. The following is inserted immediately following § 19.22 (d)–6:

§ 19.22 (d)–7. *Involuntary liquidation and replacement.* If prevailing war conditions beyond the control of the taxpayer should render it impossible during the period of the war for a taxpayer using the elective inventory method to have on hand at the close of the taxable year a stock of merchandise in kind and description like that included in the opening inventory for the year, or in a quantity equal to that of the opening inventory, the resulting inventory decrease for the year will be regarded, at the election of the taxpayer, as reflecting an involuntary liquidation subject to replacement. If the taxpayer notifies the Commissioner at the time of filing his income tax return for the year of the liquidation that he intends to effect a replacement of the liquidated stock, in whole or in part, and that he desires to have applied in his case the involuntary liquidation and replacement provisions of section 22 (d) (6), and if he establishes to the satisfaction of the Commissioner the involuntary character of the liquidation to which his stock has been subjected, effect shall be given, when replacement has been made, to an adjustment of net income for the year of liquidation to the extent of the difference between the replacement costs incurred and the original inventory cost of the base stock inventory liquidated. If the replacement costs exceed such inventory costs, the net income of the taxpayer otherwise computed shall be reduced by an amount equal to such excess. If the replacement costs are less than the inventory costs, net income otherwise computed shall be increased to the extent of such difference. Any deficiency in the income or excess profits tax of the taxpayer, or any overpayment of such taxes, attributable to such adjustment shall be assessed and collected by the Commissioner or credited or refunded to the taxpayer without interest.

The statutory provisions affording recognition to the involuntary character of inventory decreases which become apparent in war years and authorizing for tax purposes a replacement of the items of merchandise so liquidated are limited in their application to liquidations occurring in taxable years beginning after December 31, 1941, and prior to the termination of the present war as proclaimed by the President, and to inventory replacements effected in taxable years ending not more than three years after the termination of the war so proclaimed.

A failure on the part of the taxpayer to have on hand in his closing inventory for the taxable year merchandise of the kind, description, and quantity of that reflected in his opening inventory will be considered as an involuntary liquidation only if it is established to the satisfaction of the Commissioner that such failure is due wholly to his inability to purchase, manufacture, or otherwise produce and procure delivery of such merchandise during the taxable year of liquidation by reason of prevailing war conditions, such as (i) enemy capture or control of sources of limited foreign supply; (ii) shipping or other transportation shortages; (iii) material shortages resulting from priorities or allocations; (iv) labor shortages; and (v) similar war conditions beyond the control of the taxpayer. A voluntary shift by the taxpayer, in the exercise of business judgment, to merchandise of a different character, description, or use, or to merchandise processed out of a substantially different kind of raw materials while raw materials of the type originally used are still available will not be considered as an involuntary liquidation notwithstanding the fact that such a shift in merchandise stocked was prompted by a shifting market demand attributable to war conditions. The term "involuntary liquidation" presupposes a physical inability to maintain a normal inventory as distinguished from a financial or business disinclination on the part of the taxpayer to do so.

If the taxpayer would have the involuntary liquidation and replacement provisions applicable with respect to any inventory decreases suffered during war years, he must so elect at the time of filing his income tax return for the year reflecting the decrease. In making such election, the taxpayer shall attach to his return and make a part thereof a statement setting forth the following matters: (1) the wish of the taxpayer to invoke the involuntary liquidation and replacement provisions; (2) a detailed list or other identifying description of the items of merchandise claimed to have been subjected to involuntary liquidation and the extent to which replacement is intended; (3) the circumstances relied upon as rendering the taxpayer unable to maintain throughout the taxable year a normal inventory of the items involved; (4) detailed proof of such circumstances to the extent that they may not be the subject-matter of common knowledge; and (5) a full description of what efforts were made on the part of the taxpayer to effect replacement during the taxable year and the result of such efforts.

The election of the taxpayer to treat an involuntary decrease of inventory as subject to the replacement adjustments is to be exercised separately for each taxable year reflecting such a decrease, and the election, once exercised with respect to a given year, shall be irrevocable with respect to the particular decrease involved and its prospective replacement, and shall be binding for the year of liquidation, the year of replacement, and all intervening and subsequent years to the extent that such intervening and subsequent years are affected by the adjustments authorized. The ultimate replacement and the resulting adjustment for the year of liquidation may have consequences, among others, in the earnings and profits of intervening years and the inventory accounts of subsequent years. Adjustments are to be made for the intervening and subsequent years consistent with the adjustments made for the year of liquidation. Detailed records shall be maintained such as will enable the Commissioner, in his examination of the taxpayer's returns for the year of replacement, readily to verify the extent of the inventory decrease claimed to be involuntary in character and the facts upon which such claim is based, all subsequent inventory increases and decreases, and all other facts material to the replacement adjustment authorized.

Notwithstanding the ultimate purchase price or the cost of production ultimately incurred by the taxpayer in effecting replacement of a stock involuntarily liquidated, the merchandise reflecting the replacement shall be included in the closing inventory for the year of replacement, and in that of subsequent taxable years, at the inventory cost figure of the merchandise replaced.

The goods reflected in any inventory increase in a year subsequent to a year of involuntary liquidation, to the extent that they constitute items of the kind and description liquidated in prior years, whether or not in a year of involuntary liquidation, shall be deemed, in the order of their acquisition, as having been acquired by the taxpayer in replacement of like goods most recently liquidated and not previously replaced. To the extent that the items of increase are allocated to items liquidated voluntarily, no adjustment will be required or permitted. Such replacement merchandise will be carried in the inventory at its actual cost of acquisition. To the extent that replacements are allocated to items involuntarily liquidated, however, the provisions of this section shall apply, both with respect to adjustments for the year of liquidation and other taxable years affected and with respect to inventory computations for the year of replacement and all subsequent taxable years.

In some cases it may appear at the time of the filing of the income tax return for the year of replacement, or at the time of the Commissioner's examination of such return, that an adjustment with respect to the income or excess profits taxes for the year of the involuntary liquidation, or for some intervening taxable years, is prevented by the running of the statute of limitations, by the execution of a closing agreement, by virtue of a court decision which has become final, or by reason of some other provision or rule of law other than section 3761 relating to compromises and other than the inventory replacement provisions. The adjustments provided for in connection with the involuntary liquidation and replacement of inventory shall nevertheless be made, but only if, within a period of three years after the date of the filing of the income tax return for the year of replacement, a notice of deficiency is mailed or a claim for refund is filed. No credit or refund will be allowed under such circumstances, whether within or without such three-year period, in the absence of a claim for refund duly filed; nor will a resulting deficiency be assessed or collected under section 272 (d) relating to waivers of restrictions. The issuance of the statutory notice of deficiency or the filing of a claim for refund are statutory conditions upon which depend the provisions of subparagraph (E) of the liquidation and replacement enactment. The adjustment authorized by subparagraph (E) is limited further to the tax attributable solely to the replacement adjustments. The amount of the adjustment shall be computed by reference to the amount of the tax previously determined, and without regard to factors affecting the taxable year involved to which no effect was given in such prior determination. The tax previously determined shall be ascertained in accordance with the principles stated in section 734 (d) of the Code and those sections of the regulations prescribed thereunder. Any deficiency paid or any overpayment credited or refunded under these circumstances shall not be subject to recovery on a claim for refund or a suit for the recovery of an erroneous refund in any case in which such claim or suit is based upon factors other than those giving rise to the adjustments made.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A–1696]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 13 requesting the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices*—(a) *Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices*—(c) *Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.24 (*General prices*) is amended by adding thereto Supplement R–IV, § 333.25 (*Special prices*—(b) *Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement R–V, § 333.27 (*Prices for shipment by river (free alongside) for all uses (except for railway locomotive fuel) for delivery via the Tennessee River to f. a. s. consumers in the States of Tennessee and Alabama*) is amended by adding thereto Supplement R–VI, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

The proposed prices for E. P. Crenshaw, Mine No. 15, Mine Index No. 1667, for truck shipment have not been acted upon herein for the reason that prices for this mine were heretofore established as herein requested in this petition, in Docket No. A–1625, 7 F.R. 9073. In the proposal by petitioner for the deletion of Glen Allen, Alabama, on I. C. Railroad, and substitution of Brilliant, Alabama, on the I. C. Railroad, a correction in the railroad for Glen Allen, Alabama, covering Mine Index No. 460 to St. L-S.F. Railway is necessary since Mine Index No. 460 was previously priced as shipping from Glen Allen, Alabama, on the St. L-S.F. Railway, and not on the I. C. Railroad. The petitioner proposed prices for Beasley & McWhirter (L. G. Beasley) Segars Mine, Mine Index No. 472, in Size Group 4 at $4.30 to be the same as Size Group 4 for Mine Index No. 18. Mine Index No. 18 price in this size group, reflecting General Docket No. 21 increase, would result in an f. o. b. mine price at $4.20. Therefore, the price established herein is $4.20 instead of $4.30 as proposed. The petitioner likewise proposed a price for Size Group 7 of $2.70 for Earley & Quinn (W. G. Earley), Earley & Quinn Mine, Mine Index No. 1684 to be 10 cents less for this size than the price established for Size Group 6 for Mine Index No. 31, which reflecting Docket No. 21 increase would result in a price of $2.60. Therefore, the price established herein is $2.60 per ton instead of the proposed price of $2.70 per ton.

Dated: November 27, 1942.

Director.

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S–153]

SCHAEFER BRASS AND MANUFACTURING CO.

The Schaefer Brass and Manufacturing Company is a sole proprietorship owned and operated by Mr. William H. Schaefer, and is engaged in the business of fabricating brass and copper specialties and ventilating fans at 815 Clark Avenue, St. Louis, Missouri. Subsequent to January 23, 1942, the Company used aluminum in the manufacture of items not permitted by Supplementary Conservation Order M–1–e. This constituted a wilful violation of said order.

Subsequent to December 10, 1941, the Company used copper base alloy parts in the assembly of fans and other manufactured articles not permitted by Conservation Order M–9–c. This constituted a wilful violation of said order.

The foregoing violations of the War Production Board orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing: *It is hereby ordered:*

§ 1010.153 *Suspension Order S–153.* (a) Deliveries of materials to the Schaefer Brass and Manufacturing Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to the Schaefer Brass and Manufacturing Company, its successors and assigns, of any material the supply or distribution of which is covered by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve the Schaefer Brass and Manufacturing Company, its successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on December 14, 1942, and shall terminate on March 14, 1943, at which time the restrictions contained in this order shall be of no further effect.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–175]

H. C. RHODES BAKERY EQUIPMENT CO.

H. C. Rhodes Bakery Equipment Company of Portland, Oregon, is engaged in the sale and distribution of new bakery equipment and the reconditioning and sale of used bakery equipment. This equipment is critical industrial machinery as defined in General Limitation Order L–83 and cannot be delivered on orders in excess of $200 except pursuant to an approved order.

From April 30 to September 13, 1942, the Company made numerous sales of used bakery equipment on orders which were not approved orders. Most of these sales were made for exactly $200 and in most cases the equipment could not be effectively used without being repaired. After the sale, but before delivery of the equipment, the Company entered into contracts to repair and rebuild the machines, agreeing in some instances to do more than $1,000 worth of work. Both the sales contract and the repair contract were parts of one transaction, designed to give the customer a completely

rebuilt machine and, therefore, the delivery of such equipment was made on orders in excess of $200 which were not approved orders and constituted a violation of General Limitation Order L–83.

This violation of General Limitation Order L–83 has hampered and impeded the war effort of the United States by diverting scarce equipment to uses unauthorized by the War Production Board. In view of the foregoing, *It is hereby ordered,* That:

§ 1010.175 *Suspension Order S–175.* (a) Deliveries of material to H. C. Rhodes Bakery Equipment Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to H. C. Rhodes Bakery Equipment Company by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to H. C. Rhodes Bakery Equipment Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve H. C. Rhodes Bakery Equipment Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on December 14, 1942, and shall expire on March 14, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of December 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–178]

SUPER METAL MANUFACTURING CO.

Super Metal Manufacturing Company, North Bergen, New Jersey, is a New York corporation engaged in the manufacture of various steel products including clothes line pulleys.

During the period of July 24, 1942, through September 3, 1942, the Company accepted delivery of 37,433 pounds of steel for use in the manufacture of clothes line pulleys. The Company processed after June 19, 1942, approximately 2,000 pounds of steel in the manufacture of clothes line pulleys. These acts constituted wilful violations of General Conservation Order No. M–126.

These violations of General Conservation Order M–126 committed by Super Metal Manufacturing Company have hampered and impeded the war effort of the United States by diverting steel to uses unauthorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.178 *Suspension Order S–178.* (a) Deliveries of material to Super Metal Manufacturing Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to Super Metal Manufacturing Company, its successors and assigns, by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) Despite the provisions of paragraph (a), Super Metal Manufacturing Company, may extend or apply to deliveries to it any preference rating of AA–3 or higher which it would, except for the provisions of paragraph (a), be entitled to apply or extend.

(c) No allocation shall be made to Super Metal Manufacturing Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve Super Metal Manufacturing Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect December 14, 1942, and shall expire on June 14, 1943, at which time the restrictions contained in this order shall be of no further effect.

Issued this 10th day of December 1942.

PART 962—IRON AND STEEL

[Interpretation 2 of Supplementary Order M–21–d]

CORROSION AND HEAT RESISTANT CHROME STEEL

Paragraph (a) of Supplementary Order M–21–d (§ 962.5) [7 F.R. 2383, 7141, 9484.] places certain restrictions on the use and delivery of corrosion and heat resistant chrome steel except where specific authorization or direction has been given by the Director General for Operations. For the purposes of this order, the approval of an order for melting or delivery on form PD–391 constitutes specific authorization or direction by the Director General for Operations. Therefore, an order for such steel rated lower than AA–5 can be melted, processed and shipped, if approved on form PD–391, and the purchaser can use such steel in his own operations or processes or complete fabrication of articles from such steel and ship to his customer.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 11th day of December 1942.

(3) "Terne metal" means the lead-tin alloy used as the coating for terne plate.

(4) "Process" means cut, draw, stamp, spin, or otherwise shape.

(5) "Put into process" means the first change by a manufacturer in the form of material from that form in which the tin plate or terne plate is received by him.

(b) *Restrictions on use of tin plate and terne plate.* Except to the extent specified in Schedule A or with specific permission of the Director General for Operations:

(1) No person shall use tin plate, or terne plate in the production of any item or part thereof.

(d) *Restrictions on use of terne metal.* Except with the specific permission of the Director General for Operations,

(1) No person shall use terne metal except in the production of terne plate.

(2) No person shall coat short ternes with terne metal containing over 15 per cent tin.

(3) No person shall coat long ternes with terne metal containing over 10 per cent tin.

(e) *Restrictions on production, sale, and delivery of tin plate and terne plate.* No person shall produce, sell, or deliver tin plate or terne plate to or for the account of any person if he knows or has reason to believe that such material will be used in violation of the terms of this order or any other or further order or direction of the Director General for Operations.

(f) *Exceptions as to materials in inventory.* The provisions of paragraph (b) shall not apply to:

(1) Roofing materials or to furnace pipe and fitting materials in inventory on May 16, 1942, to be sold or delivered for maintenance and repair purposes regardless of rating or on orders for defense housing to the extent specified in the Defense Housing Critical List.

Section 987.1 *General Preference Order M-39* [7 F.R. 900, 4882.] is hereby amended to read as follows:

§ 987.1 *General Preference Order M-39*—(a) *Definitions.* For the purposes of this order:

(1) "Cobalt" means and includes:

(i) Ores, concentrates, and crudes, including beneficiated or treated forms containing cobalt (commercially recognized).

(ii) Cobalt metal, cobalt oxide, and other primary chemical compounds which result from the processing of cobalt ores, concentrates, crudes, or residues; but not including by-products from which cobalt is not commercially recoverable.

(iii) All scrap or secondary material containing commercially recoverable cobalt as defined in (i) and (ii) above, excluding cobalt-bearing iron and steel scrap.

(b) *Refining ores.* The Director General for Operations from time to time may direct the manner in which any of the forms of cobalt specified in paragraph (a) (1) (i) above shall be refined or otherwise processed.

(c) *Deliveries*—(1) *Allocations.* Except as specifically authorized by the Director General for Operations, no person shall deliver or accept delivery of cobalt in any of the forms specified in paragraph (a) (1) (ii) above. The Director will from time to time allocate the supply of such cobalt and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. Such allocations and directions may be made without regard to any preference ratings assigned to particular contracts or purchase orders. The Director may also, in his discretion, require any person seeking to place a purchase order for such cobalt to place the order with one or more particular suppliers.

(2) *Exception for small deliveries.* Any person may receive deliveries up to but not exceeding an aggregate of 25 pounds of contained cobalt, in any of the forms specified in paragraph (a) (1) (ii) above, during any calendar month without specific authorization by the Director General for Operations under paragraph (c) (1) of this order. Any person may make a delivery the acceptance of which is authorized by this subparagraph.

(d) *Reports.* (1) No person shall be entitled to receive an allocation in accordance with paragraph (c) (1) above unless, not later than the 20th day of the month next preceding the month in which delivery is scheduled, he shall have filed with the War Production Board reports on Forms PD-581 and PD-582 as revised. Failure of any person to file a report in the manner and on the date required by this paragraph may be construed as notice to the Director and to all suppliers of cobalt that such person does not desire an allocation of cobalt during the succeeding month.

(2) Any person who on the first day of a calendar month has in his possession or under his control a quantity of cobalt in any of the forms specified in paragraphs (a) (1) (i), (ii) and (iii) above in excess of 100 pounds (contained cobalt) shall file a report with the War Production Board on Form PD-581 on or before the 20th day of such month, whether or not such person applies for an allocation of cobalt for delivery during the succeeding month.

(3) Each refiner or processor of cobalt ores, concentrates or crudes in any of the forms specified in paragraph (a) (1) (i) above shall on or before the 20th day of each month file with the War Production Board on Form PD-581 his production schedule for the succeeding month.

(e) *Use of cobalt prohibited except for specified items.* No person shall put into process any cobalt as defined in paragraphs (a) (1) (i), (ii) and (iii) above, except for the production of cobalt in the forms specified in paragraph (a) (1) (ii) above or except for the uses or in the production of the items (and the necessary material therefor), specified below, and then only to the extent that the use of an alternate material is impracticable.

(1) Catalysts.

(2) Cattle and plant food.

(3) Decolorizer for glass, the batch composition of which shall not exceed 1 pound of cobalt element per 100 tons of glass.

(4) Driers, provided that no such drier shall be sold unless the purchaser certifies to the drier manufacturer it will be used only for one or more of the following: (i) Floor and deck paints and varnishes, (ii) interior trim enamel, (iii) printing ink.

(5) Ground coat frit to be used or sold on orders bearing preference ratings of AA-4 or higher.

(6) "Health supplies" as defined in Preference Rating Order P-29 as the same may be amended.

(7) High speed steel as approved under Supplementary Order M-21-a.

(8) Laboratory and research equipment.

(9) Magnets.

(10) Non-ferrous alloys to be sold on orders bearing preference ratings of AA-5 or higher.

(11) Pigment for glass for optical or for safety purposes.

(f) *Prohibitions against sales or deliveries.* Notwithstanding the fact that an order may be authorized pursuant to paragraphs (c) (1) or (c) (2) hereof, no person shall hereafter sell or deliver cobalt to any person if he knows or has reason to believe such material is to be used in violation of the terms of this or any other order of the Director General for Operations.

(g) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as they may be amended from time to time.

(h) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal. All appeals and other communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Ferro-Alloys Division, Washington, D. C., Reference M-39.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Revocation of Order M-39-b.* Conservation Order M-39-b and all amendments thereto are hereby revoked.

Material entering into the production of replacement parts for electric railway cars and trolley coaches.

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials required for the production of replacement parts for electric railway cars and trolley coaches, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1188.6 *Limitation Order L-229*—(a) *Applicability of priorities regulations.* (1) This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Protection of production schedules.* Producers of replacement parts under the terms of this order may, notwithstanding the provisions of Priorities Regulation No. 1 as amended, schedule their production of replacement parts ordered by or for carriers as if the orders therefor bore a rating of AA-2X.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Electric railway car" means a complete electric car or trailer for passenger transportation, confined to rails and used in urban and/or interurban mass transportation, including surface cars and rapid transit cars used in underground or elevated transportation, and also including auxiliary commodity and service cars; but not including vehicles operated by a steam railroad or over an electrified section thereof.

(3) "Trolley coaches" means a complete electric coach for passenger transportation, deriving electric propulsion power through overhead wires, but not confined to rails.

(4) "Replacement parts" for electric railway cars and trolley coaches means only the following enumerated functional parts (including components entering into assemblies of such parts) used for the repair or maintenance of such vehicles:

Axles, batteries, braking systems, coupling devices, drive shafts, gears and pinions, lubricating systems, motors and generators, steering assemblies, truck assemblies including suspension, universal joints, wheels;

Body and frame structural parts, current collection and control systems, destination indicators, door and stop parts and controls, fare collection and registering devices, heating and ventilating systems, lighting and signal systems, sash and glazing, windshield wiper assemblies; miscellaneous bars, bolts, cable, castings, fittings, forgings, pipe, sheets, tubing, and wire used in maintenance of above; and operating supplies and perishable tools required to operate electric railway and trolley coach systems.

(5) "Producer" means any person engaged in the manufacture of replacement parts as defined in paragraph (b) (4) above.

(6) "Carrier" means any person engaged in the business of transporting passengers by electric railway cars or trolley coaches. (c) *Restrictions on production of replacement parts.* During the calendar quarter beginning January 1, 1943, and during any calendar quarter thereafter, no producer shall manufacture replacement parts of a value (manufacturer's cost) which exceeds one-fourth of 115% of the total value (manufacturer's cost) of all such replacement parts produced by him during the calendar year 1942.

(d) *Restrictions on use of materials.* In the production of replacement parts, no material shall be used except in accordance with all applicable "M" orders or other restrictions on the use of critical materials as now or hereafter ordered by the Director General for Operations of the War Production Board.

(e) *Restrictions on carrier.* (1) During the calendar quarter beginning January 1, 1943, and during any calendar quarter thereafter, no carrier shall accept delivery of new replacement parts of a total dollar cost value which exceeds a designated proportion of the total dollar cost value of all similar replacement parts received by him during the corresponding quarter of the preceding year, such proportion to be the ratio which his vehicle miles by electric railway cars and trolley coaches scheduled during the current calendar quarter bear to such vehicle miles during the corresponding quarter of the previous year.

(2) No carrier shall use any new replacement part to replace a similar part which is still usable within reasonable limits of safety, or which can be reconditioned by use of available reconditioning facilities, except to permit reconditioning of the old part.

(3) No carrier may keep in his inventory, in his possession or under his control for a period of more than thirty days any worn out, imperfect, condemned or non-usable replacement parts which cannot be reconditioned by such carrier or on his behalf, but must dispose of the same through the customary disposal or scrap channels.

(f) *Exceptions to applicability of this order.* The terms and restrictions of this order shall not apply to any replacement parts sold to or produced under contracts or orders for delivery to or for the account of:

(1) The Army or Navy of the United States or the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(2) The government of any of the following countries, Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and Protectorates, and Yugoslavia;

(Lend-Lease Act)

(g) *Reports.* All persons affected by this order shall prepare and file such reports or questionnaires as may from time to time be requested by the Director General for Operations.

(h) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

Revised Maximum Price Regulation No. 169—Beef and Veal Carcasses and Wholesale Cuts.

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 issued by the President on October 3, 1942, to maintain as the maximum prices for veal carcasses and wholesale cuts and processed products the prices prevailing with respect thereto during the period March 16, to March 28, 1942, inclusive, and to establish for beef carcasses and wholesale cuts specific prices slightly higher than those prevailing during such period. These prices are established as provided in §§ 1364.451, 1364.452, and 1364.476. The Price Administrator has ascertained and given due consideration to the prices of beef and veal carcasses and wholesale cuts prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act and Executive Order. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which beef and veal carcasses and wholesale cuts and processed products are produced a price for their products equal to the highest of the prices required by the provisions of the Emergency Price Control Act of 1942, as amended, and by the Executive Order of October 3, 1942.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Revised Maximum Price Regulation No. 169 is hereby issued:

SUBPART A—GENERAL PROVISIONS

§ 1364.401. *Prohibition against selling beef and veal carcasses and wholesale cuts, and processed products at prices above the maximum*—(a) *Beef carcasses and wholesale cuts.* On and after December 16, 1942, regardless of any contract, agreement, or other obligation no person shall sell or deliver any beef carcass or beef wholesale cut, and no person shall buy or receive any beef carcass or beef wholesale cut at a price higher than the maximum price permitted by § 1364.451; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Revised Maximum Price Regulation No. 169 shall not be applicable to sales or deliveries of beef carcasses or beef wholesale cuts to a purchaser, if, prior to December 10, 1942, such beef carcasses or beef wholesale cuts have been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser. "Person," "beef carcass," and "beef wholesale cut" are defined in § 1364.455.

(b) *Veal carcasses and wholesale cuts and processed products.* On and after December 16, 1942, regardless of any contract, agreement, or other obligation no person shall sell or deliver any veal carcass, veal wholesale cut or processed product, and no person shall buy or receive any veal carcass, veal wholesale cut or processed product at a price higher than the maximum price permitted by § 1364.476; and no person shall agree, offer, solicit or attempt to do any of the foregoing. "Person," "veal carcass," 'veal wholesale cut," and "processed product" are defined in § 1364.477.

(c) *Maximum prices for slaughtering services.* Any person who slaughters cattle or calves as a service for the purchaser of such cattle or calves shall remit to such purchaser an amount sufficient to make the cost of the dressed beef or veal carcass, or of the wholesale cuts derived therefrom, to such purchaser equal to or less than the costs which would be incurred by the purchaser if he purchased the carcass or cuts from the slaughterer at the slaughterer's maximum prices therefor: *Provided,* That this requirement shall not apply in cases where the purchaser does not acquire the carcasses or cuts for resale in any form.

If the slaughterer sold no veal carcass or cuts of the relative grade during the base period, March 16 to 28, 1942, inclusive, his maximum prices within the meaning of this paragraph for carcasses or wholesale cuts of such grade shall be the maximum prices of the most nearly competitive seller who sold veal carcasses or wholesale cuts of such grade during the base period.

To enable the slaughterer to determine the amount to be remitted to the purchaser it shall be the duty of such purchaser to advise the slaughterer of the amount paid for the cattle or calves slaughtered.

§ 1364.402 *Exempt sales.* The provisions of this Revised Maximum Price Regulation No. 169 shall not apply

(a) To sales at retail: (1) as defined in § 1364.455 with respect to sales of beef; and (2) as defined in § 1364.477 with respect to sales of veal and processed products;

(b) To deliveries of beef made to any political subdivision or agency of any state or of the United States, under contracts entered into prior to December 10, 1942; *Provided,* That this exemption shall not be construed to permit the upward revision of any prices fixed in such contracts;

(c) To sales outside of the forty-eight states of the United States and the District of Columbia.

§ 1364.403 *Export sales.* The maximum price at which a person may export any beef carcass or wholesale cut, veal carcass or wholesale cut, processed product, or other meat item subject to this Revised Regulation shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1364.404 *Less than maximum prices.* Lower prices than those established in §§ 1364.451, 1364.452, and 1364.476 may be charged, demanded, paid or offered.

Request for such an exception may be included in the aforesaid petition.

For the purposes of this § 1364.409, the term "seller" shall have the meaning given it by Supplementary Order No. 14.

§ 1364.410 *Petitions for amendment.* Any person seeking an amendment of any provision of this Revised Maximum Price Regulation No. 169 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, as amended, issued by the Office of Price Administration.

§ 1364.411 *Duty to maintain and identify grades.* No person shall sell or offer for sale, and no person in the course of trade or business shall buy or receive any beef carcass or wholesale cut or veal carcass or wholesale cut, unless each such carcass or wholesale cut has been identified by grade in accordance with the provisions of this section. No custom slaughterer shall ship or deliver any beef carcass or wholesale cut, or veal carcass or wholesale cut unless each such carcass or wholesale cut has been identified by grade in accordance with the provisions of this section. Each person shall maintain uniform grades, as specified in paragraph (a) of this section; shall determine his maximum prices upon the basis of such uniform grades rather than upon the basis of his own grades, as provided in paragraph (b) of this section; and shall have his products identified by grade designations, as provided by paragraph (c) of this section.

(a) *Uniform grades.* (1) Beef carcasses and wholesale cuts derived from steers, heifers and cows shall be graded into the following uniform grades: choice, good, commercial, utility, and cutter and canner; except, that no cow carcass or wholesale cut shall be graded choice. Beef carcasses and wholesale cuts derived from bulls and stags shall be graded in the same manner, except that no bull carcass or wholesale cut shall be graded choice or good, and no stag carcass or wholesale cut shall be graded choice. In determining the grade of each beef carcass or beef wholesale cut, the "Specifications for Official United States Standards for Grades of Carcass Beef"[4], set forth in Appendix C hereof, and incorporated herein as § 1364.528, shall be used, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade choice, and the specifications therein for the two grades, cutter and canner, shall be combined and treated as a single grade.

(2) Veal and calf carcasses and wholesale cuts shall be graded into the following uniform grades: choice, good, commercial, utility and culls. In determining the grade of each such carcass or wholesale cut the seller shall use the "Specifications for Official United States Standards for Grades of Veal and Calf Carcasses,"[5] set forth in Appendix D hereof, and incorporated herein as § 1364.529, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade, choice, the carcasses and wholesale cuts of which shall be graded in the manner hereinafter provided in paragraph (c) (3).

(b) *Duty to determine maximum prices on the basis of uniform grades.* The word "grade" as used in §§ 1364.451, 1364.452, and 1364.476 and in paragraph (c) of this section, means any uniform grade referred to in paragraph (a) of this section, and shall not be construed to mean the private grade of an individual seller.

Irrespective of the private grading system heretofore used by the seller, it shall be the duty of the seller:

(1) Except as provided in paragraph (c) (3), to have classified into the uniform grades provided for in paragraph (a) of this section by an official grader of the United States Department of Agriculture, the beef carcasses and beef wholesale cuts of cattle slaughtered by the seller or sold by the seller, and then to determine the maximum price for each such grade of beef carcass and beef wholesale cut by reference to § 1364.451; and

(2) To classify into the uniform grades provided for in paragraph (a) of this section the veal carcasses and veal wholesale cuts slaughtered or sold by him by reference to the grading standards provided for in said paragraph (a), and then to determine his maximum prices for each such grade of veal carcass and veal wholesale cut by reference to § 1364.476.

(c) *Duty to identify products by grade marks.* (1) No person shall sell, offer to sell, deliver or break any beef or veal carcass unless a stamp has been placed thereon with harmless marking fluid conforming to the formula for violet branding fluid approved by the United States Department of Agriculture, Bureau of Animal Industry, set forth in Appendix A hereof, and incorporated herein as § 1364.526, marking the appropriate grade letter, as hereinafter designated, in such manner as to identify by such letter the uniform grade of each beef wholesale cut or veal wholesale cut which may be derived from the carcass, except that in the case of a calf or veal carcass sold with the skin on, the grade letter shall be stamped only on the shanks and briskets. The purchaser of a calf or veal carcass with the skin on shall not sell, offer to sell or break such carcass after removal of the skin unless a stamp has been placed thereon, marking the appropriate grade letter, as hereinafter designated, in such manner as to identify by such letter the uniform grade of each veal wholesale cut which may be derived from such carcass.

The sex identification shall be similarly stamped on all bull and stag carcasses and wholesale cuts. The grade and prescribed sex identification of each beef carcass and wholesale cut, and veal carcass and wholesale cut must appear on the seller's invoice.

(2) The appropriate grade letter for each uniform grade shall be as follows:

Grade:	*Grade letter*
Choice	AA
Good	A
Commercial	B
Utility	C

The grade letter shall be at least ½ inch in height and width. Carcasses graded as canners and cutters or culls need not be stamped. In stamping any beef or veal carcass determined by an official grader of the United States Department of Agriculture to conform to the grade standards contained in this Revised Maximum Price Regulation No. 169, such official grader may use the grade designations U. S. choice or choice, U. S. good or good, U. S. commercial or commercial, or U. S. utility or utility, whichever is appropriate, in lieu of the grade letters established in this subparagraph.

(3) No person shall sell, offer to sell, deliver or break any beef carcass irrespective of grade or any veal carcass of the grade choice, unless such carcass has been examined and graded by an official grader of the United States Department of Agriculture in accordance with the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, etc."[6] as modified to the extent set forth in Appendix B hereof, and thus incorporated herein as § 1364.527, and unless a stamp has been placed upon such carcass by such official grader in the manner set forth in paragraph (c) (1) of this section: *Provided,* That in any instance where any person is unable to procure the services of an official grader within 24 hours after such person has made an application for grading, pursuant to section 3 of Regulation No. 4 (Grading Service) contained in § 1364.527 hereof, then the provisions of this subparagraph shall not apply for so long a period as the Agricultural Marketing Administration of the United States Department of Agriculture certifies in writing that it is unable to provide such person with the services of an official grader. During such period such beef or veal carcasses shall be graded by the seller in the manner provided in paragraphs (a), (b), (c) (1) and (c) (2) of this § 1364.411.

(4) Whenever any person having a financial interest in any beef or veal carcass which has been graded and grade stamped by an official grader pursuant to paragraph (c) (3) hereof or otherwise, is dissatisfied with the determination of such official grader, such person may appeal the grading and grade stamping by making an application for appeal grading in the manner provided in Regulation No. 5 (appeal grading) contained in § 1364.527 hereof, and shall thereafter give immediate notice in writing to the Office of Price Administration at Washington, D. C., of such appeal.

(d) *Use of other grading and branding systems.* Any seller may use a private grading and branding system in addition to that required by the foregoing paragraphs of this section: *Provided,* That he shall identify his private grading and branding system in such manner as to distinguish it from the official grade stamp as required by paragraph (c) of this section.

(ii) In the event that the total gross proceeds obtainable through sales at the prices so fixed of all fabricated cuts derived from such beef wholesale cut and sales at the maximum prices of all bones, fat, waste, trimmings and/or processed products obtained in making such fabricated cuts exceeds 120% of the applicable zone price for the beef wholesale cut, the hotel supply house shall adjust downward the prices of such cuts to remove the excess. In making such adjustments, the seller shall not change the relationship of such prices as established pursuant to paragraph (o) (2) (i). The price so fixed and adjusted shall be the applicable zone price for the fabricated beef cut.

(3) "Fabricated beef cut" as used in this paragraph (o) means any part or portion of a beef wholesale cut (i. e. roasts, steaks, stewing meat, etc.) made for a purveyor of meals, which part or portion is obtained by boning or sawing through the bones of the beef wholesale cut so as to prepare these fabricated cuts for cooking without further cutting or trimming. Beef wholesale cuts which have been trimmed and from which at least 25% of the bone has been removed, to facilitate cutting into steaks or roasts by a purveyor of meals, shall also be considered fabricated beef cuts.

For local delivery made from the place of business of a wholesaler or hotel supply house located in Price Zone 3 or 4 to the place of business of a seller at retail, purveyor of meals, or commercial user, or the designated delivery point of a war procurement agency, or other government agency, located more than 25 miles from such shipping point: the seller may add the actual cost of local delivery computed at the lowest common carrier rate for the method of delivery used, but in no event more than 75¢ per cwt.

(5) For local delivery made from a slaughter plant, packing house, car-route unloading point, railroad unloading station, or branch house, located in Price Zone 1, 2, 5, 6, 7, 8, 9, or 10, to the place of business of a seller at retail, wholesaler (not owned or controlled by the shipper or consignor), hotel supply house (not owned or controlled by the shipper or consignor), or commercial user, or the designated delivery point of a war procurement agency, or other government agency, located more than 25 miles from such shipping point; or

For local delivery made from the place of business of a wholesaler or hotel supply house located in Price Zone 1, 2, 5, 6, 7, 8, 9, or 10, to the place of business of a seller at retail, purveyor of meals or commercial user, or the designated delivery point of a war procurement agency or other government agency, located more than 25 miles from such shipping point: the seller may add the actual cost of local delivery computed at the lowest common carrier rate for the method of delivery used, but in no event more than 50¢ per cwt.

(6) Notwithstanding any of the provisions of paragraphs (a) (1) to (a) (5), inclusive, of this § 1364.454, nothing therein contained shall be construed to permit a total charge for transportation and/or local delivery from the point at which the meat was slaughtered to the place of business or receiving point of a retail seller, purveyor of meals, war procurement agency, other government agency or commercial user of more than 50¢ per cwt. in Price Zone 1, 2, 5, 6, 7, 8, 9, or 10, or 75¢ per cwt. in Price Zone 3 or 4. The transportation and local delivery additions permitted in this paragraph (a) are on a hundredweight basis, and the charge for transportation and/or local delivery for any fraction of a hundred weight shall be reduced accordingly. The additions specified in this paragraph (a) for transportation and/or local delivery may be charged: *Provided,* That the seller shall itemize separately on an invoice to the buyer the amount charged the buyer for transportation and/or local delivery.

(b) *For kosher beef wholesale cuts.* The applicable zone price established for kosher beef wholesale cuts (which includes the additions permitted) shall apply only on sales of kosher beef as such to buyers of kosher meat and no seller shall sell or deliver any kosher beef wholesale cut and no buyer shall buy or receive any kosher beef wholesale cut at the price established therefor or at a price higher than established for the corresponding non-kosher wholesale cut in § 1364.452 (Schedule I), unless the buyer of such wholesale cut is a bona fide buyer of kosher meat. For the sale of any kosher beef wholesale cut to a buyer other than a bona fide buyer of kosher meat the maximum price shall be determined by use of the applicable zone price established for the corresponding non-kosher wholesale cut, and the seller shall remove all stamps and designations which identify the wholesale cut as kosher. Any beef carcass or wholesale cut which has been derived from cattle slaughtered in the manner of kosher slaughter but rejected as non-kosher shall not be sold, unless all stamps and designations which identify the carcass or wholesale cut as kosher have been removed.

(c) *For kosher wholesale cuts derived from cattle slaughtered in a limited area of Zone 9.* (1) For any grade of kosher beef triangle or kosher beef wholesale cut or cuts obtained from the kosher triangle, except the grades utility and cutter and canner, which cuts are derived from steers or heifers slaughtered in Massachusetts, Connecticut, Rhode Island, New Jersey, or any of the following counties of New York: Rensselaer, Albany, Schoharie, Otsego, Delaware, Greene, Columbia, Dutchess, Ulster, Sullivan, Orange, Rockland, Putnam, Westchester, Richmond, Bronx, New York, Kings, Queens, Nassau, or Suffolk, and which clearly bear the abattoir stamp at the time of sale, the seller may add $1.50 per cwt. to the applicable zone 9 price: *Provided,* That such wholesale cut shall be sold to a bona fide buyer of kosher meat located within a radius of 50 miles from the point of slaughter. In the case of kosher forequarters derived from steers, heifers or bulls slaughtered in the same area and sold under the same conditions the seller may add $1.20 per cwt. to the applicable zone 9 price.

(2) For any grade of kosher beef triangle or kosher beef wholesale cut or cuts obtained from the kosher triangle, except the grades utility and cutter and canner, which cuts are derived from steers or heifers slaughtered in any of the following counties of Pennsylvania: Chester, Delaware, Montgomery, Bucks, Berks, Schuylkill, Northampton, Lehigh, Carbon, Monroe, Luzerne, Pike, Wyoming, Wayne, Lackawanna, or Susquehanna, and which clearly bear the abattoir stamp at the time of sale, the seller may add $.50 per cwt. to the applicable zone 9 price: *Provided,* That such wholesale cut shall be sold to a bona fide buyer of kosher meat located within a radius of 50 miles from the point of slaughter. In the case of kosher forequarters derived from steers, heifers or bulls slaughtered in the same area and sold under the same conditions the seller may add

40¢ per cwt. to the applicable zone 9 price.

(3) The provisions of paragraph (b) of this section governing the sale of kosher wholesale cuts shall apply to sales made pursuant to this paragraph (c). No addition permitted by this paragraph (c) shall be added for the sale of any kosher wholesale cut which does not bear the abattoir's stamp clearly legible. No slaughterer shall charge the addition for kosher beef slaughtered in the limited areas of Price Zone 9 described in subparagraphs (1) or (2) hereof, until he shall have filed the report required in paragraph (d) of § 1364.407 of this Revised Maximum Price Regulation No. 169.

(d) *Wholesaler's and independent hotel supply house's selling addition.* On sales of any beef carcass or beef wholesale cut not obtained through custom slaughtering, a wholesaler or independent hotel supply house may add 25¢ per cwt. to the applicable zone price.

(2) "Carload" means:

(i) A shipment by rail of fresh or frozen wholesale meat cuts, and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing to a single delivery point, of at least the minimum weight upon which the railroad carload rate from the point of shipment to the delivery point, as evidenced by the tariffs of railroad carriers, is based: *Provided*, That where the transportation charge for shipment of a lesser weight at the railroad carload rate would be lower than the transportation charge for such a shipment at the railroad less-than-carload rate, such lesser weight shall be considered a carload;

(ii) A shipment by motor truck or trucks to a single delivery point of 15,000 pounds or more of fresh or frozen wholesale meat cuts and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing, as a single bulk sale transaction; and

(iii) Any single bulk sale transaction wherein the buyer takes delivery at the seller's place of business of 15,000 pounds or more of fresh or frozen wholesale meat cuts and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing.

(3) "Beef" means meat derived from bovine animals, including steers, heifers, cows, bulls or stags, of a dressed carcass weight of 275 pounds or more, skin off.

(4) "Car route unloading point" means any point on a car route at which a stop is made for the purpose of transferring meat to the possession of the buyer or to a truck for local delivery to the buyer.

(5) "Distribution point" includes a packing or slaughtering plant, packer's branch house, wholesaler's or jobber's or hotel supply house's warehouse, car route unloading point, or railroad unloading station.

(6) "Local delivery" means delivery by the seller otherwise than by rail, commencing at the seller's distribution point, or in the case of car routes, at the car unloading point and continuing to the buyer's place of business or other point of delivery.

(8) "Beef carcass" means and is limited to the dressed carcass, side, or sides of beef, which shall be dressed with the 1st and 2nd tail (caudal) vertebrae, kidney knob or knobs and hanging tender left on. The beef carcass shall not be broken in any other manner than provided in paragraph (a) (9) of this § 1364.455.

(9) "Beef wholesale cut" means and is limited to any of the following cuts meeting the following minimum specifications, derived from the beef carcass, but excluding the offal and any item not included herein. (All measurements prescribed herein shall be made with a rigid straight ruler. All cuts shall be made according to the definite guides and measurements specified. Ribs are designated as 1st to 13th, inclusive, counting as the 1st rib that one which is nearest the neck end of the side.)

(i) "Hindquarter" means the posterior portion of the side remaining after the severance of the 12-rib forequarter from the side, and comprising the round, full loin including the 13th rib, flank, kidney and hanging tender all in one piece, which posterior portion shall be obtained by cutting the beef side between the 12th and 13th ribs keeping the knife firmly against the 12th rib while cutting down the length of the rib to the point at the end of the rib where the rib joins the rib (costal) cartilage, from which point passing through the cartilage and meat of the flank and short plate in the same straight line, completing the cut.

(ii) "Forequarter" means the anterior portion of the side remaining after the severance of the 1-rib hindquarter from the side, and comprising the rib, regular chuck, brisket, short plate and foreshank all in one piece, which anterior portion contains the 1st to the 12th rib, inclusive. All heart (mediastinal) fat, but no other fat, shall be removed from the forequarter. The skirt (diaphrgm) shall not be removed from any cut or part of the forequarter to which it is attached.

(iii) "Round" means the portion of the hindquarter remaining after the severance of the untrimmed full loin, and flank from the hindquarter, which portion shall be obtained as follows: the untrimmed full loin and flank shall be severed from the hindquarter by cutting in a straight line perpendicular to the contour of the outside or skin surface of the hindquarter. The cut shall be made on a straight line formed by and starting from that point on the backbone which is the juncture of the last (5th) sacral vertebra and the first (1st) tail (caudal) vertebra, and passing through that point which just misses the end of the protuberance of the femur bone and exposes the ball of the femur bone, continuing in the same straight line beyond the second point to complete the cut. Two tail vertebrae shall be left on the round. Attached to the tail bone of the round shall be the tip or rear corner of the fifth sacral vertebra. All cod, udder and pelvic fat remaining on the round after its severance from the full loin and flank shall remain on the round.

(iv) "Trimmed full loin" means the portion of the hindquarter remaining after the severance of the round, flank, hanging tender (from the open side), kidney knob and excess loin (lumbar) and pelvic (sacral) fat from the inside of the loin, from the hindquarter, and comprising the short loin and sirloin (loin end) in one piece, the back bone of which portion shall include one and one-half ($1\frac{1}{2}$) thoracic vertebrae, six (6) lumbar vertebrae, and five (5) sacral vertebrae (the tip or rear corner of the fifth sacral vertebra shall have been sawed off in severing the round from the full loin and flank), and which portion shall be obtained as follows: Part of the kidney knob, all of the kidney and the fat lying closely around the kidney in open (left) and closed (right) sides shall be removed first by a cut starting at the rear end of the kidney and slanting directly to the front edge of the half of the 12th thoracic vertebra at the point of severance of the hindquarter and forequarter.

Second, the hanging tender, which means the cylindrical shaped piece of lean meat attached at one end under the kidney knob in open (left) side hindquarters shall be removed entirely from open side loins by being severed at a point opposite the juncture of the 1st and 2nd lumbar vertebrae.

Third, after the severance of the round from the hindquarter, the flank shall be severed from the full loin by a cut starting at the heavy end of the full loin at the ventral point of severance of the round from the hindquarter and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line from the center of the protruding edge of the 13th thoracic vertebra, but in making the cut no more than one (1) inch of cod or udder fat shall be left on the flank side of the face of the loin.

NOTE: The 10-inch measurement shall be made from the center of the protruding edge of the 13th thoracic vertebra and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebra.

Fourth, the excess loin (lumbar) and pelvic (sacral) fat shall be trimmed from the inside of the full loin by placing the full loin upon a flat surface, with no other support to change its position, meat side down, and removing all fat which extends above a flat plane parallel with the flat surface supporting the full loin and on a level with the full length of the protruding edge of the lumbar section of the chine bone. Then all fat shall be removed which extends above a flat plane using the following two lines as guides for each edge of the plane: an imaginary line parallel with the full length of the protruding edge of the lumbar section of the chine bone which line extends 1 inch directly above such protruding edge; a line on the inside of the loin two inches from the flank edge and running parallel with such edge for the full length of the loin. All fat obstructing the measurement of the second line shall first be removed. In addition to the foregoing all rough fat in the pelvic cavity of the heavy end of the loin (sirloin) shall be trimmed smooth and trimming by a knife shall be apparent. No fat remaining in the pelvic cavity shall exceed one inch in depth.

(v) "Flank" means the portion of the hindquarter remaining after the severance of the round and untrimmed full loin from the hindquarter, which shall be obtained after the removal of the round by separation from the untrimmed full loin, starting the cut at the point at the lower end of the loin end (sirloin) which was the ventral point of separation of the full loin and round, leaving no more than one inch of cod or udder fat attached to the flank side of the face of the full loin, and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line along the 13th rib from the center of the protruding edge of the 13th thoracic vertebra.

NOTE: The 10-in. measurement shall be made from the center of the protruding edge of the 13th thoracic vertebra and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebra.

(vi) "Flank steak" means the flat, oval-shaped lean muscle of meat imbedded in the cod or udder end of the flank which shall be obtained by loosening the narrow end of the steak piece at the cod or udder end of the flank, cutting through the membrane along both sides of the steak, then pulling and cutting the steak loose and severing it from the thick membrane which lies directly under and to which it is attached. None of the thick membrane shall be left on the steak. All fat shall be trimmed from the steak, but the thin membrane on the top surface of the steak shall not be removed.

(vii) "Short loin" means that portion of the trimmed full loin remaining after the severance of the sirloin (loin end) from the trimmed full loin, which portion shall be obtained by a cut perpendicular to the contour of the outside or skin surface of the trimmed full loin begun at a point which is the juncture on the chine bone of the 5th and 6th lumbar vertebrae and continuing in a straight line perpendicular to the contour of the outside or skin surface of the trimmed full loin to and through a point flush against the end of the hip (pin) bone, but leaving no part of the hip (pin) bone in the short loin. The backbone of the short loin shall include five (5) lumbar vertebrae, one and one-half ($1\frac{1}{2}$) thoracic vertebrae and part of the 13th rib.

(viii) "Sirloin" (loin end) means the thick portion of the trimmed full loin remaining after the severence of the short loin from the trimmed full loin. The backbone of the sirloin shall include one (1) lumbar vertebra, five (5) sacral vertebrae (the tip or rear corner of the fifth (5th) sacral vertebra shall have been sawed off in separating the round from the trimmed full loin and flank), and the entire hip bone (ilium).

(ix) "Cross cut chuck" (kosher or traefer) means the portion of the forequarter remaining after the severence of the rib and short plate from the forequarter, and comprising the regular chuck, brisket and foreshank all in one piece, which portion shall be obtained by cutting through the forequarter in a straight line between the 5th and 6th ribs, keeping the knife firmly against the 5th rib while cutting to the point where the 5th rib joins the rib (costal) cartilage, at which point the cut shall continue in the same straight line through the cartilage, the breast bone (sternum) and the meat of the brisket and short plate to complete the severence. The cross cut chuck shall contain five (5) ribs (1st to 5th, inclusive).

(x) "Regular chuck" means the portion of the cross cut chuck remaining after the severance of the foreshank and brisket from the cross cut chuck, and containing most of the blade bone (scapula), part of the (humerus) arm bone, parts of the five ribs (1st to 5th, inclusive), that section of the back bone attached to the ribs, and the neck bone (cervical vertebrae from 1 to 7, inclusive), which portion shall be obtained by a cut through the cross cut chuck made in a straight line perpendicular to the contour of the outside or skin surface of the cross cut chuck (thereby separating the brisket and foreshank from the cross cut chuck) starting at a fixed point on the inside of the 5th rib determined by measuring off ten (10) inches along the 5th rib in a straight line from the center of the protruding edge of the 5th thoracic vertebra, continuing in the same straight line to the tip of the forward end of the breast bone (forward end of 1st segment of sternum), and passing through the (humerus) arm bone in the same straight line to complete the cut.

NOTE: The 10-inch measurement shall be made from the center of the protruding edge of the 5th thoracic vertebra and not from the hollow of the chine bone where the 5th rib joins the 5th thoracic vertebra.

(xi) "Foreshank" means the portion of the cross cut chuck remaining after the severance of the regular chuck and brisket from the cross cut chuck, which portion shall be obtained (after separation of the regular chuck) by separation from the brisket by a cut following the natural seam and leaving the entire lip, or web mucle on the brisket.

(xii) "Brisket" means the portion of the cross cut chuck remaining after the severance of the regular chuck and foreshank from the cross cut chuck, which portion contains parts of four ribs (2nd to 5th, inclusive), part of the breast bone and the rib (costal) cartilages which connect the ends of the rib bones with the breast bone. All heart (mediastinal) fat, but no other fat shall be removed from the brisket.

NOTE: The 10-inch measurements shall be made from the centers of the protruding edges of the 6th and 12th thoracic vertebrae, and not from the hollow of the chine.

(xiv) "Short plate" means the portion of the forequarter remaining after the severance of the cross cut chuck and the rib from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), the rib (costal) cartilages attached to them, and part of the breastbone.

(xv) "Back" means the portion of the forequarter remaining after the severance of the short plate, brisket and foreshank from the forequarter, and containing the rib and regular chuck all in one piece, which portion shall be obtained by a cut made in a straight line starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra and continuing to and through a fixed point at the tip of the forward end of the breastbone (forward end of 1st segment of sternum) through the (humerus) arm bone in the same straight line to complete the cut.

NOTE: Measurements shall be made from the center of the protruding edge of the 12th thoracic vertebra, and not from the hollow of the chine.

such grade of carcass or cut delivered

(xvi) "Triangle" (kosher or traefer) means the portion of the forequarter remaining after the severance of the rib from the forequarter, and containing the short plate, brisket, foreshank and regular chuck all in one piece, which portion shall be obtained by removing the rib from the forequarter by a straight cut across the ribs starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside of the protruding edge of the 12th thoracic vertebra and continuing to a fixed point determined by measuring off 10 inches on the inside of the 6th rib along the 6th rib from the center of the inside protruding edge of the 6th thoracic vertebra, and severing the rib from the forequarter by a second cut made in a straight line between the 5th and 6th ribs keeping the knife firmly against the 5th rib to the point where the second cut meets the end of the first cut.

NOTE: Measurements shall be from the center of the protruding edge of the 12th and 6th thoracic vertebra, and not from the hollow of the chine.

(xvii) "Arm chuck" means the portion of the cross cut chuck remaining after the severance of the brisket from the cross cut chuck and containing the regular chuck and foreshank all in one piece.

SUBPART C—PROVISIONS AFFECTING VEAL AND PROCESSED PRODUCTS

§ 1364.476 *Maximum prices for veal carcasses, veal wholesale cuts and processed products.* Except as provided by paragraphs (d), (e), (f), (g), and (k) of this section, each seller's maximum prices for veal carcasses, veal wholesale cuts and processed products which are shipped otherwise than via car route or by carload shall be computed as provided by paragraph (a) of this section; his maximum prices for such carcasses, cuts or processed products shipped via car route shall be computed as provided by paragraph (b) of this section; and his maximum prices for such carcasses, cuts or processed products shipped by carload shall be computed as provided by paragraph (c) of this section. Maximum prices for carcasses, cuts or processed products which cannot be determined under paragraphs (a), (b), or (c) shall be computed as provided in paragraph (h). Maximum prices for carcasses, cuts or processed products which cannot be determined under paragraph (a) or (h) shall be determined pursuant to paragraph (j). Maximum prices for carcasses or cuts which cannot be determined under paragraph (c) or (h) shall be computed pursuant to paragraph (j). Each seller shall report to the Office of Price Administration, his maximum prices as provided in paragraph (l).

(a) *Maximum prices for products not shipped via car route or by carload.* Except as provided in paragraphs (d) and (k) of this section, each seller's maximum price for each veal carcass or veal wholesale cut not shipped via car route or by carload shall be computed as follows:

(1) The maximum price for each grade of each veal *carcass* shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of the seller's sales of carcasses of the same grade were made during such period.

Example: Assume that the seller's sales of choice carcasses of veal during the base period, March 16 to March 28, were as follows:

Price per lb.	Weight volume in lbs.	Percentage of total weight volume (percent)
24¢	1,000	4
23½¢	2,000	8
23¢	4,000	16
22¾¢	5,000	20
22½¢	8,000	32
22¢	4,000	16
21½¢	1,000	4
Total weight volume	25,000	

The seller's maximum price for choice carcasses of veal is 22¾¢ per lb., for that is the highest price actually charged by him at or above which he made at least 30% of the total weight volume of his sales of such carcasses during the base period. 23¢ cannot be his maximum price, because only 28% of the total weight volume of sales was made at or above that price. 22⅞¢ cannot be his maximum price, for he made no sales during the base period at that price.

(2) The maximum price for each grade of fore-quarter of veal, hind-quarter of veal, fore-saddle of veal, and hind-saddle of veal shall be determined as follows:

(i) The seller shall ascertain the highest price actually charged by him during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of his sales of such fore-quarter, hind-quarter, fore-saddle, or hind-saddle was made during the period March 16 to March 28, 1942.

(ii) In the event that fores and hinds of each grade when sold separately at the prices computed pursuant to subparagraphs (2) (i), would yield a greater total sales realization than the total sales realization obtainable from the sales of the same fores and hinds of each grade in carcass form, at the seller's maximum price for a carcass of such grade, the seller shall adjust downward the prices of such fores and hinds to remove such excess. In making such adjustment, the seller shall not change the price differential in cents per pound between hinds and fores as established pursuant to subparagraph (2) (i). No such adjustment need be made if the seller sold no carcass of such grade during the period March 16 to March 28, 1942. The price so fixed and adjusted shall be the seller's maximum price for such quarter or saddle, and he may not thereafter charge any higher price.

(3) The maximum price for each grade of each fresh or frozen wholesale cut, other than boned and kosher cuts, shall be determined as follows:

(i) The seller shall fix a price for each such cut upon the basis of the relationship which prevailed, during the base period, March 16 to March 28, 1942, between the price of such cut and the prices of other cuts derived from a quarter of saddle of the same grade.

(ii) In the event that the total gross proceeds obtainable through sales at the prices so fixed of all cuts derived from such quarter or saddle exceeds by more than $1.00 per cwt. the total gross proceeds obtainable through the sale of such quarter or saddle, uncut, at its maximum price, the seller shall adjust downward the prices of such cuts to remove the excess over $1.00 per cwt. In making such adjustments, the seller shall not change the relationship of such prices as established pursuant to subparagraph (3) (i). The price so fixed and adjusted shall be the seller's maximum price for such wholesale cut.

(iii) In the event that the seller sold no quarter of a particular grade during the period March 16 to March 28, 1942, the maximum price for each wholesale cut derived from a quarter or saddle of such grade shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of his sales of such cut was made during such period.

(4) The maximum price for each grade and brand of each other veal wholesale cut and each processed product (i. e., veal wholesale cuts which are boned or wholesale cuts other than quarters or saddles derived from kosher veal carcasses and processed products which are canned, ground, or processed) shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of the seller's sales of such wholesale cut or processed product were made during such period.

NOTE: In making computations of total weight volume required by paragraph (a) of this section, the seller shall omit all sales of products which he shipped via car route or by carload.

(b) *Maximum prices for products shipped via car route.* Except as provided in paragraphs (d) and (e) of this section, each seller's maximum price for each grade of each veal carcass, veal wholesale cut or processed product delivered via car route shall be computed as follows:

(1) The seller shall ascertain zones for all car routes operated from the same shipping point, upon the basis of 25¢ per cwt. differences in transportation and icing charges. If the car route is operated by truck such transportation and icing charges shall be determined by reference to the tariff of any common carrier trucker who has filed such tariff with the Interstate Commerce Commission.

(2) As used in this paragraph (b) of § 1364.476, the term "average transportation charge" means the transportation charge in any zone determined by adding to the lowest transportation and icing charge in such zone the highest transportation and icing charge in such zone and dividing the resulting sum by two.

(3) The seller shall deduct from the prices charged by him for products delivered in each zone during the period March 16 to March 28, 1942 the average transportation and icing charge in such zone.

(4) Using the prices computed under paragraph (b) (3) of this section, the seller shall determine f. o. b. shipping point prices for each grade of each veal carcass, side, quarter and saddle and for each grade of each veal wholesale cut and for each grade of each processed product in the manner provided for in subparagraphs (1), (2), (3) and (4) of paragraph (a) of this section.

(5) Maximum prices in each car route zone shall be determined by adding to the f. o. b. shipping point prices determined under paragraph (b) (4) of this section the average transportation charge in such zone, except that in sales to a war procurement agency or to the Federal Surplus Commodities Corporation the maximum prices shall be determined by adding to such f. o. b. shipping point prices the transportation charge to destination which is actually incurred, which actual transportation charge shall in no instance exceed the highest transportation charge used as the basis for determining the average transportation charge in the zone of such destination point.

(c) *Maximum prices for products shipped by carload.* Except as provided in paragraphs (d) and (k) of this section, each seller's maximum price, f. o. b. the seller's shipping point, for each grade of each veal carcass, veal wholesale cut, or processed product sold for carload delivery shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of the seller's sales of such carcass, wholesale cut or processed product were sold in carload shipments from such shipping point during such period: *Provided*, That, in determining such maximum price, the seller shall deduct from all delivered prices charged in his carload sales during such period the actual transportation costs from the shipping point to all points of delivery. If the seller is unable to determine the maximum price for any grade of any wholesale cut derived from a quarter or saddle, because he made no carload sale of such cut during such period, he shall compute such maximum price in the manner provided for in subparagraph (3) of paragraph (a) of this section.

(d) *Maximum prices for products purchased by certain governmental agencies.* The maximum price for each grade of each veal carcass, veal wholesale cut or processed product which is purchased for any institution of any State, or political subdivision thereof, or of the United States by an authorized purchasing agency (other than purchases by a war procurement agency or the Federal Surplus Commodities Corporation) shall be either:

(1) The highest price which such agency contracted to pay for such grade of veal carcass, veal wholesale cut or processed product in contracts specifying comparable delivery and entered into during the thirty-day period commencing on March 16, 1942, or actually paid for such grade of carcass or cut delivered during such period; or

(2) The seller's maximum price determined under the applicable provisions of paragraph (a), (b) or (c) of this section. The purchaser shall, in issuing requests for bids, state which of the two formulae for determining maximum prices set out in subparagraphs (1) and (2) of this paragraph (d) shall be applicable to such bids: *Provided*, That if the purchaser states that the maximum price is the alternative set forth in said subparagraph (1), the purchaser shall quote in its invitation for bids the maximum price for each grade of veal carcass, veal wholesale cut or processed product to be purchased.

(e) *Adjustment of maximum prices for products sold to certain governmental agencies to include certain special charges.* In any sale of veal carcasses, veal wholesale cuts or processed products to a war procurement agency or to the Federal Surplus Commodities Corporation the seller may add to the maximum prices determined under paragraphs (a), (b) and (c) of this section the actual cost of freezing and wrapping or packaging such products if such products are frozen and wrapped or packaged pursuant to specifications applicable to products for overseas shipment or supply ship delivery: *Provided*, That the actual cost of freezing shall in no event exceed the lowest commercial rate for such freezing in the market area.

(f) *Maximum prices for federally graded products of choice grade.* The maximum price of each veal carcass or veal wholesale cut which has been graded choice by an official grader of the United States Department of Agriculture and which bears the appropriate official grade mark and identification of such official grader at the time of sale or delivery shall be ⅛ cent per pound higher than the maximum price computed for such grade of veal carcass or veal wholesale cut pursuant to paragraphs (a), (b), (c), or (d) of this section, except that this paragraph shall not apply in any instance where a maximum price is derived under paragraph (h) from the most nearly competitive seller who has computed maximum prices in accordance with this paragraph.

(g) *Adjustment of maximum prices.* In the event that any maximum price computed pursuant to paragraphs (a), (b), or (c) of this section results in a price containing a fraction of a cent which fraction is indivisible exactly into eights, the seller shall adjust such maximum price to the nearest eighth of a cent.

(h) *Maximum prices which cannot be priced under the foregoing paragraphs.* Except as provided in paragraph (k) of this section, if the maximum price for any grade of any veal carcass, veal wholesale cut or processed product cannot be determined under paragraphs (a), (b), or (c) of this section, the maximum price for such carcass, cut or processed product shall be the maximum price of the most nearly competitive seller.

(i) *Maximum prices for products which cannot be priced under paragraphs (a)* *or (h).* If the maximum price for any veal carcass, veal wholesale cut or processed product cannot be determined under paragraphs (a) or (h) of this section, the seller shall apply to the Office of Price Administration, Washington, D. C., for authorization to establish a maximum price, setting forth in such sworn application a detailed description of the grade, and kind of veal carcass, or veal wholesale cut or processed product for which a price is sought, including, where appropriate: a description of the manner and style of cutting and the nature and degree of processing· the maximum prices, if any, established for the sale by the seller of other grades of carcass or of the same wholesale cut or processed product; the manner in which the wholesale cut or processed product differs from the most similar wholesale cut or processed product for which a maximum price is established, and the maximum price for such cut or processed product; the costs of any of the operations which are added to or eliminated from the cutting or processing of the most similar wholesale cut or processed product; a statement of the reasons why the new manner of cutting or processing is being undertaken; a statement of the price requested, and the method by which the requested price was arrived at. Authorization to establish a maximum price for such veal carcass, veal wholesale cut or processed product will be accompanied by instructions as to the method for determining the maximum price. Within 10 days after such price has been determined, the seller shall report the price to the Office of Price Administration, Washington, D. C., under oaths or affirmation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(j) *Maximum prices for products which cannot be priced under paragraphs (c) or (h).* Except as provided in paragraph (k) of this section, if the maximum price for any grade of any veal carcass, veal wholesale cut or processed product shipped by carload cannot be determined under paragraph (h) of this section, the maximum price, f. o. b. the seller's shipping point for each grade of each veal carcass, veal wholesale cut or processed product sold for carload delivery shall be determined by subtracting ½ cent per pound from the seller's maximum price for such grade of carcass, wholesale cut or processed product as determined pursuant to paragraph (a) of this section, or as determined pursuant to paragraph (h) or (i) in lieu of paragraph (a) if such maximum price cannot be determined pursuant to paragraph (a).

(k) *Maximum prices for products sold for export.* The maximum price at which a person may sell or deliver any commodity for export shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation issued by the Office of Price Administration.

(l) *Duty to report maximum prices and adhere to reported prices.* Each seller shall report to the Office of Price Administration, pursuant to the provision of § 1364.407, his maximum prices on all veal carcasses, veal wholesale cuts and processed products which he sells. The seller shall in no event charge any prices higher than those so reported as his maximum prices.

§ 1364.477 *Definitions applicable to veal and processed products.* (a) When used in this Revised Maximum Price Regulation No. 169 and when applicable to veal or processed products the term:

(1) "Person" means any individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing: *Provided,* That no punishment provided by this Revised Maximum Price Regulation No. 169 shall apply to the United States or to any such government, political subdivision, or agency.

(2) "Seller" means any person who sells, supplies, disposes, barters, exchanges, transfers or delivers, and contracts and offers to do any of the foregoing. Where a person makes sales from more than one place of business, each separate place of business of such person shall be deemed to be a separate seller, except that all places of business owned or controlled by the same person, and selling in the same market area shall be regarded as a single seller. Each shipping point from which a car route or car routes originate shall be deemed a separate seller. If more than half of the sales at any one place of business are sales of kosher veal wholesale cuts or of veal wholesale cuts derived from kosher veal carcasses or of kosher processed products the sales at such place of business shall not be included with sales at any other place of business in computing maximum prices. All sales by any person to hotels and restaurants from one or more selling places in the same market area may be treated, at the option of such person, as sales by a separate seller.

(3) "Veal" includes the dressed carcasses and wholesale cuts derived from calves.

(4) "Veal wholesale cuts" means all cuts and combinations of cuts derived from the dressed veal carcass, including but not limited to:

(i) Fore-quarters and hind-quarters and fore-saddles and hind-saddles;

(ii) Rough and trimmed, bone in and boneless, whole and sliced;

(iii) Fresh or frozen. Kosher veal wholesale cuts shall for the purposes of § 1364.476 be regarded as separate wholesale cuts, and kosher veal carcasses shall be regarded as separate carcasses.

(5) "Processed products" means ground, cured, pickled, spiced, smoked, dried or otherwise processed beef and/or veal, including ground hamburger and sausage containing any proportion of beef or veal: *Provided,* That any beef carcass, or part or portion thereof, including any beef wholesale cut, which has been boned as permitted in Subpart B of this Revised Regulation or otherwise shall not be deemed a processed product. Products of each grade and brand, and in each stage of processing shall be considered separate processed products. Each type of canned and packaged meat, made entirely from beef and/or veal shall be considered a separate processed product. Beef or veal trimmings of each grade and in each stage of processing shall be considered separate wholesale cuts. Kosher processed products shall for the purposes of § 1364.476 be regarded as separate processed products.

(6) "Veal carcass" means the dressed carcass of veal and includes: the side or sides of veal; the forequarter and hindquarter of veal when sold together, and the fore-saddle and hind-saddle of veal when sold together.

(7) "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, the Lend-Lease Section of the Procurement Division of the Treasury Department, the Marine Corps, the Coast Guard, the War Shipping Administration, or any agency of the foregoing.

(8) "Carload" means (i) a shipment by rail of fresh, frozen and/or processed meat, and/or wholesale cuts or meat and/or carcasses, to a single delivery point, of at least the minimum weight as set forth in the tariffs of railroad carriers, upon which shipment the railroad carload rate from the point of shipment to the point of destination is based: *Provided,* That where a smaller quantity is shipped which could move at a railroad carload rate rather than at a railroad less-than-carload rate because a lower transportation charge is produced thereby, such smaller quantity shall be considered a carload lot;

(ii) A shipment by motor truck or trucks, to a single delivery point, of 15,000 pounds or more of fresh, frozen and/or processed meat and/or wholesale cuts or meat and/or carcasses as a single bulk sale transaction; and

(iii) Any single bulk sale transaction wherein the buyer takes delivery, at the sellers' place of business, of 15,000 pounds or more of fresh, frozen and/or processed meat and/or wholesale cuts or meat and/or carcasses.

(9) "Purchasing agency" refers to the authorized purchasing agency which contracts for future delivery of any veal carcasses, veal wholesale cuts or processed products according to fixed specifications.

(10) "Sales at retail" means sales to the ultimate consumer: *Provided,* That no wholesaler, processor, packer, slaughterer, branch house, purchaser for resale, car route or commercial user, shall be deemed to be an ultimate consumer, except that a sale to a purveyor of meals, by a person regularly and generally engaged in selling at retail, made on usual retail terms, shall be regarded as a sale at retail.

(11) "Car route" means a shipment by rail or truck, other than a carload, to a place outside of the market area in which the shipping point is located.

(12) "Market area" means any municipality or group of municipalities each of which has a common boundary with another: *Provided,* That such market area shall in no event extend in any direction further than fifty miles from the seller's shipping point.

(13) "Packaged meat" means meat sold in prepared containers of uniform size and appearance, which containers bear an identification of the contents and a statement of the weight or volume thereof.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

SUBPART D—APPENDICES

§ 1364.526 *Appendix A: Formula for meat marking fluid.* The following formula has been approved by the United States Department of Agriculture, Bureau of Animal Industry, Meat Inspection Laboratory, to be used for marking meats under the provisions of meat inspection law:

Water	gallons	45
Pure grain alcohol, 95 percent	gallons	38
Granulated cane sugar	pounds	100
Methyl violet	pounds	10

The methyl violet is dissolved in the alcohol and a portion of the water; the sugar is dissolved in the remaining portion of the water and added to the methyl violet solution. Thorough stirring facilitates solution of the methyl violet.

It is not necessary that the above-mentioned formula be adhered to in every detail, but the proportions indicated should not be subjected to any considerable variation; otherwise the marking qualities of the fluid may be impaired. Instead of the pure grain alcohol specified in the formula there may be employed pure grain alcohol, denatured according to formula 33 of the United States Bureau of Internal Revenue. When such denatured alcohol is used, it should be employed in the proportion indicated above. No additional methyl violet should be added. Instead of granulated cane sugar, pure granulated glucose may be used in the same proportion, or heavy corn sirup, if of suitable purity, may be used, provided due allowance is made for the water introduced in that way. All the ingredients used in preparing the marking fluid must be free from poisonous and harmful substances.

---

[8] "Agricultural Marketing Administration" is substituted wherever the terms, "Bureau" or "Bureau of Agricultural Economics of the United States Department of Agriculture" are used in this Section 1364.527. This is in accordance with the Order issued by the Secretary of Agriculture.

Section 15. *Disposition of certificates.* The original certificate, and not to exceed two copies if requested, upon issuance shall be immediately delivered or mailed to the applicant or a person designated by him. Section 16. *Advance information.* Upon request of an applicant, all or any part of the contents of the certificate may be telegraphed, telephoned, or radioed to him, or to any person designated by him, at his expense.

REGULATION 5. APPEAL GRADING

Section 1. *When appeal may be taken.* An application for appeal grading may be made whenever any financially interested party is dissatisfied with the determination stated in the original certificate.

Section 2. *How to obtain.* Appeal grading may be obtained by the applicant or other person financially interested in the product by filing a request for such appeal grading (a) with the official in charge of the meat grading service at nearest designated market, or (b) with the grader who did the original grading, or (c) with the Chief of the Bureau. The application for appeal shall state the reasons therefor, and may be accompanied by a copy of any previous grading certificate or report, or any other information which the applicant shall have received regarding the product at the time of the original grading. Such application may be made in writing or orally, by telegraph, telephone, or otherwise. If made orally, the person receiving the application may require that it be confirmed in writing.

Section 3. *Record of filing time.* A record showing the date and time of filing such application shall be immediately made by the receiver thereof.

Section 4. *When appeal may be refused.* If it shall appear that the reasons stated in an application for appeal grading are frivolous or unsubstantial, or that the quality or condition of the products has undergone a material change since the original grading, or that the products cannot be made accessible for thorough grading, or that the identity has been lost, or that these regulations have not been complied with, the application may be denied.

Section 5. *When appeal may be withdrawn.* An application for appeal grading may be withdrawn by the applicant at any time before the appeal grading has been performed upon payment of any expenses incurred in connection therewith.

Section 6. *When second grading is not an appeal.* Gradings requested to determine factors of quality or condition which may have undergone material change since the original grading shall not be considered appeal gradings within the meaning of this regulation. Second grading, requested for the purposes of securing an up-to-date certificate and not involving any question as to the correctness of the original certificate covering the lot in question, shall not be considered appeal grading within the meaning of this regulation.

Section 7. *Order in which made.* Appeal gradings shall be performed as far as practicable at time requested by applicant and in the order in which applications are received. They shall take precedence over all other pending applications.

Section 8. *Who shall pass upon appeals.* Appeal grading shall be passed upon by official graders designated therefor by the Chief of Bureau, and such grading shall be conducted jointly by two official graders when practicable. No appeal grader shall pass upon an application involving the correctness of a certificate issued by him.

Section 9. *Appeal findings.* Immediately after an appeal grading has been made a certificate designated as "appeal grading certificate" shall be signed and issued referring specifically to the original certificate and stating the quality and condition of the product as shown by the appeal grading. In all other respects the provisions of regulation 4 shall apply to such appeal grading certificates except that if the applicant for appeal grading be not the original applicant, a copy of the appeal grading certificate shall be mailed to the original applicant.

Section 10. *Superseded certificates.* When a grading certificate shall have been superseded under these regulations by an appeal grading certificate such grading certificate shall become null and void and shall not thereafter represent the class, quality, or condition of the product described therein. If the original and all copies of the superseded certificate are not delivered to the person with whom the application for appeal grading is filed, the officer or officers issuing the appeal grading certificate shall forward notice of such issuance and of the cancelation of the original certificate to such persons as he considers necessary to prevent fraudulent use of the canceled certificate.

REGULATION 7. FEES AND EXPENSES

Section 1. Amount of, rates, etc. * * *

Paragraph 1. *Basis for charges.* Fees and charges for grading services shall be based on the actual time required to render the services, including the time required for travel of the official grader in connection therewith, at the rate of $2.20 per hour for each official grader assigned unless otherwise provided by special agreement approved by the Chief of the Bureau: *Provided*, That no grading services shall be rendered for less than a minimum charge of $1.10; *Provided further*, That the Chief of the Bureau may, in lieu of the fixed charge of $2.20 per hour, fix other reasonable charges for the grading and certification of products at rates, which, in his judgment, will cover the costs of the services.

Paragraph 2. *Charges by graders employed or licensed by Department of Agriculture.* Charges for services by employees of the Department and by graders licensed by the Secretary shall be at rates established herein.

Paragraph 3. *Charges under cooperative agreement.* Charges for grading under cooperative agreements shall be those provided for by such agreements.

Paragraph 4. *For appeal grading.* Fees and charges for appeal grading shall be double those for original grading; except that appeal grading for Federal Government agencies shall be at actual cost; provided that when on appeal grading it is found that there was error in determination based upon the original grading equal to or exceeding 10 percent of the total weight of the products, no charge will be made unless special agreement with applicant is made in advance.

Paragraph 5. *For copies of grading certificates.* For not to exceed three copies of a certificate to any person financially interested in a product involved the fee shall be $1.

Section 2. *How fee shall be paid.* Fees and other charges shall be paid by the applicant in accordance with directions on the fee bill furnished him, and in advance if required by the official grader.

Section 3. *Disposition of fees.*

Paragraph 1. *By graders exclusively employed by the Department.* Fees for grading done by graders exclusively employed by the Department shall be remitted to the Bureau for deposit into the Treasury as Miscellaneous Receipts.

Paragraph 2. *By graders under cooperative agreements.* Fees for grading done by graders acting under cooperative agreements with a State or municipal organization, or other cooperating party, shall be disposed of in accordance with the terms of such agreements. Such portion of fees collected under cooperative agreements as may be due the United States shall be remitted to the Bureau for deposit into the Treasury.

§ 1364.528 *Appendix C: Specifications for grades of carcass beef*—(a) *Choice.* Choice grade beef carcasses and wholesale cuts shall be relatively blocky and compact and thickly fleshed throughout. Loins and ribs shall be thick and full. The rounds shall be plump. The chucks shall be short and thick, and the neck and shanks short. The fat covering shall be fairly smooth and uniform and shall extend over the entire exterior surface of the carcass. The interior fat shall be abundant in the pelvic cavity and over the kidney. The protrusion of fat between the chine bones shall be fairly liberal and the "overflow" of fat over the inside of the ribs shall be distinctly in evidence and fairly evenly distributed. The intermingling of fat with the lean in evidence between the ribs, called feathering, shall be extensive. Both the interior and the exterior fat shall be firm, brittle, and somewhat waxy, but may be slightly wavy or rough. The fat is usually white or creamy white but a slight yellowish tinge will not exclude beef from this grade, provided the character of the fat meets the requirements for the grade in other respects. The cut surface of the lean muscle shall be firm and possess a smooth velvety appearance. It shall be well marbled and the marbling shall be relatively extensive, especially in the heavier carcasses. The color shall be uniform and bright and may range from a pale red to a deep blood red. The bones are usually soft and red, terminating in soft pearly white cartilages but some ossification of the cartilages and hardening in the bone as indicated by a tinge of whiteness will not disqualify beef produced from mature cattle from this grade.

Only beef produced from beef-type steers and heifers that show a relatively high degree of perfection in breeding and feeding will qualify for the choice grade. Beef produced from cows is not eligible for this grade.

(b) *Good.* Good grade beef carcasses and wholesale cuts shall be moderately blocky and compact and shall be moderately thick-fleshed throughout. A tendency for the loins and ribs to be slightly flat and for the rounds to be slightly flat

and to taper toward the shank is permitted. Chucks and neck may be only moderately short and thick and shanks may be only moderately short. The fat covering shall extend well over the exterior surface but may show a moderate degree of waste or patchiness, particularly in heavy mature beef. The interior fat shall be fairly plentiful in the pelvic cavity and around the kidney. There is usually a slight protrusion of fat between the chine bones. The "overflow" of fat over the inside of the ribs may be apparent to a slight extent. A limited amount of intermingling of fat with the lean between the ribs, called feathering, shall be in evidence. Both the interior and the exterior fat are usually fairly firm and brittle. The quantity of fat required of beef within this grade will vary within relatively wide limits dependent upon the age and class of cattle from which it is produced. That produced from lightweight steers and heifers which were slaughtered when relatively young may have a relatively thin exterior fat covering and only a moderate quantity of interior fat, whereas that produced from heavier, older cattle may possess a relatively thick exterior fat covering and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat is usually creamy white but it may possess a distinctly yellowish tinge. The cut surface of the lean muscle may be only moderately firm and smooth and velvety in appearance. Beef within this grade will show a relatively wide range of marbling. That produced from young cattle may show only a limited degree of marbling which is apparent only in the thicker cuts whereas that produced from the older, more mature cattle shall show rather extensive marbling throughout. The color is usually uniform and bright but may be slightly two-toned or slightly shady. It usually ranges from a light red to a slightly dark red. The bone will range from soft and red in lightweight beef produced from young cattle to a relatively hard bone that is tinged with white in the beef produced from older, more mature cattle. It is, however, necessary that the chine bones show cartilages, termed "buttons", in order to qualify for this grade.

Beef produced from steers, heifers, and relatively young well-finished beef-type cows may qualify for the Good grade.

(c) *Commercial.* Commercial grade beef carcasses and wholesale cuts may be somewhat rangy, angular, and irregular in conformation and the fleshing may be slightly thin throughout. Loins and ribs tend to be flat and somewhat thinly fleshed. The rounds are relatively long, flat, and tapering. Chucks are usually slightly flat and thinly fleshed. The neck is somewhat long and thin and the shanks somewhat long and tapering. The quantity of fat required of beef within this grade will vary within wide limits dependent upon the age and class of cattle from which it is produced. That produced from relatively young lightweight steers and heifers that were slaughtered when relatively young may have a thin exterior fat covering that does not extend over the round or chucks and a relatively small quantity of interior fat. In such beef there will be practically no protrusion of fat between the chine bones and there will be no "overflow" of fat on the inside of the ribs and no feathering between the ribs. Beef produced from heavier, older cattle, and particularly from mature animals, will possess a moderately thick exterior fat covering that may be uneven and wasty, and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat may be slightly yellow, somewhat soft, and slightly oily. The cut surface of the lean muscle may be somewhat soft and watery in beef produced from younger cattle, but in that produced from older cattle it is usually firm but is also usually coarse. Beef within this grade produced from yearling cattle will have little if any marbling whereas that produced from mature cattle, and particularly cows, will show a moderate degree of marbling through the thicker cuts. The color may be two-toned or shady and usually ranges from a light red to a dark red. The character of the bone will vary from fairly soft and red in the beef produced from the young cattle to white and hard in that produced from mature cattle.

Beef produced from steers, heifers, and cows may qualify for the commercial grade.

(d) *Utility.* Utility grade beef carcasses and wholesale cuts may be decidedly rangy, angular, and irregular in conformation. The fleshing is usually thin. The loins and ribs are flat and thinly fleshed. The rounds are long, flat, and tapering. The chucks are flat and thinly fleshed. The neck and shanks are long and tapering. The hip and shoulder joints are prominent. The degree of fat covering varies from very thin in beef produced from young steers and heifers to a slightly thick covering that may be somewhat uneven in beef produced from cattle that are more or less advanced in age. The quantity of interior fat varies from very little in beef that is produced from young and immature steers and heifers to a moderate quantity in that produced from mature cattle. The fat is usually soft and varies in color from a grayish white to decidedly yellow. The cut surface of the lean muscle is usually soft and watery in the beef produced from younger cattle but in that produced from more mature cattle it is usually fairly firm but coarse. The beef in this grade will show practically no marbling except in that produced from aged cattle which may show a little marbling in the thicker cuts. The color may be two-toned or shady and usually ranges from a light red to a very dark red. The bone is usually hard and white.

The utility grade of beef may be produced from steers, heifers, or cows.

(e) *Cutter and canner.* Cutter grade beef carcasses and wholesale cuts may be very rangy, angular, and irregular in conformation and very thinly fleshed throughout. The loins and ribs are very flat, thin, and shallow. The rounds are very long, flat, and tapering. The chucks are very flat, thin, and shallow. The neck and shanks are very long and tapering, the hip and shoulder joints are very prominent. The degree of exterior fat covering may vary from a very thin covering that is confined almost entirely to the ribs and loins in the beef produced from younger cattle to a thin, more extensive covering in the beef produced from mature cattle. The interior fat is confined largely to the pelvic cavity and the kidney and may vary from a very small quantity, if any, in these parts in beef produced from younger cattle to a limited quantity in that produced from mature cattle. The color of both the interior and the exterior fat may vary from grayish white to a deep yellow. The cut surface of the lean muscle shows no marbling, is coarse, and is usually soft and watery. The color may be two-toned or shady and usually ranges from a slightly dark red to a very dark red. The bone is usually hard and white.

The cutter grade of beef may be produced from steers, heifers, and cows. That produced from cows constitutes a relatively large percentage of the beef eligible for this grade.

Canner grade beef carcasses and wholesale cuts shall be extremely rangy, angular, and irregular in conformation and extremely thinly fleshed throughout. All cuts are extremely thinly fleshed. Loins and ribs are extremely thin, flat, and shallow. The rounds are very long, flat and tapering, and the chucks are extremely thin, flat, and shallow. The neck and shanks are extremely long and the hips and shoulder joints are extremely tapering. Beef of this grade is practically devoid of both interior and exterior fat. The outside surface usually has a very dark appearance. The cut surface of the lean muscle is usually coarse and is soft and watery in appearance. It shows no marbling. The color may be two-toned or shady and usually ranges from a moderately dark red to an extremely dark red or brownish black. The bones are nearly always hard and white.

A very large percentage of the beef of the canner grade is produced from mature cows that are somewhat advanced in age.

§ 1364.529 *Appendix D: Specifications for grades of veal carcasses*—(a) *Choice.* A choice grade veal carcass is markedly superior in conformation, finish and quality.

In general shape or outline it is blocky and compact. It is broad and deep in proportion to its length. All parts are thickly fleshed, each part having its proper proportionate thickness. Because of the thickness of fleshing the carcass presents a plump, full, well-rounded appearance. The different parts are developed and balanced in such a way as to result in a high proportion of back, loin, and round combined.

The shanks are short and thick. Rounds are thick and bulging. Loin and back are full and plump. Shoulders and breasts are broad and thick. The neck is short and thick.

There is a thin covering of fat over the rump, loin, back and top of the shoulders, and over the inner walls of the chest and abdomen. There are moderately large deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is smooth. The color of fat is a creamy white tinged with pink.

The flesh ranges from light gray to pinkish brown in color. It is firm, fine-grained and, in a cut surface, is velvety to sight and touch. All bones are small in proportion to the size and weight of the carcass and are soft and red.

(b) *Good.* A good grade veal carcass possesses a moderately high degree of conformation, finish, and quality.

In general shape or outline it tends to be blocky and compact. It is moderately broad and deep in proportion to its length. All parts are moderately thick-fleshed each part having its proper proportionate thickness. Because of the thickness of fleshing, the carcass presents a moderately plump, full, well-rounded appearance. The different parts are developed and balanced in such a way as to result in a moderately high proportion of back, loin, and round combined.

The shanks are moderately short and thick. Rounds are moderately thick and bulging. Loin and back are moderately full and plump. Shoulders and breast are moderately broad and thick. The neck is moderately short and thick.

There is a very thin covering of fat over the loin and back and over the inner walls of the chest and abdomen. There are slightly small deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is moderately smooth. The color of fat is usually a creamy white. The flesh ranges from a pinkish brown to a light tan in color, is moderately firm, fine-grained and, in a cut surface, is moderately velvety but may be slightly moist to sight and touch. All bones are moderately small in proportion to the size and weight of the carcass and are moderately soft and red.

(c) *Commercial.* A commercial grade veal carcass is slightly deficient in conformation, finish, and quality.

In general shape or outline it is slightly rough and rangy. It is slightly narrow and shallow in proportion to its length. All parts are slightly deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a slightly empty, sunken, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a slightly low proportion of back, loin, and round combined.

The shanks are slightly long and thin. Rounds are slightly thin and tapering. Loins and back are slightly depressed. Shoulders and breast are slightly narrow and thin. The neck is slightly long and thin.

There are extremely thin patches of fat over the back and loin and over a portion of the inner walls of the chest and abdomen. There are very small deposits of fat in the breast, flanks, and crotch, and around the kidneys, the latter usually being incompletely covered. The color of fat is white but it lacks the pinkish tinge.

The flesh is usually pinkish brown in color, is slightly soft, is coarse-grained and, in a cut surface, is slightly moist to the touch. All bones are slightly large in proportion to the size and weight of the carcass, are moderately soft but are slightly lacking in redness.

(d) *Utility.* A utility grade veal carcass is very deficient in conformation, finish, and quality.

In general shape or outline it is very rough and rangy. It is very narrow and shallow in proportion to its length. All parts are very deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a very depressed or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a very low proportion of back, loin, and round combined.

The shanks are very long and thin. Rounds are very thin and tapering. Loin and back are very shallow and depressed. Shoulders and breast are very narrow and thin. The neck is very long and thin.

There is no fat covering over the back, loin, or inner walls of the chest and abdomen. Usually there are extremely small deposits of fat in the breast, flanks, and crotch, and around the kidneys. The color of the fat usually is grayish white tinged with yellow.

The flesh ranges from pinkish brown to dark tan in color, is soft, very coarse-grained and, in a cut surface, is very moist to the touch. All bones are large in proportion to the size and weight of the carcass, are moderately soft but are lacking in redness.

(e) *Cull.* A cull grade veal carcass is extremely deficient in conformation, finish, and quality.

In general shape or outline it is extremely rough and rangy. It is extremely narrow and shallow in proportion to its length. All parts are extremely deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents an extremely shallow, depressed, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in an extremely low proportion of back, loin, and round combined.

The shanks are extremely long and thin. Rounds are extremely thin and tapering. Loin and back are extremely depressed. Shoulders and breast are extremely narrow and thin. The neck is extremely long and thin.

There is no fat covering over any part of the exterior of the carcass and none on the inner walls of the chest and abdomen. There are no discernible fat deposits in the breast, flanks, or crotch, and only extremely small quantities around the kidneys.

The flesh usually is reddish brown in color, is very soft, coarse-grained and watery. All bones are very large in proportion to the size and weight of the carcass and are decidedly lacking in softness and redness.

1666 kc.	1730 kc.	2430 kc.	

[4] Subject to the condition that no interference is caused to Canadian stations.

(b) The power authorization requested by an applicant shall be the minimum power required for satisfactory technical operation considering the size of the area to be served and the local conditions which affect radio transmission and reception.

(1) The power which may be authorized for use by municipal police stations when operating on the frequencies listed in paragraph (a) of this section, normally will be based on the latest official record of the Department of Commerce showing the total population of the area to be served in accordance with the following table:

Population of area:	*Maximum power in watts*
Under 100,000	50
100,000 to 200,000	100
200,000 to 300,000	150
300,000 to 400,000	200
400,000 to 500,000	250
500,000 to 600,000	300
600,000 to 700,000	400
Over 700,000	500

(2) The power which may be authorized for use by State police stations when operating on the frequencies listed in paragraph (a) of this section normally will not exceed 500 watts.

(c) In the event that the maximum power available under the limitations of paragraph (b) of this section is insufficient to provide reliable communcations over the desired service area, the Commission, upon receipt of proper application, may authorize the operation of one or more stations at approved locations having a power not in excess of that specified; or may authorize the use of power in excess of that specified subject to the condition that serious interference is not caused to the service of stations operating on the same or adjacent frequencies and under such limitations and restrictions as may be prescribed in individual cases; *Provided,* That the applicant makes a satisfactory showing of need including statements relative to the size of the area to be served, the distribution of associated mobile radio units, local conditions which affect radio transmission and reception, and such other facts and circumstances which in the belief of the applicant show the need for the facilities requested in the application.

§ 10.42 *State and municipal police stations (30,000 to 40,000 kilocycles).* The following frequencies are allocated for assignment to municipal and State police stations:

Group A

30700 kc.	33100 kc.	35500 kc.	39100 kc.
31100 kc.	33940 kc.	37500 kc.	39900 kc.
31900 kc.			

Group B

31500 kc.	35900 kc.	37900 kc.	39500 kc.
33500 kc.	37100 kc.		

Group C

30580 kc.	33220 kc.	35220 kc.	39380 kc.
30980 kc.	33780 kc.	37220 kc.	
31780 kc.	35100 kc.	37780 kc.	

Group D

35780 kc.	37380 kc.	39180 kc.	39780 kc.

(a) The frequencies in Groups A and B are available for assignment to land and portable municipal and State police stations. Mobile and portable-mobile stations, however, may be authorized to operate on the frequency assigned to the land station with which their communications are coordinated.

(b) The frequencies in Group C are available for assignment to mobile and portable-mobile municipal police stations. They are also available for assignment to portable municipal police stations having a power output not in excess of 5 watts.

(c) The frequencies in Group D are available for assignment to mobile and portable-mobile State police stations. They are also available for assignment to portable State police stations having a power output not in excess of 5 watts.

(d) Frequency assignments to a municipality or State normally will be limited to one frequency in Group A or B and to one frequency in Group C or D, respectively. Requests for assignment of additional frequencies must be supported by a satisfactory showing of need which shall include a statement specifying and describing the area to be served, number of radio-mobile units, peak message traffic load, and such other facts and circumstances which, in the belief of the applicant, show the need for the additional frequency or frequencies requested.

(e) The power authorization requested by an applicant shall be the minimum power required for satisfactory technical operation considering the size of the area to be served and the local conditions which affect radio transmission and reception. The power which may be authorized for operation on the frequencies in Groups A and B normally will not exceed 250 watts. In the event that this power is insufficient to provide reliable communication over the desired service area, the Commission, upon receipt of proper application, may authorize the operation of one or more stations at approved locations having a power not in excess of 250 watts; or may authorize the use of power in excess of 250 watts for operation on a frequency in Group A only, subject to the condition that serious interference is not caused to the service of stations operating on the same or adjacent frequencies; and under such limitations and restrictions as may be prescribed in individual cases: *Provided,* That the applicant makes a satisfactory showing of need including statements relative to the size of the area to be served, the distribution of associated mobile radio units, local conditions which affect radio transmission and reception, and such other facts and circumstances which, in the belief of the applicant, show the need for the facilities requested in the application.

---

[14] Additional provisions relating to power may be found in Sections 2.17 to 2.21, 2.79, and 2.80 of Part 2, General Rules and Regulations.

§ 10.44 *Zone and interzone.* [Delete the word "control" from the parenthetical phrase in paragraph (a).]

§ 10.48 *Assigned frequencies nonexclusive.* Frequencies allocated for use by stations in the Emergency Radio Service will not be assigned exclusively to any applicant. All stations in this service are required to cooperate in the selection and use of the designated frequencies, to avoid interference, and to make the most effective use of the frequencies assigned.

§ 10.72 *Operating tests.* All classes of stations in the Emergency Radio Service are permitted to make such tests as may be required for the proper maintenance of the stations and the communication systems, provided that all necessary precautions are taken to avoid interference with other stations, and provided further that such testing shall not exceed the minimum necessary to insure reliable communication.

§ 10.123 *Coordinated service.* Any applicant for an instrument of authorization who proposes to furnish a coordinated police radiocommunication service to one or more municipalities, counties, or governmental agencies, other than the applicant, must make specific formal request for authority to furnish such service. Applications for such authority should contain a full and complete description of the service to be rendered, including information as to whether one-way dispatching service to mobile units or two-way radiocommunication service is to be provided. If two-way service is contemplated, the applicant should state whether the licensee of the portable-mobile radio units involved will be the proposed subscriber or the applicant. Applications for authority to render coordinated service must be accompanied by duplicate copies, under oath, of all agreements relating to the service to be rendered. Such agreements must be in writing, must clearly set forth what service is to be rendered, and include a statement as to ownership, control and maintenance of the equipment, and what charge or charges, if any, will be made for the service. Such agreements must run for a definite period of time and notice of the termination of such agreements must be given to the Commission not less than 60 days prior to cessation of service.

The Commission deleted the existing § 10.121 *Power;* § 10.122 *Additional power;* § 10.124 *Cooperative use of frequencies;* § 10.125 *Service which may be rendered;* § 10.151 *Power;* § 10.233 *Tests.* The following new sections were adopted:

§ 10.112 *Portable stations.* When portable stations in the Emergency Service are moved from one radio inspection district to another, for any purpose, the licensee shall notify the Commission in Washington, D. C. A copy of such notice shall be furnished simultaneously to the Commission's Inspectors in Charge of the respective districts.

§ 10.121 *Service which may be rendered.* Municipal police stations, although licensed primarily for communication with mobile police units, may transmit emergency messages to other mobile units such as fire department vehicles, private ambulances, and repair units of public utilities, in those cases which require cooperation or coordination with police activities. In addition, such stations may communicate among themselves provided (a) that no interference is caused to the mobile service, and (b) that communication is limited to places between which, by reason of their close proximity, the use of police radiotelegraph stations is impracticable. Municipal police stations shall not engage in point-to-point radiocommunication beyond the good service range of the transmitting station. The transmission or handling of messages requiring radiotelephone relay or the relaying of such messages is prohibited; *Provided, however,* That after proper showing and in unusual circumstances the Commission may, in specific instances, authorize communication routes involving such relays. Point-to-point communication between stations in the same local telephone exchange area is likewise prohibited unless the messages to be transmitted are of immediate importance to mobile units.

§ 10.122 *Emergency communication with other stations.* Within the scope of service permitted, municipal and State police stations may be used to communicate with government stations, stations in the War Emergency Radio Service or with other stations which are authorized to communicate with municipal and State police stations, in those cases which require cooperation or coordination of activities.

The Commission having under consideration its Rules Governing Amateur Radio Stations and Operators and its Rules Governing Commercial Radio Operators, with particular reference to the provisions concerning renewals; and

It appearing that present conditions render it difficult for commercial radio operators and for amateur radio station licensees and operators to make a showing of service or use required for renewal of license; and that such difficulty will be accentuated in many instances due to military service:

[Suspension Order 173]

SIMEON MOTOR SALES CO., ET AL.

ORDER RESTRICTING TRANSACTIONS

Simeon Poresgy, doing business as Simeon Motor Sales, Inc., Simmons Motor Sales, Inc., Simmons Motors Inc., and Simmons Motor Sales Company, Inc., Shrewsbury, Massachusetts, hereinafter called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5, Emergency Gasoline Rationing Regulations, and Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing was held on October 16, 1942, in Boston, Massachusetts. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator in Charge of Rationing, it is hereby determined that:

(a) On July 22, 1942, respondent registered as a dealer in gasoline with War Price and Rationing Board No. 278, Shrewsbury, Massachusetts. The total capacity of the gasoline storage facilities at the filling station which respondent registered as his place of business was 3,000 gallons.

(b) Respondent has violated Ration Order No. 5, Emergency Gasoline Rationing Regulations, (§ 1394.18), in that on numerous occasions between May 15, 1942, and July 21, 1942, respondent as a dealer transferred quantities of gasoline to himself as a consumer and into the fuel tanks of private passenger motor vehicles owned by him and for which no gasoline ration card Class X had been issued, without punching, tearing off, obliterating or otherwise cancelling any of the units of any gasoline ration cards or without signing any rationing certificates.

(c) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§ 1394.1503), in that between July 22, 1942, and October 16, 1942, respondent as a dealer transferred 1,896 gallons of gasoline to himself as a consumer without detaching coupons from any gasoline ration coupon book. Such transfers were not within the classes of transfers permitted by Ration Order No. 5A, Gasoline Rationing Regulations, to be made without detaching coupons.

(d) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§§ 1394.1502, 1394.1503), in that on July 22, 1942, respondent as a dealer transferred to consumers and into the fuel tanks of private passenger motor vehicles without receiving in exchange therefor any gasoline ration coupons. Such transfers were not within the classes of transfers permitted by Ration Order No. 5A, Gasoline Rationing Regulations, to be made without the exchange of coupons.

(e) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§§ 1394.1601, 1394.1602), in that on July 24, 1942, in his registration as a dealer, respondent stated on OPA Form R–545 filed with the War Price and Rationing Board No. 278, Shrewsbury, Massachusetts, that the total physical inventory of gasoline on hand at his filling station as of 12:01 A. M. on July 22, 1942, was "none", whereas his actual inventory of gasoline on hand as of 12:01 A. M., July 22, 1942, was at least eighty (80) gallons.

(f) On October 16, 1942, at the hearing above mentioned, respondent placed in the custody of the Office of Price Administration various gasoline ration coupon books which had been issued to him as a consumer and which had an aggregate gallonage value of 1,916 gallons and respondent at the same time also placed in the custody of the Office of Price Administration gasoline ration coupons which he had received from consumers to whom he had sold gasoline and which had an aggregate gallonage value of 769 gallons.

Because of the great scarcity and critical importance of gasoline in the United States, respondent's violations of the Gasoline Rationing Regulations issued by the Office of Price Administration have resulted in the diversion of gasoline from military and essential civilian uses into nonessential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of the Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action is taken: *It is therefore ordered:*

(g) During the period in which this Suspension Order No. 173 shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver or in any manner directly or indirectly transfer any gasoline to respondent for resale.

(h) Within three days from the effective date of this Order, respondent shall surrender for cancellation to War Price and Rationing Board No. 273, Shrewsbury, Massachusetts, all the gasoline ration coupons received by him as a dealer and which he has in his possession at the time this Order is served upon him, and respondent shall also surrender to said Board the certificate of registration on OPA Form R–545 which he received from such Board at the time of his registration as a dealer on July 24, 1942.

(i) The gasoline ration coupons and coupon books heretofore placed in the custody of the Office of Price Administration by respondent at the hearing on October 16, 1942, are hereby cancelled and together with the coupons surrendered pursuant to section (h) of this Order shall be deemed to be surrendered to War Price and Rationing Board No. 278, Shrewsbury, Massachusetts, at the time of respondent's cessation of business pursuant to § 1394.1623 of Ration Order No. 5A, Gasoline Rationing Regulations.

(j) Notwithstanding the provisions of section (g) (2) of this Suspension Order No. 173, respondent, subject to the prior approval of and the supervision by the Regional Administrator of Region I, Office of Price Administration, may dispose of his stocks of gasoline on hand at the time this Order is served upon him.

(k) Any term used in this Suspension Order No. 173 that is defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given it.

(l) This Suspension Order No. 173 shall become effective 12:01 A. M. December 17, 1942, and shall remain in effect until further order of the Deputy Administrator in Charge of Rationing, but not later than December 31, 1944.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125 (7 F.R. 2719); W.P.B. Directive No. 1 (7 F.R. 562) and Supplementary Directive No. 1Q (7 F.R. 9121))

[Suspension Order 176]

ISABELLA MASCARO

ORDER RESTRICTING TRANSACTIONS

Isabella Mascaro, 354 Walnut Street, Springfield, Massachusetts, hereinafter called respondent, was duly served with a notice of specific charges of violation of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing was held on October 29, 1942, in Boston, Massachusetts. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator in Charge of Rationing, it is hereby determined that:

(a) Respondent is a dealer in gasoline and operates a filling station at 354 Walnut Street, Springfield, Massachusetts.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§ 1394.1102), in that between September 12, 1942, and September 18, 1942, respondent sold and delivered to divers consumers 328 gasoline ration coupons Class C.

(c) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§ 1394.1503), in that on September 13, 1942, in Springfield, Massachusetts, respondent transferred 15½ gallons of gasoline to a consumer in exchange for three gasoline ration coupons Class C which had been previously detached from a coupon book that was not issued for and did not bear the identification of the motor vehicle into which the transfer was made; such transfer was not one of the classes of transfers permitted by Ration Order No. 5A, Gasoline Rationing Regulations, to be made without the exchange of gasoline ration coupons.

(d) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§ 1394.1502), in that on various occasions between September 12, and September 18, 1942, respondent transferred gasoline to consumers without the exchange of gasoline ration coupons; such transfers were not of the classes of transfers permitted by Ration Order No. 5A to be made without the exchange of gasoline ration coupons.

Because of the great scarcity and critical importance of gasoline in Massachusetts, violations by respondent of Ration Order No. 5A, Gasoline Rationing Regulations, have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of the gasoline rationing regulations by respondent are likely unless appropriate administrative action is taken: *It is therefore ordered:*

(e) During the period in which this Suspension Order No. 176 shall be in effect,

(1) Respondent shall not in any manner directly or indirectly sell, transfer or deliver any gasoline to any person; *Provided, however,* That subject to the prior approval of and the supervision by the Regional Administrator of Region I, Office of Price Administration, respondent may dispose of her stocks of gasoline on hand at the time this Order is served upon her.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent for resale.

(f) Within three days from the effective date of this Order, respondent shall surrender to the War Price and Rationing Board with which she registered as a dealer, all of the gasoline ration coupons received by her as a dealer and in her possession on the effective date of this Order.

(g) Any terms used in this Suspension Order No. 176 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(h) This Suspension Order No. 176 shall become effective 12:01 A. M. December 17, 1942, and shall remain in effect until further order by the Deputy Administrator in Charge of Rationing but not later than December 31, 1944.

[Suspension Order 178]

AMERICAN CLUB BEVERAGE CO.

ORDER RESTRICTING TRANSACTIONS

David Lischner and Jane Lischner, husbany and wife, doing business as American Club Beverage Company, 2452 Main Street, Hartford, Connecticut, hereinafter called respondents, were duly served with a notice of specific charges of violations of Rationing Order No. 3, Sugar Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing was held October 13, 1942, at Hartford, Connecticut. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been considered by the Deputy Administrator in Charge of Rationing, it is hereby determined that:

(a) Respondents are the owners of American Club Beverage Company, an industrial user of sugar located at 2452 Main Street, Hartford, Connecticut, and are engaged in the business of manufacturing soft drink beverages for sale at wholesale.

(b) Respondents have violated Rationing Order No. 3, Sugar Rationing Regulations, in that on April 28, 1942, in registering the American Club Beverage Company as an industrial user of sugar, respondents incorrectly stated that the amount of sugar used by them in the production of bottled beverages, flavoring extracts, and syrups in the months of August and September, 1941, was 100,000 pounds for each of those months whereas the amount so used was in fact approximately 10,000 pounds for each month, and respondents thereafter in August 1942, knowing that such statements were incorrect, accepted delivery of sugar alloted to them on the basis of such statements in an amount approximately 17,750 pounds in excess of the allotment to which they were then properly entitled.

(c) Respondents have violated Rationing Order No. 3, Sugar Rationing Regulations, in that since May 1, 1942, respondents have failed to make and preserve records showing by months the amounts of sugar received by them, the persons from whom such sugar was received, the use made of such sugar for soft drink beverages, and the amount of soft drink beverages which they produced.

Because of the great scarcity and critical importance of sugar in the United States, respondent's violations of the Sugar Rationing Regulations issued by the Office of Price Administration have resulted in the diversion of sugar from military and essential civilian uses to non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of the Sugar Rationing Regulations by respondents are likely unless appropriate administrative action is taken: *It is therefore ordered,* That:

(d) During the period in which this Suspension Order No. 178 shall be in effect,

(1) Respondents shall not accept delivery of any sugar other than for their personal use as consumers.

(2) No person, firm or corporation shall deliver to respondents any sugar other than for their personal use as consumers.

(3) Respondents shall not sell or deliver any sugar to any person.

(4) Respondents shall not use any sugar for any purpose other than for their personal use as consumers.

(e) Within three days from the effective date of this Order respondents shall surrender for cancellation to the War Price and Rationing Board which issued them all unused sugar purchase certificates issued to American Club Beverage Company.

(f) Any allotments of sugar due to American Club Beverage Company, for November or December 1942, and one-half of the allotment of sugar to the American Club Beverage Company for January 1943, are hereby cancelled.

(g) Any sugar which respondents have on hand, except sugar for their personal use as consumers, at the time this Order becomes effective, shall be deducted from allotments of sugar to become due to American Club Beverage Company after January 15, 1943.

(h) Any term used in this Suspension Order No. 178 which is defined in Rationing Order No. 3, Sugar Rationing Regulations, shall have the meaning therein given it.

(i) This Suspension Order No. 178 shall become effective December 16, 1942 and unless sooner terminated shall expire January 15, 1943.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125 (7 F.R. 2719); W.P.B. Directive No. 1 (7 F.R. 562) and Supplementary Directive No. 1E (7 F.R. 2965))

In the matter of Irving Elias, Michael Moise and Max Menachen, Protective Committee for the holders of convertible obligations, Due 2002, (all series, exclusive of those holders who acquired same by direct exchange for original convertible debenture certificates or convertible debenture obligations, Series F) of Associated Gas and Electric Company.

A declaration having been filed on October 23, 1942, pursuant to sections 11 (g) and 12 (e) of the Public Utility Holding Company Act of 1935, and Rule U-62 promulgated thereunder, regarding a proposed solicitation of authorizations by declarants as a Protective Committee for Holders of Convertible Obligations, due 2002, (all series) of Associated Gas and Electric Company, in connection with the reorganization proceedings, under Chapter X of the Bankruptcy Act, of Associated Gas and Electric Company, a registered holding company, and also of Associated Gas and Electric Corporation, a registered holding company, in the United States District Court for the Southern District of New York; and

An amendment having been filed on October 29, 1942, providing in part that the declaration "shall not become effective until further order of the Commission"; and additional amendments having been filed on October 31, 1942, November 9, 1942, and November 21, 1942, which, among other things, expressly limit the solicitation of authorizations to persons who now hold Convertible Obligations, due 2002, of Associated Gas and Electric Company, but who did not acquire the same by exchanging therefor one or more of the following classes of securities of Associated Gas and Electric Company:

6% Convertible Debenture Certificates, Series A, B, C, D, and E;
6% Convertible Debenture Certificates, Series B of 1929;
6% Convertible Debenture Certificates, 1931 Series;
6% Convertible Debenture Obligations, Series F;
6% Convertible Debenture Certificates, Series B (Manila);
6% Convertible Debenture Certificates, Series C (Manila);

and which amendments also changed the membership of the Committee in such manner that the Committee consists only of persons owning securities of the class from whom authorizations are to be solicited by the Committee, and of persons owning no other securities of Associated Gas and Electric Company senior to the Convertible Obligations, due 2002;

The Commission having considered the declaration, as amended, and finding that the requirements of Rule U-62 are complied with;

It is therefore ordered, That the declaration, as amended, be allowed to become effective forthwith in the manner and on the terms set forth therein.

shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1940, if legumes were produced thereon in 1941 or 1942: and *Provided, further,* if practice (i), (ii) or (iii), specified in subparagraph (2) of this paragraph, or any combination of such practices, is used to meet the requirements with respect to all the sugar beets on the farm, one-sixth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1939, if a perennial legume was produced thereon in 1940, or if any legumes were produced thereon in 1941 or 1942; one-fourth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1940, if legumes were produced thereon in 1941 or 1942; one-fourth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1939; and one-third acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1940: *Provided, further,* That a portion of the acres of soil-conserving practices required for rented acreage of any farm which would otherwise be part of another farm may consist of acres of practices carried out on the latter farm in excess of any practices required thereon, but an acreage of soil-conserving practices equal to not less than 12.5 percent of the acres planted to sugar beets on such rented acreage shall be carried out on the farm of which such rented acreage is a part in excess of any practices which would be required if such rented acreage were not a part of such farm.

For the purposes of paragraph (b) of this section:

(1) The term "crop year" means the calendar year, except where the grower requests that the crop year be a 12-month period beginning 120 days prior to the normal planting date of sugar beets for the community, in which case the crop year shall be such 12-month period, if approval is given by the county committee.

(2) Each of the following which is recommended by the county agricultural conservation committee and approved by the state agricultural conservation committee as a practice applicable to the county for preserving and improving fertility of the soil and for preventing soil erosion shall be deemed to be one acre of soil-conserving practices:

(i) Maintaining until after July 1, 1943, one acre of protective covering of adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(ii) Seeding during the crop year 1943 one-half acre of land to adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(iii) Seeding and maintaining until after December 31, 1943, one acre of a good growth and a good stand of an adapted cover crop, or plowing under during the crop year 1943 one acre of a good stand and a good growth of an adapted green manure crop; or

(iv) Applying during the crop year 1943 eight short tons of animal manure, or the amount of manure normally produced in one year by any of the following: two head of cattle of more than one year of age, two horses, two mules, four calves, four colts, ten sheep, or ten goats; or

(v) Applying during the crop year 1943 not less than eight tons (air dry weight) of leguminous crop residues; or

(vi) Applying during the crop year 1943 three tons of lime, or 1,000 pounds of 18 percent gypsum or its sulphur equivalent; or

(vii) Applying during the crop year 1943 to land planted to sugar beets, or to or in connection with the seeding of legumes except when seeded in rows to be cultivated, or to or in connection with the seeding of perennial grasses, 64 pounds of net available P_2O_5 in the form of commercial fertilizers.

(3) Adapted perennial or biennial legumes, or adapted perennial grasses, or mixtures thereof, or adapted green manure or cover crops, shall be deemed to be those perennial and biennial legumes or perennial grasses or mixtures thereof, or green manure crops, and cover crops, which are approved under the 1943 State Agricultural Conservation Program as being adaptable for the State.

(4) Acres of soil-conserving practices (other than acreage qualifying under practice (i)) carried out to meet similar requirements prescribed for the 1942 sugar beet crop shall not be used to meet the requirements set forth herein for the 1943 crop.

(c) *General provision.* All of the foregoing soil-conserving practices shall be carried out in accordance with the farming methods commonly used in the community in which the farm is located.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulations, Serial No. 247]

AGE LIMITS FOR PILOT CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 5th day of December, 1942.

It appearing that:

1. Certain sections of Parts 20 and 22 relative to the issuance of pilot certificates require that if the applicant be less than 21 years of age at the time of making application he shall submit with his application the written consent of either parent, or legal or natural guardian, to the issuance of a pilot certificate;

2. The Administration is now training in the Civilian Pilot Training Program only those trainees who are enlisted in the service of the armed forces. Such trainees often report for training at schools far from their homes which makes it difficult to secure the required written consent thereby causing undue delays in the progress of their training; and

3. The armed forces require written consent prior to accepting trainees for enlistment and to require further consent appears unnecessary duplication;

The Board finds that:

Its action is necessary to the successful prosecution of the war effort;

Now, therefore, the Civil Aeronautics Board, acting pursuant to sections 205(a), 601, and 602 of the Civil Aeronautics Act of 1938, as amended, makes and promulgates the following special regulation:

"Notwithstanding the provisions of Parts 20 and 22 of the Civil Air Regulations to the contrary, pilot certificates may be issued by the Administrator to applicants under 21 years of age without the written consent of either parent, or legal or natural guardian, if such applicant is a regular or reserve member of the armed forces at the time of making application. This regulation shall terminate at the end of the war."

By the Civil Aeronautics Board.

Secretary.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 270—GENERAL RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

REPURCHASE OF SECURITIES BY CLOSED-END INVESTMENT COMPANIES

The Securities and Exchange Commission, acting pursuant to the authority conferred upon it by the Investment Company Act of 1940, particularly sections 23 (c) (3) and 38 (a) thereof, and deeming such action appropriate in the public interest and for the protection of investors, hereby amends Section 270.23C-1 [Rule N-23C-1] to read as follows:

§ 270.23C-1 *Repurchase of securities by closed-end companies.* (a) A registered closed-end company may purchase for cash a security of which it is the issuer, subject to the following conditions:

(1) If the security is a stock entitled to cumulative dividends, such dividends are not in arrears.

(2) If the security is a stock not entitled to cumulative dividends, at least 90% of the net income of the issuer for the last preceding fiscal year, determined in accordance with good accounting practice and not including profits or losses realized from the sale of securities or other properties, was distributed to its shareholders during such fiscal year or within 60 days after the close of such fiscal year.

(3) If the security to be purchased is junior to any class of outstanding security of the issuer representing indebtedness (except notes or other evidences of indebtedness held by a bank or other person, the issuance of which did not involve a public offering) all securities of such class shall have an asset coverage of at least 300% immediately after such purchase; and if the security to be purchased is junior to any class of outstanding senior security of the issuer which is a stock, all securities of such class shall have an asset coverage of at least 200% immediately after such purchase, and shall not be in arrears as to dividends.

(4) The seller of the security is not to the knowledge of the issuer an affiliated person of the issuer.

(5) Payment of the purchase price is accompanied or preceded by a written confirmation of the purchase.

(6) The purchase is made at a price not above the market value, if any, or the asset value of such security, whichever is lower, at the time of such purchase.

(7) The issuer discloses to the seller or, if the seller is acting through a broker, to the seller's broker, either prior to or at the time of purchase the approximate or estimated asset coverage per unit of the security to be purchased.

(8) No brokerage commission is paid by the issuer to any affiliated person of the issuer in connection with the purchase.

(9) The purchase is not made in a manner or on a basis which discriminates unfairly against any holders of the class of securities purchased.

(10) If the security is a stock, the issuer has, within the preceding six months, informed stockholders of its intention to purchase stock of such class by letter or report addressed to all the stockholders of such class.

(11) The issuer files with the Commission, on or before the tenth day of the calendar month following the month in which the purchase occurs, two copies of a report of purchases made during the month, together with a copy of any written solicitation to purchase securities under this rule sent or given during the month by or on behalf of the issuer to ten or more persons. Form N-23C-1 is hereby prescribed as the form to be used for such report.

(b) Notwithstanding the conditions of paragraph (a), a closed-end company may purchase fractional interests in, or fractional rights to receive, any security of which it is the issuer.

(c) This rule does not apply to purchases of securities made pursuant to section 23 (c) (1) or (2) of the Act (54 Stat. 825; 15 U.S.C. 80a-23). A registered closed-end company may file an application with the Commission for an order under section 23 (c) (3) of the Act permitting the purchase of any security of which it is the issuer which does not meet the conditions of this rule and which is not to be made pursuant to section 23 (c) (1) or (2) of the Act.

(d) This rule relates exclusively to the requirements of section 23 (c) of the Act, and the provisions hereof shall not be construed to authorize any action which contravenes any other applicable law, statutory or otherwise, or the provision of any indenture or other instrument pursuant to which securities of the issuer were issued.

Effective December 11, 1942.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1521]

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

FINDINGS OF FACT, CONCLUSIONS OF LAW, ETC.

Findings of fact, conclusions of law memorandum opinion and order in the matter of the petition of District Board No. 7 for changes in the minimum prices and price classifications for the coals of Eccles No. 5 Mine, Mine Index No. 62, of the Crab Orchard Improvement Company in size group Nos. 1 and 2.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on June 29, 1942, by District Board No. 7, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting changes in the minimum prices and price classifications for the coals of Eccles No. 5 Mine (Mine Index No. 62) in District No. 7. Consumers' Counsel intervened on August 13, 1942. Pursuant to Orders of the Acting Director and after due notice to interested persons, a hearing was held before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C.[1] Interested persons were afforded an opportunity to be present, present evidence, cross-examine witnesses, and otherwise be heard. The petitioner and Consumers' Counsel appeared. At the conclusion of the hearing, all parties waived the preparation and filing of the Report of the Examiner. The record was thereupon submitted to the undersigned.

Eccles No. 5 Mine, Mine Index No. 62, is an old mine taken over in 1930 by the Crab Orchard Improvement Company. At the time that minimum prices and price classifications were established in General Docket No. 15, the company was removing "squeezed" coal from a large number of pillars in the mine. These pillars had been standing for over fifteen years and as a result, the coal in them had become soft in structure and badly fractured. Since structure and ash content are factors considered in the establishment of minimum prices and price classifications of lump and egg coal, the poor structure of the Eccles No. 5 coals and consequent degradation in transit were among the reasons for establishing the Classification "B" for the Size Groups 1 and 2 coals of this mine.

B. R. Gebhart, Vice President of the Crab Orchard Improvement Company, testified that since 1940 the Eccles No. 5 Mine has been decreasing the amount of "squeeze" coal produced and steadily increasing the amount of new and firm coal. By April 1942 the last of this pillar coal had been worked out. With the decrease in the amount of "squeeze" coal produced a decided improvement in the structure of the coal was noted by retailers with the result that Eccles No. 5 lump and egg coal has been competing with coals having Classification "A" since the beginning of 1942. H. A. Thompson, Technical Advisor to District Board No. 7, testified that when a comparison was made of the results of the stability tests conducted by the Commercial Testing and Engineering Company in 1938 and 1942 on lump and egg coal from the Eccles No. 5 Mine, there was found a noticeable improvement, both from the standpoint of structure and in the analytical value as to ash content. It was Thompson's opinion that "The change in structure of the coal was sufficient reason alone for changing its classification from (B) to (A)." On the basis of these findings, District Board No. 7 has concluded that owing to the improved structure of the coal of Eccles No. 5 Mine, Size Groups 1 and 2 should be in Classification "A" rather than "B".

The Consumers' Counsel contended that if the structure of the coals of Eccles No. 5 Mine had improved to such an extent that Size Groups 1 and 2 should have a new classification, then Size Groups 8 and 9 slack coal for this mine should also be reclassified. It was pointed out, however, that the analysis of the coal had not changed and that structure was not an item to be considered in the price classification of slack sizes.

Upon the basis of the uncontroverted evidence, I find that the establishment of effective price classifications and minimum prices requested is proper and will effectuate the purpose of section 4 II (a) and 4 II (b) of the Act and will comply with all the standards thereof.

Now, therefore, it is ordered, That § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: December 1, 1942.

Director.

(f) *Restrictions on production of replacement parts for medium and/or heavy motor trucks, truck-tractors, truck-trailers, passenger carriers, and off-the-highway motor vehicles.* (1) During the first calendar quarter of 1943, a producer of replacement parts for medium and/or heavy motor trucks, truck-tractors, truck trailers, passenger carriers, and off-the-highway motor vehicles may manufacture replacement parts according to either of the following schedules:

(i) Such producer may manufacture replacement parts at his dollar cost value not to exceed one hundred and twenty-five percent (125%) of the total dollar cost value of the replacement parts of his own manufacture sold by him during the average calendar quarter of 1941; provided that such production does not result in the producer's total inventory of finished parts (either produced by him or purchased by him from others) exceeding at any time during the third month in the first quarter of 1943, in dollar cost value, four times the producer's average monthly sales valued at cost during the preceding calendar quarter. In determining dollar cost value of sales, sales to the Army, Navy, and other persons enumerated in paragraph (g) below shall not be included.

(ii) Such producer may manufacture replacement parts not to exceed one hundred percent (100%) of the total dollar cost value of the replacement parts of his own manufacture sold by him during the average calendar quarter of 1941, provided such production does not increase his inventory of finished parts in total cost value (either produced by him or purchased by him from others) at the end of the first quarter of 1943 above his inventory of finished parts at the beginning of the quarter. In determining dollar cost value of sales, sales to the Army, Navy and other persons enumerated in paragraph (g) below shall not be included.

(g) *Exceptions to applicability of this order.* The terms and restrictions of this order shall not apply to any replacement parts sold to or produced under contracts or orders for delivery to or for the account of:

(1) The Army or Navy of the United States or the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(2) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions; Crown Colonies and Protectorates, and Yugoslavia;

(3) Any agency of the United States Government, for delivery to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(h) *Return of replacement parts.* Replacement parts returned to a producer by a distributor are not to be scheduled in the producer's inventory during the quarter in which the parts are received, but shall be included in the producer's inventory in the succeeding calendar quarter.

(i) *Restrictions on sales to consumers.* (1) On and after July 15, 1942, no producer or distributor shall sell or deliver any replacement part to a consumer unless the consumer delivers to the producer or distributor concurrently with the purchase a used part (excepting in the case of cab assemblies and parts consumed in use, lost or stolen) of similar kind and size for each new replacement part delivered to the consumer. No new replacement part shall be sold or delivered to a consumer to replace a part which the producer or distributor can recondition by use of available reconditioning facilities.

(2) Notwithstanding the provisions of paragraph (i) (1) above, a producer or distributor may sell and deliver any replacement part to a consumer without receiving a used part in exchange therefor, *Provided*, That:

(i) The producer or distributor does not install such part in the consumer's vehicle; and

(ii) The consumer signs and delivers to the producer or distributor concurrently with each purchase order (or on the written confirmation thereof if such order is placed by telephone or telegram) a certificate in the following form:

CONSUMER'S CERTIFICATE

I hereby certify that: (a) The replacement parts specified on this order are essential for repair of vehicle(s) I now own or operate; (b) these parts will be used only for replacement of parts that, to the best of my knowledge, cannot be reconditioned by use of available facilities; and (c) I will, within thirty days after receiving the new part(s), dispose of through scrap channels a used part(s) (excepting in the case of cab assemblies and parts consumed in use, lost or stolen) of similar kind and size for each new replacement part delivered to me.

(Address) ________________________________

The foregoing certificate must be retained by the producer or distributor making the sale to the consumer as part of his records.

(j) *Restrictions on distributors' inventories.* (1) On and after August 15, 1942, no distributor, whose principal place of business is located in the Eastern or Central War Time Zone, shall order more than a thirty-day supply of replacement parts, and no such distributor shall accept delivery of replacement parts which, in combination with his existing inventory of replacement parts measured in total dollar cost value, shall exceed a sixty-day supply. Sixty-day supply means a supply in dollar cost value equal to two-thirds of the distributor's total sales, at his cost of such parts, sold by him in the preceding quarterly period.

(2) No distributor, whose principal place of business is located in any other war time zone, shall order more than a forty-five day supply of replacement parts, and no such distributor shall accept delivery of replacement parts which, in combination with his existing inventory of replacement parts, measured in total dollar cost value, shall exceed a ninety-day supply. Ninety-day supply means a supply in dollar cost value at distributor's cost equal to the distributor's total sales, at his cost of such parts, sold by him in the preceding quarterly period.

(3) Irrespective of the restrictions in subparagraphs (1) and (2) above, a distributor may accept delivery of specific items of replacement parts when his stock of all items in the aggregate exceeds, or will by virtue of such acceptance exceed, his maximum permissible inventory as specified in subparagraphs (1) and (2) above, but only to the extent necessary to bring such distributor's inventory of those specific items up to a total dollar value equal to the sales of such items shipped from such inventories during the preceding month.

(4) No distributor may keep in his inventory, in his possession or under his control, for a period of more than thirty days, any used, traded-in, imperfect or condemned replacement parts which cannot be reconditioned, but must dispose of the same through the customary disposal or scrap channels.

(5) Replacement parts consigned to a distributor are not to be considered as part of the distributor's inventory.

(k) *Emergency orders for replacement parts.* Notwithstanding the provisions of paragraph (j) above, a distributor may order and accept delivery of any replacement part which he does not have in stock when required for repair of a designated vehicle which cannot be operated without such part. In such emergency, to secure a replacement part under this paragraph (k), a distributor must file with his order to the producer for said part a certificate in the following form:

PART 1029—FARM MACHINERY AND EQUIPMENT AND ATTACHMENTS AND REPAIR PARTS THEREFOR

[Interpretation 1 of Limitation Order L–170]

In order to clarify the classification of producers under paragraphs (b) (3), (4), (5) and (6) of § 1029.10 *Limitation Order L–170*, resulting from transfers of quotas pursuant to § 944.28 (Interpretation of Limitation and Conservation Orders with respect to the Assignability of Quotas), the following official interpretation is hereby issued with respect to said § 1029.10:

(1) Whenever a producer's total farm equipment business has been or may be sold as a going concern, continuing, in the hands of the purchaser, to make substantially the same product at the same plant and with substantially the same personnel (other than executive officers), the classification of the purchaser shall be based upon his total net sales (including those of affiliates) of all products during 1941, plus total sales of farm machinery and equipment and repair parts by the acquired company during 1941. However, if the purchaser uses the acquired company's 1940 base production under paragraph (b) (12) of Order L–170, then, for purposes of the purchaser's classification, sales of the acquired company during 1940, rather than 1941, must be used.

(2) Any other arrangement whereby a producer purports, or has purported, to assign to another person his quota (or a portion thereof) for the production of farm machinery and equipment or repair parts is invalid, unless specifically authorized for the period covered by Order L–170 by the Director General for Operations pursuant to an appeal, which should be made jointly. If such an appeal is granted, the classification of the assignee, unless otherwise directed, will be based upon his total net sales (including those of affiliates) of all products during 1941, plus the 1941 sales of that portion of the assignor's farm machinery and equipment or repair parts business acquired by the assignee. If the assignee is authorized to use the assignor's 1940 base production of such portion, then, for purposes of the assignee's classification, sales of the assignor during 1940, rather than 1941, must be used.

(3) Assignments of quota specifically authorized by appeal under Limitation Order L–26 for the period ending October 31, 1942, are not recognized for the period covered by Order L–170. Accordingly, a new appeal should be made in each case where the assignee wishes to continue producing pursuant to an assignment of quota authorized under Order L–26. Appeals by any such assignee and his classification are governed by § 944.28 and paragraph (2) above.

Director General for Operations.

(2) Every dealer or supplier who makes a transfer to a consumer, of the type described in paragraph (d) (2), shall keep a record of such transfer, showing the name and address of the transferee, the date of the transfer, and the number of gallons of fuel oil transferred. Every dealer or supplier shall retain such record at his place of business for a period of at least one year from the date of such delivery.

(3) Every person to whom coupon notes have been given shall retain all such coupon notes and, at the time of surrender to him of coupons or other evidences in full redemption of a coupon note, shall return such note to the person who signed it: *Provided*, That on or before December 30, 1942, each such person shall report to the Regional Office of the Office of Price Administration in his region, the name and address of each person who has failed to redeem his coupon notes in full, and the amount of fuel oil transferred to such person.

(4) All coupon notes, records, reports, or other documents required by Limitation Order L–56 to be prepared and kept by any person, and the fuel oil facilities of any person, shall be subject to inspection by the War Production Board or the Office of Price Administration, or by any agent, representative or employee of either; such inspection may be made at the establishment or office of any such person at any reasonable time.

(2) The Director General for Operations or a representative of the Office of Petroleum Coordinator for War designated by him may from time to time examine and investigate the fuel oil burning facilities owned or operated by any person for the purpose of determining whether such equipment can be converted to the use of an alternate fuel. In making such investigation facts and circumstances which may relate to the particular problem, including the availability of alternate fuel, shall be considered. If it is found that the fuel oil burning facilities of any person may be converted to the use of alternate fuel, and that a supply of such fuel is available, without any unreasonable expenditure upon the part of the person and without working any exceptional or unreasonable hardship upon such person, then the Director General for Operations may, after notice sufficient to permit such conversion, forbid further deliveries of fuel oil for use in such facilities.

(i) *Appeals and applications.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may file an appeal setting forth the pertinent facts and the reasons why he considers himself entitled to relief. All appeals shall be filed in quadruplicate. Any appeal involving a defense housing project shall be filed with the local Federal Housing Administration Office which shall review such appeal and transmit it, together with specific recommendations, to the Director of Marketing, Office of Petroleum Coordinator for War, South Interior Building, Washington, D. C.

(j) *Reports and correspondence.* (1) All reports required to be filed and all appeals filed under paragraph (i) shall, unless otherwise directed, be addressed to the District Director of Marketing, Petroleum Administration for War, at:

PART 950—CUTTING TOOLS

[General Preference Order E–2–b as Amended Dec. 12, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of cutting tools for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(4) "Total monthly production" means the total dollar value of each type of cutting tool, including both special and standard tools of that type, to be scheduled for production in any given month by a producer. In calculating total monthly production any producer using cutting tools of his own manufacture in his production of cutting tools or machine tools, or using cutting tools of his own manufacture for original tooling on machine tools being produced by him, shall exclude the value of such cutting tools to be scheduled for production in such month.

(5) "Special cutting tools required for original tooling" means those special cutting tools required as a part of the tooling for a new or rebuilt machine tool, or for a machine tool which is being adapted to an operation different from that in which it was previously employed, in order to make such machine tool usable in production for the purposes intended.

(6) "Continental United States" means the territory comprising the several States and the District of Columbia.

(b) *Scheduling of total monthly production.* Commencing with the month of October, 1942, and every month thereafter each producer shall schedule his total monthly production as follows:

(1) 10 per cent of his total monthly production of each type of cutting tool specified in paragraph (a) (2) shall be scheduled for delivery against purchase orders for that type of special cutting tool required for original tooling, subject to the following provisions:

(i) No purchase order shall be scheduled pursuant to paragraph (b) (1) unless it has been received 15 or more days prior to the 1st day of the month in which it is being scheduled for delivery and unless it bears the following endorsement:

> All cutting tools specified on this purchase order are special cutting tools required for use by the undersigned for original tooling or for resale for such use. Their delivery will not at any time effect an increase of such cutting tools in the undersigned's inventory beyond a ninety-day supply, except as permitted in paragraph (d) (3) of General Preference Order No. E–2–b with the terms of which the undersigned is familiar.

(ii) The sequence of deliveries on purchase orders bearing the above endorsement, within the percentage limitation on orders which may be filled in any given month pursuant to such endorsement, shall be scheduled according to the terms of Priorities Regulation No. 1 and other applicable priorities regulations.

(iii) Purchasers of special cutting tools who have placed their purchase orders prior to September 15, 1942, and who are entitled to obtain their special cutting tools pursuant to paragraph (b) (1) may apply the endorsement herein specified to their existing purchase orders by mailing a letter on or before September 15, 1942, to the producer stating the date and number of the purchaser's order and setting forth the required endorsement.

(iv) Any portion of the percentage set forth in paragraph (b) (1) which has not been taken up by purchase orders properly endorsed hereunder shall be scheduled for delivery against other purchase orders in accordance with paragraph (b) (2) hereof.

(2) Ninety percent of his total monthly production of each type of cutting tool specified in paragraph (a) (2), together with any portion of the percentage stated in paragraph (b) (1) which has not been taken up by purchase orders properly endorsed thereunder, shall be scheduled for delivery against other purchase orders received by such producer subject to the following provisions:

(i) No purchase order shall be scheduled pursuant to paragraph (b) (2) unless such purchase order bears one of the endorsements specified in this order, including the following endorsement:

> The delivery of the cutting tools specified in this purchase order will not at any time effect an increase of such cutting tools in the undersigned's inventory beyond a 90-day supply, except as permitted in paragraph (d) (3) of General Preference Order No. E–2–b, with the terms of which the undersigned is familiar.

(ii) Purchase orders for special cutting tools required by any prime or subcontractor of the Army, Navy, Maritime Commission, or War Shipping Administration as a result of a change in design or other alteration in the specifications of the product being produced by such prime contractor or subcontractor shall be given preference over all other purchase orders scheduled pursuant to paragraph (b) (2). No such purchase order shall be given such preference unless it has been received 15 or more days prior to the 1st day of the month in which such purchase order is being scheduled for delivery and unless it bears the following endorsement:

All cutting tools specified on this order are special cutting tools required by the undersigned as a result of change in design or other alteration in the specifications of the product being produced by a prime or subcontractor of the Army, Navy, Maritime Commission, or War Shipping Administration. Their delivery will not at any time effect an increase of such cutting tools in the undersigned's inventory beyond a 90-day supply, except as permitted in paragraph (d) (3) of General Preference Order No. E–2–b, with the terms of which the undersigned is familiar.

(iii) Except as otherwise provided in paragraph (b) (2), the sequence of deliveries of purchase orders scheduled pursuant to paragraph (b) (2), within the percentage limitation on orders which may be filled pursuant thereto, shall be scheduled according to the terms of Priorities Regulation No. 1 and other applicable priorities regulations.

(iv) Purchasers of cutting tools who have placed their purchase orders prior to September 15, 1942, and who are entitled to obtain such cutting tools pursuant to paragraph (b) (2) may apply to their existing purchase orders the endorsement herein specified for such purchase orders by mailing a letter on or before September 15, 1942, to the producer stating the date and number of the purchaser's order and setting forth the required endorsement.

(c) *Effect of endorsement.* Any endorsement made pursuant to this order shall constitute a representation to the seller and to the War Production Board of the truth of the facts therein set forth, upon which the seller shall be entitled to rely unless he knows or has reason to believe the same to be false.

(d) *Restriction on sales and purchases of cutting tools.* (1) Except as provided in (d) (1) (i) and (ii) below, no person shall sell or deliver, nor shall any person buy or accept delivery of, any cutting tools except pursuant to a preference rating of A–9 or higher, or except pursuant to specific permission of the Director General for Operations.

(i) Purchase orders for special cutting tools carrying a rating of A–10 received prior to August 31, 1942, may be completed and delivered.

(2) No person shall sell or deliver, nor shall any person buy or accept delivery of, any cutting tools unless the purchase order for such cutting tools is accompanied by the endorsement specified for such purchase order in this order: *Provided, however,* That cutting tools, which are delivered with another tool, may be purchased, sold and delivered without such endorsement so long as such cutting tools are required to render such other tool usable in production for the purposes intended.

(3) No person shall buy or accept delivery of any cutting tools, the delivery of which will at any time effect an increase in the purchaser's inventory thereof beyond a 90-day supply: *Provided, however,* That deliveries of cutting tools, pursuant to the following designated types of purchase orders, shall be permitted to effect such an increase:

(i) Purchase orders for a quantity which is the producer's minimum practicable manufacturing quantity.

(ii) Purchase orders placed by any procurement agency of the United States pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(5) No person shall sell or deliver to the same purchaser, nor shall any person buy or accept delivery from one or more sellers of, more than the producer's minimum practicable manufacturing quantity of special cutting tools pursuant to paragraph (b) (2) (ii): *Provided, however,* That, except as otherwise provided in paragraph (d) (3) hereof, three sets of special cutting tools of the same type and size required by reason of any single change in design or other alteration in the specifications of the product being produced by a prime or subcontractor of the Army, Navy, Maritime Commission or War Shipping Administration, may be purchased, sold and delivered.

(e) *Continuance of schedules.* Schedules of production and delivery of cutting tools as established by Priorities Regulation No. 1 and other applicable regulations shall be continued until October 1, 1942 subject to the restrictions on sales and deliveries thereof contained in paragraph (d) (1) hereof. Thereafter production and delivery shall be scheduled in accordance with this order: *Provided, however,* That present schedules on purchase orders placed by the Procurement Division of the United States Treasury for shipment to the U. S. S. R. shall be maintained notwithstanding priorities regulations or any other provision of this order if the delivery schedules for such order have been established by a specific letter to the producer from the Director General for Operations or his predecessor, the Director of Industry Operations.

(f) *Allocation of cutting tool capacity in emergencies.* Notwithstanding the provisions of this order, the Director General for Operations may allocate to any purchaser, or may order any cutting tools scheduled for production and delivery at a specific time for a specific purchaser. No person other than the Director General for Operations may give any directions concerning sequence of production or deliveries of cutting tools.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of material conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director General for Operations by addressing a letter to the War Production Board, Washington, D. C., Ref: E–2–b, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Tools Division, Washington, D. C., Ref: E–2–b.

[Supplementary Limitation Order L–71–a]

HEARING AID BATTERIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of hearing aid batteries, and critical materials used in the production of such batteries for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1142.2 *Supplementary General Limitation Order L–71–a*—(a) *Definitions.* For the purposes of this order:

(1) "Hearing aid battery" means any dry cell battery designed and produced primarily for use in any hearing aid device for personal use.

(e) *Violations.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

PART 1172—ASBESTOS TEXTILES

[Conservation Order M–123 as Amended Dec. 14, 1942]

Section 1172.1 (Conservation Order M–123) is hereby amended to read as follows:

§ 1172.1 *Conservation Order M–123*—(a) *Definitions.* For the purposes of this order:

(1) "Asbestos textile" means any material produced from the mineral asbestos by a carding operation. The term also includes such material at any stage of process subsequent to the carding operation, except where it has become a finished item, or part thereof, or has been physically incorporated in a finished item, or part thereof. The term does not include scrap.

(2) "Supplier" means any person who produces any asbestos textiles in any form, either for use by himself as a manufacturer or for sale to other manufacturers. The term also includes any person who offers any asbestos textile for sale to manufacturers.

(3) "Manufacturer" means any person who uses any asbestos textile to manufacture or fabricate a finished item.

(4) "Put into process" means the first change by the manufacturer in the form of material from that form in which it is received by him.

(5) "Process" means change in any way the size, form, shape, or characteristics of the material. It also means assemble.

(6) "Assemble" means combine or add parts, whether of asbestos textile or any other material, with or to other products or parts manufactured or fabricated in whole or in part of asbestos textile, where the final product will not be a finished item ready for immediate sale or use without the combination or addition of such products or parts. The term shall not be deemed to include the putting together of a finished item after delivery to a sales outlet or consumer in knockdown form pursuant to an established custom. The term shall also not be deemed to include adding finished parts to an otherwise finished item where the placing of one or more finished parts, or the size or type of one or more finished parts, is determined by the use to which the ultimate consumer is to put the item.

(7) "Finished item" means oil burner wicking or any item on List A or List B.

(8) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of, or under common control with, or available for the use of, such person.

(9) "Implements of war" means combat and products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armament, weapons, ships, tanks, and military vehicles), and any parts, assemblies, and materials to be incorporated in any of the foregoing items being produced for the Army or the Navy of the United States, the Maritime Commission, the War Shipping Administration, or for any foreign government pursuant to the act approved March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), where the use of any asbestos textile to the extent employed is required by the latest issue of government specifications (including performance specifications, unless otherwise directed by the Director General for Operations) applicable to the contract, subcontract, or purchase order. The term does not include facilities or equipment used to manufacture the foregoing items.

(10) "Scrap" means any asbestos textile, the further process of which as an asbestos textile is not practicable.

(b) *Restrictions on delivery of asbestos textiles.* On and after December 14, 1942, no supplier shall deliver any asbestos textile to any manufacturer when he knows, or has reason to know, that such manufacturer will receive or use such asbestos textile in violation of the terms of this order.

(c) *Restrictions on manufacture of List A products*—(1) *Putting into process.* On and after December 14, 1942, no manufacturer shall put into process any asbestos textile to make any item on List A or part thereof.

(2) *Processing.* On and after December 14, 1942, a manufacturer may continue the processing of any asbestos textile already in process on such date to make any item on List A or part thereof, provided the processing thereof will be completed on or before February 1, 1943. On and after February 1, 1943, no manufacturer shall process in any way any asbestos textile to make any item on List A or part thereof.

(d) *Restrictions on manufacture of List B products.* On and after the governing date specified in List B, no manufacturer in the manufacture of any item on List B shall put into process any asbestos textile of a grade containing a greater percentage of asbestos than underwriter's grade as defined in paragraph (5) (a) of A. S. T. M. Designation: D299–37.

(e) *Restrictions on manufacture of oil burner wicking.* In the period between December 14, 1942, and January 1, 1943, and in any calendar month thereafter, no manufacturer shall put into process any asbestos textile in the manufacture of oil burner wicking in excess of 1/24 of the aggregate amount by weight of such asbestos textile put into process by such manufacturer in the manufacture of oil burner wicking in the calendar year 1941.

(f) *Restrictions on delivery of finished items.* No person shall deliver or accept delivery of any finished item which he knows, or has reason to know, was manufactured in violation of the terms of this order.

(g) *General exception.* Except as provided in paragraph (f), none of the provisions of this order shall be deemed to limit or restrict the sale, delivery, or use of any finished item, or the further processing of any such item, provided such further processing is necessary for purposes of installation, application, servicing, or repair of such item.

(h) *Limitations of inventories*—(1) *Suppliers' inventories.* No supplier shall produce asbestos textiles which shall result in an inventory of such material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of asbestos textiles by this order.

(2) *Manufacturers' inventories.* No manufacturer shall receive delivery of any asbestos textile in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw material in quantities which in either case shall result in an inventory of raw, semi-processed, or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of asbestos textiles by this order.

(i) *Reports.* Each supplier, each manufacturer, and every other person affected by this order shall file such re-

(2) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items manufactured after December 14, 1942, irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to such date. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided, the use of asbestos textile in the production of any item, the limitations of such other order shall be observed.

(3) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Cork-Asbestos Division, Washington, D. C.: Ref.: M–123.

(4) "Restricted machinery" means

(i) Any new commercial laundry machinery, commercial dry cleaning machinery and tailors' pressing machinery, and

(ii) Any secondhand commercial laundry machinery, commercial dry cleaning machinery and tailors' pressing machinery having a value in excess of $100 at the time of sale, lease, delivery, or other transfer: *Provided,* That secondhand machinery which is in such condition at the time of transfer that it cannot be used efficiently for the purposes for which it was designed and which is transferred with the intention that the machinery will be rebuilt or reconditioned by or at the expense of either the transferer or transferee, or both, shall be restricted machinery if its value after such rebuilding or reconditioning will exceed $100.

(5) "Emergency repair loan" means the temporary leasing or lending of restricted machinery to replace similar machinery while the latter is being repaired.

(b) *Restrictions on delivery.* (1) Regardless of the terms of any contract of sale or purchase or other commitment, or of any preference rating certificate, no person shall sell, purchase, lease, deliver, receive delivery of, or otherwise transfer or acquire restricted machinery without authorization by the Director General for Operations on Form PD–418, except as provided in paragraphs (b) (2), (b) (3), (b) (4), (b) (5) and (b) (6) of this order.

(2) The restrictions of paragraph (b) (1) shall not apply if the sale, lease, delivery or other transfer of restricted machinery is to a person acquiring the machinery neither for use nor for export.

(3) The restrictions of paragraph (b) (1) shall not apply if the restricted machinery sold, leased, delivered or otherwise transferred is secondhand and the transfer is by someone other than a manufacturer or distributor to a person acquiring the secondhand restricted machinery for use at the place at which it was last previously used.

(4) The restrictions of paragraph (b) (1) shall not apply to the delivery of restricted machinery from one manufacturer or distributor to another manufacturer or distributor to fill an order or part of an order received by the latter if the filling of the order has been authorized on Form PD–418.

(5) The restrictions of paragraph (b) (1) shall not apply to an emergency repair loan pursuant to written or telegraphic authorization of the Director General for Operations, for a period not in excess of forty-five days, or to the return of any restricted machinery to its owner by the manufacturer or distributor to whom that owner delivered the machinery for repair, rebuilding or reconditioning.

(6) The restrictions of paragraph (b) (1) shall not apply to direct or indirect purchases by the Army of the United States (except purchase orders placed by or for delivery to army exchange services) or by the Navy of the United States (except purchase orders placed by or for delivery to ships' service departments) if the purchase order bears a certification by the person placing the purchase order that notice of intention to place such purchase order has been sent to the War Production Board by such person or by the armed service which ultimately will receive the equipment. For purposes of this paragraph and paragraph (d) (1) an indirect purchase by the Army or Navy is a purchase of restricted equipment by a prime contractor or a sub-contractor of the Army or Navy for ultimate delivery to the Army or Navy, provided that the equipment purchased is constructed in accordance with specifications established by the Army or Navy and the installation of the equipment is to be supervised by the Army or Navy.

(c) *Procedure for deliveries.* (1) All persons making application for an authorization under paragraph (b) (1) of this order shall make such application on Form PD–418. Applicants who secure authorization upon Form PD–418 shall surrender such Form PD–418 to their supplier before completing the transaction authorized. Such authorizations shall expire thirty days after the date of their issuance unless served in the interim upon the supplier named therein. Within five days after their expiration all expired authorization forms shall be returned for cancellation to the War Production Board.

(2) Persons seeking authorization to make emergency repair loans pursuant to paragraph (b) (5) shall apply in writing, either by letter or telegram, to the War Production Board, Washington, D. C.

(3) Any person who purchases, leases, receives delivery of, or otherwise acquires restricted machinery neither for use nor for export, or who acquires second-hand restricted machinery from a person other than a manufacturer or distributor for use at the place at which the machinery transferred was last previously used, shall certify on his purchase order or contract that such is the case. The person receiving such certification shall be entitled to rely on such representation unless he knows or has reason to believe it to be false.

(d) *Prohibition of production of new machinery.* No manufacturer shall fabricate or assemble any new commercial laundry or dry cleaning machinery, or any new tailors' pressing machinery, except as follows:

(1) To fill orders for machinery constructed in accordance with specifications of, and purchased directly or indirectly by, the Army of the United States (except army exchange services) or the Navy of the United States (except ships' service departments),

(2) To fill orders approved on Form PD–418 for, and in accordance with specifications of, the Army or Navy of any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act),

(3) To fill orders approved on Form PD–418 for the Maritime Commission or the War Shipping Administration,

(4) To fill orders approved on Form PD–418 for machinery to equip a vessel constructed by or for the Navy, Maritime Commission, War Shipping Administration or Office of Lend-Lease Administration, or to equip a cantonment or other Army or Navy base constructed for the use and operation of the Army or Navy of the United States,

(5) To fill orders approved on Form PD–418 for a bag loading or other ordnance plant where the hazard is such that commercial laundry or dry cleaning machinery or tailors' pressing machinery has been certified to be necessary by the Army or Navy, or

(6) To complete the assembly of commercial laundry or dry cleaning machinery or tailors' pressing machinery to fill other orders approved by the Director General for Operations on Form PD–418, if the only operation necessary to complete the machinery for delivery is the final assembly of completely fabricated parts.

(e) *Production Requirements Plan.* Unless otherwise authorized by the Director General for Operations, no commercial laundry or dry cleaning machinery, or tailors' pressing machinery, including maintenance or repair parts therefor, shall be manufactured except by a person who has filed an application under Priorities Regulation No. 11 (Production Requirements Plan) on a form of the PD–25 series for his material requirements for such manufacture for which he requires priority assistance.

(f) *Non-applicability to rebuilding, reconditioning, repair or maintenance of existing equipment.* The restrictions of paragraph (b) and paragraph (d) of this order shall not be construed to restrict the manufacture, acquisition, sale, or delivery, in any manner, of parts to be used to rebuild, recondition, repair or maintain existing machinery, or machinery delivered under the terms of this order. The above provision for parts for rebuilding, reconditioning, repair, or maintenance includes replacement parts to be used for such purposes.

(g) *Restrictions on use of materials.* (1) No monel metal, nickel, nickel silver, or nickel chrome steels shall be used in the production of new restricted machinery, except when specified by the Army (not including army exchange services), the Navy (not including ships' service departments) or the Maritime Commission, or the War Shipping Administration of the United States.

(2) No person shall use parts for rebuilding, reconditioning, or repairing commercial laundry machinery, commercial dry cleaning machinery or tailors' pressing machinery which parts have an aggregate weight in excess of forty percent of the weight of the machinery which is repaired, rebuilt, or reconditioned, except when necessary in order to meet specifications of the Army (except army exchanges), the Navy (except ships' service departments), the Maritime Commission, or the War Shipping Administration of the United States.

(3) Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms of any order or regulation effective at the date of any such sale, delivery or other transfer.

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time, with the exception of Priorities Regulation No. 17.

(i) *Appeals.* Any appeal from the provisions of this order shall be filed on Form PD–500 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may

be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Records.* Each person affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and sales of commercial laundry and dry cleaning machinery and tailor's pressing machinery.

(l) *Reports.* (1) Each person affected by this order shall execute and file with the War Production Board such reports, information, and answers to questionnaires as the War Production Board shall from time to time request.

(2) On or before January 7, 1943, for the month of December 1942, and on or before the seventh day of each month thereafter, for the preceding month, each manufacturer or distributor of commercial laundry or dry cleaning machinery, or tailors' pressing machinery shall file a monthly report on Form PD–419.

(m) *Communications to War Production Board.* All reports and information required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Service Equipment Division, Washington, D. C.; Ref.: L–91.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Interpretation 2 of General Limitation Order L–123, as Amended]

The following official interpretation is hereby issued by the Director General for Operations with respect to General Limitation Order L–123 (§ 1226.1) as amended November 24, 1942:

> Paragraph (a) (2) defines "general industrial equipment" to mean new equipment of the kinds listed, from time to time, in List A to the order. Such equipment is deemed to be new when it has not been delivered to any person acquiring it for use. Paragraph (b) imposes restrictions on the acceptance of orders for, and commencement of production and deliveries of, general industrial equipment.
>
> Paragraph (c) provides an exemption from the restrictions of paragraph (b) for any order or delivery of maintenance and repair parts in an amount not exceeding $1,000 for any single piece of general industrial equipment to be repaired or maintained; or in any amount for the repair of general industrial equipment when there is an actual breakdown or suspension of operations of such piece of equipment. The exemption provided in paragraph (c) is intended for such repair or maintenance parts to be used to repair or maintain any existing equipment, i. e., equipment which has been delivered for use to a user and requires repair or maintenance. The exemption is not intended to apply to spare parts for new equipment nor is it limited to the repair or maintenance of equipment delivered after the date of the order.

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 60]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

By a designation and rent declaration issued by the Administrator on October 5, 1942, the Administrator designated as defense-rental areas certain localities including the Nebraska Defense-Rental Area, consisting ~~of~~ that portion of the State of Nebraska not theretofore designated by the Administrator as part of any defense-rental area. Since the issuance of the said designation and rent declaration, the number of removals of tenants from possession, by means of evictions, actions to evict, and notices to quit or vacate sharply increased in that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay. The purpose and effect of such removals of tenants from possession was to increase the rents of the housing accommodations involved.

In the judgment of the Administrator, such increased removals of tenants from possession constituted speculative or manipulative practices or renting or leasing practices which were equivalent to or likely to result in rent increases inconsistent with the purposes of the Emergency Price Control Act of 1942. Accordingly, the Administrator under the authority vested in him by the Act, issued Eviction Regulation No. 1, effective November 6, 1942, in the said portion of the Nebraska Defense-Rental Area.

In the judgment of the Administrator, rents for housing accommodations within the said portion of the Nebraska Defense-Rental Area have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said designation and rent declaration issued October 5, 1942.

The Administrator is accordingly issuing this Maximum Rent Regulation No. 60 for housing accommodations in the said portion of the Nebraska Defense-Rental Area. This Maximum Rent Regulation No. 60 includes provisions with respect to the removal of tenants from possession. These provisions take the place of similar provisions in the said Eviction Regulation No. 1. The Administrator is therefore revoking the said Eviction Regulation No. 1.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said portion of the Nebraska Defense-Rental Area inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said portion of the Nebraska Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

[2] 7 F.R. 8948.

[3] 7 F.R. 4662, 6895, 7403 and 8948.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for housing accommodations within the said portion of the Nebraska Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 60 is hereby issued.

AUTHORITY: §§ 1388.781 to 1388.794, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.781 *Scope of regulation.* (a) This Maximum Rent Regulation No. 60 applies to all housing accommodations within that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay (referred to hereinafter in this maximum rent regulation as the "defense-rental area"), as designated in the designation and rent declaration (§§ 1388.1341 to 1388.1345, inclusive) issued by the Administrator on October 5, 1942, except as provided in paragraph (b) of this section.

(b) This maximum rent regulation does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the maximum rent regulation for hotels and rooming houses pursuant to the provisions of that regulation: *Provided,* That this maximum rent regulation does apply to entire structures or premises though used as hotels or rooming houses.

(4) Housing accommodations rented to the United States acting by the National Housing Agency: *Provided, however,* That this maximum rent regulation does apply to a sublease or other subrenting of such accommodations or any part thereof.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this maximum rent regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this maximum rent regulation is void. A tenant shall not be entitled by reason of this maximum rent regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this maximum rent regulation.

§ 1388.782 *Prohibition against higher than maximum rents.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 60 of any housing accommodations within the defense-rental area higher than the maximum rents provided by this maximum rent regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this maximum rent regulation may be demanded or received.

(b) Notwithstanding any other provision of this maximum rent regulation, where housing accommodations are heated with fuel oil the landlord of such accommodations may as hereinafter provided enter into an agreement with the tenant providing for payment by the tenant of part or all of the cost of changing the heating unit to use some fuel other than oil or of installing a new heating unit using some fuel other than oil. Prior to making such agreement the landlord shall in writing report the terms of the proposed agreement to the Area Rent Office. The landlord may enter into the agreement either upon its approval by the Administrator or, unless the Administrator has disapproved the proposed agreement within 5 days after the filing of such report, upon the expiration of such 5-day period.

(c) Where a lease of housing accommodations was entered into prior to the effective date of this maximum rent regulation and the tenant as a part of such lease or in connection therewith was granted an option to buy the housing accommodations which were the subject of the lease, with the further provision that some or all of the payments made under the lease should be credited toward the purchase price in the event such option is exercised, the landlord, notwithstanding any other provision of this maximum rent regulation, may be authorized to receive payments made by the tenant in accordance with the provisions of such lease and in excess of the maximum rent for such housing accommodations. Such authority may be secured only by a written request of the tenant to the Area Rent Office and shall be granted by order of the Administrator if he finds that such payments in excess of the maximum rent will not be inconsistent with the purposes of the Act or this maximum rent regulation and would not be likely to result in the circumvention or evasion thereof. After entry of such order the landlord shall be authorized to demand, receive and retain payments provided by the lease in excess of the maximum rent for periods commencing on or after the effective date of this maximum rent regulation. After entry of such order, the provisions of the lease may be enforced in accordance with law, notwithstanding any other provision of this maximum rent regulation: *Provided, however,* That if at the termination of the lease the tenant shall not exercise the option to buy, the landlord may thereafter remove or evict the tenant only in accordance with the provisions of § 1388.786 of this maximum rent regulation. Nothing in this paragraph shall be construed to authorize the landlord to demand or receive payments in excess of the maximum rent in the absence of an order of the Administrator as herein provided. Where a lease of housing accommodations has been entered into on or after the effective date of this maximum rent regulation, and the tenant as a part of such lease or in connection therewith has been granted an option to buy the housing accommodations which are the subject of the lease, the landlord, prior to the exercise by the tenant of the option to buy, shall not demand or receive payments in excess of the maximum rent, whether or not such lease allocates some portion or portions of the periodic payments therein provided as payments on or for the option to buy.

§ 1388.783 *Minimum services, furniture, furnishings and equipment.* Except as set forth in § 1388.785 (b), every landlord shall, as a minimum, provide with housing accommodations the same essential services, furniture, furnishings and equipment as those provided on the date determining the maximum rent, and as to other services, furniture, furnishings and equipment not substantially less than those provided on such date: *Provided, however,* That where fuel oil is used to supply heat or hot water for housing accommodations, and the landlord provided heat or hot water on the date determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

§ 1388.784 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.785) shall be:

(a) For housing accommodations rented on March 1, 1942, the rent for such accommodations on that date.

(b) For housing accommodations not rented on March 1, 1942, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two-month period.

(c) For housing accommodations not rented on March 1, 1942 nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation No. 60, the first rent for such accommodations after March 1, 1942. The Administrator may order a decrease in the maximum rent as provided in § 1388.785 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after March 1, 1942 and before the effective date of this maximum rent regulation, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however*, That where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.785 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this maximum rent regulation, or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between January 1, 1942 and such effective date, the first rent for such accommodations after the change or the effective date, as the case may be. Within 30 days after so renting the landlord shall register the accommodations as provided in § 1388.787. The Administrator may order a decrease in the maximum rent as provided in § 1388.785 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved, but in no event more than the rent on March 1, 1942, or, if the accommodations were not rented on that date, more than the first rent after that date.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942, as determined by the owner of such accommodations: *Provided, however*, That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.785 (c).

(h) For housing accommodations rented to either Army or Navy personnel, including civilian employes of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established on the effective date of this maximum rent regulation by such rent schedule. The Administrator may order an increase in such rents, if he finds that such increase is not inconsistent with the purposes of the Act or this maximum rent regulation.

§ 1388.785 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on March 1, 1942, the difference in the rental value of the housing accommodations by reason of such change: *Provided, however*, That no adjustment shall be ordered where it appears that the rent on the date determining the maximum rent was fixed in contemplation of and so as to reflect such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942. In cases involving construction due consideration shall be given to increased costs of construction, if any, since March 1, 1942. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on March 1, 1942.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 60 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to March 1, 1942, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on March 1, 1942 was fixed by a lease or other rental agreement which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent. No increase in the maximum rent shall be ordered on the ground set forth in this paragraph (a) (3) unless the increase in services, furniture, furnishings or equipment occurred with the consent of the tenant or while the accommodations were vacant: *Provided*, That an adjustment may be ordered, although the tenant refuses to consent to the increase in services, furniture, furnishings or equipment, if the Administrator finds that such increase (i) is reasonably required for the operation of a multiple dwelling structure or other structure of which the accommodations are a part or (ii) is necessary for the preservation or maintenance of the accommodations.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942.

(5) There was in force on March 1, 1942, a written lease, for a term commencing on or prior to March 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942; or the housing accommodations were not rented on March 1, 1942, but were rented during the two months ending on that date and the last rent for such accommodations during that two-month period was fixed by a written lease, for a term commencing on or prior to March 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942.

(6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) (1) If, on the effective date of this maximum rent regulation, the services provided for housing accommodations are less than the minimum services required by § 1388.783, the landlord shall either restore and maintain such minimum services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. If, on such effective date, the furniture, furnishings or equipment provided with housing accommodations are less than the minimum required by § 1388.783, the landlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment.

(2) Except as above provided, the landlord shall, until the accommodations become vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the accommodations become vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph may be decreased in accordance with the provisions of § 1388.785 (c) (3). If the landlord fails to file the petition or report required by this paragraph within the time specified, or decreases the services, furniture, furnishings or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date of this maximum rent regulation, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings or equipment. In such case, any order decreasing the maximum rent shall be effective to decrease such rent from the beginning of the first rental period after the decrease in services, furniture, furnishings or equipment or after the effective date of this maximum rent regulation, whichever is the later. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for housing accommodations under paragraph (c), (d), (e), or (g), of § 1388.784 is higher than the rent generally prevailing in the defense rental area for comparable housing accommodations on March 1, 1942.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a decrease in the minimum services, furniture, furnishings or equipment required by § 1388.783 since the date or order determining the maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this maximum rent regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942.

(e) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the administrator for leave to exercise any right he would have except for this maximum rent regulation to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this maximum rent regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

(f) Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) of this section, the Administrator may enter an interim order increasing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order upon such petition. The receipt by the landlord of any increased rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment of cash or, where the tenant remains in occupancy after the effective date of the final order, by reduction from the next installment of rent or both.

(g) No adjustment in the maximum rent shall be ordered on the ground that the landlord, since the date or order determining the maximum rent, has, as a part of or in connection with a lease of housing accommodations, granted the tenant an option to buy the accommodations which are the subject of the lease. Where a lease of housing accommodations was in force on the date determining the maximum rent, and the landlord had on that date, as a part of or in connection with such lease, granted the tenant an option to buy the accommodations which are the subject of the lease, the Administrator may, on or after the termination of such lease, on his own initiative or on application of the tenant, enter an order fixing the maximum rent on the basis of the rents which the Administrator finds were generally prevailing in the defense-rental area for comparable housing accommodations not subject to an option to buy on March 1, 1942.

§ 1388.786 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, and regardless of any contract, lease, agreement or obligation heretofore or hereafter entered into which provides for entry of judgment upon the tenant's confession for breach of the covenants thereof or which otherwise provides contrary hereto, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this maximum rent regulation, or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspecting or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however*, That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons

who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord owned, or acquired an enforceable right to buy or the right to possession of, the housing accommodations prior to November 6, 1942, and seeks in good faith to recover possession of such accommodations for immediate use and occupancy as a dwelling for himself. If a tenant has been removed or evicted under this paragaraph (a) (6) from housing accommodations, the landlord shall file a written report on a form provided therefor before renting the accommodations or any part thereof during a period of six months after such removal or eviction.

(b) (1) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation No. 60 and would not be likely to result in the circumvention or evasion thereof.

(2) Removal or eviction of a tenant for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after November 6, 1942, is inconsistent with the purposes of the Act and this maximum rent regulation and would be likely to result in the circumvention or evasion thereof, unless (i) the payment or payments of principal made by the purchaser, excluding any payments made from funds borrowed for the purpose of making such principal payments, aggregate 33⅓% or more of the purchase price, and (ii) a period of three months has elapsed after the issuance of a certificate by the Administrator as hereinafter provided. For the purposes of this paragraph (b) (2), the payments of principal may be made by the purchaser conditionally or in escrow to the end that they shall be returned to the purchaser in the event the Administrator denies a petition for a certificate. If the Administrator finds that the required payments of principal have been made, he shall, on petition of either the vendor or purchaser, issue a certificate authorizing the purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law at the expiration of three months after the date of issuance of such certificate. In no other case shall the Administrator issue a certificate for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after November 6, 1942, unless he finds that the vendor has or had a substantial necessity requiring the sale and that a reasonable sale or disposition of the accommodations could not be made without removal or eviction of the tenant, or unless he finds that other special hardship would result; under such circumstances the payment by the purchaser of 33⅓% of the purchase price shall not be a condition to the issuance of a certificate, and the certificate shall authorize the vendor or purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

The provisions of this section shall not apply to housing accommodations rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(d) (1) Every notice to a tenant to vacate or surrender possession of housing accommodations shall state the ground under this section upon which the landlord relies for removal or eviction of the tenant. A written copy of such notice shall be given to the Area Rent Office within 24 hours after the notice is given to the tenant.

No tenant shall be removed or evicted from housing accommodations, by court process or otherwise, unless, at least ten days prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notices of the proposed removal or eviction to the tenant and to the area rent office, stating the ground under this section upon which such removal or eviction is sought and specifying the time when the tenant is required to surrender possession.

When the ground for removal or eviction of a tenant is non-payment of rent, every notice under this paragraph (d) (1) shall state the rent for the housing accommodations, the amount of rent due and the rental period or periods for which such rent is due. The provisions of this paragraph (d) (1) shall not apply where a certificate has been issued by the Administrator pursuant to the provisions of paragraph (b) of this section.

(2) At the time of commencing any action to remove or evict a tenant, including an action based upon non-payment of rent, the landlord shall give written notice thereof to the area rent office stating the title of the case, the number of the case where that is possible, the court in which it is filed, the name and address of the tenant, and the ground under this section on which removal or eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.787 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 60, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this maximum rent regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof, on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity therewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator, the landlord shall deliver his stamped copy of the registration statement to the area rent office for appropriate action reflecting such change.

The foregoing provisions of this section shall not apply to housing accommodations under § 1388.784 (g). The owner of such housing accommodations shall file a schedule or schedules, setting out the maximum rents for all such accommodations in the defense-rental area and containing such other information as the Administrator shall require. A copy of such schedule or schedules shall be posted by the owner in a place where it will be available for inspection by the tenants of such housing accommodations.

The provisions of this section shall not apply to housing accommodations rented to either Army or Navy personnel, including any civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

§ 1388.788 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.789 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 60 shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations, by way of absolute or conditional sale, sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.790 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 60 are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.791 *Procedure.* All registration statements, reports and notices provided for by this maximum rent regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.792 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 60 may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 61A]

HOTELS AND ROOMING HOUSES

In the judgment of the Administrator, rents for housing accommodations within that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay, designated in the designation and rent declaration issued by the Administrator on October 5, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said designation and rent declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said portion of the Nebraska Defense-Rental Area inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said portion of the Nebraska Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for rooms in hotels and rooming houses within the said portion of the Nebraska Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 61A is hereby issued.

AUTHORITY: §§ 1388.831 to 1388.844, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.831 *Scope of regulation.* (a) This Maximum Rent Regulation No. 61A applies to all rooms in hotels and rooming houses within that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay (referred to hereinafter in this maximum rent regulation as the "defense-rental area"), as designated in the designation and rent declaration (§§ 1388.1341 to 1388.1345, inclusive) issued by the Administrator on October 5, 1942, except as provided in paragraph (b) of this section.

(b) This maximum rent regulation does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this maximum rent regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this maximum rent regulation is void. A tenant shall not be entitled by reason of this maximum rent regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this maximum rent regulation.

(e) Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this maximum rent regulation. A landlord who so elects shall file a registration statement under this maximum rent regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this maximum rent regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the maximum rent regulation for housing accommodations other than hotels and rooming houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this maximum rent regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke

his election, and thereby bring under the control of the maximum rent regulation for housing accommodations other than hotels and rooming houses all housing accommodations previously brought under the maximum rent regulation by such election. He shall make such revocation by filing a registration statement or statements under the maximum rent regulation for housing accommodations other than hotels and rooming houses, including in such registration statement or statements all housing accommodations brought under this maximum rent regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the maximum rent regulation for housing accommodations other than hotels and rooming houses.

§ 1388.832 *Prohibition.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 61A of any room in a hotel or rooming house within the defense-rental area higher than the maximum rents provided by this maximum rent regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this maximum rent regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this maximum rent regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.833 *Minimum services, furniture, furnishings and equipment.* Except as set forth in § 1388.835 (b), every landlord shall, as a minimum, provide with a room the same essential services, furniture, furnishings and equipment as those provided on the date or during the thirty-day period determining the maximum rent, and as to other services, furniture, furnishings and equipment not substantially less than those provided on such date or during such period: *Provided, however,* That where fuel oil is used to supply heat or hot water for a room, and the landlord provided heat or hot water on the date or during the thirty-day period determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

§ 1388.834 *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in § 1388.835) shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on March 1, 1942, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period, or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on March 1, 1942, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after March 1, 1942; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section the first rent for the room after March 1, 1942, for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942, as determined by the owner of such rooms: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.835 (c) (1).

(e) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment, if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

(f) For a room rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established on the effective date of this Maximum Rent Regulation by such rent schedule. The Administrator may order an increase in such rents, if he finds that such increase is not inconsistent with the purposes of the Act or this Maximum Rent Regulation No. 61A.

§ 1388.835 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the defense-rental area for comparable rooms on March 1, 1942: *Provided, however,* That no maximum rent shall be increased because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on March 1, 1942, the difference in the rental value of the accommodations by reason of such improvement or increase: *And provided further,* That no adjustment shall be ordered because of a major capital improvement, an increase or decrease in services, furniture, furnishings or equipment, or a deterioration, where it appears that the rent during the thirty-day period determining the maximum rent was fixed in contemplation of and so as to reflect such change. In cases involving construction due consideration shall be given to increased costs of construction, if any, since March 1, 1942. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the defense-rental area for comparable rooms during the year ending on March 1, 1942.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from

ordinary repair, replacement and maintenance.

(2) There was, on or prior to March 1, 1942, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on March 1, 1942, was fixed by a lease or other rental agreement which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the defense-rental area for comparable rooms on March 1, 1942.

(5) There was in force on March 1, 1942, a written lease, for a term commencing on or prior to March 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the defense-rental area for comparable rooms on March 1, 1942.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) (1) If, on the effective date of this Maximum Rent Regulation, No. 61A, the services provided for a room are less than the minimum services required by § 1388.833, the landlord shall either restore and maintain such minimum services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. If, on such effective date, the furniture, furnishings or equipment provided with a room are less than the minimum required by § 1388.833, the lardlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment.

(2) Except as above provided, the landlord shall, until the room becomes vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the room becomes vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph may be decreased in accordance with the provisions of § 1388.835 (c) (3). If the landlord fails to file the petition or report required by this paragraph within the time specified, or decreases the services, furniture, furnishings or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date of this maximum rent regulation, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings or equipment. In such case, any order decreasing the maximum rent shall be effective to decrease such rent from the beginning of the first rental period after the decrease in services, furniture, furnishings or equipment or after the effective date of this maximum rent regulation, whichever is the later. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the defense-rental area for comparable rooms on March 1, 1942.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a decrease in the minimum services, furniture, furnishings or equipment required by § 1388.833 since the date or order determining the maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this maximum rent regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable rooms on March 1, 1942.

§ 1388.836 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this maximum rent regulation; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure such violation after written notice by the landlord that the violation cease; or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), the landlord shall file a written report on a form provided therefor before renting the room during a period of 6 months after such removal or eviction.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so

certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this maximum rent regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the area rent office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis.

(3) Rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.837 *Registration and records.* (a) Within 45 days after the effective date of this Maximum Rent Regulation No. 61A every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this maximum rent regulation under paragraphs (b) or (c) of § 1388.834 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Within 45 days after the effective date of this maximum rent regulation, every landlord shall post and thereafter keep posted conspicuously in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator the landlord shall alter the card or sign so that it states the changed rent or rents.

The foregoing provisions of this paragraph shall not apply to rooms under § 1388.834 (d). The owner of such rooms shall post a copy of the registration statement in a place where it will be available for inspection by the tenants of such rooms.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

(d) The provisions of this section shall not apply to rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(e) Every landlord of a room rented or offered for rent shall preserve, and make available for examination by the Administrator, all his existing records showing or relating to (1) the rent for each term and number of occupants for which such room was rented or regularly offered for rent during the thirty-day period determining the maximum rent for such room and (2) the rent on any date determining a maximum rent for such room for a particular term and number of occupants under § 1388.834 (c).

Every landlord of an establishment containing more than 20 rooms rented or offered for rent shall keep, preserve, and make available for examination by the Administrator, records showing the rents received for each room, the particular term and number of occupants for which such rents were charged, and the name and permanent address of each occupant; every other landlord shall keep, preserve, and make available for examination by the Administrator, records of the same kind as he has customarily kept relating to the rents received for rooms.

§ 1388.838 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may from time to time require.

§ 1388.839 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 61A shall not be evaded, either directly or indirectly in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.840 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 61A are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.841 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 61A shall be filed with the area rent office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.842 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 61A may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1389—APPAREL

[MPR 287]

MANUFACTURERS' PRICES FOR WOMEN'S, GIRLS' AND CHILDREN'S OUTERWEAR GARMENTS

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for manufacturers of certain women's, girls', and children's outerwear garments. The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.[*] Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 287 is hereby issued.

§ 1389.351 *Applicability of this regulation*—(a) *What garments must be priced under this regulation.* This regulation applies only to those women's, girls' and children's outerwear garments which are described and identified by a category number in Appendix A (§1389.370).

(b) *What persons must price under this regulation.* This regulation establishes maximum prices for sales by "manufacturers". A manufacturer is a person who sells a garment which he has fabricated or which has been fabricated for him by an agent or by a "contractor" as that term is defined in Maximum Price Regulation No. 172.[1]

§ 1389.352 *How to use the pricing rules in this regulation*—(a) *Manufacturers except "manufacturing-retailers," "custom tailors," and "dressmakers."* All manufacturers (except "manufacturing-retailers," "custom tailors," and "dressmakers") should refer to § 1389.353 for the pricing of their garments.

Paragraph (a) of § 1389.353 provides a "Pricing Chart" which must be prepared before a manufacturer may sell or deliver any garments covered by this regulation. Certain terms used in paragraph (a) are explained in paragraph (b). Paragraph (c) contains the seven pricing rules which are to be used:

Rules 1 and 2 are to be used for pricing garments of the same category number as those delivered during March 1942.

Rule 3 is to be used for pricing garments of a category number different from those delivered during March 1942.

Rule 4 is to be used after January 20, 1943, for pricing garments by manufacturers who delivered garments covered by this regulation during March 1942, and who have not received from the Office of Price Administration an acknowledgment of the receipt of the filing of their Pricing Chart.

Rules 5 and 6 are to be used by manufacturers who made no deliveries during March 1942 of any garments covered by this regulation.

(b) *"Manufacturing-retailers."* Manufacturers who are "manufacturing-retailers" should price their garments by Rule 7 (§ 1389.354). A "manufacturing-retailer" is a manufacturer who maintains one or more establishments selling at retail, or who otherwise sells to ultimate consumers and who sells substantially all of the garments that he manufactures to ultimate consumers. On sales of garments to others than ultimate consumers manufacturing-retailers shall use Rules 1 through 6 (§ 1389.353).

(c) *"Custom tailors" and "dressmakers."* Manufacturers who are "custom tailors" or "dressmakers" should use Rule 8 (§ 1389.355) for the pricing of their garments. A "custom tailor" or "dressmaker" is a manufacturer who sells to ultimate consumers from his own regular establishment, garments fabricated by himself to the individual specifications and at the special order of such ultimate consumers. He shall use Rule 8 only in pricing those garments which he sells as a custom tailor or dressmaker to ultimate consumers.

§ 1389.353 *Pricing of garments by manufacturers, except manufacturing-retailers and custom tailors*—(a) *Pricing chart.* Before selling or delivering any garment priced under this regulation, the manufacturer must prepare a pricing chart containing:

(1) A list of the category numbers delivered during March 1942.

(2) A list of each of the "selling price lines" delivered during March 1942, in each category number.

(3) The "average initial percentage margin" taken on each selling price line listed in (2) of this paragraph.

(4) The "maximum allowable margin" for each selling price line listed in (2) of this paragraph.

(5) The "minimum allowable cost" for each selling price line listed in (2) of this paragraph.

(6) The customary discounts, allowances, and trade differentials for each selling price line listed in (2) of this paragraph.

An example showing the calculations to be made in this pricing chart and a suggested form are found in Appendix B (§ 1389.371). Two copies of the pricing chart must be filed with the appropriate district or state office of the Office of Price Administration on or before January 11, 1943. The manufacturer shall preserve an additional copy for his own use.

Any manufacturer who has filed his pricing chart and then finds that the pricing chart filed was incorrect, may file two copies of an amended pricing chart setting forth the inaccuracies and the reasons therefor. Until he shall have received an acknowledgment from the Office of Price Administration of the receipt of this amended pricing chart, however, he shall not take a higher maximum

allowable margin than that which he has previously reported for that selling price line.

(b) *Explanation of terms used in the previous paragraph.* (1) "Selling price line" means the price at which a manufacturer first offered for sale to his general trade a style of garment on the occasion of its first cutting. Subsequent offers to sell, or sales of the same style, at higher or lower prices, are not to be considered as establishing separate selling price lines. Selling prices which differ from the prices customarily established for the general trade, because of discounts, allowances, or price differentials for different classes of purchasers, do not constitute selling price lines. Sample sales or accommodation sales shall not be considered as establishing a selling price line.

(2) "Average initial percentage margin," for a selling price line shall be calculated in the following manner:

Step 1: Find the "direct cost" of each style delivered during March 1942 in the selling price line.

Direct cost means the cost of materials, trimmings and direct labor, at the time of the first cutting, calculated in accordance with the instructions contained in Appendix D (§ 1389.373).

Costs of each style delivered during March 1942 must be calculated as of the time of the first cutting even if the first cutting of the style was prior to March 1942.

Step 2: Find the total direct cost of all styles delivered in March 1942 in the selling price line, by adding together the direct costs (Step 1) of each style.

Step 3: Find the average initial cost of garments in the selling price line by dividing the total direct cost (Step 2) by the number of styles in the line.

Step 4: Find the average initial dollar margin of garments in the selling price line by subtracting the average initial cost (Step 3) from the selling price line.

Step 5: Divide the average initial dollar margin (Step 4) by the selling price line. The result is the average initial percentage margin.

Example: A manufacturer during March 1942 delivered three styles in his $10.75 selling price line for Category No. 1. After calculating material, trimmings and direct labor costs in accordance with the instructions contained in Appendix D (Section 1389.373), he finds that the direct cost of Style 1 was $8.60, Style 2, $8.91, and Style 3, $9.10. The total direct cost of all styles in the selling price line is, therefore, $26.61. The average initial cost is $8.87 ($26.61 divided by 3). The average initial dollar margin is $1.88 ($10.75 less $8.87), and the average initial percentage margin is 17½% ($1.88 divided by $10.75).

(3) *Maximum allowable margin where the selling price lines have an 8% or higher discount to the general trade.* (i) If a manufacturer's average initial percentage margin on a selling price line is 22% or less, then his maximum allowable margin for that selling price line shall be the same as his average initial percentage margin.

(ii) If a manufacturer's average initial percentage margin on a selling price line is higher than 22%, then his maximum allowable margin for that selling price line shall be 90% of his average initial percentage margin or 22%, whichever is higher: *Provided,* That in no event shall his maximum allowable margin for any selling price line be higher than 46%.

(4) *Maximum allowable margin where the selling price lines are on a discount less than 8% to the general trade.* The percentage margins stated in subparagraph (3), namely 22% and 46% are to be used only where the selling price lines have an 8% or higher discount to the general trade. If the selling price line is on a net basis or on any discount less than 8%, the percentage margins stated in subparagraph (3) shall be adjusted as explained in Appendix C. (§ 1389.372.)

(5) *"Minimum allowable cost"* is calculated by multiplying the selling price line by the maximum allowable margin and subtracting the result from the selling price line.

Example: If a manufacturer's maximum allowable margin on his $10.75 selling price line is 30%, he multiplies $10.75 by 30% and subtracts the result ($3.22) from $10.75. The difference, $7.53, is the minimum allowable cost.

(c) "Pricing rules." A manufacturer may not sell any garments in a selling price line different from the selling price lines at which he delivered garments of the same category number during March 1942, except that he may sell garments in a lower selling price line than the lowest selling price line at which he delivered garments of the same gategory number during March 1942.

A manufacturer must not change his customary discounts, allowances and trade differentials, unless the change results in a lower net price.

Rule 1: Sales at March 1942 selling price lines. Garments of the same category number and in the same selling price lines as garments delivered during March, 1942 must contain a direct cost no less than the minimum allowable cost for that selling price line.

For example, if a manufacturer's minimum allowable cost for his $4.75 selling price line in Category No. 22 is $3.60, then every garment in Category No. 22 sold in a $4.75 selling price line must contain a direct cost of $3.60 or more.

However, a garment which contains the minimum allowable cost may be sold at a lower price than the selling price line.

For example, this same manufacturer may sell a garment in Category No. 22 which contains a direct cost of $3.60 or more at $4.50, or at any other price lower than $4.75. Customary discounts, allowances and trade differentials may not be changed, however, unless the change results in a lower net price.

Rule 2: Sales at lower selling price lines than the lowest March 1942 selling price line. A manufacturer shall establish the maximum price for garments sold in a selling price line lower than the lowest selling price line at which he delivered garments of the same category number during March 1942 by taking a margin over direct cost no higher than the maximum allowable margin for the lowest selling price line of the same category number.

For example, a manufacturer wants to sell garments of Category No. 22 in a $2.75 selling price line. His lowest selling price line for Category No. 22 during March 1942 was $3.75. He finds that his maximum allowable margin for that selling price line is 20%. Garments which he sells in a $2.75 selling price line must contain a direct cost equal to or greater than 80% of $2.75. Thus his minimum allowable cost for garments in a $2.75 selling price line is $2.20.

Rule 3: Pricing of garments of a category number not delivered during March 1942. A manufacturer who delivered garments of any category number during March 1942 and who now wishes to sell garments of a different category number from those he delivered during March 1942, must price by this rule.

He shall refer to Appendix E (§ 1389.374) for instructions to determine the selling price lines in which he may sell garments of a new category number. He may only sell in those selling price lines indicated by Appendix E (§ 1389.374) and in no other selling price lines.

A manufacturer shall establish maximum prices for garments sold in a new category number by taking a margin over direct cost no higher than the average of the maximum allowable margins for every selling price line that he delivered during March 1942, in every category number.

The average of the maximum allowable margins is determined by finding the total of all the maximum allowable margins which the manufacturer took on all selling price lines which he delivered during March 1942 and dividing this total by the number of selling price lines.

For example, if the manufacturer whose report is illustrated in Appendix B (§ 1389.371) delivered only garments in Category Nos. 21 and 22 shown in that Pricing Chart during March 1942, his maximum allowable margin for garments in a new category number shall be 30%. This is calculated by adding 22%, 27%, 20%, 46%, 15%, 41.3% and 38.7% and then dividing the sum, 210 by 7, thus giving him the maximum allowable margins for the garments of new category numbers of 30%.

If he desires to make women's coats, Category No. 1, the Table in Appendix E indicates that he would use Group I and could sell women's coats in a $16.75 selling price line. Thus, his minimum allowable cost in that selling price line would be $11.73. This is calculated by taking a maximum allowable margin of 30% on the $16.75 selling price line.

Rule 4: Manufacturers who have not received acknowledgment of the filing of their pricing chart prior to January 20, 1943. Any manufacturer who delivered garments covered by this regulation during March 1942, and who has failed to receive an acknowledgment from the Office of Price Administration indicating that his pricing chart has been filed, shall price all garments delivered after January 20, 1943, by Rule 4. This rule requires him to price garments by Rules 1, 2 and 3 with the exception that his maximum allowable margin on every selling price line shall be 15%. He shall use Rule 4 until he receives acknowledgment from the Office of Price Administration of the filing of the pricing chart.

Rule 5: Manufacturers not in business during March 1942, who commenced business prior to December 1, 1942. Except in the case of transfers of business as provided in § 1389.361, a manufac-

turer who did not deliver garments during March 1942, but who delivered garments between September 1 and November 30, 1942, inclusive, shall establish the maximum prices for his garments by either Rule 5 or Rule 6. In order to price by Rule 5 he shall follow the procedure set forth in Rules 1, 2 and 3, with the exception that for the purposes of this Rule 5 he shall substitute the months of September, October, and November, 1942, for the month of March 1942, as the base period.

On or before January 11, 1943, every manufacturer who elects to price by Rule 5 must file with the appropriate district or state office of the Office of Price Administration two copies of his pricing chart using the months of September, October, and November 1942, as his base period. In addition he shall file, in duplicate, a statement as to the date of commencement of business, date of first delivery of garments covered by this regulation and that he elects to price under Rule 5 of Maximum Price Regulation No. 287. If a manufacturer fails to file his pricing chart and statement, he cannot price under Rule 5 and must price under Rule 6.

The maximum prices established by a manufacturer under Rule 5 are subject to adjustment at any time by the Office of Price Administration.

A manufacturer who did not deliver garments during March 1942, but delivered garments before December 1, 1942, may at his option price under Rule 5 or Rule 6.

Rule 6: Manufacturers not in business during March 1942. Except in the case of transfers of business as provided in § 1389.361, a manufacturer who did not deliver garments covered by this regulation during March, 1942, and who does not elect to price under Rule 5 may not sell or deliver garments until he has received authorization from the Office of Price Administration to establish maximum prices. Three copies of an application for authorization to establish maximum prices shall be filed with the appropriate district or state office of the Office of Price Administration, setting forth the following:

(1) Applicant's name and address.

(2) Date of commencement of business.

(3) Names of all owners, officers or principals of applicant.

(4) Previous business connections of all owners, officers or principals of applicant.

(5) Category numbers of garments desired to be sold.

(6) Selling price lines for each category number of garments desired to be sold. (These must be taken from Appendix E. (§ 1389.374).)

(7) Maximum margins desired for each selling price line and terms of sale.

(8) A list of the names and addresses of five manufacturers whose methods of operations are most nearly like the methods of operation by which applicant intends to operate.

(9) Information with regard to the following:

(i) Type of trade to which garments are to be distributed—e. g., retail stores, mail order houses, etc.

(ii) Proposed method of distribution—e. g., showroom sales, traveling salesman, advertising, etc.

(iii) Proposed methods of manufacturing—e. g., contractors, inside shop, section work, piece work, etc.

(iv) Methods of styling—e. g., number of designers, etc.

If authorization be given, it will be accompanied by instructions as to a method for establishing maximum prices of the garments to be sold. These instructions may be revised at any time by the Office of Price Administration.

§ 1389.354 *Pricing of garments by manufacturing-retailers — Rule 7* — (a) *Who shall price under Rule 7.* A manufacturer who maintains one or more establishments selling at retail, or who otherwise sells to ultimate consumers, and who sells substantially all of the garments that he manufactures to ultimate consumers, shall establish the maximum prices for the garments which he manufactures and sells to ultimate consumers by this rule. Garments which he sells to others than ultimate consumers shall be priced by Rules 1, 2, 3, or 4.

(b) *Method of pricing.* (1) A manufacturing-retailer shall price garments he manufactures by using Rules 1, 2, 3, or 4, except that he shall calculate his maximum allowable margin in the following manner:

(i) If his average initial percentage margin for a selling price line is 30% or less, then his maximum allowable margin shall be his average initial percentage margin.

(ii) If his average initial percentage margin for a selling price line is higher than 30%, then his maximum allowable margin for that selling price line shall be 97% of his average initial percentage margin, or 30%, whichever is higher.

(2) In determining his March 1942, selling price lines and the styles delivered in March 1942, a manufacturing-retailer shall consider only those garments delivered by him to ultimate consumers during March 1942 as a manufacturing-retailer. If he did not deliver garments as a manufacturing-retailer during March 1942, then he shall use Rule 5 or Rule 6.

(c) *Pricing Chart.* Manufacturing-retailers shall prepare and file the Pricing Chart as required by § 1389.353 (a).

§ 1389.355 *Pricing of garments by "dressmakers" and "custom tailors"—Rule 8.* "Dressmakers" and "custom tailors" who sell to ultimate consumers from their own regular establishments garments fabricated by themselves to the individual specifications and at the special order of such ultimate consumers shall price by Rule 8 only those garments which are so manufactured and sold. Rule 8 requires that they shall establish their maximum prices for such garments by §§ 1499.2 and 1499.3 of the General Maximum Price Regulation.[2]

§ 1389.356 *Manufacturers who cannot price by preceding Rules—Rule 9.* A manufacturer who cannot determine his price under any of the previous pricing rules shall not sell or deliver any garments, until he shall first have received specific authorization from the Office of Price Administration. He shall file with the nearest district or state office of the Office of Price Administration three copies of an application setting forth in detail the reasons why he cannot price under any of the rules set forth in this regulation, and a statement of the category numbers, the selling price lines and the minimum allowable costs for each selling price line that he requests permission to sell.

If such authorization be given it will be accompanied by instructions as to the method of establishing maximum prices. Such authorization may be revised at any time by the Office of Price Administration.

A manufacturer who cannot determine his maximum allowable margin because of inadequate records shall price by this rule.

§ 1389.357 *Prohibitions.* On and after December 15, 1942, regardless of any contract or other obligation:

(a) No manufacturer shall sell or deliver garments in a selling price line different from the selling price lines permitted by this regulation.

(b) No manufacturer shall sell or deliver garments on which he obtains a margin higher than the maximum allowable margins permitted by this regulation.

(c) No person shall sell or deliver garments at a price higher than the maximum prices set forth in this regulation.

(d) No person shall change his customary allowances, discounts or other price differentials, unless such change results in a lower net price.

(e) No person in the course of trade or business shall buy or receive any garment which was sold in violation of paragraphs (a), (b), (c) or (d) of this section.

(f) No person shall agree, offer, solicit or attempt to do any of the acts prohibited in paragraphs (a), (b), (c), (d), and (e) of this section.

(g) No seller shall, for the purposes of evading the price limitations set forth in this regulation sell, purchase, deliver, contract, deal or otherwise operate with or through any other person under common control with, control by, controlling or otherwise affiliated with the seller.

§ 1389.358 *Posting of selling price lines by manufacturers.* On or before December 31, 1942, every manufacturer shall post in a prominent place in his showroom, a statement listing each category number and description (for example, Category No. 22, "Misses'" and "Jr. Misses'" Dresses—Sizes 9–20), and each selling price line which he delivered during March 1942, in each category number.

(b) *Cost record.* Upon each cutting of a style of garment, a manufacturer shall prepare a record showing his cost. This record shall contain at least the information provided for in Appendix D (§1389.373) and shall be prepared in accordance with the instructions therein set forth.

A manufacturer may, at his option, continue to maintain his records in his customary form provided that they contain all of the information required in Appendix D (§ 1389.373).

(c) *Purchase record.* A separate record of all purchases by type of material or trimming shall be kept which will indicate the following: (1) firm name of the supplier of materials and trimmings, (2) the date the materials and trimmings were received, (3) invoice number, (4) number of yards, dozens or units received, (5) cost of freight, if freight is borne by manufacturer of garment, (6) gross price of materials and trimmings received, (7) per cent and dollar discounts, (8) net price of materials and trimmings received, and (9) net price per yard, dozen or unit of materials and trimmings received.

§ 1389.361 *Transfers of business.* (a) If the business, assets or stock in trade of any business shall be or shall have been sold or otherwise transferred after April 28, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, except as provided in paragraphs (b) and (c) of this section, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer, which are necessary to enable the transferee to comply with the record provisions of this regulation.

(b) No person shall buy, sell, transfer, lease or exchange the business, assets or stock in trade of a business for the purpose of securing higher or different selling price lines, higher or more advantageous margins, or for the purpose of securing any other benefit which may be prohibited to him by this regulation.

(c) If after December 14, 1942, two or more manufacturers merge or combine and continue to operate as one manufacturer, the manufacturer which shall continue to operate, shall establish his prices under this regulation, as if he were the manufacturer who had the largest dollar volume of sales during the twelve months immediately preceding the combination or merger.

§ 1389.362 *Invoices, sales slips and receipts*—(a) *Manufacturers selling to others than ultimate consumers.* Every manufacturer shall, in connection with every sale of garments, except sales to ultimate consumers, deliver an invoice showing: (1) the date, (2) the name and address of the seller and purchaser, (3) the style number of each of the different styles of garments sold, (4) the quantities of each different style of garment sold, (5) the price contracted for or charged by the seller for each different style of garment sold, and (6) all discounts, allowances, and other price differentials.

Each style sold must be separately itemized.

(b) *Manufacturers selling to ultimate consumers.* Every manufacturer selling to ultimate consumers who has customarily given to the ultimate consumer a sales slip, receipt or similar evidence of purchase, shall continue to do so. § 1389.363 *Licenses*—(a) *Licenses required.* A license, as a condition of selling, is hereby required of every manufacturer now or hereafter making a sale of a garment for which a maximum price is established by this regulation. (b) *Licenses granted.* Every person now or hereafter making a sale of any garment for which a maximum price is established by this regulation or by any amendment thereto, is hereby granted a license as a condition of selling such garment. The provisions of this regulation shall be deemed to be incorporated in the license hereby granted, and any violation of any provision so incorporated shall be a violation of the provisions of said license. Such license shall be effective on the effective date of this regulation, or when any such person becomes subject to the provisions of this regulation, and shall unless suspended in accordance with the provisions of the Emergency Price Control Act of 1942, as amended, continue in force as long as such regulation or any amendment or supplement thereto remains in effect.

(2) A manufacturer may sell and deliver prior to January 11, 1943, garments which are recuts or reorders of styles which were manufactured for ultimate sale at retail during the fall and winter season of 1942–43 at prices established under § 1389.3 (b) of Maximum Price Regulation No. 153, as amended. However, recuts and reorders of styles for which prices were established prior to December 15, 1942, under § 1499.2 (a) of the General Maximum Price Regulation shall be priced under this regulation, on and after the effective date of this regulation. As to garments listed in Categories Nos. 1, 2, 3, 4, and 5, the date shall be February 1, 1943, instead of January 11, 1943.

(3) *Maximum allowable margin.* (i) If a manufacturer's average initial percentage margin on a selling price line is 15.2% or less, then his maximum allowable margin for that selling price line shall be the same as his average initial percentage margin.

(ii) If a manufacturer's average initial percentage margin for a selling price line, is higher than 15.2%, then the maximum allowable margin for that selling price line shall be 90% of the average initial percentage margin or 15.2%, whichever is higher: *Provided*, That in no event shall the maximum allowable margin for any price line be higher than 41.3%.

(c) *Selling price lines on other terms.* If the selling price line for which the maximum allowable margin is being calculated is based on different discount terms, the following table is to be used:

Terms	Basic margin	Over-riding margin

1	15.9	41.8
2	16.9	42.5

§ 1389.373 *Appendix D: Cost records*—(a) *Instructions for preparing cost records.* A separate cost record must be kept for each cutting of any garment covered by this regulation. A "cutting" is considered a group of garments of the same style that are put into production as one lot, or on one order, and are completed at approximately the same time. Garments may be considered as in the same cutting even though the size of the lot, or order, requires the fabric to be physically cut in two or more lays. On second and subsequent cuttings detailed entries are not necessary, except to specify changes in cost which have occurred.

The following items are to be included in the required records:

(1) *Category number.* Section 1389.370 lists thirty-one categories. State the number of the category which describes the garment.

(2) "Selling price line" should be determined in accordance with § 1389.353 (b) (1).

(3) *Terms of sale.* State the customary discounts offered to each class of trade.

(4) "Maximum allowable percentage margin and minimum allowable cost" are to be calculated as required in § 1389.353. See also Appendix B (§ 1389.371).

(5) *Price rule used.* This regulation provides 9 rules for pricing. Record the number of the pricing rule used: for example, Rule 1, Rule 3, etc.

(6) "Style number of garment and description" must include an identification of the style and type of garment.

(7) "Date first cut for stock or order" shall be the date of the first cutting of the style, excluding the cutting of samples or duplicate samples.

(8) *Cost of materials.* The following data relating to materials cost must be recorded: cutting ticket number or other identification, description of materials used, total number of yards used, net cost per yard, total cost of materials in all garments cut, and the average cost per unit or per dozen garments.

The following instructions relate to calculations of costs of materials:

(i) Total cost of materials shall be calculated at (*a*) actual net cost of materials, or (*b*) the maximum price, at the time of cutting, that the regulations of the Office of Price Administration permit your customary source of supply to charge for said materials, whichever of the two is lower.

(ii) Only net cost of materials shall be used in your calculations. Net cost is the amount paid for the materials after deducting all discounts. Incoming transportation or uncut yard goods may be added to net cost if paid by you. Storage, warehousing and insurance charges shall not be included in the cost of materials.

(iii) In no case shall you include in your cost any amount charged or expense established by means of or resulting from a fictitious sale, fictitious billing, or fictitious valuation of materials.

(iv) On a cutting where materials consist of lots purchased at different costs, the quantities of materials at each cost shall be calculated in determining the net cost of materials used.

(v) When woolen materials are used, you may add to the cost of materials the actual net cost of shrinking and examining paid by you, but not included as part of the purchase price of the woolens. If the woolen fabrics used in the garments were shrunk after purchasing, state the number of yards used and the net cost on the basis upon which you purchased the fabric from your supplier of the material.

(9) *Cost of trimmings.* The following data relating to trimmings cost must be recorded: a description of each trimming, and accessory used in the manufacture of the garments (including all work such as pleating, embroidery, fagoting, etc., not performed in your plant), the total quantity used in yards, dozens or units, the net cost per yard, dozen or unit, the total cost of trimmings in all garments cut, and the cost per unit or dozen garments.

The instructions for calculating the net cost of materials shall apply to the calculation of net trimming cost.

(10) "Direct labor costs" shall be calculated on the basis of wage rates paid by you on March 31, 1942, plus any subsequent increase thereto pursuant to a collective bargaining contract or other wage agreement, which contract was entered into on or before July 1, 1942, and provides for an unconditional increase of wage rates of a fixed amount or per cent. If you paid wage rates at the time of cutting in excess of the above basis, proper downward adjustments shall be made in calculating the labor costs for the garments. The following additional instructions relate to calculations of direct labor costs:

(i) No make-up or overtime shall be included in calculating labor costs.

(ii) The following operations are examples of what shall be considered direct labor: cutting, pattern grading, marking, assorting or dividing, operating or sewing, pressing or ironing, finishing by hand, factory examining of garments and similar costs.

(iii) Items of indirect labor or overhead costs shall not be included in calculating the direct labor cost of the garments. Examples of what shall be considered indirect labor are: foremen, floor men, supervisory examination of garments, repairing and maintenance personnel, designers, sample room employees, porters, watchmen, piece goods clerks, buyers, receiving room employees, clerical employees, shipping room employees, etc.

(iv) The following are examples of overhead costs: unemployment insurance, social security, pension contribution, contributions to welfare funds, health or accident insurance, workman's compensation, and any present or future tax upon, or measured by wages, etc.

(v) Overhead, administration expenses or factory burden shall not be included in direct cost of the garments. Examples of these are: insurance, storage, warehousing, outgoing freight, transportation to and from contractors, factory supplies, light, power, machine supplies, machine part replacements, and repairs, rent, taxes, etc.

(vi) General administrative expenses shall not be included. Examples of these are: executive and officers' salaries, telephone, telegrams, stationery, printing, postage, travelling expenses, legal and professional fees, donations, etc.

(vii) Contractors' overhead and profit allowance shall not be included in the direct labor cost of the garments. If you have garments produced by contractors, you shall maintain complete records at your principal place of business showing the contractor's costs of direct labor. Contractors are required to furnish to manufacturers all data on labor and trimmings costs necessary to enable the manufacturer to prepare the records required by this regulation.

(11) "Direct cost of each garment" shall be the total of the material, trimming, and direct labor costs specified above. If the total direct cost of all the garments in a cutting shall be equal to or greater than the sum of the minimum allowable cost for the garment multiplied by the number of garments cut, then for the purpose of this regulation, every garment in that cutting shall be considered to have the minimum allowable cost.

(12) *Size differences.* If a style is manufactured to sell in a size range and garments of the average size in that size range contain the minimum allowable cost, then on subsequent cuttings of that style, garments which are lower in cost than the average size, only because different sizes are cut, shall be considered to have the minimum allowable cost.

(b) Together with the cost record shall be kept a record of each cutting, showing the date of the cutting, the total number of garments cut, and the actual yardage used.

(c) A suggested form for keeping the cost records required by § 1389.360 is set forth below. A manufacturer may, at his option, continue to keep his customary records, provided all the information required by this section is summarized in one record.

§ 1389.374 *Appendix E: Table of permissible selling price lines for new categories*—(a) *Instructions for use of table.* (1) The Table in paragraph (b) shall be used in pricing garments by Rule 3 (§ 1389.353).

(2) A manufacturer first finds the group in which appears the highest selling price line in which he delivered garments during March, 1942 in any category number. He may use the selling price line listed in that group for garments of the new category number, and any selling price lines listed in any lower group.

For example, a manufacturer wants to sell women's coats, a category number which he did not deliver in March, 1942. The highest selling price line in which he delivered garments of any category number in March, 1942 was his $5.50 women's dresses, Category No. 21. He, therefore, belongs to Group H. Thus, he finds that the highest selling price line in which he may sell women's coats, Category No. 1, is $14.75. He may sell women's coats in selling price lines of $14.75, $12.75, $10.75, $8.75, $7.75, $6.75, $5.75 and $4.75. He may also sell women's coats in any selling price line lower than $4.75 (this is explained in subparagraph (5) of this paragraph).

(3) For pricing suits, jackets and skirts, Category Nos. 6–20 inclusive, Column II shall be used, when referring to or pricing garments manufactured of fabrics containing 25% or more wool content (new or reprocessed wool), or manufactured of a "pile fabric", i. e., a three dimensional fabric composed of backing warp, filling, and pile warp woven at right angles to the backing warp and filling. Column I shall be used when referring to or pricing garments manufactured of all other fabrics.

For example, the highest selling price line in which a manufacturer delivered women's coats during March, 1942 was $8.75. He belongs to Group E. He now desires to sell women's wool suits of Category No. 6. His highest selling price line is $8.75 (Column II). However, his highest selling price line for cotton and rayon suits is $3.75 (Column I).

(4) If the highest selling price line at which a manufacturer delivered garments in a category number during March, 1942 is in between two groups, he shall use the lower of the two groups.

For example, if the highest selling price line at which a manufacturer delivered women's dresses, Category No. 21, during March, 1942 was $5.75, he shall use Group H and not Group I.

(5) A manufacturer may sell garments in any selling price lines lower than the selling price lines listed in Group A.

(6) If the highest selling price line at which a manufacturer delivered garments in any category number is lower than the selling price line mentioned in Group A, the manufacturer shall use Group A.

(7) If the highest selling price line at which a manufacturer delivered garments in a category number during March, 1942, is higher than the highest selling price line listed for that category number in the Table, he uses that group in which appears the highest selling price line for that category number.

For example, if the highest selling price line at which a manufacturer delivered blouses, Category No. 26, during March, 1942, was $8.75, he uses Group N, as in that group appears the highest selling price line for Category No. 26, and the highest price line of which he can deliver women's dresses, Category No. 21 is $14.75.

(8) If the highest selling price line at which a manufacturer delivered garments of a category number appears in two groups, he shall use the lower of the groups in which this selling price line appears.

For example, if the highest selling price line at which a manufacturer delivered women's dresses, Category No. 21, during March 1942 was $2.25, he shall use Group B and not Group C. Thus the highest selling price line at which he may sell women's coats in Category No. 1 is $5.75.

A statement of the considerations involved in the issuance of Amendment No. 2 to Maximum Price Regulation No. 255 has been issued and filed with the Division of the Federal Register.*

Section 1351.703 (b) is amended and two new paragraphs (e) and (f) are added, all to read as set forth below.

§ 1351.703 *Wholesaler's maximum price for certain listed foods.* * * *

(b) "Base price" means the wholesaler's maximum price as calculated under § 2 of the General Maximum Price Regulation, except that for the purposes of this calculation the wholesaler shall substitute the base month named with the food product in paragraph (d) for the words "March 1942" wherever they appear in that section. With this qualification, the wholesaler shall use every pricing method provided by § 2 of the General Maximum Price Regulation which may be necessary to establish a base price for the item.

* * * * *

(e) *Maximum prices for new container types and sizes for which the wholesaler has received no permitted increase or cannot calculate a base price.* (1) If only a new container type is involved, that is, if the wholesaler sold the same kind, style, flavor, brand, and size, but only in other container types during the base period named in paragraph (d), he shall select from that kind, style, flavor, brand, and size the most closely comparable container type for which he is able to calculate a maximum price either under this Regulation or under § 2 of the General Maximum Price Regulation (even though he no longer sells that container type). He shall then add to the current delivered cost of the container type being priced the same dollars and cents markup which he added to the delivered cost of the container type selected (all per dozen or other customary wholesale selling unit). The resulting figure shall be the wholesaler's maximum price for the item.

(2) If only a new size is involved, that is, if the wholesaler sold the same kind, style, flavor, brand, and container type, but only in other sizes, during the base period named in paragraph (d), he shall select from that kind, style, flavor, brand and container type the nearest size for which he is able to calculate a maximum price either under this regulation or under section 2 of the General Maximum Price Regulation and which is one-third or less larger or, if there is no such size, one-third or less smaller (even though he no longer sells that size). He shall then add to the current delivered cost of the size being priced the same dollars and cents markup which he added to the delivered cost of the size selected (all per dozen or other customary wholesale selling unit). The resulting figure shall be the wholesaler's maximum price for the item.

(3) If both a new container type and a new size are involved, that is, if the wholesaler sold the same kind, style, flavor, and brand, but only in other container types and sizes, during the base period named in paragraph (d), he shall first select from that kind, style, flavor, and brand the most closely comparable container type for which he is able to calculate a maximum price either under this regulation or under § 1499.2 of the General Maximum Price Regulation (even though he no longer sells that container type), and from that container type he shall select the nearest size which is one-third or less larger or, if there is no such size, one-half or less smaller (even though he no longer sells that size). If there is no smaller size, he shall go to the next most closely comparable container type and proceed in the same manner to find a base container type and size. He shall then add to the current delivered cost of the container type and size being priced the same dollars and cents markup which he added to the delivered cost of the container type and size selected (all per dozen or other customary wholesale selling unit). The resulting figure shall be the wholesaler's maximum price for the item.

(f) *Maximum prices for items for which the wholesaler cannot otherwise calculate maximum prices.* If the wholesaler is unable to calculate a maximum price for a new item under the preceding paragraphs, he shall (1) select from the same general classification and price range as the item being priced the most closely comparable item for which a maximum price is established under any regulation; (2) divide his current selling price for that item by its actual cost, delivered to him; and (3) multiply the figure so obtained by the current cost, delivered to him, of the item being priced (all per dozen or other customary wholesale selling unit). The resulting figure shall be the wholesaler's maximum price for the item.

§ 1351.717 *Effective dates of amendments.* * * *

(b) Amendment No. 2 (§§ 1351.703 (b), (e), and (f), and 1351.717 (b)) to Maximum Price Regulation No. 255 shall become effective December 18, 1942.

AUTHORITY: §§ 1351.201 to 1351.215, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1351.201 *Purposes of Revised Maximum Price Regulation No. 256.* Revised Maximum Price Regulation No. 256 is issued for the purpose of establishing retail prices for the commodities which are listed in § 1351.203. Higher retail prices have been necessary because of upward price adjustments which various maximum price regulations have made at the processing and wholesale levels. In some cases the necessary retail adjustments have already been made in separate commodity regulations. By including such adjustments, this regulation covers in unified form all retail food adjustments of the "permitted increase" type, that is, adjustments in which retailers, by modifying their prices under the General Maximum Price Regulation,[1] are permitted to take account of the individual price increases which have already been allowed to processors and wholesalers and of which the processors or wholesalers are required to give them written notice.

In the case of certain items of these commodities which are either being made and distributed for the first time or are new to the particular retailer, maximum prices will sometimes be lacking for want of a "permitted increase" or a March 1942 base price. These items are specially priced under a supplementary pricing method which is designed to cover all cases where the permitted increase method of pricing fails to give a maximum price.

§ 1351.202 *Prohibition against selling and buying above maximum prices.* (a) On and after December 18, 1942, regardless of any contract or obligation, no retailer shall sell or deliver an item of any food product at a price higher than the maximum price established for it by this Revised Maximum Price Regulation No. 256. No person shall buy or receive an item of any food product from a retailer in the course of trade or business at a price higher than the maximum price established for it by this regulation. Nor shall any person agree, offer, solicit or attempt to do any of these things.

(b) However, prices lower than maximum prices may be charged and paid.

§ 1351.203 *Retailer's maximum prices for certain listed foods—*(a) *Maximum price rule.* For each item of the food products listed in paragraph (b) the retailer's maximum price to any class of purchasers shall be (1) his maximum price under § 2 of the General Maximum Price Regulation, plus (2) the amount reported by his supplier or by the manufacturer or producer as his "permitted increase" (all per retail container).

(b) This method of calculating the retailer's maximum prices shall apply to these products:

(1) Canned fruits, berries and juices, whether packed in tin, glass or any other hermetically sealed container, as follows:

Fruits

Apricots.
Cherries, red sour pitted.
Cherries, sweet.
Figs.
Fruit cocktail.
Fruits for salad.
Peaches, clingstone (including clingstone nectarines).
Peaches, freestone (including freestone nectarines).

Hawaiian pineapples.
Plums.
Prunes, fresh.

Berries

Blackberries.
Blueberries.

Raspberries, red.
Strawberries.
Youngberries.

Juices

Fruit juices and nectars, plain or mixed, made from any of the fruits listed in this subparagraph.

Berry juices made from any of the berries listed in this subparagraph.

(2) Frozen fruits, berries and vegetables.

(3) Fruit preserves, jams and jellies.

(4) Apple butter.

(5) Canned shrimp.

(6) Domestic canned crabmeat, No. ½ flats.

(7) Canned apples.

(8) Apple sauce.

(10) Vinegar cured herring.

(16) Tamales.

(17) Tortillas.

(18) Potato chips.

(19) Raisin filled or topped biscuits and crackers.

(20) Fig bars.

(21) Peanut candy.

(22) Extracted honey packed in containers of a capacity of ten pounds or less.

(c) *Maximum prices for items for which the retailer cannot otherwise calculate maximum prices.* If the retailer is unable to calculate a maximum price under paragraph (a) for any new item covered by this regulation (for example, canned pears packed for the first time in glass), he shall (1) select from the same general classification and price range as the item being priced the most closely comparable item for which a maximum price is established under any regulation; (2) divide his current selling price for that item by its actual cost, delivered to him; and (3) multiply the figure so obtained by the current cost, delivered to him, of the item being priced. The resulting figure shall be the retailer's maximum price for the item.

§ 1351.204 *Customary allowances and discounts.* No retailer shall change any customary allowance, discount, or other price differential to a class of purchasers if the change results in a higher net price to that class of purchasers.

lished. No retailer may establish a maximum price for any item under § 1351.203 until he has received delivery of a customary amount of the item after this Revised Maximum Price Regulation No. 256 has become applicable to it. To this extent the regulation shall be considered as having been in effect since August 5, 1942, for canned fruits, berries and juices; August 28, 1942, for frozen fruits, berries and vegetables; September 24, 1942, for canned shrimp; September 26, 1942, for fruit preserves, jams and jellies; October 1, 1942, for apple butter; October 5, 1942, for canned apples, apple sauce, and apple juice; October 30, 1942, for domestic canned crabmeat.

(b) *When a maximum price is established.* On and after December 18, 1942, a maximum price becomes "established" (that is, fixed) for any retailer as soon as he has disclosed a price for the item to any prospective customer, whether by sale, delivery, offer or notice of any kind. A maximum price may be established only once and having been established it may not be changed except with the written permission of the appropriate field office of the Office of Price Administration in cases of clerical error or other formal mistake.

(c) *What price becomes established as the maximum price.* The price which is established in this way as the retailer's maximum price is the one which he filed or disclosed. In most cases the maximum price so established will be the price which the retailer computed under § 1351.203. However, in some instances the retailer may want to disclose a lower price than the one which he computed and at the same time save his right to sell at the higher figure. He can establish the higher price as his ceiling price at the time of disclosure only by recording and naming it as such, in ink on his books, before he discloses the lower price.

§ 1351.206 *Evasion.* The price limitations set forth in this Revised Maximum Price Regulation No. 256 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any of the commodities covered by this regulation; alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1351.207 *Enforcement.* Any person violating a provision of this Revised Maximum Price Regulation No. 256, is subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942.

§ 1351.208 *Reports of retailers.* If the maximum price established for any cost-of-living item under this Revised Maximum Price Regulation No. 256 is different from the maximum price previously established for it, the retailer shall prepare a written statement showing for the item and each class of purchaser (1) his maximum price under § 2 of the General Maximum Price Regulation, (2) his permitted increase, and (3) his maximum price under this regulation; and he shall file the statement with the appropriate war price and rationing board by the 10th of the month following his first sale of the item subject to this regulation. The statement shall be in the following form:

The retailer shall include as part of the statement an attached list of all discounts, allowances, territorial differentials and any other price differentials customarily charged by him. The retailer shall keep a true copy of each statement for examination by any person during ordinary business hours.

§1351.209 *Applicability of the General Maximum Price Regulation and other maximum price regulations.* (a) The General Maximum Price Regulation and other maximum price regulations superseded by this Revised Maximum Price Regulation No. 256 shall continue to apply to all sales and deliveries of any item of a commodity covered by this regulation until the retailer has established a maximum price for it under §§1351.203 and 1351.205.

(b) The following sections of the General Maximum Price Regulation, as well as amendments to them, shall be applicable to every person selling at retail any commodity listed in §1351.203:

(11) Adjustment of maximum prices (§ 1499.18 (a)).

(12) Definitions (§ 1499.20).

A new § 1351.805a is added, as set forth below:

§ 1351.805a *Determination of adjusted maximum prices for fluid cream sold at wholesale other than in glass or paper containers after butterfat content is reduced to comply with Conservation Order No. M–259,[2] issued by the War Production Board on November 25, 1942.* (a) (1) After the butterfat content of fluid cream sold at wholesale other than in glass or paper containers is reduced to not less than 19%, the seller shall reduce his established maximum price for any unit size, as determined under §§ 1351.803, 1351.804, and 1351.805 hereof, proportionately on the basis of 5¢ per gallon for each one percent that the butterfat content is reduced.

(b) *Calculations.* (1) The foregoing pricing formula shall apply to sales and deliveries of fluid cream at wholesale other than in paper or glass containers in any package size, whether more or less than one gallon, on a proportionate basis. All calculations shall be carried to the fourth decimal place of a cent. Any final calculation of a maximum price for any unit size resulting in a fraction of a cent shall be adjusted to the nearest half cent.

Example

Butterfat content prior to reduction	Gallon-size container—seller must subtract from established maximum price	Quart-size container—seller must subtract from established maximum price	Pint-size container—seller must subtract from established maximum price	Half-pint-size container—seller must subtract from established maximum price
40%	$1.05	$0.2625	$0.1318	$0.0659
30%	.55	.1725	.0863	.0431
20%	.05	.0125	.0067	.0033

(2) If the seller has established maximum prices, as determined by §§ 1351.803, 1351.804, and 1351.805 hereof, for sales and deliveries of fluid cream having different percentages of butterfat content, his adjusted maximum price shall be determined according to the pricing formula applicable to the class of cream yielding the lowest maximum price.

(c) *Records and reports.* On or before January 11, 1943, each seller of fluid cream affected by the provisions of this section shall prepare, on the basis of available information and records, and file with the nearest District or State Office of the Office of Price Administration a report showing:

(1) His adjusted maximum prices for fluid cream in each size and type of container; and

(2) The basis for the adjusted maximum prices, including (i) the butterfat content of the fluid cream sold in each size and type of container prior to November 25, 1942, (ii) the established maximum prices in effect immediately prior to the issuance of Conservation Order M–259 by the War Production Board on November 25, 1942, and (iii) the present butterfat content of such cream for each size and type of container.

(b) Amendment No. 2 (§ 1351.805a) to Maximum Price Regulation No. 280 shall become effective December 12, 1942.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[MPR 252, Amendment 1]

VINEGAR CURED HERRING

A statement of the considerations involved in the issuance of Amendment No. 1 to Maximum Price Regulation No. 252 [7 F.R. 8875] has been issued and filed with the Division of the Federal Register.*

Sections 1364.308a and 1364.314 are added as set forth below:

§ 1364.308a *Information which final processors must give their customers*—(a) *Notice from final processors to wholesalers.* In the case of any item of vinegar cured herring, which is being sold by a final processor to a wholesaler for the first time after December 17, 1942 and after the final processor's maximum price for it has been established under § 1364.303, the final processor shall send the wholesaler (before or at the time of delivery) a written statement which lists for each such item included in the sale (1) the weighted average price charged by the final processor between September 15, 1941, and January 1, 1942, called the "base price," (2) the final processor's maximum price, as calculated under the provisions of this regulation, called the "maximum price," and (3) the amount of the difference between the "base price" and the "maximum price", called the "wholesaler's permitted increase." When calculating the "wholesaler's permitted increase", the final processor shall adjust any fraction of a unit to the nearest fractional unit in which the wholesaler customarily quotes prices for the item.

(b) *Notice from final processors to retailers*—(1) *General package requirement.* Every final processor who sells any item of vinegar cured herring, during the 90-day period, beginning December 18, 1942, whether to a wholesaler or a retailer, shall include with the shipping case (or other package unit in which the retailer usually purchases the product) a "Notice of Retailer's Permitted Increase." This notice must be either pasted or stamped on the outside of each shipping case sold or printed on a slip and enclosed. In the latter case the final processor shall place this statement on the outside: "Retailer's notice enclosed." The final processor shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the final processor shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Except for the proper insertion, a Notice of Retailer's Permitted Increase shall read as follows:

Notice of Retailer's Permitted Increase

Your new OPA ceiling price for the enclosed item is your March ceiling price plus ______ cents per retail item. OPA requires you to keep this information for examination.

(2) *First sales directly to retailers: where notices do not accompany packages.* In the case of any item of vinegar cured herring which is being sold by a final processor to any retailer for the first time after December 17, 1942 and after the final processor's maximum price for it has been established under § 1364.303 and which for any reason is being sold in a form which does not include a packer's Notice of Retailer's Permitted Increase, the final processor shall send the retailer (before or at the time of delivery) a written statement that (i) clearly identifies each such item included in the sale, (ii) states the "permitted increase" for it which the retailer is directed to add to his maximum price as established under the General Maximum Price Regulation. When preparing the statement the packer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the final processor shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Each statement shall be accompanied by this notice:

Your new OPA ceiling price for each item noted in your March ceiling plus the permitted increase shown per retail container. OPA requires you to keep this information for examination.

This statement may also contain information for any other vinegar cured herring items covered by this regulation even though they are not included in the sale.

§ 1364.314 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1364.308a and 1364.314) to Maximum Price Regulation No. 252 shall become effective on December 18, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[MPR 284]

WESTERN PRIMARY FOREST PRODUCTS

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales of Western primary forest products by a specific maximum price regulation. This commodity designation embraces mine pit posts and stulls; mine ties, timbers, blocks, cross bars, caps, lagging, and wedges; railroad cross ties and switch ties; and Lodgepole pine poles produced in a defined area of the West. The Price Administrator has ascertained and given due consideration to the prices of Western primary forest products prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industries which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been prepared, issued simultaneously herewith, and has been filed with the Division of the Federal Register.* Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1 [7 F.R. 8961], issued by the Office of Price Administration, Maximum Price Regulation No. 284 is hereby issued.

AUTHORITY: §§ 1426.151 to 1426.162, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1426.151 *Sales of Western primary forest products at higher than maximum prices prohibited.* (a) On and after December 18, 1942, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any Western primary forest products at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) If Western primary forest products have been received before December 18, 1942, by a carrier, other than one owned or controlled by the seller, for shipment to a buyer, such shipments are not subject to this regulation. Shipments of that kind remain subject to the appropriate regulation applying at the time any such shipments were turned over to the carrier, whether the General Maximum Price Regulation,[2] Maximum Price Regulation 216 (Railroad Ties),[3] or any other applicable maximum price regulation.

(c) Prices lower than the maximum prices may, of course, be charged and paid.

§ 1426.152 *Products and persons covered by this regulation*—(a) *Products cevered by this regulation.* The term "Western primary forest products" is used to describe the following products covered by this regulation:

(1) Western mine pit posts and stulls, whether peeled or unpeeled and whether processed or unprocessed. This takes the place of any previous interpretation concerning the exemption of unpeeled and unprocessed mine materials under the General Maximum Price Regulation. That exemption no longer applies for any materials subject to this regulation;

(2) Western mine ties, timbers, blocks, cross bars, caps, lagging, and wedges;

(3) Western railroad cross ties and switch ties. Maximum Price Regulation 216, Railroad Ties, no longer applies to ties produced in the area described below; and

(4) Lodgepole pine poles;

when, and only when, these products are produced at any point in the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota, Utah, and Wyoming; those parts of Oregon and Washington lying east of the crest of the Cascade Mountains; Cimarron, Texas, and Beaver Counties, Oklahoma; and those counties in Texas west of the east line of Lispcomb, Hemphill, Wheeler, Collingsworth, Childress, Cottle, King, Stonewall, Fisher, Nolan, Coke, Tom Green, Schleicher, Sutton, Edwards, Kinney, and Maverick Counties.

Products not named above or, if named above but not produced within the territory specified, remain subject to the General Maximum Price Regulation, Maximum Price Regulation 216—Railroad Ties, or any other applicable maximum price regulation.

Western primary forest products include any of the products listed above of all sizes and species, except Redwood species (Sequoia semper virens), which are used in the operation of mines, railroads, communication systems, industrial plants, and similar enterprises.

Western mine materials, railroad ties, and poles of the Redwood species (Sequoia sempervirens) are subject to Maximum Price Regulation 253[4] or the General Maximum Price Regulation, whichever is applicable, and those produced in those parts of Oregon and Washington west of the Cascade Mountains are subject to Maximum Price Regulation 26.[5]

(b) *Persons covered by this regulation.* (1) Any person who makes the kind of sale or purchase covered by this regulation is subject to it. The term "person" includes: an individual, corporation, partnership, association, or any other organized group; their legal successors or representatives; the United States, or any government, or any of its political subdivisions; or any agency of the foregoing.

(2) The term "tie contractor" is used in this regulation to describe a person who, prior to October 1, 1942, was engaged in the business of supplying Western railroad cross ties to ultimate users of such ties, such as railroads, street railways, industrial plants mantaining track facilities, or to contractors engaged in building or maintaining track for war projects and who can meet the following specific requirements:

(i) He must have maintained a concentration yard with necessary supervisory employees at which ties were bought for resale, or he must have operated producing units on timber owned or controlled by him which were primarily engaged in the production of Western railroad cross ties;

(ii) During one calendar month of any of the 12 months preceding October 1, 1942, he must have either purchased or produced on direct orders from users not less than 400,000 board feet of Western railroad cross ties; and

(iii) During the entire 12 months preceding October 1, 1942, he must have successfully fulfilled a contract for the supply of at least 2,000,000 board feet of Western railroad cross ties to a single user.

The Lumber Branch of the Office of Price Administration, Washington, D. C., may by letter or telegram authorize any person not meeting these qualifications to act as a Tie Contractor upon presentation of proof that the granting of such authorization will supply a service needed by tie users by increasing production and availability of cross ties in the area covered by this regulation.

The addition permitted in Appendix A, § 1426.162, for tie contractors does not apply to switch ties or to any product covered by this Regulation except Western railroad cross ties.

§ 1426.153 *How to figure maximum prices.* The maximum prices specified in Appendix A, § 1426.162, are prices f. o. b. the railroad loading-out point nearest the mill or point of production in the normal direction of delivery to the point of destination. Additions to these maximum prices may be made for treatment and delivery as set forth below:

(a) *Treatment addition.* An addition for preservative treatment may be made at prices not higher than those permitted by the General Maximum Price Regulation or any other applicable maximum price regulation of the Office of Price Administration.

(b) *Transportation addition.* The transportation charges set forth below may be added to the maximum f. o. b. railroad loading-out point prices when the seller makes delivery to the destination. That part of the transportation from the mill or point of production to the railroad loading-out point must, in every instance, be provided at the seller's expense.

(1) *Common or contract carrier.* (i) When the estimated weights in Appendix A are used, the rate times the estimated weight is the proper transportation charge, even if the estimated weights are higher than actual weights. Higher estimated weights than those used in Appendix A may not be used. The estimated weight must be the weight for the exact type of product actually shipped; for example, green weights cannot be used even if dry lumber is shipped. The transportation charge may be evened out to the nearest quarter-dollar per M.

(ii) When estimated weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier, evened out to the nearest quarter-dollar per M.

(2) *Private truck.* When shipment is by truck owned or controlled by the seller, the amount added for transportation may not be more than the actual cost to the seller of delivery by truck; and, no matter what the actual cost is, the amount added must not be more than the railroad charge at the carload rate for the most similar haul.

(3) *"Averaging-out".* (i) When a single order, for which a single flat delivered price was quoted and accepted, is shipped from two or more railroad loading-out points to a single destination on varying freight rates, the seller may average out the transportation charges applying from the railroad loading-out point to the destination.

(ii) In order that no single invoice shall appear to be false or over the ceiling, the seller must write on each invoice that the particular shipment is part of a larger order. Then, when shipment has been completed, he must render a final invoice which shows the individual prices, loading-out point, the amount shipped from each loading-out point, each destination, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered sale price and also with the maximum price permitted by this regulation.

§ 1426.154 *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars and cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, and the like.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices or cash discounts from what they were on April 1, 1942. The cash and credit periods recognized by the seller on April 1, 1942, shall not be reduced.

(2) Refusing to sell on a loading-out point basis and insisting on selling on a delivered basis.

(3) Quoting a gross price above the maximum price, even if accompanied by a discount, the effect of which is to bring the net price below the maximum.

(4) Making the buyer take something he does not want in order to get what he does want.

(c) *Adjustable pricing.* A price may not be adjustable to a maximum price which will be in effect at some time after delivery of the product has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

(d) *Purchasing commissions.* A purchasing commission based on the quantity or value of the product purchased may not be charged or paid, if the commission plus the purchase price is higher than the maximum price permitted by this regulation.

§ 1426.155 *Species and sizes not specifically priced.* Species and sizes of Western primary forest products not specifically priced in Appendix A are nevertheless subject to this regulation. Maximum prices for such products will be arrived at as follows:

(a) *Western mine pit posts and stulls.* (1) The seller should check his records to determine the highest prices at which he sold, during the first month prior to October 1, 1941, both the item to be priced and the item of Western pit posts or stulls having a diameter at the small end of more than six inches and not more than eight inches.

(2) Add to 8¢ the difference per lineal foot between the highest selling prices of these two items.

(3) The sum resulting from the computation above, will be the tentative price per lineal foot for that item.

The tentative price obtained by application of the method of computation outlined above shall be submitted to the Lumber Branch, Office of Price Administration, Washington, D. C., within 10 days of the use of such price, together with certified copies of the invoices of the sales which were used to determine the maximum price. If, within thirty days after receipt of the request for approval, the Office of Price Administration does not adjust or require further justification of such maximum price, the price shall be considered approved and shall thereafter be the maximum price for that seller for that item. Pending such approval or action by the Office of Price Administration, the seller may deliver the item and receive payment therefor, subject to the condition that a refund will be made if the price is in excess of that finally approved by the Office of Price Administration.

(b) *All other Western primary forest products.* For any size or species of Western mine ties, timbers, blocks, cross bars, caps, lagging, wedges, railroad cross ties and switch ties, and Lodgepole pine poles for which a maximum price is not provided for in Appendix A, the maximum price shall be the price established by the Lumber Branch, Office of Price Administration, Washington, D. C., after full and sufficient facts have been submitted in support of any request for the establishment of such a maximum price. This price determination may be made by letter or telegram by the Lumber Branch of the Office of Price Administration.

§ 1426.156 *Petitions for adjustment and amendment*—(a) *Government contracts.* (1) The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the Government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States." It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price in this regulation is impeding or threatens to impede production of any Western primary forest products which are essential to the war program and which are or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6,[6] issued by the Office of Price Administration.

As soon as the application is filed, contracts, deliveries, and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must tell the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

---

[6] 7 F.R. 5087, 5664.

§ 1426.157 *Records and reports*—(a) *Records.* All sellers of Western primary forest products must keep records which will show a complete description of the item sold, the name and address of the buyer, the date of the sale, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought 5,000 ft., board measure, or more of Western primary forest products. The records must be kept for two years for inspection by the Office of Price Administration. Any records which the Office of Price Administration later requires must also be kept.

(b) *Reports.* Any reports that the Office of Price Administration requires must be made.

§ 1426.158 *Enforcement and licensing.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this regulation or of any regulation or order issued by the Office of Price Administration are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by the regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission, and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) The provisions of Supplementary Order No. 18 (§ 1305.22) [7] licensing persons selling lumber, lumber products, or building materials, are applicable to every person, except mills, making sales of Western primary forest products for which maximum prices are established by this regulation. This Order, in brief, provides that a license is necessary, except for mills, to make sales under this regulation. A license is automatically granted to all sellers making these sales. It is not necessary to apply specially for the license, but a registration may later be required. The Emergency Price Control Act of 1942, as amended, and Supplementary Order 18 tell the circumstances under which licenses may be suspended. The license cannot be transferred.

§ 1426.159 *Relation to other regulations*—(a) *General Maximum Price Regulation and Maximum Price Regulation 216 superseded.* The provisions of this Maximum Price Regulation No. 284 supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulation 216 with respect to sales and deliveries for which maximum prices are established by this regulation.

(b) *Maximum Export Price Regulation.* The maximum price for export sales of Western primary forest products is governed by the Revised Maximum Export Price Regulation.[8]

§ 1426.160 *Geographic applicability.* The provisions of this Maximum Price Regulation No. 284 shall apply to the forty-eight states of the United States and the District of Columbia.

§ 1426.161 *Effective date.* This regulation (§§ 1426.151 to 1426.162, inclusive) shall become effective December 18, 1942.

§ 1426.162 *Appendix A: Maximum prices for Western primary forest products.* All maximum prices set forth below are f. o. b. the railroad loading-out point (including loading on cars) nearest the mill or point of production in the normal direction of delivery to the point of destination. These maximum prices do not include treatment. See § 1426.153 for the method of computing delivered prices.

[MPR 165 as Amended,[1] Amendment 12]

SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

In § 1499.102, a new paragraph (f) is added as set forth below:

§ 1499.102 *Maximum prices for services—general provisions.* * * *

(f) The term "service" as used in this regulation includes any commodity or article sold in connection with the sale of a particular service. But where the price of a commodity (or article) sold in connection with a particular service is subject to any maximum price regulation which fixes a maximum price for the commodity higher than that allowed by this regulation, the maximum price for the service may be increased by the difference between the maximum price for the commodity under this regulation and that under the regulation specifically applicable to the commodity. Where, on the other hand, the maximum price for the commodity fixed by the regulation having specific application is lower than the price for the commodity permitted by this regulation, the maximum price for the service must be decreased in the amount of that difference.

§ 1499.121a *Effective dates of amendments.* * * *

(l) Amendment No. 12 (§ 1499.102 (f)) to Maximum Price Regulation No. 165 as amended shall become effective December 18, 1942.

FLUID MILK AND CREAM

A statement of the considerations involved in the issuance of this Amendment has been isued simultaneously herewith and filed with the Division of the Federal Register.*

Subdivision (v) of § 1499.73 (a) (1) is redesignated subdivision (vi) of § 1499.73 (a) (1); and a new subdivision (v) is added to § 1499.73 (a) (1), as set forth below:

§ 1499.73 * * *

(a) * * *

(1) * * *

(v) *Determination of adjusted maximum prices for fluid cream sold at wholesale in glass and paper containers and sold at retail after butterfat content is reduced to comply with Conservation Order No. M-259,[3] issued by the War Production Board on November 25, 1942.* (*a*) Maximum prices for sales and deliveries of fluid cream the butterfat content of which is not less than 18% and which complies with Conservation Order No. M-259 shall be determined as follows:

(*1*) *Where the butterfat content is reduced*, the seller shall adjust his maximum price for any unit size, as determined under § 1499.2, General Provisions, of the General Maximum Price Regulation, or subdivisions (iii) and (iv) of § 1499.73 (a) (1) hereof, proportionately, as follows:

Butterfat content prior to reduction:	*Adjustment to be made by seller*

21%	Add 10¢ per gallon.
20%	Add 15¢ per gallon.
19%	Add 20¢ per gallon.

If the butterfat content was more than 40%, the seller must deduct proportionately for any unit size 5¢ per gallon for each 1% over 23% of butterfat content prior to reduction.

(*2*) *Where the butterfat content remains unchanged*, the seller may adjust his maximum price for any unit size, as determined under § 1499.2, General Provisions, of the General Maximum Price Regulation, or subdivisions (iii) and (iv) of § 1499.73 (a) (1) hereof, proportionately in accordance with the following table:

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 285]

IMPORTED FRESH BANANAS, SALES EXCEPT AT RETAIL

In the judgment of the Price Administrator, war shipping conditions and other factors affecting the sale of fresh bananas by importers and by wholesalers have resulted in the establishment under the General Maximum Price Regulation of maximum prices for such sales which are not best calculated to assist in securing equitable distribution of fresh bananas. The Price Administrator has determined to replace these maximum prices by maximum prices established in this regulation. In the issuance of this regulation, the Price Administrator has ascertained and given due consideration to the prices of fresh bananas prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representatives of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices herein established for importers and wholesalers of fresh bananas are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 258 is hereby issued.

§ 1351.1251 *Applicability of this Maximum Price Regulation No. 285*—(a) *Commodity to be priced under this regulation.* This regulation applies only to fresh bananas, imported for sale within the continental limits of the United States.

(b) *To what types of sellers this regulation applies.* This regulation applies to importers and all wholesalers, as defined herein, of fresh bananas.

(c) *Purposes of this regulation.* The purposes of this regulation are to replace the maximum prices established by the General Maximum Price Regulation for importers and wholesalers by maximum prices set forth as follows:

(1) Section 1351.1252 sets forth maximum prices for importers for each kind of fresh bananas, per cwt., f. o. b. port of entry.

(2) Appendix A, § 1351.1267, sets forth the figures which all wholesalers must use in calculating maximum prices.

(d) *Prohibition against sales above maximum prices.* On and after December 18, 1942, regardless of any contract or other obligation, no person shall sell or deliver fresh bananas at prices higher than the maximum prices established by this regulation, and no person shall buy or receive fresh bananas in the course of trade or business at prices higher than the maximum prices. Lower prices than the maximum prices may be charged and paid.

§ 1351.1252 *How an importer establishes his maximum price for each kind of fresh bananas.* (a) The maximum price per cwt. at which any importer may sell, offer to sell or deliver each kind of fresh bananas, f. o. b. any port of entry within the continental limits of the United States, shall be:

Country of origin (Kind of fresh bananas)	*Maximum prices per cwt., f. o. b. port of entry*
Costa Rica, Panama, Guatemala, Honduras.	$4.50 per cwt., f. o. b. port of entry
Mexico: States of Chiapas and Tobasco.	$4.50 per cwt., f. o. b. port of entry
All others from Mexico.	$3.25 per cwt., f. o. b. port of entry
Fresh bananas from any country not listed above.	$4.00 per cwt., f. o. b. port of entry

(b) If an importer makes a sale of any kind of fresh bananas for delivery to a place other than the port of entry to or through which the fresh bananas being priced were originally shipped from the country of origin, his maximum price shall be the price set forth in paragraph (a) of this section, plus his actual transportation charges, which shall not exceed the lowest available common carrier rate, from the port of entry to the place where such kind of fresh bananas are to be delivered; however, no charge or cost for local unloading or local hauling shall be included. In no case shall the importer add to the maximum prices, f. o. b. port of entry, any transportation charges, whether paid by him or not, from the country of origin to the port of entry.

(c) The maximum price, per cwt. at which any sales of any kind of fresh bananas may be made at the New York, N. Y., Philadelphia, Pa., and Baltimore, Md., auction markets shall be as follows:

(1) The maximum price per cwt., f. o. b. port of entry, as set forth in paragraph (a) of this section; plus

(2) The actual transportation charges, at lowest available common carrier rates, from the port of entry to the auction market where the fresh bananas are to be sold; multiplied by

(3) 1.085. The resulting figure shall be the maximum price for any sale and delivery at auction: *Provided,* That trade discounts for auction sales heretofore in effect shall be subtracted from the maximum price established herein for auction sales.

§ 1351.1253 *How a wholesaler calculates his maximum price for each kind of fresh bananas as set forth in Appendix A.* (a) For the purposes of this regulation, "wholesaler" means any wholesale seller, including, but not limited to, service and cash-and-carry wholesalers, retailer-owned cooperatives, jobbers or any other persons who purchase for the purpose of resale, except importers and retailers, and who take title and make sales to any person who is not the ultimate consumer. The term "ultimate consumer" does not include institutional, commercial or industrial users.

(b) The wholesaler shall calculate his maximum price on the effective date of this regulation and on Monday of each week thereafter for each kind of fresh bananas as follows:

(1) The wholesaler shall determine his "largest single purchase" of each kind of fresh bananas, as set forth in § 1351.1252, made during the seven days prior to Monday of each week.

(2) "Largest single purchase" means the greatest quantity (in pounds) of the kind of fresh bananas which the wholesaler is pricing, and which was purchased by him during the seven days prior to Monday of each week. For the purposes of this paragraph, "Purchase" by a wholesaler shall be deemed to have been made when actual delivery has been made to him.

(3) The wholesaler shall then determine the "delivered price" of his "largest single purchase", as defined above, of the kind of fresh bananas being priced. "Delivered price" means the maximum price, f. o. b. port of entry, for the kind of fresh bananas he is purchasing plus the actual cost of transportation from the port of entry at lowest available common carrier rates, as defined herein, to his customary receiving point, less all discounts allowed him except the discount for prompt payment; however no charge or cost for local unloading or local hauling shall be included.

(4) The wholesaler shall then multiply his "delivered price", as defined above, by the figures set forth in Appendix A applicable to him. The resulting figure is the maximum price which the wholesaler is permitted to charge.

(c) If a wholesaler purchases fresh bananas at any of the following auction markets, New York, N. Y., Philadelphia, Pa., and Baltimore, Md., he shall apply the provisions of this section to such fresh bananas purchased at auction, except that the figure by which he multiplies his "delivered price" shall be the figure set forth in Appendix A for wholesalers who purchase at auction. "Delivered price" in the case of auction sales means the maximum price per cwt., f. o. b. port of entry, plus the actual transportation charges from the port of entry to the auction market multiplied by 1.085, as set forth in § 1351.1252 (c) hereof.

(d) If the wholesaler makes no purchase of fresh bananas during any particular seven-day period his maximum price shall be based on his most recent "largest single purchase", as defined herein.

§ 1351.1254 *Information which each importer and wholesaler must pass on to his purchaser.* Whenever an importer or wholesaler makes a sale and delivery after the effective date of this regulation, he shall supply to his purchaser an invoice, or any other written evidence of the sale, setting forth in writing the following information:

(a) The importer shall set forth:

(1) The kind of fresh bananas being sold (i. e., the country of origin as set forth in § 1351.1252 hereof).

(2) The maximum prices per cwt., f. o. b. port of entry, and actual transportation charges, if any, paid by the seller.

(3) In cases of purchases or sales at auction, the auction maximum price, as set forth in § 1351.1252 (c).

(b) The wholesaler shall state his selling price, not exceeding his maximum price.

The invoice or other written evidence of the sale, when containing the above required information, shall be deemed to be proper notification to the purchaser.

§ 1351.1255 *Fractions of cents.* Any calculation of a maximum price per cwt. by a wholesaler which results in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

§ 1351.1256 *Customary allowances.* No importer or wholesaler is permitted to change his customary allowances, discounts and price differentials, including allowances, discounts, and price differentials for different classes of purchasers, unless such change results in a lower net price. Trade discounts for auction sales heretofore in effect shall not be changed unless such change results in a lower net price.

§ 1351.1257 *Relationship between this regulation and the General Maximum Price Regulation.*[1] (a) The provisions of this Maximum Price Regulation No. 285 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries by importers and wholesalers of fresh bananas. However, the following provisions of the General Maximum Price Regulation, as well as any amendments thereto, continue to be applicable to every importer and wholesaler selling fresh bananas:

§ 1351.1261 *Records and reports.* (a) Every person selling fresh bananas for which maximum prices are established by this regulation shall:

(2) Prepare on or before December 31, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing all of his customary allowances, discounts and other price differentials.

(b) Every person making a sale of fresh bananas for which maximum prices are established by this regulation shall keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, records of the same kind as he has customarily kept relating to the prices which he charges for fresh bananas after the effective date of this regulation and in addition records showing as precisely as possible the basis upon which he determined the maximum prices for fresh bananas.

§ 502.111 *Symbol petroleum trains.* All tank cars assigned to eastern petroleum service which originate at a symbol train origin, a concentration point, or within a concentration area shall be moved exclusively in unbroken blocks in symbol petroleum trains without intermediate break-up or classification between the termini of any such train, over the railroads, via the junctions, and upon the schedules designated by the Office of Defense Transportation.

§ 502.112 *Turn around of symbol petroleum trains.* In so far as practicable, tank cars, after movement to destination in a symbol train, shall be loaded or unloaded and redispatched in the opposite direction in a symbol train within 24 hours after their arrival at the terminal of loading or unloading.

§ 502.113 *Dispatch of symbol petroleum trains.* Every carrier (a) shall switch into blocks loaded or empty tank cars in eastern petroleum service and arrange such blocks in symbol trains in delivering carrier order; and (b) within 5 hours after there shall have been tendered to it at any point a trainload of tank cars destined to a single point or to points within a distribution area of any single point on a symbol train route, or within 10 hours after it shall have had in its possession or there shall have been tendered to it, 30 or more tank cars destined to a single point or to points within the distribution area of any single point on any such route, shall originate and dispatch a symbol petroleum train over the appropriate route and upon the prescribed schedule. The origination and dispatching of any such train may be deferred for such additional period as may be necessary, not to exceed 15 hours, when the carrier has advice that an additional block or blocks of 15 or more cars so destined will become available within such additional period.

§ 502.114 *Consolidation of symbol petroleum trains.* Any carrier which is a party to one or more symbol train routes may consolidate symbol petroleum trains scheduled to move between two points common to two or more of such routes, but only when such consolidation will expedite the movement of such trains.

§ 502.115 *Change of route.* When any carrier shall be unable to maintain a symbol petroleum train upon its prescribed schedule, it shall cause such train to be diverted to another carrier, if such diversion will expedite the movement of such train. Any carrier to whom such a train is diverted shall arrange for its movement in the same manner and with the same dispatch as though originally routed and scheduled over its line. Each proposed diversion shall be promptly reported to the Office of Defense Transportation by telegram.

§ 502.116 *Concentration of tank cars in eastern petroleum service.* Every carrier shall move all loaded and empty tank cars which it may have in its possession at any point and which are destined for movement in eastern petroleum service, in the freight train departing from such point which will provide for the most expeditious movement of such tank cars to the concentration or junction point of or with the symbol train route designated for such point of origin.

§ 502.117 *Interchange of symbol petroleum trains.* Every carrier originating or receiving a symbol petroleum train shall advise the next connecting carrier, by wire, of the time of arrival of such train at the next specified interchange point, and the number of tank cars therein, and shall keep such connecting carrier advised of any changes in the time of such arrival. As far as practicable at all such interchange points, the connecting carriers participating in the movement of such symbol petroleum trains shall arrange (a) for the direct movement of such train to the designated track of the connecting carriers, (b) for a prompt single joint inspection of the cars in such train at such interchange point, and (c) for the immediate dispatch of such train from such interchange point.

§ 502.118 *Movement of symbol petroleum trains.* So far as possible, any carrier, when participating in the movement of any symbol petroleum train of empty or loaded cars, shall operate such train in accordance with the schedules specified for the movement thereof.

§ 502.119 *Filling out of trains.* Any carrier operating a symbol petroleum train under the provisions of this order may fill out such train with other cars, loaded or empty, if the inclusion of such other cars will not either prevent the maintenance of the schedule of such train, or the inclusion of other tank cars therein, or necessitate reclassification or new blocking, or require such train to be stopped at any point except division terminals and designated concentration or junction points.

§ 502.120 *Passing reports.* On or before the close of each calendar day, each carrier operating a symbol petroleum train on such day shall report by wire to the Office of Defense Transportation or its designated agent the symbol number, date, and section of such train, the time of origination, receipt from and delivery to connecting carrier, and the arrival thereof at destination, and the number of loaded or empty tank cars therein.

§ 502.121 *Handling of empty tank cars.* Every carrier shall give constant and preferred attention to the switching and movement of empty tank cars in eastern petroleum service and shall use every possible means to expedite the return of such cars to the next point of loading, in symbol petroleum trains.

§ 502.122 *Routing to be disregarded.* Carriers are authorized and directed to disregard instructions given by shippers, consignees or car owners with respect to the routing of loaded or empty tank cars moving in eastern petroleum service so far as shall be necessary to comply with this order and with the directions, rules, and regulations issued by the Office of Defense Transportation hereunder. No person or carrier shall directly or indirectly solicit eastern petroleum traffic for transportation or in any manner interfere with or attempt to interfere with or influence or attempt to influence the movement and routing of such traffic. All carriers participating in the movement of eastern petroleum traffic, which, pursuant to the terms of this order or of any direction issued thereunder, moves over a route other than that named in the shippers routing instructions, shall take all steps necessary to apply lawfully to such traffic the rate which would have been applicable thereto if it had been moved over the route named in such instructions.

§ 502.123 *Records and reports.* Every person loading, unloading, or shipping any tank car, and every carrier accepting for shipment, forwarding or transporting any tank car shall keep such records and make such reports as the Office of Defense Transportation shall require.

§ 502.124 *Exemptions.* The provisions of §§ 502.102, 502.103, and 502.104 shall not apply to tank cars owned by the Army, Navy, or Marine Corps.

§ 502.125 *Revocation.* General Order ODT 7, as amended (Part 500, Subpart B), Exception Order ODT 7-3 (Part 520, Subpart B), and Special Direction ODT 7-1 (Part 520, Subpart B) are hereby revoked.

§ 502.126 *Communications.* Communications concerning this order should refer to General Order ODT 7, Revised, and should be addressed to the Office of Defense Transportation, Washington, D. C.

2. Acting as sales agent for M. [Docket No. B–281]

CHARLES WHITEHURST

ORDER APPROVING AND ADOPTING PROPOSED FINDING OF FACT, ETC.

In the matter of Charles Whitehurst, Code Member.

Order approving and adopting the proposed findings of fact, proposed conclusions of law, recommendation of the examiner and order to cease and desist.

This proceeding was instituted upon a complaint duly filed with the Bituminous Coal Division on June 4, 1942, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 by District Board 10 alleging that Charles Whitehurst, a code member producer in District 10 wilfully violated the provisions of the Act, the Bituminous Coal Code, and the orders, rules and regulations of the Division, especially Order No. 312, dated February 24, 1941. The complaint prayed that the Division either cancel and revoke Whitehurst's code membership, or, in its discretion, direct him to cease and desist from violations of the Code and the regulations thereunder.

Code member filed an answer July 6, 1942, denying wilful violation of the Act and the orders, rules and regulations thereunder. He stated that in the interests of economy he had continued to use his accustomed form of scale tickets but had subsequently changed his practice to conform his records to the Division's requirements.

Pursuant to an Order of the Acting Director dated June 23, 1942, after due notice to interested persons, a hearing was held before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in St. Louis, Missouri, on July 27, 1942. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise participate fully in the hearing. District Board 10 and code member appeared.

The Examiner submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated September 26, 1942, in which the Examiner found that code member had wilfully violated Order No. 312 of the Division and particularly sections II (a) and II (b) thereof by failing to maintain and keep on file during the period from January 1, 1942 to February 28, 1942, proper copies of truck tickets relating to sales or shipments of substantial tonnages of coal by truck from his Lloyd Mine (Mine Index No. 933) in Menard County, Illinois, in District 10, omitting from such tickets (1) the mine index number of said mine, (2) the price per net ton f. o. b. the truck or wagon at said mine, and (3) the total amount charged for the coal in each particular sale or shipment.

The Examiner recommended that an order be issued requiring said code member to cease and desist from failing to maintain and keep on file proper copies of truck tickets relating to sales or shipments of coal by truck from the Lloyd Mine or from otherwise violating Order No. 312 of the Division.

An opportunity was afforded to all parties to file exceptions to the Examiner's Report and supporting briefs and no such exceptions or supporting briefs were filed.

The undersigned has determined after a consideration of the record that the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be, and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That code member, Charles Whitehurst, his representatives, agents, servants, employees, attorneys, and all persons acting or claiming to act on his behalf or interest, cease and desist and they are hereby permanently enjoined from failing to maintain and keep on file proper copies of truck tickets relating to sales or shipments of coal by truck from the Lloyd Mine (Mine Index No. 933) located in Menard County, Illinois, in District 10 or otherwise violating the Bituminous Coal Act, Bituminous Coal Code, and the rules and regulations thereunder and particularly sections II (a) and II (b) of Order No. 312.

Notice is hereby given to code member that if he fails or refuses to comply with this Order, the Division will apply to a Circuit Court of Appeals for the enforcement thereof, or otherwise proceed as authorized by the Act.

Dated: December 12, 1942.

Men's Hat and Cap Industry

NOTICE OF OPPORTUNITY TO SHOW CAUSE

In the matter of the determination of the prevailing minimum wages in the Men's Hat and Cap Industry.

Whereas the prevailing minimum wage determination for the Men's Hat and Cap Industry, issued by the Secretary of Labor on July 28, 1937, pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35), as amended January 24, 1938, and June 12, 1942, provides that the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of that act, for the manufacture or supply of men's hats and caps, including men's white sailor and other stitched cloth hats, men's fur-felt hats, men's uniform caps, and women's hats and caps of similar design and construction, shall be 67½ cents an hour or $27 per week of 40 hours, arrived at either upon a time or piece work basis, and that there shall be a tolerance of not more than 20 percent of the employees in any one factory, whose activities at any given time are subject to the provisions of the act, for auxiliary workers: *Provided,* That such auxiliary workers be paid not less than 37½ cents per hour or $15 per week of 40 hours, arrived at either upon a time or piece work basis: *And provided further,* That the term "auxiliary worker" when used in connection with employees in the uniform cap and in the stitched hat branches of the industry shall not be interpreted to include cutters or workers in the cutting room, machine workers, or workers on any kind of machine, blockers, pressers and hand sewers; and

Whereas the minimum wage required to be paid by the manufacturers of such men's hats and caps subject to the provisions of the Fair Labor Standards Act of 1938 is not less than 40 cents an hour pursuant to the wage orders for the Hat Industry and for the cap and cloth hat division of the Apparel Industry issued by the Administrator of the Wage and Hour Division and effective July 1, 1940, and July 15, 1940, respectively; and

Whereas it appears that substantially all employees subject to the Men's Hat and Cap Wage Determination of the Secretary are engaged in commerce or in the production of goods for commerce, as that term is defined in the Fair Labor Standards Act of 1938, and that, consequently, the aforementioned wage orders of the Administrator have had the effect of establishing not less than 40 cents per hour as the prevailing minimum wage for auxiliary workers in the Men's Hat and Cap Industry; and

Whereas the Men's Headwear Manufacturers Group, Incorporated, and the St. Louis Association of Hat and Cap Manufacturers submitted to the Administrator of the Wage and Hour and Public Contracts Divisions petitions requesting that the meaning of the words "machine workers, or workers on any kind of machine" be defined, that the term "auxiliary worker" be clarified, and that the 20 percent tolerance for auxiliary workers be increased; and

Whereas on July 17, 1942, and July 23, 1942, preliminary conferences were held for the purpose of providing an opportunity to all interested parties representing the manufacturers' associations in the Men's Hat and Cap Industry and to the trade union representing employees in that industry to participate in a discussion and analysis of the requests for relief presented by the petitioners; and

Whereas it appeared that changing conditions of production and employment in the uniform cap and stitched hat branches of the industry require that the allowance for auxiliary workers be increased; and

Whereas it appears advisable to amend the Men's Hat and Cap Wage Determination by

1. Providing that the prevailing minimum wage for auxiliary workers shall be not less than 40 cents per hour;

2. Permitting the employment of auxiliary workers in the uniform cap and stitched hat branches of the industry without limitation as to number; and

3. Clarifying the definition of the terms (a) "auxiliary workers," (b) "machine workers, or workers on any kind of machine" and (c) "cutters or workers in the cutting room," as applied to the uniform cap and stitched hat branches of the industry.

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before December 31, 1942, why the Secretary of Labor should not amend the Men's Hat and Cap Wage Determination pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act so that the amended determination will read as follows:

(1) That the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35) for the manufacture or supply of men's hats and caps, including men's white sailor and other stitched cloth hats, men's fur-felt hats, men's uniform caps, and women's hats and caps of similar design and construction, shall be 67½ cents an hour or $27 per week of 40 hours, arrived at either upon a time or piecework basis;

(2) That a tolerance of not more than 20 percent of the employees in any one factory, whose activities at any given time are subject to the provisions of the Walsh-Healey Public Contracts Act be granted for auxiliary workers in the Men's Hat and Cap Industry except that there shall be no limitation on the number or proportion of auxiliary workers employed in the uniform cap and stitched hat branches of the industry: *Provided,* That any auxiliary workers in the industry shall be paid not less than 40 cents an hour or $16 per week of 40 hours, arrived at either upon a time or piecework basis;

(3) The term "auxiliary workers" as applied to the employees in the uniform cap and stitched hat branches of the industry shall include only those employees engaged in the following auxiliary occupations: clipping, label stapling, cleaning, stamping, floor girl or boy, examining, measuring, turning, packing and shipping, and separating; and it shall not include cutters or workers in the cutting room, machine workers, or workers on any kind of machine, blockers, pressers, or hand sewers;

(a) The auxiliary occupations listed in this paragraph are defined as follows:

Clipping: The operation of separating component parts of the article after they have been sewn.

Label stapling: The operation of attaching the manufacturer's tag or label to the article by a wire stapling machine.

Cleaning: The operation of removing excess threads from the article or removing stains or dust.

Stamping: The operation of stamping the head size mark on the article.

Floor girl or boy: One who carries items of work to and from the various departments.

Examining: The operation of inspecting the article for imperfections during any stage of manufacture.

Measuring: The operations of measuring bands, straps and ribbons, and cutting them apart.

Turning: The operation of turning the article inside out or outside in.

Packing and shipping: These operations are intended to include unloading stock, counting units, tying completed units into bundles of specified numbers, placing bundles into containers, closing and sealing containers, and marking containers.

Separating: The operation of separating paper from the rags whether performed in the cutting room or elsewhere.

(b) The terms, "cutters or workers in the cutting room," shall apply to and include all operations incidental to the cutting process, including (1) measuring the cloth, (2) spreading the cloth on the table, (3) placing paper in between the layers of cloth, (4) marking the cloth with any medium such as chalk or crayon, (5) cutting with machine or knife or any other means, (6) separating the paper from the cloth, (7) assorting, (8) stacking up bundles, sizes, forms, and shapes, (9) tying up cut materials into bundles, (10) marking bundles, (11) separating bundles, (12) pattern making and pattern grading; and

(c) The term, "machine", as used in the phrase, "machine workers, or workers on any kind of machine", shall apply to and mean electric power machines, foot power machines and hand operated machines, except that hand tools such as scissors used to trim threads or excess materials from a completed article or to cut tapes, ribbons, braids, and bindings are not machines as that term is used in this wage determination.

All objections, protests, or any statements in opposition to or in support of the proposed amendments should be addressed to the Administrator of the Wage and Hour and Public Contracts Divisions, Department of Labor, Washington, D. C., and should be filed with the Administrator not later than December 31, 1942. An original and four copies should be filed.

Dated: December 10, 1942.

Men's Neckwear Industry

NOTICE OF OPPORTUNITY TO SHOW CAUSE

In the matter of the determination of the prevailing minimum wage in the Men's Neckwear Industry.

Whereas, the Secretary of Labor on July 28, 1937, pursuant to the provisions of section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C., Supp. III, 35), otherwise known as the Walsh-Healey Public Contracts Act, made the following determination:

(1) That the minimum wage for employees engaged in the performance of contracts with agencies of the United States subject to the provisions of Public Act No. 846, 74th Congress, approved June 30, 1936, for the manufacture and supply of men's neckwear (exclusive of knitted neckwear) shall be 50 cents per hour, or $20.00 per week for a forty hour week arrived at either upon a time or piece work basis, and

(2) That a tolerance of not to exceed 10 percent of the workers in any one establishment shall be granted for those workers who are in fact learners, handicapped or superannuated workers, exclusive of boxers and trimmers, with an additional tolerance to persons actually employed as boxers and trimmers: *Provided,* That all such workers including learners, handicapped and superannuated workers and boxers and trimmers, be paid not less than 37.5 cents per hour or $15.00 per week for a forty hour week and not less than the piece rates paid to all other workers in the same occupational classification: *And provided further,* That all such employees be qualified for such exemption in accordance with such requirements as may be established hereafter;

and

Whereas on August 12, 1942, the Secretary of Labor issued regulations (Ti. 41, c. 2, Code of Federal Regulations, § 201.1102) permitting employment of handicapped workers at subminimum rates under the Public Contracts Act in accordance with the regulations of the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, and amended all prevailing minimum wage determinations, including the Men's Neckwear Wage Determination, to provide that handicapped or superannuated workers may not be employed at subminimum rates under any other conditions; and

Whereas the minimum wage required to be paid by the manufacturers of men's neckwear subject to the provisions of the Fair Labor Standards Act of 1938 is 40 cents an hour pursuant to the wage order for the Miscellaneous Apparel Industry issued by the Administrator of the Wage and Hour Division under date of November 28, 1941; and

Whereas it appears that substantially all employees subject to the Men's Neckwear Wage Determination of the Secretary are engaged in commerce or in the production of goods for commerce as that term is defined in the Fair Labor Standards Act of 1938, and that, consequently, the aforementioned wage order of the Administrator has had the effect of establishing 40 cents per hour as the prevailing minimum wage for boxers and trimmers in the Men's Neckwear Industry; and

Whereas it appears desirable, for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to amend the Men's Neckwear Wage Determination of the Secretary to provide that learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division (Regulations, Title 29, chapter V, Part 522); and

Whereas the Men's Neckwear Wage Determination of the Secretary has been interpreted to apply to the manufacture and supply of women's ties of design and construction similar to the men's neckwear expressly mentioned in the determination, and it appears desirable to clarify the language of the determination by expressly mentioning such women's ties,

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before December 31, 1942, why the Secretary of Labor should not make the following determination pursuant to the provisions of section 1 (b) of the Act of June 30, 1936, Pub. No. 846, 74th Congress (49 Stat. 2036; 41 U.S.C. Supp. III, sec. 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act:

(1) That the minimum wage for employees engaged in the performance of contracts with agencies of the United States subject to the provisions of Public Act No. 846, 74th Congress, approved June 30, 1936, for the manufacture and supply of men's neckwear (exclusive of knitted neckwear) and of women's ties of design and construction similar to such men's neckwear is 50 cents per hour or $20.00 per week for a 40-hour week arrived at either upon a time or piece work basis: *Provided,* That learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act which are hereby adopted for the purposes of this determination, and

(2) That a tolerance of not to exceed 10 percent of the workers in any one establishment shall be granted for persons actually employed as boxers and trimmers: *Provided,* That such boxers and trimmers be paid not less than 40 cents per hour or $16.00 per week for a 40-hour week and not less than the piece rates paid to all other workers in the same occupational classification: *And provided further,* That they be qualified for such exemption in accordance with such requirements as may be established hereafter.

Dakota Rabbit and Fur Co.

APPLICATION FOR EXEMPTION, ETC.

In the matter of the application for the exemption of the skinning of wild rabbits and other wild fur bearing animals from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder.

Whereas, an application was received from the Dakota Rabbit and Fur Company of Sioux Falls, South Dakota, for the exemption of the skinning of wild rabbits and other wild fur bearing animals in wild rabbit skinning establishments from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder; and

Whereas, it appeared from said application and upon further investigation that:

1. Owing to natural conditions, wild rabbits and other wild fur bearing animals are available for skinning only during the cold weather months, from about November 15 of each year to about March 15 of the following year, when the fur or pelt is prime; and

2. Wild rabbit skinning establishments receive the carcasses of wild rabbits and occasionally the carcasses of other wild fur bearing animals, skin them, and prepare the pelts for shipment to market only during a regularly recurring season of the year when the pelts are prime, from about November 15 of each year to about March 15 of the following year; and

3. Wild rabbit skinning establishments cease operations during the remainder of the year except for such work as maintenance, repair, clerical, and sales work;

Whereas, on November 13, 1942, the Administrator of the Wage and Hour Division caused to be published in the Federal Register a notice which set forth the foregoing and which stated that (a) upon consideration of the facts presented by the application and upon further investigation, the Administrator determined, pursuant to § 526.5 (b) (ii) of the regulations, that a *prima facie* case had been shown for the granting of an exemption as an industry of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, to the skinning of wild rabbits in wild rabbit skinning establishments, and the skinning of other wild fur bearing animals such as skunk, muskrat, mink, and beaver, in wild rabbit skinning establishments during the wild rabbit skinning season; that (b) in accordance with the procedure established by § 526.5 (b) (ii) of the regulations, Part 526, as amended, the Administrator, for 15 days following the publication of this determination, would receive objection to the granting of the exemption and request for hearing from any person interested, and upon receipt of objection and request for hearing, the Administrator would set the application for hearing before himself or an authorized representative; and that (c) if no objection and request for hearing was received within 15 days, the Administrator would make a finding upon the *prima facie* case;

Whereas, no objection and request for hearing was received by the Administrator within the said 15 days;

Now, therefore, pursuant to § 526.5 (b) (ii) of the regulations, as amended, the Administrator hereby finds upon the *prima facie* case shown in the said application that the skinning of wild rabbits in wild rabbit skinning establishments, and the skinning of other wild fur bearing animals such as skunk, muskrat, mink, and beaver, in wild rabbit skinning establishments during the wild rabbit skinning season is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and the regulations issued thereunder, and, therefore, is entitled to the exemption provided in section 7 (b) (3) of the said Act.

As used in this determination the term "skinning of wild rabbits in wild rabbit skinning establishments and the skinning of other wild fur bearing animals" includes the operations of collecting or receiving the carcasses of these animals, or occasionally, the pelts of these animals which have not been cleaned, scraped or dried, and it includes the removing of the pelts from the carcasses, cleaning, scraping and drying the pelts, baling the pelts for shipment and all operations immediately necessary and incident to these enumerated operations. It does not include these operations when performed on domesticated rabbits or other fur bearing animals raised in captivity.

Signed at New York, New York, this 11th day of December 1942.

L. Metcalfe Walling,
Administrator.

In the original filing, as has heretofore been indicated by a previous Notice of Filing (Holding Company Act Release No. 3763), General Gas & Electric Corporation, among other things, proposed to surrender to a new consolidated company (which will be a successor corporation resulting from a proposed merger of Lexington Water Power Company into South Carolina Electric & Gas Company) $612,700 principal amount of Lexington Water Power Company, First Mortgage 5% Gold Bonds, series due January 1, 1968; and $2,311,900 principal amount of Lexington Water Power Company 5½% Convertible Sinking Fund Gold Debentures, due January 1, 1953, in return for certain securities of the consolidated corporation. In the present amendment it is requested that an interim order be entered, in these proceedings, permitting the surrender by General Gas & Electric Corporation to Lexington Water Power Company, on or before January 1, 1943, of $108,300 principal amount of Lexington Water Power Company, First Mortgage 5% Gold Bonds, series due January 1, 1968, and $125,000 principal amount of Lexington Water Power Company 5½% Convertible Sinking Fund Gold Debentures, due January 1, 1953, it being represented in the amendment that such surrender will enable Lexington Water Power Company to meet its sinking fund requirements due January 1, 1943.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service

[Fifth Supplement to General Order No. C–26]

PART 150—ARREST AND DEPORTATION

SUSPENSION OF DEPORTATION

DECEMBER 9, 1942.

Pursuant to the authority contained in section 23 of the Act of February 5, 1917 (39 Stat. 892; 8 U.S.C. 102); section 24 of the Act of May 26, 1924 (43 Stat. 166; 8 U.S.C. 222); section 1 of Reorganization Plan No. V (5 F.R. 2223); section 37 (a) of the Act of June 28, 1940 (54 Stat. 675; 8 U.S.C. 458), and § 90.1, Title 8, Chapter I, Code of Federal Regulations (7 F.R. 6753), the following amendment of Part 150[1] of the said regulations is hereby promulgated.

Section 150.10 is amended to read as follows:

§ 150.10 *Special procedure; application by an alien prior to arrest for suspension of deportation*—(a) *Who may apply.* Any alien who believes himself to be subject to deportation and against whom deportation proceedings have not been instituted by the issuance of a warrent of arrest, as provided in § 150.3 or 150.11 (a) may voluntarily submit himself to the jurisdiction of the Immigration and Naturalization Service and make written application for suspension of deportation. Such application may be made by filing Forms I–256 and I–55,* properly filled in and executed in triplicate, at the office of the Immigration and Naturalization Service having jurisdiction over the applicant's place of residence.

(b) *Eligibility.* An alien is eligible to be considered for suspension of deportation if

(1) He is deportable under any law of the United States, except

(i) The Act of October 16, 1918, as amended (anarchist and similar classes); or

(ii) The Act of May 26, 1922 (narcotic); or

(iii) The Act of February 18, 1931, as amended (narcotic); or

(iv) Any of the provisions of section 19 (a) of the Act of February 5, 1917, as amended, as relates to criminals, prostitutes, procurers, or other immoral persons, the mentally and physically deficient, anarchists, and similar classes; or

(v) Section 19 (b) of the Act of February 5, 1917, as amended (smuggling of aliens, unlawful possession of weapons, violation of Title I, Alien Registration Act, 1940); and

(2) He has proved good moral character for the preceding five years; and

(3) He is not racially inadmissible or ineligible to naturalization; and

(4) It is found that such deportation would result in serious economic detriment to a citizen or legally resident alien who is the spouse, parent, or minor child of such alien.

(c) *Issuance of warrant of arrest.* If, upon the filing of Forms I–256 and I–55, the officer in charge of the district believes from the facts set forth therein that the alien is subject to deportation, and finds that there is no warrant of arrest outstanding, such officer shall issue a warrant of arrest stating the charges upon which he believes the alien to be subject to deportation. If a warrant issues under this paragraph, one copy each of such warrant and of Forms I–256 and I–55 shall be immediately forwarded to the Central Office.

(d) *Documents and investigation required.* Where a warrant of arrest has been issued under this section and Forms I–256 and I–55 have been accepted as a prima facie showing of eligibility for suspension of deportation, the alien shall be advised (1) to obtain promptly and furnish the officer in charge, official certifications to establish his relationship to those he claims would suffer economic detriment by his deportation, and if such persons are citizens of the United States, evidence of their citizenship, and (2) submit the affidavits of two witnesses, preferably citizens, and if the alien is

employed, one from his employer, who can vouch for the alien's good moral character for the preceding five years. The officer in charge shall obtain verifications of such entries of the alien and other persons as are pertinent to the case and shall also cause an investigation to be conducted for the purpose of obtaining facts which will bear upon the alien's claim to eligibility for relief under the provisions of paragraph (b). The investigating officer shall make a written report of his investigation to be included in the record.

(e) *Notice to appear for hearing; counsel.* When the necessary entries have been verified and the documents required of the alien and the report of the investigating officer have been submitted, the alien shall be notified to appear for a hearing at a time and place to be designated by the officer in charge. If the alien is married and suspension of deportation is sought on the ground of economic detriment to the spouse, the alien shall be required to produce such spouse at the hearing. The alien shall also be informed that he may be represented at the hearing by counsel.

(f) *Hearing and record.* Upon the alien's appearance and the service on him of the warrant of arrest, if not previously served, the alien shall be granted a hearing to establish his deportability and eligibility for suspension of deportation. The presiding inspector assigned to conduct the hearing shall not be the same officer who conducted the investigation except in cases of necessity as determined by the officer in charge. The presiding inspector shall (1) apprise the alien that the purpose of the hearing is to establish the facts as to his deportability and eligibility for suspension of deportation, (2) place the alien under oath or affirmation, (3) advise the alien of the penalty for perjury and that any false answers to any of the questions in the application or General Information Form or at the hearing, may bar him from the relief he requests, and (4) enter of record as exhibits identified by number, copy of the formal warrant of arrest, Form I–256 and I–55, certifications and affidavits submitted by the alien, the written report of the investigation, and the reports as to records of the alien's entries and of the entries of such other persons as are material to the case. If the alien is married, the spouse shall be questioned for the purpose of determining whether the alien is eligible for suspension of deportation. The presiding inspector may question the alien and, in his discretion, require presentation of other witnesses for examination as to the deportability of the alien or his eligibility for suspension of deportation. At the hearing the alien should be afforded an opportunity to present any evidence he desires in support of his application. The presiding inspector, by questioning the alien and the witnesses, shall attempt to reconcile any discrepancies of fact occurring in the record.

(g) *Memorandum of the presiding inspector.* If, on the basis of the evidence presented as provided in paragraph (f), the presiding inspector is satisfied of the alien's deportability and that he is entitled to the relief sought, he shall prepare a memorandum, stating therein only the grounds for the alien's deportability and that he appears eligible for suspension of deportation under section 19 (c) (2) of the Immigration Act of 1917, as amended. A copy of the memorandum shall be furnished the alien. The entire record shall then be delivered to the officer in charge of the district for transmittal to the Central Office.

(h) *Termination of special procedure.* The special procedure provided for in paragraphs (f) and (g) of this section may be terminated forthwith (1) by the officer in charge of the district at any time prior to the transmittal of the record to the Central Office, upon a determination that the alien may leave for parts unknown, or is failing without cause to prosecute his application, or that the alien's eligibility for suspension of deportation is questionable; or (2) by the Central Office at any time prior to the submission of the record to the Board of Immigration Appeals; or (3) by the Board of Immigration Appeals at any time. If such special procedure has been terminated as herein provided, the alien may be released under bond or on his own recognizance and his case shall be handled as other deportation cases under §§ 150.4 to 150.9, inclusive, commencing with the proceedings immediately following the service of the warrant of arrest. The removal of any case from the procedure provided in this section shall be without projudice to the alien's application for suspension of deportation. (Sec. 19 (c), 39 Stat. 889, 54 Stat. 671; 8 U.S.C. 155 (c))

EARL G. HARRISON,
Commissioner of Immigration and Naturalization.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration

[Docket No. FDC—39]

PART 27—CANNED FRUIT COCKTAIL: DEFINITION AND STANDARD OF IDENTITY

ORDER AMENDING REGULATION

By virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act [secs. 401, 701 (e); 52 Stat. 1046, 1055; 21 U.S.C. 341, 371 (e), 1940 ed.] and upon the basis of evidence of record in the above-entitled proceeding and the evidence of record in the Canned Fruit Cocktail hearing, Docket No. 27, the following order is hereby promulgated:

Findings of Fact

1. The regulation fixing and establishing a definition and standard of identity for fruit cocktail promulgated by order dated July 17, 1942, published in the FEDERAL REGISTER of July 21, 1942,[1] provides for the use of the following packing media for fruit cocktail:

(1) Water;
(2) Fruit juice;
(3) Heavy sirup;
(4) Extra heavy sirup;
(5) Heavy fruit juice sirup; and
(6) Extra heavy fruit juice sirup.

2. The sweetened packing media provided for in said standard of identity are heavy sirup and heavy fruit juice sirup which have a minimum density of 18° Brix 15 days or more after canning, and extra heavy sirup and extra heavy fruit juice sirup which have a minimum density of 22° Brix 15 days or more after canning.

3. From the beginning most of the fruit cocktail sold to consumers has been packed in heavy sirup. About 85 percent of the 1941 pack was packed in that kind of packing medium.

4. By reason of the provisions of Rationing Order No. 3[2] as amended, issued by the Office of Price Administration, the quantity of sugar which may be used by any manufacturer of fruit cocktail for each common case of his total output of the product is 90 percent of the amount of sugar used per common case of his total output of the product during 1941.

5. The Federal Government purchases large quantities of fruit cocktail for lend-lease purposes and for use by the armed forces. It is anticipated that from 40 percent to 60 percent of the 1942 pack will be so purchased and, by virtue of War Production Board Orders M–86,[3] M–86–a,[4] and M–237,[5] such purchases are given priority over sales for civilian use. All the fruit cocktail so purchased is required to be packed in sirup and to comply with any applicable definition and standard of identity under the Federal Food, Drug, and Cosmetic Act.

6. The effect of these Government requirements and of O. P. A. Order No. 3 as amended is that, if said standard of identity for fruit cocktail is permitted to become effective, substantial quantities of the fruit cocktail available for civilian use after Government demands are met could only be packed in fruit juice or in water.

7. Fruit cocktail packed in fruit juice or in water is a specialty product which is used principally by persons who must restrict their consumption of sugars. Consumer demand has been relatively slight for this type of product, since most consumers prefer a sweetened product. Nor is enough fruit juice available for the purpose of packing a substantially larger quantity than heretofore of fruit cocktail in fruit juice.

8. Light sirup and light fruit juice sirup are liquid packing media for canned fruits and are of a density next lower to the density of heavy sirup and heavy fruit juice sirup. The minimum densities of such sirups vary with the variety of fruit, but such minima ordinarily are from 12° to 14° Brix 15 days

after canning. Definitions and standards of identity have been prescribed by regulation for canned peaches and canned pears, which are ingredients of canned fruit cocktail. The minimum density prescribed for light sirup and for light fruit juice sirup in canned peaches and canned pears is 14° Brix 15 days after canning. Canned fruit cocktail packed in a sirup of a density of 14° Brix or more but less than 18° Brix 15 days or more after canning, would be of a substantial degree of sweetness and would be usable for customary purposes. The names "light sirup" and "light fruit juice sirup" are common or usual names for fruit canning sirups in this density range, and would be accurate and understandable designations for such sirups in fruit cocktail.

9. The use of light sirup and light fruit juice sirup in fruit cocktail would permit a substantially larger quantity of fruit cocktail to be packed in sirup than would be possible under the standard already promulgated and would tend to meet consumers' desire for a sweet product as distinguished from a product packed in water or fruit juice. Such sirups have become proper and acceptable packing media for canned fruit cocktail. A label statement indicating that fruit cocktail is packed in light sirup will adequately differentiate between such a packing medium and those heretofore used.

On the basis of the foregoing findings of fact, it is concluded that said definition and standard of identity for fruit cocktail promulgated by order dated July 17, 1942, and published in the FEDERAL REGISTER for July 21, 1942, should be amended so as to include light sirup and light fruit juice sirup as additional optional packing media for fruit cocktail and to provide that such optional packing media be named on the label; and that said definition and standard of identity, as so amended, will promote honesty and fair dealing in the interest of consumers.

Amendment to Regulations

Wherefore, paragraphs (c), (d) (6), (d) (7), (d) (8), and (e) (1) of § 27.040 are hereby revised and amended so as to read as follows:

(c) The optional packing media referred to in paragraph (a) are as follows:

(1) Water;
(2) Fruit juice;
(3) Light sirup;
(4) Heavy sirup;
(5) Extra heavy sirup;
(6) Light fruit juice sirup;
(7) Heavy fruit juice sirup; and
(8) Extra heavy fruit juice sirup.

Each of packing media (3), (4), and (5) is prepared with water as its liquid ingredient, and each of packing media (6), (7), and (8) is prepared with fruit juice as its liquid ingredient. Except as provided in paragraph (d) (6), each of packing media (3) to (8), inclusive, is prepared with any one of the following saccharine ingredients: sugar; or any combination of sugar and dextrose in which the weight of the solids of the dextrose used is not more than one-half the weight of the solids of the sugar used; or any combination of sugar and corn sirup in which the weight of the solids of the corn sirup used is not more than one-third the weight of the solids of the sugar used; or any combination of sugar, dextrose, and corn sirup in which the weight of the solids of the dextrose used multiplied by 2, added to the weight of the solids of the corn sirup used multiplied by 3, is not more than the weight of the solids of the sugar used. The respective densities of packing media (3) to (8), inclusive, as measured on the Brix hydrometer 15 days or more after the fruit cocktail is canned are within the range prescribed for each in the following list:

Number of packing medium:	*Brix measurement*
(3) and (6)	14° or more but less than 18°.
(4) and (7)	18° or more but less than 22°.
(5) and (8)	22° or more but not more than 35°.

(d) For the purposes of this section:

* * * * *

(6) When the optional packing medium is prepared with fruit juice and invert sugar sirup or corn sirup other than dried corn sirup, it shall be considered to be light sirup, heavy sirup, or an extra heavy sirup, as the case may be, and not a light fruit juice sirup, heavy fruit juice sirup, or an extra heavy fruit juice sirup.

(7) The term "light sirup", "heavy sirup", or "extra heavy sirup" includes a sirup which conforms in all other respects to the provisions of this section, in the preparation of which there is used the liquid drained from any fruit ingredient previously canned in a packing medium consisting wholly of the liquid and saccharine ingredients of a light sirup, heavy sirup, or extra heavy sirup.

(8) Except as provided in subparagraph (6), of this paragraph, the term "light fruit juice sirup", "heavy fruit juice sirup", or "extra heavy fruit juice sirup" includes a sirup which conforms in all other respects to the provisions of this section, in the preparation of which there is used the liquid drained from any fruit ingredients previously canned in a packing medium consisting wholly of the liquid and saccharine ingredients of light fruit juice sirup, heavy fruit juice sirup, or extra heavy fruit juice sirup.

(e) (1) The optional ingredients specified in paragraphs (b) (5) (ii) and (iii) and (c) (1) to (8), inclusive, are hereby designated as optional ingredients which, when used, shall be named on the label by the name whereby each is so specified.

Said regulations fixing and establishing a definition and standard of identity for fruit cocktail as hereby amended shall become effective on the ninetieth day after the date of publication of this order in the FEDERAL REGISTER except that the provisions of paragraph (e) (1) as they apply to the optional packing media specified in paragraph (c) (3) to (8), inclusive, shall become effective on August 1, 1943.

APPROVAL OF ADJUSTMENTS IN RATES OF PAY OF EMPLOYEES OF FEDERAL RESERVE SYSTEM

§ 803.19 *General Order No. 19.* (a) The Board of Governors of the Federal Reserve System and any of the twelve Federal Reserve Banks, which proposes to make adjustments in the salaries or wages of their employees not fixed by statute, which would otherwise require the prior approval of the National War Labor Board, may make such adjustment on certification to the Board that the adjustment is necessary to correct maladjustments, or to correct inequalities, or gross inequities, as defined in the Board's Statement of Wage Policy of November 6, 1942, and any other general order or policy heretofore or hereafter announced thereunder.

(b) A certificate by the official authorizing the adjustments, stating the nature and amount of such adjustment and briefly setting forth the facts meeting the foregoing requirement will be accepted by the Board as sufficient evidence of the propriety of the adjustment, subject to review by the Board. [1] 6 F.R. 6845; 7 F.R. 2090.

(c) The local board shall enter in the Classification Record (Form 100) the date it transmits the registrant's file to the board of appeal.

2. Amend the regulations by deleting § 627.14 in its entirety.

3. Amend the regulations by deleting § 627.15 in its entirety.

4. Amend § 627.22 to read as follows:

§ 627.22 *Transfer of appeal.*[2] If the board of appeal, upon receiving the file of a registrant, determines that it does not have jurisdiction of the appeal or that it cannot act on the appeal for any other reason, it shall forward the file to the State Director of Selective Service. If the State Director of Selective Service determines that the board of appeal to which the file was originally forwarded does not have jurisdiction, he shall transmit the file to the board of appeal having jurisdiction. If the board of appeal to which the file was originally forwarded is unable to act for any reason and there is more than one board of appeal in the State, the State Director of Selective Service shall designate one of the other boards of appeal in the State to act upon the appeal and shall transmit the file to the designated board of appeal. If the board of appeal to which the file was originally forwarded is the only board of appeal in the State, the Director of Selective Service, upon the request of the State Director of Selective Service, shall designate a board of appeal in a neighboring State to act upon the appeal, and the State Director of Selective Service shall transmit the file to the designated board of appeal. The designated board of appeal shall act on the appeal in the same manner and make the same records as in the case of an appeal from a local board whose records it normally reviews, except that all entries and records will be made in red ink. The State Director of Selective Service shall advise the local board from which the appeal was taken when a file is referred to a board of appeal other than the one normally acting on appeals from such local board and shall state the reason why the file is not being reviewed by the board of appeal for the area in which such local board is located.

5. Amend § 627.23 to read as follows:

§ 627.23 *Preliminary review.*[3] The board of appeal will carefully check each file to determine whether all steps required by the regulations have been taken, whether the record is complete, and whether the information in the file is sufficient to enable it to determine the registrant's classification. If any steps have been omitted by the local board, if the record is incomplete, or if the information is not sufficient to enable the board of appeal to determine the classification of the registrant, the board of appeal shall return the file to the local board with proper instructions. If the board of appeal returns the file to the local board, it shall enter the date of the return in column 4 of the Docket Book of Board of Appeal (Form 102).

6. Amend paragraph (a) of § 627.25 to read as follows:

§ 627.25 *Special provisions where appeal involves claim that registrant is a conscientious objector.*[4] (a) If an appeal involves the question of whether or not a registrant is entitled to be sustained in his claim that he is a conscientious objector, the board of appeal shall first determine whether the registrant should be classified in one of the classes set forth in § 623.21, in the order set forth, and if it so determines, it shall place such registrant in such class. If the board of appeal does not determine that such registrant belongs in one of such classes, it shall transmit the entire file to the United States district attorney for the judicial district in which the local board of the registrant is located for the purpose of securing an advisory recommendation of the Department of Justice: *Provided*, That in a case in which the local board has classified the registrant in Class IV–E or in a case in which the registrant has claimed objection to combatant service only and the local board has classified him in Class I–A–C, the board of appeal may affirm the classification of the local board without referring the case to the Department of Justice. No registrant's file shall be forwarded to the United States district attorney by any board of appeal and any file so forwarded shall be returned, unless in the "Minutes of Other Actions" on the Selective Service Questionnaire (Form 40) the record shows and the letter of transmittal states that the board of appeal reviewed the file and determined that the registrant should not be classified in one of the classes set forth in § 623.21.

* * * * *

7. Amend § 627.27 to read as follows:

§ 627.27 *Record of decision on appeal.*[5] When the board of appeal makes its classification, it shall record its decision, showing the yes and no vote, upon the Selective Service Questionnaire (Form 40) and in the Docket Book of Board of Appeal (Form 102), shall mark the case "Closed" in the "Remarks" column of the Docket Book of Board of Appeal (Form 102), and shall immediately return the record to the local board provided that the State Director of Selective Service may direct the channels through which the record shall be returned to the local board.

8. Amend § 627.31 to read as follows:

§ 627.31 *Action of local board if board of appeal does not change classification.*[6] If the board of appeal affirms the local board's classification, the local board, upon receiving the file from the board of appeal, shall proceed as follows:

(a) Mail a Notice of Continuance of Classification (Form 58) to the registrant and a Classification Advice (Form 59) to the person who made the appeal, if other than the registrant.

(b) If one or more members of the board of appeal dissented from the determination of that board, the local board shall indicate on such notice and advice the numerical division of the board of appeal.

(b) If one or more members of the board of appeal dissented from the determination of that board, the local board shall indicate on such notice and advice the numerical division of the board of appeal.

(c) Enter on the Classification Record (Form 100) the date of mailing such notice and advice.

(d) Enter on the Classification Record (Form 100) the board of appeal classification and, with red ink, draw a line through the local board classification.

10. Amend § 627.41 to read as follows:

§ 627.41 *Appeal stays induction.*[8] A registrant shall not be inducted either during the period afforded him to take an appeal to the board of appeal or during the time such an appeal is pending.

11. Amend the regulations by adding a new section to be known as § 627.61 to read as follows:

Reconsideration by Board of Appeal

§ 627.61 *Reconsideration of board of appeal determination.* (a) When either the Director of Selective Service or the State Director of Selective Service deems it to be in the national interest or necessary to avoid an injustice, he may, at any time, request a board of appeal to reconsider any determination made by it, stating his reasons for requesting such reconsideration. Upon receiving such a request a board of appeal will reconsider its determination in any case.

(b) Any time before an Order to Report for Induction (Form 150) has been mailed to a registrant, the government appeal agent, if he deems it to be in the national interest or necessary to avoid an injustice, may prepare and place in the registrant's file a recommendation that the State Director of Selective Service either request the board of appeal to reconsider its determination or appeal to the President. The registrant's file shall then be forwarded to the State Director of Selective Service. As soon as the State Director of Selective Service has acted upon the government appeal agent's request he shall advise the local board and, if he determines neither to request the board of appeal to reconsider its determination nor to appeal to the President, he shall return the file to the local board.

12. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 628[1]—APPEAL TO THE PRESIDENT

MISCELLANEOUS AMENDMENTS

By virtue of the provisions of the Selective Training and Service Act of 1940 (54 Stat. 885, 50 U.S.C., Sup. 301–318, inclusive); E.O. No. 8545, 5 F.R. 3779, E.O. No. 9279, 7 F.R. 10177, and the authority vested in me by the Chairman of the War Manpower Commission in an Administrative Order dated December 5, 1942, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 628.1 to read as follows:

§ 628.1 *Who may appeal to the President from any determination of a board of appeal.* (a) When either the State Director of Selective Service or the Director of Selective Service deems it to be in the national interest or necessary to avoid an injustice, he may appeal to the President from any determination of a board of appeal. He may take such an appeal at any time.

(b) An appeal to the President may be taken by the Director of Selective Service (1) by mailing to the local board through the State Director of Selective Service a written notice of appeal or (2) by placing in the registrant's file a written notice of appeal and through the State Director of Selective Service, advising the local board thereof.

(c) An appeal to the President may be taken by the State Director of Selective Service (1) by mailing to the local board a written notice of appeal and directing the local board to forward the registrant's file to him for transmittal to the Director of Selective Service or (2) by placing in the registrant's file a written notice of appeal and advising the local board thereof. Before he forwards the registrant's file to the Director of Selective Service the State Director of Selective Service shall place in such file a written statement of his reasons for taking such appeal.

2. Amend § 628.2 to read as follows:

§ 628.2 *Appeal to the President.* The registrant or any person who claims to be a dependent of the registrant or any person who has filed written information as to the occupational status of the registrant, at any time within 10 days after the mailing by the local board of the Notice of Continuance of Classification (Form 58) or the Notice of Classification (Form 57), notifying the registrant that the local board classification has been affirmed or changed, may appeal to the President provided the registrant was classified by the board of appeal in either Class I–A, Class I–A–O, or Class IV–E and one or more members of the board of appeal dissented from such classification. The local board may permit any person who is entitled to appeal to the President under this paragraph to do so, even though the 10-day period herein provided for such an appeal has elapsed, if it is satisfied that the failure of such person to appeal within such 10-day period was due to a lack of understanding of the right to appeal or to some cause beyond the control of such person. Unless the local board permits such an appeal, the right of such persons to appeal to the President shall terminate at the end of the 10-day period herein provided.

3. Amend § 628.3 to read as follows:

§ 628.3 *How appeal to the President is taken.* (a) An appeal to the President under the provisions of § 628.2 shall be taken (1) by mailing or delivering to the local board written notice of appeal or (2) by going to the local board and signing the appeal to the President on the Selective Service Questionnaire (Form 40). If the appeal is taken by filing a written notice of appeal, such notice need not be in any particular form but should include the name of the registrant, his serial and order numbers, the identity of the person appealing (sufficiently definite to show the right of appeal), and the fact that such person wishes the President to review the determination of the board of appeal.

4. Amend § 628.4 to read as follows:

§ 628.4 *Procedure on appeal to the President.* (a) When an appeal to the President is taken, the local board shall (1) notify the registrant that such an appeal has been taken, unless he is the person who took the appeal; (2) if the registrant's file is in its possession, forward the entire file to the State Director of Selective Service; and (3) enter on the Classification Record (Form 100) the date the file is forwarded or the date it receives notice that an appeal has been taken. The local board shall not place in the file any statement or expression of opinion concerning the information in the registrant's file or the reasons for its decision.

(b) When an appeal to the President is taken, the State Director of Selective Service shall check each file which is in his possession or which is forwarded to him to be sure that all procedural requirements have been properly complied with and, if he discovers any procedural defects, return the file for correction. If any information has been placed in the file which was not considered by the local board in making the classification from which the appeal to the President is taken, the State Director of Selective Service shall review such information and, if he is of the opinion that such information, if true, would justify a different classification of the registrant, return the file to the local board with instructions to reopen the registrant's classification and classify the registrant anew.

(c) When the State Director of Selective Service has complied with the provisions of (b) above, he shall, unless the file is returned to the local board, forward the file to the Director of Selective Service.

5. Amend § 628.7 to read as follows:

§ 628.7 *Appeal to the President stays induction.* A registrant shall not be inducted during the time an appeal to the President is pending.

6. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Director.

(3) During the period November 1, 1942 through December 31, 1942, no processor of agave cordage during the year 1942 shall apply the rating assigned by paragraph (g) (1) to obtain delivery of any istle or jute yarns for such purpose in excess of an equivalent, for each yarn, of the basic monthly poundage, as established under paragraph (a) (10), and of two times said poundage for cotton yarns. Any such processor desiring additional quantities of any of said yarns may apply to the War Production Board therefor on form PD–1A or other applicable form prescribed.

(h) *Control and allocations of stocks of agave fiber and agave cordage.* (1) Control is hereby taken of the disposition and use of agave fiber and agave cordage possessed by or under the control of any importer, dealer or processor. Any agave fiber or agave cordage at any time hereafter in the inventory of any such person shall be sold and delivered by such person as, and if, specifically directed in any order of the Director General for Operations which may be issued whenever the Director General for Operations shall determine that a shortage of any particular grade of agave fiber or agave cordage for defense, or for private account, or for export, renders it necessary or appropriate so to allocate such agave fiber or agave cordage in the public interest, or to promote the national defense by so directing its sale and delivery by such person. Any such sale shall be made at the established prices and terms of sale and payment therefor and shall take precedence over any preference rated orders. No person shall dispose of or use agave fiber or agave cordage in any manner inconsistent with any such order.

(2) Applications for specific authority to purchase, receive or use agave fiber or agave products otherwise than as permitted by paragraphs (b), (c), (d) or (e) may be made to the Director General for Operations by the person desiring to use such agave fiber or agave cordage on form PD–709 or such other form or forms as may be prescribed. Such application shall also summarize

the efforts made by the applicant to use substitutes and shall contain a statement of the reasons why the applicant believes the use of agave fiber or agave cordage, in the manner and the extent that application therefor is made, will promote the national defense or will be in the public interest.

(i) *Reports.* Every importer of agave fiber shall file a report on Form PD–129 and every processor of agave fiber shall file a report on form PD–128 with the U. S. Tariff Commission, acting for the War Production Board, not later than the tenth day of the following month, and all persons affected by this order shall file with the War Production Board such reports as may from time to time be required by said Board.

(j) *Records.* All persons affected by this order shall keep and preserve for not less than two (2) years accurate and complete records concerning inventories, production, sales and other transactions pursuant to this order, and shall from time to time, upon request, submit all records required to be kept by this order to audit and inspection by duly authorized representatives of the War Production Board.

(k) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of agave fiber conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or telegram, Reference M–84, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(l) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Reference M–84.

(m) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1499—COMMODITIES AND SERVICES

[Rev. Supp. Reg. 12 to GMPR [1]]

SALES OR DELIVERIES OF IMPORTED COMMODITIES

A statement of the considerations involved in the issuance of this revised supplementary regulation is issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

Paragraph (a) (13) of § 1499.29, heretofore a part of Revised Supplementary Regulation No. 4, as amended, is incorporated herein, with certain changes, as § 1499.1404 (b); § 1499.48 is hereby revoked and is superseded by §§ 1499.1401 to 1499.1409 inclusive, as set forth below.

§ 1499.1401 *Effect of other price regulations.* This regulation shall not apply to any imported commodity subject to a specific maximum price regulation, or a supplementary regulation to the General Maximum Price Regulation which establishes specific maximum prices, already issued or issued hereafter.

§ 1499.1402 *Sales or deliveries of imported commodities to industrial users or intermediate distributors.* (a) Sales or deliveries of any commodity which was imported after March 31, 1942, by an importer, other than the United States or any agency thereof, or such other government or agency thereof, as described in § 1499.1404 (b), to an intermediate distributor or industrial user, and sales or deliveries of such a commodity by an intermediate distributor to an industrial user, may be made at a price higher than the maximum price established by the General Maximum Price Regulation, subject to the following limitations:

(1) If the importer delivered or offered for delivery the same commodity during March 1942, such higher price shall not exceed the maximum price established by the General Maximum Price Regulation by an amount in excess of any increase in the total landed costs of such commodity over the total landed costs for the same commodity, upon which his maximum price under the General Maximum Price Regulation was established.

(2) If the importer did not deliver or offer for delivery the same commodity during March, the higher price charged by him shall be subject to revision or adjustment by the Price Administrator if, in the opinion of the Price Administrator, such price exceeds the maximum price established for him under section 2 (b) of the General Maximum Price Regulation by more than a fair allowance for any increase in the total landed costs of the commodity sold or delivered over the total landed costs of the commodity, upon which his maximum price under the General Maximum Price Regulation was established.

(3) The higher price charged by the intermediate distributor shall not exceed the maximum price established by the General Maximum Price Regulation by more than the amount certified to him by the importer in writing pursuant to § 1499.1402 (c).

(b) No petition or application by an industrial user for amendment, adjustment, exception, or other relief will be entertained by the Price Administrator to the extent that such petition or application is based, directly or indirectly, upon the purchase or receipt of an imported commodity at the higher price permitted by § 1499.1402 (a) of this regulation.

(c) Any importer or intermediate distributor who on or after December 19, 1942, sells or agrees to sell an imported commodity to an industrial user at the higher price permitted by § 1499.1402 (a) shall prior to the time of such sale or agreement notify him in writing that such higher price is being charged pursuant to § 1499.1402 (a) and also of the prohibition of § 1499.1402 (b) of this regulation. Any importer who sells or agrees to sell an imported commodity to an intermediate distributor at the higher price permitted by § 1499.1402 (a) shall prior to the time of such sale or agreement give him similar notice and shall furthermore certify to him in writing not later than the time of the first delivery under any sale the amount of the increase in the total landed costs permitted to be charged under § 1499.1402 (a), which is included in the price charged to the intermediate distributor. If the price charged is altered by the importer for any delivery under a sale as a result of a change in the total landed costs before deliveries are completed, he shall certify such change to the intermediate distributor.

(d) Within 10 days after the first delivery to each intermediate distributor or to each industrial user under any sale made at the higher price permitted by § 1499.1402 (a), the importer shall forward to the Director, Office of Export-Import Price Control, Office of Price Administration, Washington, D. C., a report, in duplicate, as to each imported commodity so delivered, upon form OPA-SR-12A contained in § 1499.1407, Appendix A, of this regulation, or upon a form copied therefrom. Copies of form OPA-SR-12A may be obtained from the Office of Price Administration, Washington, D. C. If the price charged is altered by the importer for any delivery under a sale as a result of a change in the total landed costs before deliveries are completed, supplemental reports, in duplicate, shall be filed upon such form as to each imported commodity so delivered.

(e) Within 10 days after the first delivery to each industrial user under any sale made at the higher price permitted by § 1499.1402 (a), the intermediate distributor shall forward to the Director, Office of Export-Import Price Control, Office of Price Administration, Washington, D. C., a report, in duplicate, as to each imported commodity so delivered, upon form OPA-SR-12B contained in § 1499.1408, Appendix B, of this regulation, or upon a form copied therefrom. Copies of form OPA-SR-12B may be obtained from the Office of Price Administration, Washington, D. C. If the price charged to the industrial user is altered by the intermediate distributor for any delivery under a sale as a result of a change in the total landed costs certified to him by the importer before deliveries are completed, supplemental reports, in duplicate, shall be filed upon such form as to each imported commodity so delivered.

(f) Whenever an intermediate distributor, or an importer who sells directly to an industrial user, believes that the filing of the individual reports required in § 1499.1402 (e) or § 1499.1402 (d) of this regulation would place an undue burden upon him, he may apply in writing to the Administrator, Office of Price Administration, Washington, D. C., for permission to file consolidated reports. If the Administrator grants such permission, he shall indicate in each case what data should be included in such consolidated reports.

§ 1499.1403 *Sales or deliveries of imported commodities to persons other than industrial users or intermediate distributors.* On and after December 19, 1942, regardless of the terms of any contract of sale or purchase, except for the provisions of § 1499.1402 (a), no person shall sell or deliver, and no person shall buy or receive, at a price higher than the maximum price established by the General Maximum Price Regulation, any imported commodity which is not subject to a specific maximum price regulation or a supplementary regulation to the General Maximum Price Regulation which establishes specific maximum prices.

§ 1499.1404 *Exceptions.* This regulation shall not apply to:

(a) Purchases of commodities to be imported by a person who deals directly with the seller or his selling agent wherever located.

(b) Sales or deliveries of any imported commodity in its imported state, or after being subjected to a process which does not result in the production of a new and different article having a distinctive name, character or use, to the United States or any agency thereof, or to the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States" or any agency of such government, or sales or deliveries to any person who will use such commodity to fulfill a contract with the United States or any agency thereof, or with any such other government or any agency thereof, or to fulfill a subcontract under any such contract: *Provided, however,* That this exception shall not apply to the following commodities:

(1) Fish and seafood: canned, salted, pickled, smoked, or frozen.

(2) Other foodstuffs processed after importation.

(3) Silver bullion.

(4) Crude rubber, balata, and guayule.

(c) Sales or deliveries of any commodities excepted from the General Maximum Price Regulation.

(d) Lumber and wood shingles produced in and imported from Canada or Mexico.

(e) Unmanufactured asbestos, asbestos crudes, fibers, stucco, and sand and refuse containing not more than 15 per centum of foreign matter.

§ 1499.1405 *Less than maximum prices.* Lower prices than those permitted under this regulation may be charged, demanded, paid, or offered.

§ 1499.1406 *Definitions.* When used in this Revised Supplementary Regulation No. 12, the term:

(a) "Imported commodity" means any commodity entered into the continental United States from outside thereof for consumption therein or withdrawn from a bonded warehouse in the United States for consumption therein.

(b) "Importer" means any person who is the ultimate consignee in the United States of an imported commodity and who sells or delivers such commodity to an intermediate distributor or to an industrial user in its imported state, or after being subjected to a process which does not result in the production of a new and different article having a distinctive name, character or use, and who does not use the imported commodity as an ingredient or a component part of such an article.

(c) "Intermediate distributor" means any person who buys or receives an imported commodity directly from the importer thereof and who sells or delivers such commodity to an industrial user either in the same condition as received, or after being subjected to a process which does not result in the production of a new and different article having a distinctive name, character or use, and who does not use the commodity as an ingredient or a component part of such an article.

(d) "Industrial user" means any person who subjects an imported commodity to a process which results in the production of a new and different article having a distinctive name, character or use, or who uses it as an ingredient or a component part of such an article, or who uses it in some other manner to place a commodity in condition for sale or delivery.

(e) "Total landed costs" means the sum of the price charged by the foreign seller, and all the costs, expenses and charges, including customs duties and import taxes, if any, incurred by the importer with respect to the imported commodity from the point of shipment outside the continental United States to the point in the continental United States designated by the importer for initial delivery: *Provided,* That in computing these costs, war risk insurance costs on commodities shipped after September 1, 1942, shall not exceed the amount of the applicable direct voyage war risk insurance charged by the War Shipping Administration at the time of shipment, plus any insurance costs actually incurred on war risks not eligible for insurance by the War Shipping Administration: *And provided, further,* That charges incurred in warehousing a commodity in the United States for any period in excess of sixty days shall not be deemed to be a part of the total landed costs.

(f) Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation or in any of the supplementary regulations or amendments thereto shall apply to the terms used herein.

[Revised Suspension Order 177]

BENJAMIN COHEN AND SAMUEL LA POUCHE

ORDER RESTRICTING TRANSACTIONS

Suspension Order No. 177 is hereby amended to read as follows:

Benjamin Cohen and Samuel La Pouche, doing business as Supreme Mineral Water Company and Liberty Club Beverages, 69 Bath Street, Providence, Rhode Island, hereinafter called respondents, were duly served with a notice of specific charges of violations of Ration Order No. 3, Sugar Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing was held on October 15, 1942, in Providence, Rhode Island. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator in Charge of Rationing, it is hereby determined that:

(a) Respondents use sugar in their business of manufacturing bottled beverages and soda waters for sale at wholesale.

(b) Respondents have violated § 1407.82 of Rationing Order No. 3, Sugar Rationing Regulations, in that on August 3, 1942, respondents accepted delivery of 10,000 pounds of sugar without surrendering any sugar purchase certificate therefor until August 7, 1942; such delivery was not within the class of deliveries of sugar permitted by Rationing Order No. 3, to be made without the surrender of a sugar purchase certificate at or before the time of delivery of such sugar.

Because of the great scarcity and critical importance of sugar in the United States, respondents' violations of the Sugar Rationing Regulations have resulted in the diversion of sugar from military and essential civilian uses to non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of the Sugar Rationing Regulations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) That the total allotment of sugar which respondents would otherwise be entitled to receive and use during the period commencing January 1, 1943, and ending February 28, 1943, shall be reduced by 10,000 pounds.

(d) Any terms used in this Suspension Order No. 177 that are defined in the Rationing Order No. 3, Sugar Rationing Regulations, shall have the meaning therein given them.

Issued and effective this 14th day of December 1942.

Deputy Administrator,
in Charge of Rationing.

INTERNATIONAL EDGE TOOL CO. INC.

International Edge Tool Company, Inc. of Newark, New Jersey, is a New Jersey corporation engaged in the manufacture of steel knives and choppers used for cutting meat. During the month of September, 1942, the company rejected an order for steel knives and choppers bearing a preference rating of AA-2. The company thereafter persisted in its refusal to accept any war order. Such refusal constituted a violation of Priorities Regulation No. 1 which requires that war orders be accepted and filled. In view of the foregoing; *It is hereby ordered,* That:

§ 1010.137 *Suspension Order S-137.* (a) Deliveries of material to International Edge Tool Company, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to International Edge Tool Company, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained herein shall be deemed to relieve International Edge Tool Company, Inc., its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on December 18, 1942, and shall remain in effect until revoked.

PART 3037—ELECTRONIC EQUIPMENT

[General Limitation Order L-183-a, as amended Dec. 16, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of electronic equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3037.2 *General Limitation Order L-183-a*—(a) *Definitions.* For the purpose of this order:

(1) "Electronic equipment" means any electrical apparatus or device involving the use of vacuum or gaseous tubes and electrical equipment used for communications, detection and signaling; and shall include any associated or supplementary device, apparatus or part therefor and supporting test equipment.

(2) "Producer" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not, to the extent engaged in the production or assembly of electronic equipment which is manufactured for delivery to or for the account of:

(i) The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast Guard, and the Civil Aeronautics Administration; or

(ii) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its dominions, Crown Colonies, and Protectorates, and Yugoslavia; or

(iii) Any other country, including those of the Western Hemisphere, now or hereafter designated, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) "Precedence list" is the schedule issued, and as amended from time to time by the Joint Communications Board of the Army and Navy, which sets forth by numerical designation the relative urgency of deliveries of certain types and quantities of electronic equipment. The order of urgency established by this list is:

PLA1.
PLA1a, etc.
PLA2, etc.
PLB1, etc.; PLA1 being the highest urgency presently assigned.

(b) *Operation of the precedence list.* (1) The numerical designations of the precedence list shall establish the relative urgency of certain deliveries of types and quantities of electronic equipment and of those components and parts referred to in subparagraphs (3) and (4) of this paragraph, within any single category of preference rating. Any delivery bearing a lower numerical designation in any category of preference rating shall be deferred to the extent necessary to assure, within the time specified, those deliveries bearing higher designations within the same category of preference rating, even though such deferment may cause default in deliveries bearing lower designations.

(2) The assignment of a precedence list designation shall not affect production or delivery under any order (including an order for electronic equipment or components or parts thereof) which does not bear a precedence list designation. The sequence of deliveries among such orders bearing no precedence list designation and as between any order bearing no precedence list designation and any order bearing a precedence list designation shall be determined pursuant to Priorities Regulation No. 1 in accordance with the preference ratings which such orders respectively bear.

(3) Each producer shall review his production and delivery schedules for electronic equipment to which numerical designations under the precedence list have been applied; and, notwithstanding the provisions of any applicable priorities regulations or other orders of the War Production Board, he shall on and after February 15, 1943 (and he may prior to said date) schedule or reschedule within each category of preference rating his production schedules of deliveries of types and quantities of electronic equipment to which numerical designations of urgency have been applied, in relation to each other only, and in accordance with such designations, so that, as to deliveries of those bearing lower designations, production shall be deferred to the extent necessary to assure those deliveries bearing higher designations within the time specified.

(4) When numerical designations of urgency have been applied to deliveries by a producer, such producer shall immediately transmit such designations, in writing, to his suppliers and fabricators of those components or parts to be incorporated into such deliveries of the producer which are listed on Schedule A hereof. In transmitting such designations the producer shall furnish his suppliers and fabricators of such components or parts a definite monthly delivery schedule of the quantities of such components or parts as are actually required to support the production of the minimum quantities of electronic equipment as indicated by the precedence list. In his determination of the quantities actually required, as above provided, the producer shall in every case specify only such quantities as are actually required in addition to that portion of the producer's current inventory of such components or parts which is held for the account of those end product deliveries the precedence list designations of which are being transmitted. The producer transmitting such designations shall further specify the proper precedence list designation applicable to each recurrence of any type of electronic equipment or component. The numerical designations of urgency shall in no case be applied to deliveries of raw materials.

(5) Notwithstanding the provisions of any applicable priorities regulations or other orders of the War Production Board, any such supplier or fabricator receiving such numerical designations of urgency, from one or more producers, shall on and after February 15, 1943 (and may prior to said date), schedule or reschedule, within each category of preference rating, his production schedules of deliveries of types and quantities of components or parts to which such designations apply, in relation to each other only, and in accordance with such designations, so that, as to deliveries of those bearing lower designations, production shall be deferred to the extent necessary to assure those deliveries bearing higher designations in accordance with the purchase orders therefor.

(6) The Director General for Operations may from time to time issue special orders or directions varying or changing dates of deliveries or production schedules of electronic equipment, parts and components thereof, or supporting test equipment, and may direct the cancellation of any order held by any producer, or allocate any unfilled order to any other producer; and such orders or directions when issued shall be complied with irrespective of priorities regulations or orders, preference ratings, or precedence list designations.

(7) The Director General for Operations may from time to time amend Schedule A hereof by the removal or addition of any component or part. The removal of any component or part from Schedule A by amendment thereof shall not affect existing schedules of deliveries of such component or part. Upon the addition of any other component or part to Schedule A by amendment thereof, producers shall transmit to their suppliers and fabricators of such component or part the information as required by paragraph (b) (4) of this order within ten days of the date of such addition to Schedule A.

(c) *Records.* All producers and suppliers and fabricators affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning production deliveries and orders for electronic equipment and components and parts therefor, deliveries of which are governed by this order.

(d) *Reports.* All producers and suppliers and fabricators affected by this order shall execute and file with the War Production Board such reports and questionnaires as the War Production Board shall from time to time prescribe.

(e) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time, except as specifically provided to the contrary in paragraph (b) hereof.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control and may be deprived of priorities assistance.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment, in the community, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications.* All reports to be filed, appeals and other communications concerning this order shall be addressed to: War Production Board, Radio and Radar Division, Washington, D. C., Ref. L–183–a.

Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-166]

MALINA COMPANY OF NEW JERSEY

Malina Company of New Jersey, located in Paterson, New Jersey, is a partnership engaged in the business of warping and jobbing rayon yarn. Louis Malina, Irving J. Aibel and Jack Gruber are the active partners in the firm. This concern was familiar with the provisions of Supplementary Order M-37-a and, after the revocation thereof, with Supplementary Order M-37-c, which controlled the supply and distribution of rayon yarn and prohibited the exchange of reserved rayon yarn.

During the period of January through May, 1942, Malina Company of New Jersey exchanged with Guarantee Silk Company, Inc., and Judy Textile Corporation, of New York, New York, viscose rayon yarn for an amount of acetate rayon yarn in excess of 24,000 pounds, knowing that such acetate rayon yarn was reserved yarn allocated to the Guarantee Silk Company, Inc.

These violations of Supplementary Orders M-37-a and M-37-c have impeded and hampered the war effort of the United States by diverting reserved rayon yarn to uses unauthorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered,* That:

§ 1010.166 *Suspension Order S-166.* (a) Louis Malina, Irving J. Aibel and Jack Gruber, individually or doing business under the name of Malina Company of New Jersey, or under any other name, their successors and assigns, shall not receive or accept delivery of rayon yarn as the same is defined in Supplementary Order M-37-c, except for the purpose of warping said yarn on a commission basis.

(b) Louis Malina, Irving J. Aibel and Jack Gruber, individually or doing business under the name of Malina Company of New Jersey, or under any other name, their successors and assigns, shall not transfer or deliver any rayon yarn, except as specifically authorized by the Director General for Operations: *Provided, however,* That Louis Malina, Irving J. Aibel and Jack Gruber may transfer and deliver in warped form the identical yarn which has been delivered to them for warping on a commission basis, pursuant to the provisions of paragraph (a) hereof.

(c) Louis Malina, Irving J. Aibel and Jack Gruber, individually or doing business under the name of Malina Company of New Jersey, or under any other name, their successors and assigns, shall not receive or accept deliveries of rayon yarn for any purpose without first having obtained a written certification from the person delivering such yarn, setting forth whether or not such yarn is reserved yarn as defined in Supplementary Order M-37-c.

(d) Nothing contained in this order shall be deemed to relieve Louis Malina, Irving J. Aibel and Jack Gruber, individually or doing business under the name of Malina Company of New Jersey, or under any other name, their successors and assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on December 17th, 1942, and shall expire on March 17th, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 286]

CERTAIN SAUSAGE PRODUCTS FOR WAR PROCUREMENT AGENCIES

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 issued by the President on October 3, 1942, to maintain as the maximum prices for certain sausage products for War Procurement Agencies the prices prevailing with respect thereto during the month of March 1942. On the basis of data available, the Price Administrator has ascertained that prices determined as provided in § 1364.802 reflect the prices prevailing during such period. The Price Administrator has ascertained and given due consideration to the prices of such sausage products prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act and Executive Order. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which such sausage products are produced a price for their products equal to the highest of the prices required by the provisions of the Emergency Price Control Act of 1942, as amended, and the Executive Order No. 9250 of October 3, 1942.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1 [7 F.R. 8961] issued by the Office of Price Administration, Maximum Price Regulation No. 286, is hereby issued.

AUTHORITY: § 1364.801 to § 1364.811 inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

The maximum prices specified herein shall not be applicable to products delivered prior to December 19, 1942, to a carrier other than a carrier owned or controlled by the seller, for delivery to the purchaser.

§ 1364.802 *Maximum prices for certain sausage products sold to War Procurement Agencies of the United States Government.* The maximum prices specified herein are maximum prices on sales to War Procurement Agencies of products produced in accordance with federal specifications, approved by the Federal Specifications Board, for use of agencies of the United States Government.

[1] 7 F.R. 10023.

Cleveland, Ohio, of "Pfaffman's" Roni-Feast Dinner, packed two dozen—7 ounce packages to the shipping case shall be:

$2.04 for sales to wholesale grocers.
$1.92 for sales to wagon distributors.
$2.16 for sales to direct buying retailers.

These prices shall include prepaid freight to purchaser's stations in the instance of wholesale grocers and wagon distributors and shall provide store door delivery on sales to direct buying retailers.

(b) Wholesale grocers shall determine their maximum delivered selling prices of "Pfaffman's" Roni-Feast Dinner by adding to their net cost of this item the maximum profit margin of 17⅔% of their net cost. The maximum delivered prices so determined shall not exceed $2.40 per shipping case of 2 dozen 7 ounce packages.

Net cost for a wholesale grocer as mentioned in this paragraph shall be his invoice price for "Pfaffman's" Roni-Feast Dinner delivered in a customary quantity for this type of item by the customary mode of transportation to his customary receiving point, less all discounts allowed him, except discount for prompt payment. No charge or cost for unloading or local trucking shall be included in net cost.

(c) Wagon distributors shall determine their maximum delivered selling prices of "Pfaffman's" Roni-Feast Dinner by adding to their net cost a maximum profit margin of 25% of their net cost. The maximum delivered prices so determined shall not exceed $2.40 per shipping case of 2 dozen 7 ounce packages.

Net cost for a wagon distributor as mentioned in this paragraph shall be his invoice price for "Pfaffman's" Roni-Feast Dinner delivered in a customary quantity of this type of item by the customary mode of transportation to his customary receiving point, less all discounts allowed him, except discount for prompt payment. No charge or cost for unloading or local trucking shall be included in that cost.

(d) Sellers at retail shall determine their maximum selling prices of "Pfaffman's" Roni-Feast Dinner by adding to their net cost of this item a maximum profit margin of 33⅓% of this net cost. The maximum prices so determined shall not exceed 13¢ per 7 ounce package. Where a maximum price per package determined by the provisions of this paragraph is a fractional cent price and the fraction of a cent is less than one-half cent, the price per package shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the retailer is permitted to increase his maximum price per package to the next higher cent.

Net cost for a retailer as mentioned in this paragraph shall be his invoice price for "Pfaffman's" Roni-Feast Dinner delivered to his customary receiving point in a customary quantity of this type of item by a customary mode of transportation and from a customary source of supply, less all discounts allowed him except the discount for prompt payment. No charge or cost for unloading or local trucking shall ever be included.

(e) No seller shall change his customary discounts, allowances and price differentials applying to comparable items of macaroni and spaghetti dinner combinations in making sales of "Pfaffman's" Roni-Feast Dinner unless such change in these customary discounts, allowances and price differentials results in lower selling prices, except that trade discounts of The Pfaffman Company have been deducted from list prices in establishing maximum selling prices in paragraph (a) of this Order No. 179.

(f) On and after December 16, 1942, The Pfaffman Company shall supply a written notification to each wholesaler and to each wagon distributor before or at the time of first delivery of "Pfaffman's" Roni-Feast Dinner to such wholesaler or wagon distributor, and for a period of three months thereafter shall include with each shipping unit of "Pfaffman's Roni-Feast Dinner, a written notification to retailers. If such retailer notification is enclosed in a shipping unit, a legend shall be affixed outside of such unit to read "Retailer's Notice Enclosed." The written notifications, for each type of purchaser, shall include the following appropriate statements:

Notification from The Pfaffman Company to wholesalers:

The OPA has authorized us to charge wholesalers $2.04 per shipping case of 24 seven ounce packages of "Pfaffman's" Roni-Feast Dinner subject to all customary allowances and discounts, except the normal trade discounts which have already been deducted in establishing this price. Wholesalers are authorized to establish a ceiling price by adding to the net cost of this item 17⅔% of such net cost, provided that the ceiling price so determined shall not exceed $2.40 per case. Net cost is the invoice cost at the customary receiving point, less all discounts, other than for prompt payment, and excluding charges for local hauling. Retailers shall establish a ceiling price by adding to their net cost 33⅓% of such net cost. Each individual ceiling price determined by any seller shall be figured to the nearest cent (raise one-half cent fractions to the next even cent). A copy of a notification to retailers is included in every shipping unit of this item. If the initial sale of this item to any retailer is a split case sale, wholesalers are required to provide such retailer with a copy of the retail notification so enclosed. OPA requires that you keep this notice for examination.

Notification from The Pfaffman Company to wagon distributors:

The OPA has authorized us to charge wagon distributors $1.92 per shipping case of 24 seven ounce packages of "Pfaffman's" Roni-Feast Dinner subject to all customary allowances and discounts, except the normal trade discounts which have already been deducted in establishing this price. Net cost is the invoice cost at the customary receiving point, less all discounts, other than for prompt payment, and excluding charges for local hauling. Retailers shall establish a ceiling price by adding to their net cost 33⅓% of such net cost. [Docket No. 1808–FD]

ALBUQUERQUE AND CERRILLOS COAL CO.

ORDER OF CERTIFICATION

This proceeding was originally instituted upon a complaint filed with the Bituminous Coal Division June 9, 1941, by a representative of local Union No. 6920 of the United Mine Workers of America alleging that various acts of respondent Albuquerque and Cerrillos Coal Company, a code member producer operating a mine near or in Madrid, New Mexico, in District 18 were in violation of the provisions of section 9 of the Bituminous Coal Act of 1937. The complaint, *inter alia,* prayed that the Division grant such relief as may be "just and proper in the premises."

Pursuant to an appropriate order, and after due notice to interested persons, a hearing in this matter was held November 10, to November 22, 1941, before Joseph D. Dermody, a duly designated Examiner of the Division, at a hearing room thereof in Albuquerque, New Mexico, at which interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise participate in the hearing. The complainant union, respondent company, and a representative of the Office of the General Counsel of the Division appeared at the hearing and actively participated in it.

On July 31, 1942, the Examiner submitted his report in which he recommended that I certify to all departments or agencies of the United States having contracts for the purchase of bituminous coal produced by respondent that respondent is violating the provisions of section 9 (a) (1) and section 9 (a) (2) of the Bituminous Coal Act of 1937, contrary to the public policy of the United States.

Respondent filed exceptions to the report and recommendations of the Examiner and a brief in support thereof. These exceptions and brief, the report and recommendation of the Examiner, and the entire record of the proceedings were carefully examined by me. In a memorandum opinion approving and adopting the report and recommendations of the Examiner, filed December 5, 1942, 7 F.R. 10238, I overruled the exceptions and indicated my reasons for approving the report and recommendations which had been submitted.

The exceptions to the report and recommendations of the Examiner should be rejected and severally overruled. The report and recommendations of the Examiner, as supplemented by my memorandum opinion of December 5, 1942, should be adopted and approved as the findings of the Director. These findings should be certified to all departments or agencies of the United States concerned.

It is so ordered.

Dated: December 12, 1942.

[Docket B–255]

SHEESLEY COAL COMPANY

ORDER ADOPTING PROPOSED FINDINGS OF FACT, ETC.

Order adopting proposed findings of fact, proposed conclusions of law and recommendation of the examiner, and cancelling and revoking code membership.

A complaint was duly filed on April 29, 1942, by District Board No. 1, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, in which complainant alleged that the Sheesley Coal Company, a corporation, code member producer operating Sheesley Mine (Mine Index No. 468), Cambria County, Pennsylvania, in District 1, wilfully violated the Bituminous Coal Act of 1937, the Bituminous Coal Code, Rule 1 of Section III of the Marketing Rules and Regulations, Order No. 288, dated December 8, 1939, and Price Instruction 5 of the Schedule of Effective Minimum Prices for District 1 for All Shipments Except Truck; the complaint asked that the Division cancel and revoke the code membership of the Sheesley Coal Company or, in its discretion, direct it to cease and desist from further violations of the Act, the Code and rules and regulations thereunder.

Complainant alleged, *inter alia,* that code member:

Wilfully violated section 4 II (e) of the Act and Part II (e) of the Code by selling, during the period from March 25, 1941 to April 9, 1941, both dates inclusive, to W. M. Hollenback, Philadelphia, Pennsylvania, registered distributor, Registration No. 4445, approximately 302.10 net tons of ¾″ slack coal, Size Group 5, produced by code member at its mine, at a price of $2.05 per net ton f.o.b. the mine less 12 cents per net ton as distributor's discount, whereas the effective minimum price for such coal was $2.25 per net ton f.o.b. the mine;

Pursuant to appropriate orders and after due notice to interested persons, a hearing in this matter was held on July 27, 1942, before W. A. Cuff, a duly designated Examiner of the Division, at a hearing room thereof at Altoona, Pennsylvania, at which interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard, and at which time code member and District Board 1 appeared;

The Examiner filed his Report in this matter in which he concluded that the code member wilfully violated section 4 II (e) of the Act and Part II (e) of the Code, by selling, during the period March 25, 1941 to March 31, 1941, to W. M. Hollenback, registered distributor, 302.10 net tons of ¾″ slack coal, produced by code member at its said mine, at a price of $2.05 per net ton f. o. b. the mine, less 12 cents per net ton as distributor's discount, whereas the effective minimum price for such coal was $2.25 per net ton f. o. b. the mine, and recommended that the code membership of the Sheesley Coal Company be cancelled and revoked;

Code member filed no exception thereto.

I have considered the record in this matter and am in accord with the Proposed Findings of Fact, the Proposed Conclusions of Law and Recommendation of the Examiner, which are filed herein. I adopt them as my own Findings of Fact and Conclusions of Law.

Now, therefore, it is ordered, That the code membership of the Sheesley Coal Company, a corporation, be, and it hereby is, cancelled and revoked.

It is further ordered, That prior to the reinstatement of said Sheesley Coal Company to membership in the Code, it shall pay to the United States a tax, as provided in section 5 (c) of the Act, in the amount of $265.09.

Dated: December 14, 1942.

SECURITIES AND EXCHANGE COMMISSION.

NORTH AMERICAN LIGHT & POWER CO., HOLDING-COMPANY SYSTEM, ET AL.

NOTICE OF AND ORDER FOR HEARING

[File Nos. 59–39, 54–50, 59–10]

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of December, A. D. 1942.

In the matter of North American Light & Power Company Holding-Company System and The North American Company, File No. 59–39; North American Light & Power Company, File No. 54–50; The North American Company, et al., File No. 59–10.

The Commission having in the matter of North American Light & Power Company Holding-Company System and The North American Company (File No. 59–39) instituted proceedings on December 2, 1941 by Notice of and Order for Hearing pursuant to sections 11 (b) (2), 15 (f) and 20 (a) and hearings having been held pursuant thereto and the Commission having on December 30, 1941 entered its Findings and Opinion therein and its Order Requiring Liquidation of North American Light & Power Company; and

The Commission having on May 7, 1942 entered its order directing, among other things, that the said matter be consolidated with proceedings entitled "In the Matter of North American Light & Power Company, File No. 54–50" and "In the Matter of The North American Company and its Subsidiaries, File No. 59–10"; and

The Commission having on November 12, 1942 entered its Notice of Filing of Plan for Liquidation of North American Light & Power Company and Illinois Traction Company (Application No. 11) and Order for Hearing setting the said matter for hearing before a trial examiner on December 8, 1942; said order of the Commission of November 12, 1942 having provided, among other things, that at said hearing particular attention be directed to the following matters and questions:

(1) Whether the provisions in said plan relating to the participation of The

North American Company are necessary and fair and equitable; and

(2) Whether there are any special equities affecting the securities of Light & Power held by The North American Company which require that the participation of The North American Company be limited, or that for the purpose of determining such participation, said holdings be subordinated to the holdings of any claims of securities of Light & Power held by the public; and

Said matter having been postponed from December 8, 1942 to December 10, 1942 on which date said hearings were opened and testimony and other evidence were received, from which it appears that:

(1) Light & Power has outstanding 5% debentures in the approximate amount of $5,891,000 of which The North American Company is the holder of $5,623,500 and it further appearing to the Commission that interest on said debentures owned by The North American Company will be due on December 31, 1942 in the approximate amount of $140,587.50; and

(2) The North American Company has been the owner of an additional $3,985,000 par value of debentures which were redeemed in 1940 and 1941 and on which The North American Company realized a profit of $1,376,300.42; and

(3) The North American Company acquired the particular debentures which it now holds in the par amount of $5,623,500 at a cost of $3,791,211.94 (which amount includes an intercompany profit of $256,786); and

(4) There is presently pending in the United States District Court for the Southern District of New York an action entitled William M. Dederick, suing on behalf of himself and all other stockholders of North American Light & Power Company, Plaintiff, against The North American Company, and North American Light & Power Company, Defendants, Civil Action No. 16–117, in which action it is sought, among other things, to determine the rights of the preferred stockholders of North American Light & Power Company in relation to said debentures held by The North American Company and in which action a motion to dismiss on jurisdictional grounds is pending and undetermined by the court; and

(5) There is now pending before this Commission a claim asserted by Illinois Iowa Power Company, a subsidiary of North American Light & Power Company, against North American Light & Power Company for an amount which, if sustained, would exhaust the assets of North American Light & Power Company, as to which claim, Light & Power has, however, denied liability and has further pleaded certain set-offs and counter claims; and

(6) Said Illinois Iowa Power Company has filed on November 30, 1942 a "Request" with this Commission asking, in view of the pendency of its claims before this Commission, that North American Light & Power Company not be permitted to make any payment to The North American Company, to sell or otherwise dispose of any shares, dividend arrears certificates, or other securities, accounts, or notes receivable of Illinois Iowa Power Company, nor distribute or turn over any of its assets to shareholders, creditors, or otherwise until the final determination of its claims; and

(7) Certain public preferred stockholders through their attorney, Lawrence R. Condon, have also requested to be heard (Transcript Page 298) on the question of the payment of the interest due on December 31, 1942 on the aforementioned debentures held by The North American Company; and

Said hearing having been continued until January 11, 1943; and

The Commission having approved Application No. 2 filed by Light & Power under section 11 (e) of said Act, providing for the retirement of the publicly held debentures of Light & Power at the principal amount thereof and accrued interest, and the Commission having stated in its findings thereon (Holding Company Act Release No. 3658):

> * There is no likelihood whatever that North American will receive better treatment in respect of the debentures held by it than is now being accorded to the public debenture holders. Indeed, it is possible that by the next coupon payment date, January 1, 1943, the issues in the collateral proceedings will have been determined. If a determination of North American's rights shall not have been made by that time, we may then consider whether or not an order should be entered prohibiting payment of coupon interest to North American pending our determination in that proceeding.

It further appearing to the Commission that the payment of the interest due December 31, 1942 on the debentures of Light & Power held by The North American Company may result in unfair or inequitable treatment to the public security holders of Light & Power or to Illinois Iowa Power Company, depending on the final determination of the matters hereinabove described; and

It further appearing to the Commission that it may be appropriate pursuant to the provisions of sections 11 (b) (2) and 12 (f) of said Act that the Commission enter an interim order suspending the payment of said interest until the determination of said matters;

It is therefore ordered, a hearing be held on Friday, December 18, 1942 at 10:00 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in Room 318–B of said building, to determine whether the Commission enter an interim order prohibiting North American Light & Power Company from paying to The North American Company, its agents, representatives, assigns or transferees the interest due on December 31, 1942 on the debentures of North American Light & Power Company now held by The North American Company, until further order of the Commission, and requiring that the moneys which otherwise would be paid in interest be segregated from the other funds of the company and held subject to order of the Commission.

Notice of said hearing is hereby given to said The North American Company, North American Light & Power Company, Illinois Iowa Power Company and Lawrence R. Condon, Attorney for certain public preferred stockholders, and further notice of said hearing shall be given by the Secretary of the Commission mailing a copy of this order by registered mail to the above-named parties or by personal service on counsel for the above-named parties and by publication of this order in the FEDERAL REGISTER.

By the Commission.

Secretary.

Part 1010—Suspension Orders

[Suspension Order S-180]

OXNARD PLUMBING CO.

Oxnard Plumbing Company of Oxnard, California, is a partnership composed of R. D. Snively and W. D. Snively, and is engaged in retail sales of plumbing and heating supplies to the general public and to industrial firms.

During the period from April 30, 1942, to July 9, 1942, Oxnard Plumbing Company made numerous sales of items of plumbing and heating equipment to ultimate consumers, without authorization of the Director of Industry Operations. Each of these items was sold for more than Five Dollars ($5.00); the sales were made on purchase orders which bore no preference ratings and to consumers who did not sign any of the statements prescribed in Limitation Order L-79 as amended May 23, 1942.

During the period from March 24, 1942, to May 28, 1942, the company purchased plumbing and heating equipment from various suppliers and extended an A-10 preference rating to obtain these materials by certifying that said preference rating was extended under the provisions of Preference Rating Order P-84. At the time that these preference ratings were extended as aforesaid, the company did not have any A-10 preference rating orders from its customers to support these extensions.

During the period from February 16, 1942, to July 9, 1942, the company purchased plumbing and heating equipment from various suppliers and extended an A-10 preference rating to obtain these materials by certifying that said preference rating was extended under the provisions of Preference Rating Order P-100. At the time these preference ratings were extended as aforesaid, the company did not have A-10 preference rating orders from its customers to support these extensions.

These actions constituted wilful violations of Limitation Order L-79, Preference Rating Order P-84 and Preference Rating Order P-100, which violations have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing: *It is hereby ordered*, That:

§ 1010.180 *Suspension Order S-180.* (a) Deliveries of material to R. D. Snively and W. D. Snively, their successors and assigns, and to the partnership known as Oxnard Plumbing Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to R. D. Snively and W. D. Snively, their successors and assigns, or to the partnership known as Oxnard Plumbing Company, its successors and assigns, by means of preference rating certificates, preference rating orders, general preference orders and any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to R. D. Snively and W. D. Snively, their successors and assigns, or to the partnership known as Oxnard Plumbing Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve R. D. Snively and W. D. Snively or the partnership known as Oxnard Plumbing Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect December 21, 1942, and shall expire June 21, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of December 1942.

PAN AMERICAN PRODUCTS CORP.

Pan American Products Corporation, New Orleans, Louisiana, is engaged in the business of importing and selling Mexican cordage, wrapping twine and similar products. Under General Preference Order M-84, the Company was permitted to sell only 34,276 pounds of wrapping twine in May, 1942, and the same amount in June, 1942. Despite these restrictions, the Company sold 226,364 pounds of wrapping twine in May, 1942, and 98,756 pounds in June, 1942. During this time, the Company was aware that restrictions had been placed upon the sale of wrapping twine but did not familiarize itself with such restrictions.

The excessive sales of wrapping twine by the Company constituted a wilful violation of General Preference Order M-84 which has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.181 *Suspension Order S-181.* (a) Pan American Products Corporation, its successors and assigns, shall not accept delivery of, receive, deliver, sell, or import any wrapping twine (as the same is defined in General Preference Order M-84), except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Pan American Products Corporation from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect December 19, 1942, and shall expire April 19, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

[Suspension Order S-182]

AIRLINE BRASS WORKS

Airline Brass Works, Houston, Texas, a co-partnership composed of L. B. Golasinski and Vernon Melott, is engaged in the processing, machining, and casting of aluminum, brass, and copper. From January 7 to September 1, 1942, the Company melted substantial quantities of aluminum scrap and fabricated castings therefrom without having obtained authorization from the War Production Board. This constituted a violation of Supplementary Order M-1-d.

From January 23, 1942, to September 1, 1942, the Company used aluminum in the manufacture of oil derrick and flood light parts and other items not approved in Supplementary Order M-1-e. This constituted a violation of that order.

From February 17, 1942, to September 1, 1942, the Company delivered a substantial quantity of aluminum castings without having obtained authorization from the War Production Board. This constituted a violation of Supplementary Order M-1-f. During this whole period the Company was aware that the use of aluminum was subject to restrictions but operated in reckless disregard of the orders imposing such restrictions.

These violations of Supplementary Orders M-1-d, M-1-e, and M-1-f have hampered and impeded the war effort of the United States by diverting aluminum to uses unauthorized by the War Production Board. In view of the foregoing: *It is hereby ordered*, That:

§ 1010.182 *Suspension Order S-182.* (a) Airline Brass Works, its successors and assigns, shall not deliver, process, fabricate, use, or accept delivery of any primary, secondary, or scrap aluminum or castings thereof, except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Airline Brass Works from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect December 19, 1942, and shall expire April 19, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of December 1942.

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[General Imports Order M-63 as Amended Dec. 17, 1942]

Section 1042.1 *General Imports Order M-63, as amended* is hereby amended to read as follows:

§ 1042.1 *General Imports Order M-63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the Director General for Operations, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by Director General for Operations.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form PD-222C, addressed to the War Production Board, Ref.: M-63, Washington, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any material subject to this order after the governing date unless such bank or person has received either a copy of the authorization issued by the Director General for Operations, or, if the transaction comes within the exceptions set forth in paragraph (b) (4), an affidavit stating the facts which show the exception.

(4) *Exceptions.* Unless otherwise directed by the Director General for Operations, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) To materials imported by mail where the value of the shipment is less than $100.00; or

(v) To materials consigned as gifts or as samples, or for use as samples, or imported for personal use, where the value of each consignment or shipment is less than $200.00; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States.

(c) *Restrictions on disposition of List I material.* Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees.* No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date; or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials*—(1) *Transfer to Governmental agency.* Nothing contained in this order shall prohibit an owner or consignee of any material on List I imported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by Director General for Operations.* Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the Director General for Operations. Any such person may make application in duplicate for such an authorization on Form PD-222A, which form shall be addressed to the War Production Board. Ref.: M-63, Washington, D. C.

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material purchased or otherwise acquired from any United States governmental department, agency, or corporation.

(e) *Restrictions on disposition of List II or List III material.* Any material on List II or List III, which is imported after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the Director General for Operations which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form PD-222B in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

PART 1053—FATS AND OILS

[General Preference Order M–71, as Amended Dec. 17, 1942]

§ 1053.1 *General Preference Order M–71*—(a) *Definitions.* (1) "Fats and oils" means all the raw, crude, refined and pressed fats and oils, whether vegetable, animal, fish or other marine animal, their by-products and derivatives, including grease (lard) oil, sulfonated and similarly processed fats and oils, fatty acids, and lard and rendered pork fat, but not including cocoa butter, butter, wool greases, essential oils, tall oil, mineral oils, and vitamin-bearing oils derived from fish or other marine animal livers or viscera.

(2) "Manufacturer" means any person who uses any fats or oils in the manufacture of any finished product, and shall include all other persons directly controlling or controlled by such person, and all persons under direct or indirect common control with such person. The term shall not include any crusher, renderer, refiner or other processor except as and to the extent that his operations result in the production of a finished product, and shall also not include any person who uses fats, and oils in the home in the preparation of food for household consumption.

(3) The "inventory" of a manufacturer at any time shall include all fats and oils held or controlled by him and all fats and oils purchased by him for future delivery.

(4) "Finished product" means any product of a manufacturer produced for sale as his finished product and carried on his books as his finished product. Except for the purposes of paragraph (d) hereof, "finished product" shall not include: (i) grease (lard) oil; (ii) sulphonated or similarly processed fat or oil; (iii) fatty acids; (iv) lard or rendered pork fat; (v) any fat or oil product intended for sale to another manufacturer for further processing in the manufacture of, or for inclusion in, any product (excepting a product falling within paragraph (a) (4) (vi) hereof); (vi) any edible product of which a fat or oil is not the principal ingredient; (vii) any edible product produced by any hotel or restaurant for consumption on the premises; (viii) any medicinal preparation other than medicated soap.

(5) "Crusher" means any person who presses, expels, or extracts oils from any seed, bean, nut or corn or other oil-bearing materials.

(6) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, merchant and naval ships, tanks and vehicles) and any parts, assemblies, and material to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Soap" means the product commonly known by that term excluding, however, soap used for non-detergent purposes (including the processing of textiles).

(b) Restrictions on manufacture. (1) [Revoked Nov. 24, 1942.]

(2) No manufacturer, except as provided in paragraph (b) (6) hereof, shall in any calendar quarter beginning with the last quarter of 1942, use or consume any fat or oil in any class of use listed in Schedule A annexed hereto in a quantity in excess of the percentage specified in such Schedule A of his average quarterly use or consumption of fats and oils in such class of use during the corresponding quarters of the two years, 1940 and 1941.

(3) If any manufacturer shall not in any quarter use or consume the quantity of fat or oil permitted by paragraph (b) (2) hereof, the unused part of his quota for such quarter shall for the purposes of such paragraph (b) (2) be carried forward and added to his permitted quota for the succeeding quarters: *Provided, however,* That any unused part of his permitted quota for any prior quarter shall not be carried forward beyond June 30, 1943 and beyond the 30th day of June of each year thereafter.

(4) For the purpose of determining the quantity of raw "foots" which may be used or consumed, use or consumption shall be calculated on the basis of total fatty acid content.

(5) The restrictions on fats and oils hereby imposed are imposed with respect to fats and oils in the aggregate, and such restrictions are not to be construed to limit a manufacturer to the same fat or oil used or consumed by him in the base period.

(6) Nothing in paragraph (b) (2) hereof shall restrict:

(i) The use of fats and oils in any period or quarter by any manufacturer whose aggregate use or consumption of fats and oils in such period is less than 6,000 lbs.;

(ii) The use of fats and oils in the manufacture of any edible product delivered or to be delivered to the Army or Navy of the United States, or delivered or to be delivered pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or the processing of fats and oils for delivery to another manufacturer for use in the manufacture of any such edible product: *Provided, however,* That this paragraph shall not exempt the use of fats and oils by any person other than the person having the prime contract with the Army or Navy or with the administrator of such Lend-Lease Act, unless the Quartermaster General of the Army or the Chief of the Bureau of Supplies and Accounts of the Navy, or the administrator of the Agricultural Marketing Administration (as the procurement agency for the administrator of such Lend-Lease Act), or the duly authorized representative of any of them, shall have issued to the manufacturer (whether prime contractor or subcontractor) who uses the fat or oil in the manufacture of the edible product contracted for, a certificate setting forth that such product is for direct Army or Navy issue or for delivery pursuant to such Lend-Lease Act and that the manufacture of such product will require a stated quantity of fats or oils, and designating the supplier or suppliers of such fats or oils to be exempted under the terms of this paragraph of this order.

(iii) The use of fats and oils in the manufacture of soap, including soap made from foots derived from domestic vegetable oils or their fatty acids, where such soap is delivered to the Army or Navy of the United States by the manufacturer or is delivered by such manufacturer, as a prime contractor, pursuant to such Lend-Lease Act.

(iv) The use of fats and oils in the manufacture, preparation or finishing of implements of war.

(v) The use of fats and oils in the manufacture of products to be exported by the manufacturer (*a*) to the Dominion of Canada where such Dominion has granted a license for the import of such products, or (*b*) to any other country pursuant to any export license issued by the Board of Economic Warfare.

(7) For the purposes of determining a manufacturer's permissible use or consumption under paragraph (b) (2) hereof, there shall be excluded from the quarter during which use or consumption is hereby limited, any fat or oil used in the manufacture of the products referred to in subdivisions (ii), (iii), (iv) and (v), of paragraph (b) (6) hereof, and there shall be excluded from the base period any fat or oil used by such manufacturer in such base period in the manufacture of any edible product or soap delivered by him to the Army or Navy of the United States or delivered by him, as a prime contractor, pursuant to such Lend-Lease Act, or exported to the Dominion of Canada or to any other country, and there also shall be excluded from such base period any fat or oil used in the manufacture, preparation or finishing of implements of war.

(8) A person who acquires all the manufacturing facilities of another person in a particular class of use shall thereby become entitled to the quota of such other person in such class of use, whether or not he continues to operate such facilities in whole or in part: *Provided, however,* That he shall within 30 days following such acquisition inform the Director General for Operations of the facilities acquired, their location, whether or not operation will be continued in the same or another location, and the amount of quota which he claims to have acquired in each class of use.

(9) Fats and oils processed by a person pursuant to toll agreement shall be chargeable not to the quota of the processor but to the quota of the owner of such fats and oils: *Provided,* That title to the product shall remain in the hands of the owner of the fats and oils and that such owner shall market, invoice and collect for such product through his own organization.

(10) Each manufacturer of soap may in any quarter substitute in whole or in part for the fats and oils (other than foots made from domestic vegetable oils or their fatty acids) which he would be entitled to use under Schedule A in such manufacture, foots made from domestic vegetable oils or their fatty acids, the quantity of such foots or their fatty acids which may be used or consumed to be 150% of the base period use of fats and oils.

(c) *Restrictions on deliveries of linseed oil.* (1) No person engaged in the business of selling linseed oil at wholesale (whether crushed or processed by him or purchased for resale) shall deliver in the aggregate to persons other than manufacturers during any calendar quarter, beginning with the fourth quarter of 1942, more linseed oil (whether raw or processed) than 70% of the average quarterly amount of linseed oil so delivered by him during the corresponding quarters of the two years, 1940 and 1941.

(2) In reducing deliveries pursuant to paragraph (c) (1) hereof, no person shall make discriminatory cuts as between customers, whether new or old.

(3) This order shall not restrict the delivery by any person of linseed oil to the Army or Navy of the United States or pursuant to such Lend-Lease Act, and any amount so delivered by him shall be excluded both from the base period on which his quota is based and from the period or quarter during which future deliveries are hereby limited.

(d) *Restrictions on processing and inventories.* (1) No manufacturer shall hereafter change the condition of any fat or oil in his raw materials inventory, or add any additional materials thereto, except to the extent necessary to store any such fat or oil in his raw materials inventory in a form necessary to prevent deterioration thereof, or except to put such fats or oils into process for the manufacture of his finished products subject to the limitations of paragraph (d) (2). Nothing contained in this paragraph shall be construed to limit the amount of fats and oils which may be held by any manufacturer in his raw materials inventory.

(2) No manufacturer shall hereafter increase the rate at which fats and oils are put into process by him, except to the extent necessary to meet the required deliveries of his finished products within the limitations established by this order, and to maintain only a practicable minimum working inventory of such finished products. The term "practicable minimum working inventory" is to be strictly construed. The mere fact that the turn-over has increased, or that materials are difficult to obtain, does not justify maintaining inventories above the minimum at which his operations can be continued.

(e) *Reports.* Every manufacturer and every other person affected by this order shall file such reports giving such information at such times and upon such form or forms as the Director General for Operations may from time to time prescribe.

(f) *Effect of other orders.* Insofar as any other order of the Director of Priorities, the Director of Industry Operations or the Director General for Operations, heretofore or hereafter issued, limits or curtails to a greater extent than herein provided the use, acquisition or disposition of any fat or oil, the limitations of such other order shall control.

(g) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Appeals.* Any persons affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, whether because of the absence of use during the two-year base period, or otherwise, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of fats or oils conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Director General for Operations by addressing a letter to this War Production Board, Chemicals Division, Washington, D. C., Ref: M–71, setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Violations.* Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, D. C., Ref: M–71.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of December 1942.

Director General for Operations.

The term "principal ingredient" used in paragraph (a) (4) (vi) of the order means the largest single ingredient by weight, subject to the qualification that shortening, mayonnaise and salad dressing (edible products specifically listed in Schedule A annexed to said order) are to be considered products of which a fat or oil is the principal ingredient regardless of the fat or oil composition thereof in the particular case.

PART 1114—TIRE RETREADING, RECAPPING AND REPAIR EQUIPMENT

[General Limitation Order L-61, as Amended Dec. 17, 1942]

Whereas the shortage of crude rubber for military requirements and essential civilian uses has created an abnormal demand for retreading and recapping equipment for rubber tires; and

Whereas the supply of existing retreading and recapping equipment, if supplemented by careful selection of locations for small quantities of additional equipment, is adequate to satisfy the demand for retreading and recapping of rubber tires; and

Whereas the production for delivery of retreading and recapping equipment, if unregulated, will duplicate existing facilities and thus utilize quantities of scarce and critical materials as to which defense requirements have created a shortage for defense, private account and export, and it is necessary, in the public interest and to promote defense of the United States, to take the measures hereinafter set forth, and to regulate the production and delivery of retreading and recapping equipment.

Now, therefore, it is hereby ordered, That:

§ 1114.1 *General Limitation Order L–61*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or any organized group of persons, whether incorporated or not.

(2) "Retreading, recapping and repair equipment" means any mechanical device used in connection with applying uncured rubber (in the form of camelback, patching rubber or otherwise) to rubber casings or inner tubes for the purpose of renewing or repairing a rubber casing or inner tube. The term includes, but is not limited to, full circle molds, full circle matrices, holders, tables, steam chambers, kettle curing devices, curing rings, curing bands, pressure plates, spacer rings, curing rims, sectional molds, sectional matrices, tire and tube repair and spot equipment, tire spreaders, tire buffers, mechanical stitchers, mechanical rollers, and regroovers. It does not include, however, small tools, such as knives, hand rollers, hand stitchers, jacks, shears, and other miscellaneous shop tools and supplies.

(b) *Restrictions on manufacture and distribution.* No person shall produce any new retreading, recapping and repair equipment, or parts therefor, and no person shall sell, lease, rent, deliver or otherwise transfer, or purchase, accept or otherwise acquire, any new or used retreading, recapping or repair equipment, or parts therefor; except (1) under purchase orders rated A–9 or higher on a preference rating certificate PD–1A or PD–1X or forms of the PD–408 series issued by the Director General for Operations, or (2) pursuant to written or telegraphic authorization of the Director General for Operations.

(c) *Criteria for issuing preference rating certificates.* In issuing ratings on preference rating certificates, the Director General for Operations will consider the following factors, to the extent feasible, among others:

(1) The number and capacity of retreading, recapping and repair equipment facilities at present available in the particular locality.

(2) The anticipated need for retreading, recapping and repair equipment in the particular locality.

(3) The amount of uncured rubber (in the form of camelback, patching rubber or otherwise) expected to be made available in the particular locality.

(d) *Non-applicability to repair or maintenance of existing equipment.* The prohibitions of paragraph (b) hereof shall not be construed to restrict the manufacture, sale, lease, loan, renting, delivery or other transfer of parts to be used to repair or maintain existing retreading, recapping or repair equipment or to repair or maintain equipment delivered in accordance with the terms of this order.

(e) *Production requirements plan.* Pursuant to paragraph (c) of Priorities Regulation No. 11, any person manufacturing retreading, recapping, or repair equipment, who desires priorities assistance in procuring materials to be used in such manufacture, is hereby required, unless exempted by the Director General for Operations, to file a PRP application, to qualify as a PRP unit, and to operate under the Production Requirements Plan after January 1, 1943.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time, except that notwithstanding the provisions of Priorities Regulation No. 3, any person applying or extending a preference rating for retreading, recapping, or repair equipment shall certify on his purchase order or contract whether the preference rating is one assigned by a preference rating certificate PD–1A or PD–1X, or by a form of the PD–408 series, issued by the Director General for Operations.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref: L–61.

(h) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director General for Operations. Washington, D. C., Ref: L–61, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Records.* Each manufacturer or distributor of new retreading, recapping and repair equipment affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production and sales of such equipment.

(k) *Reports.* Each person affected by this order shall execute and file with the War Production Board, such reports and answers to questionnaires as the Board shall from time to time request.

PART 1158—INDUSTRIAL MACHINERY

[Interpretation 1 of General Limitation Order L–83]

The following official interpretation is hereby issued by the Director General for Operations with respect to General Limitation Order L–83 (§ 1158.1), as amended:

Paragraph (a) (2) of General Limitation Order L–83 defines "Critical industrial machinery" as new, used, or reconditioned machinery of the kinds listed from time to time in List A of the order, and provides that the value of a critical industrial machine shall be the selling price with certain exceptions. List A specifies the machinery included in the order. In certain instances, the list contains dollar limitations on the value of machines so included. For instance, bakery machinery is covered by General Limitation Order L–83 only on an order for a single machine of a value in excess of $200.

The selling price of a machine would normally establish its value for purposes of this order unless other facts indicated that such selling price was not the actual value placed upon the machinery by the buyer and seller. In any case where a used machine is sold with the understanding by buyer or seller that the machine must be repaired or reconditioned in connection with or in relation to the sale transaction, in order that the machine be an effective instrument, the value of the machine for purposes of this order is to be deemed the aggregate of the selling price of the inoperable machine plus the cost of repairing or reconditioning the machine to the point where it can operate effectively. In other words, the sale of a broken down machine, followed by repairing or reconditioning in order that the machine be in condition to operate, does not avoid the impact of the order merely because the original sale of the inoperable machine is fixed at a value below the limitations established in General Limitation Order L–83; the cost of the repairs necessary to render the machine an effective instrument must be added to such original selling price in order to determine the value for the purposes of the order.

§ 1418.351 *Maximum prices.* (a) Maximum prices are established as follows:

(1) On and after December 16, 1942, regardless of any contract, agreement, lease or other obligation, or of any price regulation heretofore issued by the Office of Price Administration, no person shall sell or deliver turkeys and no person shall buy or receive turkeys in the Territory of Alaska at prices higher than the maximum prices set forth in § 1418.363, Table I; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1418.352 *To what transactions, products and persons this ceiling applies*—(a) *What transactions are covered.* This regulation covers sales of the products enumerated in the tables set forth below in the Territory of Alaska. The type of transaction covered, whether wholesale, retail, or both, is specified in each table.

(b) *What products are covered.* This regulation covers the products enumerated in the tables set forth below.

(c) *What persons are covered.* Any person who sells any commodity enumerated in the tables below is subject to this regulation. The term "person" includes an individual, corporation, partnership, association or any other organized group; their legal successors or representatives; the United States, or any government or any of its political subdivisions; or any agency of any of the foregoing.

§ 1418.353 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 288 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

§ 1418.354 *Applications for adjustment.* Any person seeking an adjustment of the maximum prices established by this Maximum Price Regulation No. 288 may file a petition for adjustment in accordance with the provisions of Procedural Regulation No. 7.[2]

§ 1418.355 *Definitions.* (a) When used in this Maximum Price Regulation No. 288, the term:

(1) "Young hens or toms, dressed" means uneviscerated turkeys, heads and feet removed, feathers picked, turkeys not singed.

(2) "Quick frozen young hens or toms, eviscerated" means a young hen or tom turkey, dressed, which has its head, feet and inedible viscera removed, and which is quick frozen.

§ 1418.356 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 288 may be charged, demanded, paid, or offered.

§ 1418.357 *Prohibited practices*—(a) *General.* Any device to obtain a higher-than-ceiling price without actually raising the dollar and cents price is as much a violation of this Maximum Price Regulation No. 288 as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Adjustable pricing.* A price may not be made adjustable to a maximum price which will be in effect at sometime after delivery of any commodity covered by this regulation has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

(2) Every person making sales at retail of the commodities subject to this Maximum Price Regulation No. 288 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and the mark-up charged by the seller to the buyer.

(b) *Prices to be marked and posted.* On and after the date any commodity becomes subject to the Maximum Price Regulation No. 288, every person offering to sell at retail any such commodity shall mark the maximum price of such commodity in a manner plainly visible to and understandable by, the purchasing public. The maximum prices may be marked on the commodities themselves or may be posted at the place in the establishment where the commodities are offered for sale, and may be posted by price lines if the selling price of each commodity is marked thereon. The maximum prices shall be indicated in the form "Ceiling Price $__________" or "Our Ceiling $__________."

(c) *Sales slips and receipts.* Every seller at retail of the commodities subject to this Maximum Price Regulation No. 288 who has customarily given purchasers sales slips or receipts shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

§ 1418.359 *Enforcement and licensing.* (a) Persons violating any provision of this Maximum Price Regulation No. 288 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest office of the Office of Price Administration.

(c) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person selling, at wholesale or retail, any commodity for which a maximum price is now, or may hereafter, be established by this Maximum Price Regulation No. 288, or by any amendment thereto. The General Maximum Price Regulation, in brief, provides that a license is necessary for persons to make wholesale or retail sales of commodities covered by this Maximum Price Regulation No. 288. A license is automatically granted to all such sellers making these sales. It is not necessary to apply specially for the license but a registration may later be required. The Emergency Price Control Act of 1942, as amended, sets forth the circumstances under which licenses may be suspended. The license cannot, of course, be transferred.

§ 1418.360 *Relation to other regulations.* (a) The sale of commodities not set forth in this regulation are covered by Maximum Price Regulation No. 194,[3] the General Maximum Price Regulation,[4] or other price regulations applicable in the Territory of Alaska.

§ 1418.361 *Applicability.* The provisions of this Maximum Price Regulation No. 288 shall be applicable to the Territory of Alaska.

§ 1418.362 *Effective dates.* (a) This Maximum Price Regulation No. 288 (§§ 1418.361 to 1418.363, inclusive) shall become effective December 16, 1942.

Five per cent may be added for a sale of less than six boxes. The wholesale prices are delivered prices.

(3) For sales at retail, other than mail-order sales covered by paragraph (4), the maximum prices are:

In the eastern zone	$2.50
In the western zone	2.75

(4) For retail mail order sales by established mail order houses, the maximum prices are:

In the eastern zone	$2.00
In the western zone	2.15

* * * * *

(d) To every mail box to be shipped to a jobber, the manufacturer shall attach a tag or label which plainly states the retail ceiling price for sales in the zone to which the box is to be shipped. For example, if the box is to be shipped to a jobber in the eastern zone, the tag or label should state, "Retail ceiling price $2.50".

The manufacturer need not tag or label mail boxes to be shipped to purchasers who have an established retail mail-order business. If a tag or label is attached, the price should be left blank.

(e) The manufacturer shall notify every person who buys from it of the maximum price set by this Order No. 13 for resales by the purchaser. The notice shall be in the form of a statement on each invoice to each purchaser. For example, the following statement on an invoice to a jobber in the eastern zone would be sufficient: "Your ceiling price, set by an OPA order, is $1.67".

On each invoice to a purchaser who has an established retail mail-order business, the manufacturer shall state the maximum mail-order price and the maximum price for other sales at retail, for the zone to which the shipment is made.

(f) Unless the context otherwise requires, the definitions set forth in §1499.20 of the General Maximum Price Regulation shall apply to terms used herein.

(g) This Amendment No. 1 to Order No. 13 (§ 1499.50 (a), (d), (e), (f), and (g)) shall be effective as of November 18, 1942.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 202—MINIMUM WAGE DETERMINATIONS

THE GLOVES AND MITTENS INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III 35), entitled "An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act.

On July 28, 1937, I issued a determination (2 F.R. 1339) that the prevailing minimum wage for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Walsh-Healy Public Contracts Act, for the manufacture or supply of men's work gloves, including the manufacture of leather work gloves, leather-palm cotton gloves, all canvas or canton flannel work gloves, knit gloves, woolen knit lined gloves and officer's white cotton gloves, is 35 cents per hour, and that there shall be a tolerance of not to exceed 10 percent of the workers in any one establishment for workers who are in fact learners, handicapped or superannuated workers subject to the conditions that they be paid not less than 25 cents per hour and not less than piece rates paid to other workers in the same establishment. On August 12, 1942, I issued regulations (Title 41, c. 2, Code of Federal Regulations, § 201.1102), effective September 15, 1942, permitting employment of handicapped workers at subminimum rates under the Public Contracts Act in accordance with the regulations of the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938, and amended all prevailing minimum wage determinations, including the Work Glove Wage Determination, to provide that handicapped or superannuated workers may not be employed at subminimum rates under any other conditions in the performance of any contract, bids for which are solicited or negotiations otherwise commenced by the contracting agency on or after September 15, 1942.

On October 2, 1942, the Assistant Administrator of the Division of Public Contracts of the Department of Labor issued a Notice of Opportunity to Show Cause on or before October 17, 1942, why the Work Glove Wage Determination should not be amended by:

> (1) Increasing the prevailing minimum wage from 35 cents an hour to 40 cents an hour;
>
> (2) Adopting the following definition of the industry to conform to the definition of the Gloves and Mittens Industry in the wage order of the Administrator of the Wage and Hour Division issued for that industry on August 22, 1942, pursuant to the Fair Labor Standards Act of 1938:
>
> The Gloves and Mittens Industry is that industry which manufactures gloves and mittens (except athletic gloves and mittens) from any material (other than rubber) or from any combination of materials (other than rubber);

(3) Changing the title of the industry in the determination from the "Work Glove Industry" to the "Gloves and Mittens Industry"; and

(4) Substituting for the present tolerance for learners a provision that apprentices and learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division.

The notice sets forth that: (1) The minimum wage required to be paid by manufacturers of gloves and mittens subject to the Fair Labor Standards Act of 1938 became 40 cents an hour on September 21, 1942, pursuant to the wage order; (2) Substantially all employees in the Gloves and Mittens Industry, as defined in the wage order, are engaged in commerce or in the production of goods for commerce and consequently the wage order has the effect of establishing 40 cents an hour as the prevailing minimum wage in the Gloves and Mittens Industry; and (3) It is advisable, for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to substitute for the present tolerance for learners a provision that apprentices and learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division.

This notice was sent to members of the industry, trade unions, trade associations, and publications and was duly published in the FEDERAL REGISTER (7 F.R. 6713). Statements concerning the proposed amendments have been received from the National Association of Leather Glove Manufacturers, Inc. and from the International Glove Workers Union of America. Both support the proposed amendments except that the union recommends the establishment of a higher prevailing minimum wage. On the evidence before me, I am unable to accept this recommendation.

Upon consideration of all the facts and circumstances, I hereby determine that:

§ 202.46 *Gloves and Mittens Industry.* (a) The Gloves and Mittens Industry is defined for the purpose of this determination as that industry which manufactures gloves and mittens (except athletic gloves and mittens) from any material (other than rubber) or from any combination of materials (other than rubber).

(b) The prevailing minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. Supp. III 35) for the manufacture or furnishing of the products of the Gloves and Mittens Industry shall be 40 cents an hour or $16 for a week of 40 hours, arrived at either upon a time or piece work basis, provided that apprentices and learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, which I hereby adopt for the purposes of this section.

This determination shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced by the contracting agency on or after January 16, 1943, except that learners may be employed at subminimum rates, in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division, on or after January 16, 1943, in the performance of contracts, bids for which were solicited or negotiations otherwise commended by the contracting agency prior to that date.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938, or any wage order thereunder, or under any other law or agreement more favorable to employees than the requirements of this determination.

FRANCES PERKINS,
Secretary of Labor.

PROCLAMATION 2574

Farm Mobilization Day

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

The people of this country may well be grateful that for three successive years the farmers of the United States have given us record harvests. Every pound of food finds use in wartime. Our soldiers, sailors, and marines require large supplies of food both in this country and abroad, and these three record-smashing years of farm production will mean much for victory.

Farmers may justly be proud of the production record of agriculture. They have achieved this record in spite of many handicaps, and the country owes them a debt of gratitude. Although they have produced much this year, the nation will require even more of them during the year that is now before us. In full realization of the many difficulties affecting farm production during wartime, the people of this nation place reliance on the zeal, devotion, and unstinting efforts of farmers to do their part toward ultimate victory.

Food is no less a weapon than tanks, guns, and planes. As the power of our enemies decreases, the importance of the food resources of the United Nations increases. With this thought in mind, we must further mobilize our resources for the production of food:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby proclaim Tuesday, January 12, 1943, as Farm Mobilization Day; and ask that on that day the farmers of this country gather, wherever possible, with Department of Agriculture representatives, Extension Service agents, vocational teachers, State officials, farm organizations, and others concerned, in order to discuss ways and means of insuring for the year 1943 the maximum production of vital foods upon every farm in this country.

I should like Farm Mobilization Day to be a symbol of a free America; a symbol of the might and productivity of our nation; and a symbol of our unalterable determination to put to full use our agricultural resources, as well as our other resources, in the achievement of complete victory.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 16th day of December in the year of our Lord nineteen hundred and forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

[SEAL]

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL,
Secretary of State.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket Nos. A-1718 and A-1718 Pt. II]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF, ETC.

Memorandum opinion and order granting motion to amend petition, amending petition, terminating temporary relief heretofore granted, granting temporary and conditionally providing for final relief, and cancelling hearing in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8 and in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of the No. 2 Mine, Mine Index No. 5746, of T. V. McMahan and the Poplar Lick Mine, Mine Index No. 5643 of the Garmeda Coal Company.

A petition, dated October 26, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with the Division on October 27, 1942, by the Bituminous Coal Producers Board for District No. 8, the petitioner in the above-entitled matters, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8.

That portion of the original petition relating to the request for the establishment of price classifications and minimum prices for truck shipment for the coals of the Poplar Lick Mine, Mine Index No. 5643 of the Garmeda Coal Company, and the No. 2 Mine, Mine Index No. 5746 of T. V. McMahan was severed from said original petition and designated as Docket No. A-1718 Part II, and temporary relief with respect to these two mines, pending final disposition, was granted and the matter was scheduled for hearing on December 16, 1942, at Washington, D. C., by an order issued on said Docket on November 19, 1942, 7 F.R. 9745.

With respect to the coal of all other mines listed in the original petition, including the aforesaid Poplar Lick Mine, Mine Index No. 5643, and the No. 2 Mine, Mine Index No. 5746, temporary and conditionally final relief for rail shipment was granted by an order issued in Docket No. A-1718 on November 19, 1942, 7 F. R. 10095.

A motion dated December 4, 1942, was filed by the above-named petitioner with the Division on December 5, 1942, in Docket No. A-1718, Part II, requesting that the original petition be amended by deleting therefrom the price of $1.75 for Size Group 7 and $1.70 for Size Group 8 for truck shipments applicable to the Poplar Lick Mine, Mine Index No. 5643 of the Garmeda Coal Company appearing on the page numbered "4" of Appendix A of said petition and inserting in lieu thereof the price of $1.65 for Size Group 7 and $1.60 for Size Group 8; and by deleting the price of $2.15 for Size Group 5 for truck shipment applicable to No. 2 Mine of T. V. McMahan appearing on the page numbered "5" of Appendix A of said petition and inserting in lieu thereof the price of $2.05 for Size Group 5.

A motion, dated December 7, 1942, was filed by the petitioner with the Division on that date in Docket No. A-1718, requesting that the relief heretofore granted by the order issued in said docket on November 19, 1942, be modified with respect to the Poplar Lick Mine, Mine Index No. 5643 of the Garmeda Coal Company and to the No. 6 Mine, Mine Index No. 5790 of Raleigh-Wyoming Mining Company, by providing that the temporary and conditionally final relief heretofore granted to the coals of these two mines, should remain effective until April 18, 1943, and shall thereupon become final unless otherwise ordered during the intervening period.

It appears that a reasonable showing of necessity has been made for the granting of relief in the manner hereinafter set forth; that no petitions of intervention and no motions in opposition to the granting of said motions have been filed with the Division in the above-entitled matter; that the following action is necessary to effectuate the purposes of the Act;

Now, therefore, it is ordered, That said motions be and the same hereby are granted.

It is further ordered, That the original petition be and the same hereby is amended by deleting therefrom the price of $1.75 for Size Group 7 and $1.70 for Size Group 8 for Truck Shipments applicable to the Poplar Lick Mine, Mine Index No. 5643 of the Garmeda Coal Company appearing on the page numbered "4" of Appendix A of said petition and inserting in lieu thereof the price of $1.65 for Size Group 7 and $1.60 for Size Group 8; and by deleting the price of $2.15 for Size Group 5 for Truck Shipments applicable to the No. 2 Mine of T. V. McMahan appearing on the page numbered "5" of Appendix A of said petition and inserting in lieu thereof the price of $2.05 for Size Group 5;

It is further ordered, That commencing forthwith, the price classification and minimum prices, contained in the Schedule marked Supplement R, § 328.11 (*Alphabetical list of code members*) which was annexed to and made a part of the order dated November 19, issued in Docket No. A-1718 in so far as the Poplar Lick Mine, Mine Index No. 5643 of Garmeda Coal Company and the No. 6 Mine, Mine Index No. 5970 of Raleigh-Wyoming Mining Company only are concerned, shall remain effective until April 18, 1943 and shall thereupon become final unless otherwise ordered during the intervening period.

It is further ordered, That pending final disposition of the above-entitled matters the temporary relief heretofore granted by the order dated November 19, 1942 issued in Docket No. A-1718, Part II with respect to the establishment of price classifications and minimum prices for truck shipment for the coals of the Poplar Lick Mine, Mine Index No. 5746 of the Garmeda Coal Company and the No. 2 Mine, Mine Index No. 5643 of T. V. McMahan shall become final sixty days from the date of this order unless it shall otherwise be ordered during the intervening period.

It is further ordered, That commencing forthwith § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That the hearing in Docket No. A-1718 Part II heretofore scheduled for December 16, 1942 at a hearing room thereof at Washington, D. C., be and the same hereby is cancelled; and

It is further ordered, That pleadings in opposition to the amended petition in the above-entitled matters and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: December 15, 1942.

Subchapter B—Director General for Operations

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 17 as Amended Dec. 8, 1942[3]]

POST EXCHANGES AND SHIP'S SERVICE DEPARTMENTS

§ 944.38 *Priorities Regulation 17*—(a) *Definition.* For the purposes of this regulation "orders for military exchanges or service departments" means contracts or purchase orders for material to be delivered to, or for the account of, or to be physically incorporated in material or equipment to be delivered to, or for the account of, any U. S. Army or Marine Corps Post Exchange or any U. S. Navy Ship's Service Department.

(b) *Purchases constitute defense orders.* Orders for military exchanges or service departments shall be deemed to be "Defense Orders" within the meaning of § 944.1 (b) (1) of Priorities Regulation 1 (and therefore by reason of § 944.1a of Priorities Regulation 1, shall be rated A–10, unless a higher preference rating is assigned) only when such orders are endorsed as follows:

> All the items on this Purchase Order are listed in Priorities-Allocation Instructions 12, with Amendments. Therefore, pursuant to terms of Priorities Regulation 17, this Order carries a preference rating A-10 without the issuance of a Preference Rating Certificate.

(c) *Applicability of military exemptions.* Whenever any rule, regulation or order of the War Production Board contains an exception or exemption for material or equipment to be delivered to, or for the account of, or for material to be physically incorporated in material or equipment to be delivered to, or for the account of, the Army or Navy of the United States, such exception or exemption shall not apply to orders for military exchanges or service departments except in cases where such orders bear the following endorsement:

(1) In the case of U. S. Army Post Exchanges:

> Authorized as an Army purchase pursuant to Priorities-Allocation Instructions.
>
> By ------------------
> *Army Exchange Service,*
> *War Department.*

(2) In the case of U. S. Navy Ship's Service Departments:

> Authorized as a Navy Purchase pursuant to Priorities-Allocation Instructions.
>
> By ------------------,
> *Bureau of Naval Personnel.*

(3) In the case of U. S. Marine Corps Post Exchanges:

> Authorized as a Marine Corps purchase within Army or Navy exception clause pursuant to Priorities-Allocation Instructions,
>
> By ---------------------------
> *Headquarters, U. S. Marine Corps*

(d) *Effect of quota provisions.* Whenever any rule, regulation or order of the War Production Board limits the amount of any material that may be received, processed, sold or delivered by any person to a percentage of previous amounts thereof received, processed, sold or delivered by him, or otherwise expressly fixes a quota for him, and contains an exception or exemption for material or equipment to be delivered to, or for the account of, the Army or Navy of the United States, but does not expressly permit such person, in computing his quota, to exclude therefrom orders for military exchanges or service departments, such orders which are endorsed as provided in paragraph (c) hereof shall be included in such exception or exemption. Orders for military exchanges or service departments which are not endorsed at all or only endorsed as provided in paragraph (b) shall not be included in such exception or exemption and must be charged against the quota of the person filling them, but such orders need not be accepted by such person in excess of 45% of such person's quota or such other percentage as the Director General for Operations may prescribe with respect to any particular material.

(e) *Effect on other provisions.* In case any provision in any regulation or in any order of the War Production Board is inconsistent with any provision in this regulation, the provisions of this regulation shall govern unless such other provision expressly states that this regulation shall be inapplicable.

(f) *Effective date.* This regulation shall become effective December 21, 1942.

(iii) For defense housing, to the extent specified in the Defense Housing Critical List; or

(iv) For the manufacture, maintenance and repair of railroad freight cars, street cars, or busses; or

(v) For deliveries on preference ratings assigned by the Board of Economic Warfare or for deliveries on Lend-Lease orders; or

(vi) For delivery to an ultimate purchaser for maintenance and repair purposes regardless of rating. With respect to this paragraph (e) (1) (vi), no person may manufacture from May 5, 1942 to December 31, 1942, more than 20 percent of the roofing and siding made by him from iron or steel during the calendar year 1940; or in the calendar year 1943 or any subsequent calendar year, more than 25 percent of the roofing and siding made by him from iron or steel, during the calendar year 1940.

Any person manufacturing or selling any such roofing or siding may rely on the certificate of his customer that such roofing or siding will only be sold or used as permitted by this paragraph (e) (1).

(2) *Other products.* No person shall use any iron or steel to make any article not prohibited on List A, or any part thereof, where and to the extent that the use of other material (excluding material on List D) is practicable. Alloy steel shall not be used when the use of carbon steel is practicable, and no more iron or steel shall be used in connection with the manufacture of any such article than is essential. The provisions of this paragraph (e) (2) shall not apply in the case of articles or parts to be purchased by or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, or to be physically incorporated into products to be so purchased to the extent that the use of iron or steel is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration applicable to the contract, subcontract or purchase order.

(f) *Restrictions with respect to other scarce materials.* No person whose use of iron or steel is restricted by paragraphs (b), (d) or (e) shall use as a substitute therefor any material on List D.

(g) *Disposition of frozen and excessive inventories.* The disposition of frozen and excessive inventories containing iron or steel shall be subject to the applicable provisions of Priorities Regulation No. 13 (§ 944.34).

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply whether the items are ordered or manufactured pursuant to a contract made prior to, on, or subsequent to May 5, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of any material in the production of any item, the limitations of such order shall be observed.

(4) *Intra-company deliveries.* The restrictions of this order with respect to deliveries prohibit or restrict deliveries not only to other persons, including affiliates or subsidiaries, but also from one branch, division, or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(6) *Installation.* The restrictions of this order with respect to putting into process, processing, and assembling shall not apply to the installation of an item or part for the ultimate consumer on his premises when any putting into process, processing or assembling of such item or part is incidental to such installation and is done on such premises.

(7) *Repair.* The restrictions of this order (other than those contained in paragraph (e) (2)) shall not apply to a person repairing a used article on or off the premises of the owner, if the person making the repair does not use iron or steel weighing in the aggregate more than 25 pounds and if any putting into process, processing or assembling done by such person is for the purpose of making the specific repair. The limitations in this paragraph (h) (7) on repairing a used article shall not apply to any item on List A or List S, or part thereof, to the extent that maintenance and repair of such item is specifically excepted on List A or List S.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 3122—ELECTRICAL MOTORS AND GENERATORS

[General Conservation Order L-221 as Amended Dec. 8, 1942[1]]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials and facilities used in the manufacture of electric motors for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3122.1 *General Conservation Order L-221*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Motor" means any new rotating equipment or device used to transform electric energy into mechanical energy, and having a rating of one horsepower or more; except motors used in the operation of passenger automobiles, trucks, truck trailers, passenger carriers and off-the-highway motor vehicles, as defined in Order L-158, or in the operation of stationary automotive type engines.

(3) "Generator" means any new rotating equipment or device used to transform mechanical energy into electric energy, and having a rating of not less than ¾ KW and not more than 6000 KW; except generators used in the operation of passenger automobiles, trucks, truck trailers, passenger carriers and off-the-highway motor vehicles, as defined in Order L-158, or in the operation of stationary automotive type engines.

(4) "Manufacture" means the fabrication or assembly of motors or generators.

(5) "Manufacturer" means any enterprise to the extent that it is engaged in the business of manufacturing motors or generators.

(6) "Dealer" means any enterprise to the extent that it acquires motors or generators for resale.

(7) "Used motor or generator" includes reconditioned and rebuilt motors or generators.

(8) "Delivery" includes delivery of a motor or generator from one affiliate to another or from one branch, division or section of a single enterprise to another branch, division or section of the same enterprise where the recipient affiliate, branch, division or section will use the motor or generator or incorporate it into other machinery.

(9) "Order" means any commitment or other arrangement for the delivery of a new motor or generator whether by purchase, lease, rental or otherwise.

(10) "Army, Navy, Maritime Commission or War Shipping Administration" does not include any privately operated plant or shipyard financed by, or controlled by any of those organizations, or operated on a cost-plus-fixed-fee basis.

(b) *Restrictions on acceptance and delivery of orders.* (1) Except as otherwise provided in this paragraph, on and after December 10, 1942, no manufacturer shall accept any order for any motor or generator; and on and after February 1, 1943, no manufacturer or dealer shall make delivery, and no person shall accept delivery from a manufacturer or dealer, of any motor or generator, unless:

(i) The purchaser shall have no idle motor or generator in his possession which is adaptable to the purpose for which the new motor or generator is sought to be purchased;

(ii) The purchaser shall have attempted to obtain, from at least three dealers, a used motor or generator for the purpose for which the new motor or generator is sought to be purchased: *Provided, however,* That the provisions of this subparagraph shall not apply to any order for 10 or more new motors of an identical kind and rating by a purchaser who fabricates or assembles machinery or equipment into which such motors will be incorporated;

(iii) The motor or generator is not purchased for replacement of existing equipment; and

(iv) The motor or generator is required for installation within the shortest practicable time after delivery and is not for standby purposes. As applied to a person who purchases motors or generators for incorporation into other machinery manufactured by him, "installation" as used above refers only to such incorporation and not to the use of the other machinery. For the purpose of this subparagraph, a motor or generator shall be deemed installed (and not standby) equipment when it is connected to the purchaser's load and electrical system, notwithstanding that the purpose of such equipment may be emergency relief service.

(2) The provisions of paragraph (b) (1) shall not apply to (i) any order for motors or generators for the use of the Army, Navy, Maritime Commission or War Shipping Administration, or for incorporation into any machinery or equipment to be used by said agencies, or (ii) any order for special motors, by a person who fabricates or assembles machinery or equipment into which such special motors are to be incorporated: *Provided,* That, as of December 2, 1942, such special motors were required by the function and design of such machinery or equipment. As used in this subparagraph, the term "special motor" means any motor other than a general purpose, horizontal, continuous duty, open type 40° C. rise motor.

(c) *Restrictions on types of motors.* Except as otherwise specifically provided herein or authorized by the Director General for Operations, on and after December 10, 1942 no manufacturer or dealer shall accept any order for any motor; and on and after February 1, 1943 no manufacturer or dealer shall deliver, and no person shall accept delivery from a manufacturer or dealer, of any motor; unless the motor is in compliance with the following standards and is otherwise of the simplest practicable mechanical and electrical design:

(1) *Mechanical and electrical design.* The following minimum standards shall be applied with respect to electrical and mechanical design:

(i) No motor shall have a temperature rise less than 40° C, for open type; 50° C, for splash-proof type; and 55° C for totally enclosed type motors: *Provided, however,* That the temperature rise of the motor may vary from the above standards to the extent that the manufacturer has heretofore provided tolerance therefrom in his design and manufacture of the same or a similar type motor rated 40° C, 50° C, or 55° C, as the case may be.

[1] This document is a restatement of Amendment 1 of General Conservation Order L-221 which appeared in the FEDERAL REGISTER of December 10, 1942, p. 10280, and reflects the order in its completed form as of December 8, 1942.

(ii) No motor shall include a special enclosure to make it other than open type; except that (*a*) a motor may be explosion proof type if it is to be used in a Class I hazardous location, as defined in Paragraph 5005, Article 500, Chapter 5 of the National Electrical Code approved by the American Standards Association August 7, 1940; (*b*) a motor may be totally enclosed if it is to be used in a Class II hazardous location, as defined in Paragraph 5006, Article 500, Chapter 5 of the above Code, or if it is to be used generally in an atmosphere which is corrosive or which contains such quantities of material particles, dust or fumes as to be destructive of an open type motor; (*c*) a motor may be splash-proof type in any case where the motor is to be permanently installed outdoors without other protection or where the motor will be subjected to continually falling material particles, or to drops of splashing or jet propelled liquids falling at regular intervals of not less than once a day; and that (*d*) the provisions of this paragraph (c) (1) (ii) shall not apply to any motor to be used on board any vessel owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration: *Provided, however,* That in any case where the requirements of General Limitation Order L-147, or any action taken by the Director General for Operations thereunder shall be more restrictive than the requirements of this subparagraph, the former shall apply.

(iii) Where practicable, AC polyphase motors shall be single voltage.

(iv) All alternating current multi-speed motors shall be single-winding; except motors for use in metal cutting machines.

(v) No motor shall be of slip ring type, except for hoist, crane, conveyor, elevator, tow, or dragline duty.

(vi) No motor shall be direct current type; except (*a*) where only direct current is available to the user; or (*b*) for use on a metal cutting machine or on testing equipment; or (*c*) where speed matching is required.

(vii) No direct current motor shall have a lower base speed than as prescribed below:

Horsepower rating:	*Minimum base speed*
1 to 5 incl.	600 r. p. m.
5.1 to 25 incl.	450 r. p. m.
25.1 to 75 incl.	400 r. p. m.
75.1–200	300 r. p. m.

(2) *Horsepower loading.* The following standards shall be applied in determining horsepower loads for motor ratings:

(i) Horsepower required for purposes of ascertaining load as provided herein shall be determined by test or, where test is impossible, by careful calculation or comparison with known power requirements of similar apparatus.

(ii) Where the motor rated voltage will be maintained and the ambient temperature, normally, will be below 40° C, and will only occasionally, and for short periods, equal or exceed 40° C: (*a*) in the case of alternating current motors rated 40° C open type, continuous duty, the horsepower rating shall be not more than 80% of the determined horsepower load; (*b*) in the case of alternating current or direct current motors rated 50° C semi-enclosed, or 55° C totally enclosed, continuous duty, the horsepower rating shall be not more than 91% of the determined horsepower load; and (*c*) in the case of direct current motors rated 40° C open type, continuous duty, the horsepower rating shall be not more than 87% of the determined horsepower load: *Provided, however,* That in any case where the application of any of the above formulae results in a horsepower rating, which is not a standard horsepower rating, the rating may be the standard horsepower rating next above the rating resulting from the application of the formula.

Example: Where the horsepower required as determined in subdivision (i), is 9.3 HP, of which 80% would be 7.44, a motor not exceeding 7.5 standard HP should be delivered.

(3) *Speed.* The following minimum standards shall be applied in determining motor speed:

(i) All alternating current motors, 25 horsepower and below shall have a synchronous speed of at least 1800 R. P. M. at 60 cycles (four pole winding), and corresponding speeds at other frequencies: *Provided, however,* That in any case where the purchaser deems such speed impracticable he shall endorse on the certification required by paragraph (d) below such facts as shall demonstrate such impracticability, and if the manufacturer shall likewise certify such impracticability on the order, the provisions of this subdivision (i) shall not apply.

(ii) All other motors shall be of the highest practicable speed for the purposes for which purchased.

(d) *Certification.* (1) Each person placing an order on and after December 10, 1942 with a manufacturer or dealer for delivery of a motor or generator, and each person who receives delivery of a motor or generator from a manufacturer or dealer on and after February 1, 1943, pursuant to an order placed prior to December 10, 1942, shall certify to the manufacturer or dealer, as a condition to receiving delivery, the following (in substantially the form described below) on the purchase order or in a separate document (except that there may be omitted therefrom any portion relating to provisions of this order which are inapplicable in the particular case):

The undersigned hereby certifies that:

(A) (i) He has no idle motor (or generator) in his possession, except the following which is not adaptable to his purpose for the reasons stated below:

(ii) He has been unable to obtain a used motor (or generator) for his purpose from the following dealers (at least three):

(iii) The motor (or generator) is not for purposes of replacement of existing equipment (except as otherwise authorized by the Director General for Operations, upon appeal, when copy of authorization is to be attached):

(iv) The motor (or generator) is required for installation within -------- days after delivery and is not for standby purposes.

(B) The motor or motors described in the within (or attached) order, or orders, are in compliance with paragraph (c) (1) of General Limitation Order L-221 as follows:

(Here explain how design of motor meets requirements of each subdivision of paragraph (c) (1)).

(C) Horsepower required has been carefully determined in accordance with paragraph (c) (2) (i) and the horsepower rating of the motor or motors is in accordance with paragraph (c) (2) (ii) as follows:

(Here describe method of determining horsepower rating in accordance with said paragraph)

(D) (If the motor is AC, 25 horsepower or below, and does not have a synchronous speed of at least 1800 R.P.M. at 60 cycles (4 pole winding) and corresponding speeds at other frequencies, here provide the purchaser's certification required by paragraph (c) (3) (i)).

(Authorized official)

In any case where an order relates to motors or generators of the identical kind and rating covered by a certification previously furnished to the same manufacturer or dealer, any facts included in the previous certification and which have remained unchanged may be incorporated in the certification required with respect to the current order by reference to the previous certification.

(2) Such certification shall be signed by a duly authorized and responsible official, employee, or agent of the purchaser, and shall constitute a representation to the Director General for Operations, War Production Board, as well as to the supplier, of the facts certified therein.

No person shall make delivery under this order who has reason to believe that the purchaser has furnished a false certification; and no person shall falsely furnish the certification specified above.

Any manufacturer or dealer may rely upon the facts furnished in the above mentioned certification and shall not be responsible for any action taken by him under this order in reliance upon inaccurate or untrue statements therein, unless he has reason to believe that such statements are inaccurate or untrue.

(3) Each manufacturer who manufactures a motor for delivery as part of other machinery or equipment which he also manufactures shall provide and retain in his records, with respect to each such motor, a certification similar to that provided for in subparagraph (1) and (2) above, signed by a duly authorized and responsible official or employee connected with the production of such motor; but no certification shall be required by the purchaser of the machinery which includes the motor. Such certification by the manufacturer shall constitute a representation to the Director General for Operations, War Production Board, of the facts certified therein.

(e) *Authorization of Director General for Operations.* Application for the authorization of the Director General for Operations to deviate from the standards and conditions of paragraph (c) shall be made by the purchaser or proposed purchaser of the motor (or by the manufacturer in any case where the motor is to be incorporated into other machinery manufactured by the same manufacturer) by letter or telegram or other communication addressed to the General Industrial Equipment Division, War Production Board, setting forth facts sufficient to enable the Director General for Operations to determine the necessity for such authorization. If granted, the authorization shall be transmitted by the purchaser to his supplier.

(f) *Exemptions.* The limitations and restrictions of paragraphs (b), (c) and (d) of this order shall not apply (1) until March 2, 1943, to any motor or generator delivered to and for the direct use of the Army, the Navy, the Maritime Commission or the War Shipping Administration; (2) to any motor or generator delivered for use in any foreign country (except Canada); (3) to any motor or generator delivered to any manufacturer or dealer for resale as a motor or generator and not as part of other machinery or equipment: *Provided, however,* That all the limitations and restrictions of this order shall apply to any resale of any such motor or generator; (4) to any motor or generator to be used above deck on any vessel or to be used in the operation of combat equipment. As used herein, "combat equipment" means any combat end product (including but not limited to, ammunition and other ordnance, tanks, warships, and aircraft) prescribed for field or combat use by the Army or Navy of the United States.

(g) *Production schedules.* (1) On and after February 1, 1943, no manufacturer shall manufacture any motor or generator unless the motor or generator is included in a production schedule approved by the Director General for Operations as provided below.
